(6) The names of the persons elected shall be notified to the Central Board which shall thereupon proceed to make any nominations permitted by clause (*b*) of sub-section (1) it may then decide to make, and shall fix the date on which the outgoing members of the Local Board shall vacate office, and the incoming members shall be deemed to have assumed office on that date.

(7) The elected members of a Local Board shall, as soon as may be after they have been elected, elect from amongst themselves one or two persons, as the case may be, to be Directors representing to the shareholders on the register for the area for which the Board is constituted.

(8) A Local Board shall advise the Central Board on such matters as may be generally or specifically referred to it and shall perform such duties as the Board may, by regulations, delegate to it.

(1) No person may be a Director or a member of a Local Board who—

(*a*) is a salaried government official or a salaried official of a State in India, or

(*b*) is, or at any time has been, adjudicated an insolvent, or has suspended payment or has compounded with his creditors, or

(*c*) is found lunatic or becomes of unsound mind, or

(*d*) is an officer or employee of any bank, or

(*e*) is a director of any bank, other than a bank which is a society registered or deemed to be registered under the Co-operative Societies Act, 1912, or any other law for the time being in force in British India relating to co-operative societies.

(2) No two persons who are partners of the same mercantile firm, or are directors of the same private company, or one of whom is the general agent of or holds a power of procuration from the other, or from a mercantile firm of which the other is a partner, may be Directors or members of the same Local Board at the same time.

(3) Nothing in clause (*a*), clause (*d*) or clause (*e*) of sub-section (1) shall apply to the Governor, or to a Deputy Governor or to the Director nominated under clause (*d*) of sub-section (1) of section 8.

(1) The Governor General in Council may remove from office the Governor, or a Deputy Governor or any nominated or elected Director.

Provided that in the case of a Director nominated or elected under clause (*b*) or clause (*c*) of sub-section (1) of section 8 this power shall be exercised only on a resolution passed by the Central Board in that behalf by a majority consisting of not less than nine Directors.

(2) A Director nominated or elected under clause (*b*) or clause (*c*) of sub-section (1) of section 8, and any member of a Local Board shall cease to hold office if, at any time after six months from the date of his nomination or election, he is not registered as a holder of unencumbered shares of the Bank of a nominal value of not less than five thousand rupees, or if he ceases to hold unencumbered shares of that value, and any such Director shall cease to hold office if without leave from the Governor General in Council he absents himself from three consecutive meetings of the Central Board convened under sub-section (1) of section 13.

(3) The Governor General in council shall remove from office any Director, and the Central Board shall remove from office any member of a Local Board, if such Director or member becomes subject to any of the disqualifications specified in sub-section (1) or sub-section (2) of section 10.

(4) A Director or member of a Local Board removed or ceasing to h ld office under the foregoing sub-sections shall not be eligible for re-appointment either as Director or as member of a Local Board until the expiry of the term for which his appointment was made.

(5) The appointment, nomination or election as Director or member of a Local Board of any person who is a member of the Indian Legislature or of a local Legislature shall be void, unless, within two months of the date of his appointment, nomination or election, he ceases to such member, and, if any Director or member of a Local Board is elected or nominated as a member of any such Legislature, he shall cease to be a Director or member of the Local Board as from the date of such election or nomination, as the case may be.

(6) A Director may resign his office to the Governor General in Council, and a member of a Local Board may resign his office to the Central Board, and on the acceptance of the resignation the office shall become vacant.

(1) If the Governor or a Deputy Governor by infirmity or otherwise is rendered incapable of executing his duties or is absent on leave or otherwise in circumstances not involving the vacation of his appointment, the Governor General in Council may, after consideration of the recommendations made by the Central Board in this behalf, appoint another person to officiate for him, and such person may, notwithstanding anything contained in clause (*d*) of sub-section (1) of section 10, be an officer of the Bank.

(2) If an elected Director is for any reason unable to attend a particular meeting of the Central Board, the elected members of the Local Board of the area which he represents may elect one of their number to take his place, and for the purposes of that meeting the substitute so elected shall have all the powers of the absent Director.

(3) Where any casual vacancy in the office of any member of a Local Board occurs otherwise than by the occurrence of a vacancy in the office of a Director elected by the Local Board, the Central Board may nominate thereto any qualified person recommended by the electe-: members of the Local Board.

(4) Where any casual vacancy occurs in the office of a Director other than the vacancies provided for in sub-section (1), the vacancy shall be filled, in the case of a nominated Director by nomination, and in the case of an elected Director by election held in the manner provided in section 9 for the election of Directors:

Provided that before such election is made the resulting vacancy, if any, in the Local Board and any vacancy in the office of an elected member of such Board which may have been filled by a member nominated under sub-section (3) shall be filled by election held as nearly as may be in the manner provided in section 9 for the election of members of a Local Board.

(5) A person nominated or elected under this section to fill a casual vacancy shall, subject to the proviso contained in sub-section (4), hold office for the unexpired portion of the term of his predecessor.

(1) Meetings of the Central Board shall be convened by the Governor at least six times in each year and at least once in each quarter.

(2) Any three Directors may require the Governor to convene a meeting of the Central Board at any time and the Governor shall forthwith convene a meeting accordingly.

(3) The Governor, or in his absence the Deputy Governor authorized by the Governor under the proviso to sub-section (3) of section 8 to vote for him, shall preside at meetings of the Central Board, and, in the event of an equality of votes, shall have a second or casting vote.

General Meetings.—(1) A general meeting (hereinafter in this Act referred to as the annual general meeting) shall be held annually at a place where there is an office of the Bank within six weeks from the date on which the annual accounts of the Bank are closed, and a general meeting may be convened by the Central Board at any other time:

Provided that the annual general meeting shall not be held on two consecutive occasions at any one place.

(2) The shareholders present at a general-meeting shall be entitled to discuss the annual accounts, the report of the Central Board on the working of the Bank throughout the year and the auditors' report on the annual balance-sheet and accounts.

(3) Every shareholder shall be entitled to attend at any general meeting and each shareholder who has been registered on any register, for a period of not less than six months ending with the date of the meeting, as holding five or more shares shall have one vote and on a poll being demanded each shareholder so registered shall have one vote for each five shares, but subject to a maximum of ten votes and such votes may be exercised by proxy appointed on each occasion for that purpose, such proxy being himself a shareholder entitled to vote at the election and not being an officer or employee of the Bank.

(1) The following provisions shall apply to the first constitution of the Central Board, and, notwithstanding anything contained in section 8, the Central Board as constituted in accordance therewith shall be deemed to be duly constituted in accordance with this Act.

(2) The first Governor and the first Deputy Governor or Deputy Governors shall be appointed by the Governor General in Council on his own initiative, and shall receive such salaries and allowances as he may determine.

(3) The first eight Directors representing the shareholders on the various registers shall be nominated by the Governor General in Council from the areas served respectively by those registers, and the Directors so nominated shall hold office until their successors shall have been duly elected as provided in sub-section (4).

(4) On the expiry of each successive period of twelve months after the nomination of Directors under sub-section (3) two Directors shall be elected in the manner provided in section 9 until all the Directors so nominated have been replaced by elected Directors holding office in accordance with section 8. The register in respect of which the election is to be held shall be selected by lot from among the registers still represented by nominated Directors, and for the purposes of such lot the Madras and Rangoon registers shall be treated as if they comprised one register only.

As soon as may be after the commencement of this Act, the Central Board shall direct elections to be held and may make nominations, in order to constitute Local Boards in accordance with the provisions of section 9, and the members of such Local Boards shall hold office up to the date fixed under sub-section (6) of section 9, but shall not exercise any right under sub-section (7) of that section.

Business.—The Bank shall be authorized to carry on and transact the several kinds of business hereinafter specified, namely:—

(1) the accepting of money on deposit without interest from, and the collection of money for, the Secretary of State in Council, the Governor General in Council, Local Governments, States in India, local authorities, banks and any other persons;

(2) (*a*) the purchase, sale and rediscount of bills of exchange and promissory notes, drawn on and payable in India and arising out of *bona fide* commercial or trade transactions bearing two or more good signatures, one of which shall be that of a scheduled bank, and maturing within ninety days from the date of such purchase or rediscount, exclusive of days of grace;

(*b*) the purchase, sale and rediscount of bills of exchange and promissory notes, drawn and payable in India and bearing two or more good signatures, one of which shall be that of a scheduled bank, or a provincial co-operative bank, and drawn or issued for the purpose of financing seasonal agricultural operations or the marketing of crops, and maturing within nine months from the date of such purchase or rediscount, exclusive of days of grace;

(*c*) the purchase, sale and rediscount of bills of exchange and promissory notes drawn and payable in India and bearing the signature of a scheduled bank, and issued or drawn for the purpose of holding or trading in securities of the Government of India or a Local Government, or such securities of States in India as may be specified in this behalf by the Governor General in Council on the recommendation of the Central Board, and maturing within ninety days from the date of such purchase or rediscount, exclusive of days of grace;

(3) (*a*) the purchase from and sale to scheduled banks of sterling in amounts of not less than the equivalent of one lakh of rupees;

(*b*) the purchase, sale and rediscount of bills of exchange (including treasury bills) drawn in or on any place in the United Kingdom and maturing within ninety days from the date of purchase, provided that no such purchase, sale or rediscount shall be made in India except with a scheduled bank; and

(*c*) the keeping of balances with banks in the United Kingdom;

(4) the making to States in India, local authorities, scheduled banks and provincial co-operative banks of loans and advances, repayable on demand or on the expiry of fixed periods not exceeding ninety days, against the security of—

(*a*) stocks, funds and securities (other than immovable property) in which a trustee is authorized to invest trust money by any Act of Parliament or by any law for the time being in force in British India;

(*b*) gold or silver or documents of title to the same ;

(*c*) such bills of exchange and promissory notes as are eligible for purchase or rediscount by the Bank ;

(*d*) promissory notes of any scheduled bank or a provincial co-operative bank, supported by documents of title to goods which have been transferred, assigned, or pledged to any such bank as security for a cash credit or overdraft granted for *bona fide* commercial or trade transactions, or for the purpose of financing seasonal agricultural operations or the marketing of crops ;

(5) the making to the Governor General in Council and to such Local Governments as may have the custody and management of their own provincial revenues of advances repayable in each case not later than three months from the date of the making of the advance ;

(6) the issue of demand drafts made payable at its own offices or agencies and the making, issue and circulation of bank post bills ;

(7) the purchase and sale of Government securities of the United Kingdom maturing within ten years from the date of such purchase;

(8) the purchase and sale of securities of the Government of India or of a Local Government of any maturity or of such securities of a local authority in British India or of such States in India as may be specified in this behalf by the Governor General in Council on the recommendation of the Central Board :

Provided that securities fully guaranteed as to principal and interest by the Government of India, a Local Government, a local authority or a State in India shall be deemed for the purposes of this clause to be securities of such Government, authority or State ;

Provided further that the amount of such securities held at any time in the Banking Department shall be so regulated that—

(*a*) the total value of such securities shall not exceed the aggregate amount of the share capital of the Bank, the Reserve Fund and three-fifths of the liabilities of the Banking Department in respect of deposits;

(*b*) the value of such securities maturing after one year shall not exceed the aggregate amount of the share capital of the Bank, the Reserve Fund and two-fifths of the liabilities of the Banking Department in respect of deposits ; and

(*c*) the value of such securities maturing after ten years shall not exceed the aggregate amount of the share capital of the Bank and the Reserve Fund and one-fifth of the liabilities of the Banking Department in respect of deposits ;

(9) The custody of monies, securities and other articles of value, and the collection of the proceeds, whether principal, interest or dividends, of any such securities ;

(10) the sale and realisation of all property, whether movable or immovable, which may in any way come into the possession of the Bank in satisfaction, or part satisfaction, of any of its claims ;

(11) the acting as agent for the Secretary of State in Council, the Governor General in Council or any Local Government or local authority of State in India in the transaction of any of the following kinds of business, namely :—

(*a*) the purchase and sale of gold or silver ;

(*b*) the purchase, sale, transfer and custody of bills of exchange, securities or shares in any company ;

(*c*) the collection of the proceeds, whether principal, interest or dividends, of any securities or shares ;

(*d*) the remittance of such proceeds, at the risk of the principal, by bills of exchange payable either in India or elsewhere ;

(*e*) the management of public debt ;

(12) the purchase and sale of gold coin and bullion ;

(13) the opening of an account with or the making of an agency agreement with, and the acting as agent or correspondent of, a bank which is the principal currency authority of any country under the law for the time being in force in that country or any international bank formed by such banks, and the investing of the funds of the Bank in the shares of any such international bank ;

(14) the borrowing of money for a period not exceeding one month for the purposes of the business of the Bank, and the giving of security for money so borrowed ;

Provided that no money shall be borrowed under this clause from any person in India other than a schedule bank, or from any person outside India other than a bank which is the principal currency authority of any country under the law for the time being in force in that country:

Provided further that the total amount of such borrowings from persons in India shal not at any time exceed the amount of the share capital of the Bank ;

(15) the making and issue of bank notes subject to the provision of this Act ; and ;

(16) generally, the doing of all such matters and things as may be incidental to or consequential upon the exercise of its powers or the discharge of its duties under this Act.

When, in the opinion of the Central Board or, where the powers and functions of the Central Board under this section have been delegated to a committee of the Central Board or to the Governor, in the opinion of such committee or of the Governor as the case may be, a special occasion has arisen making it necessary or expedient that action should be taken under this section for the purpose of regulating credit in the interests of Indian trade, commerce, industry and agriculture, the Bank may, notwithstanding any limitation contained in sub-clauses (*a*) and (*b*) of clause (2) or sub-clause (*a*) or (*b*) of clause (3) or clause (4) of section 17.—

(1) purchase, sell or discount any of the bills of exchange or promissory notes specified in sub-clause (*a*) or (*b*) of clause (2) or sub-clause (*b*) of clause (3) of that section though such bill or promissory note does not bear the signature of a scheduled bank or a provincial co-operative bank; or

(2) purchase or sell sterling in amounts of not less than the equivalent of one lakh of rupees; or

(3) make loans or advances repayable on demand or on the expiry of fixed periods not exceeding ninety days against the various forms of security specified in clause (4) of that section:

Provided that a committee of the Board or the Governor shall not, save in cases of special urgency, authorized action under this section without prior consultation with the Central Board and that in all cases action so authorized shall be reported to the members of the Central Board forthwith.

Forbidden Business.—Save as otherwise provided in sections 17, 18 and 45, the Bank may not

(1) engage in trade or otherwise have a direct interest in any commercial, industrial or other undertaking, except such interest as it may in any way acquire in the course of the satisfaction of any of its claims; provided that all such interests shall be disposed of at the earliest possible moment;

(2) purchase its own shares or the shares of any other bank or of any company, or grant loans upon the security of any such shares;

(3) advance money on mortgage of, or otherwise on the security of, immovable property or documents of title relating thereto, or become the owner of immovable property, except so far as is necessary for its own business premises and residences for its officers and servants;

(4) make loans or advances;

(5) draw or accept bills payable otherwise than on demand;

(6) allow interest on deposits or current accounts;

Central Banking Functions.

The Bank shall undertake to accept monies for account of the Secretary of State in Council and the Governor General in Council and such Local Governments as may have the custody and management of their own provincial revenues and such States in India as may be approved of and notified by the Governor General in Council in the Gazette of India, and to make payments up to the amount standing to the credit of their accounts respectively, and to carry out their exchange, remittance and other banking operations, including the management of the public debt.

(1) The Governor General in Council and such Local Governments as may have the custody and management of their own provincial revenues shall entrust the Bank, on such conditions as may be agreed upon, with all their money, remittance, exchange and banking transactions in India and, in particular, shall deposit free of interest all their cash balances with the Bank:

Provided that nothing in this sub-section shall prevent the Governor General in Council or any Local Government from carrying on money transactions at places where the Bank has no branches or agencies, and the Governor General in Council and Local Governments may hold at such places such balances as they may require.

(2) The Governor General in Council and each Local Government shall entrust the Bank on such conditions as may be agreed upon, with the management of the public debt and with the issue of any new loans.

(3) In the event of any failure to reach agreement on the conditions referred to in this section the Governor General in Council shall decide what the conditions shall be.

(4) Any agreement made under this section to which the Governor General in Council or any Local Government is a party shall be laid, as soon as may be after it is made, before the Central Legislature and in the case of a Local Government before its local Legislature also.

Bank Notes.—(1) The Bank shall have the sole right to issue bank notes in British India, and may, for a period which shall be fixed by the Governor General in Council on the recommendation of the Central Board, issue currency notes of the Government of India supplied to it by the Governor General in Council, and the provisions of this Act applicable to bank notes shall, unless a contrary intention appears, apply to all currency notes of the Government of India issued either by the Governor General in Council or by the Bank in like manner as if such currency notes were bank notes, and references in this Act to bank notes shall be construed accordingly.

(2) On and from the date on which this Chapter comes into force the Governor General in Council shall not issue any currency notes.

Issue Department.—(1) The issue of bank notes shall be conducted by the Bank in an Issue Department which shall be separated and kept wholly distinct from the Banking Department, and the assets of the Issue Department shall not be subject to any liability other than the liabilities of the Issue Department as hereinafter defined in section 34.

(2) The Issue Department shall not issue bank notes to the Banking Department or to any other person except in exchange for other bank notes or for such coin, bullion or securities as are permitted by this Act to form part of the Reserve.

Bank notes shall be of the denominational values of five rupees, ten rupees, fifty rupees, one hundred rupees, five hundred rupees, one thousand rupees and ten thousand rupees, unless otherwise directed by the Governor General in Council on the recommendation of the Central Board.

The design, form and material of bank notes shall be such as may be approved by the Governor General in Council after consideration of the recommendations made by the Central Board.

(1) Subject to the provisions of sub-section (2), every bank note shall be legal tender at any place in British India in payment or on account for the amount expressed therein, and shall be guaranteed by the Governor General in Council.

(2) On recommendation of the Central Board the Governor General in Council may, by notification in the Gazette of India, declare that with effect from such date as may be specified in the notification, any series of bank notes of any denomination shall cease to be legal tender save at an office or agency of the Bank.

The Bank shall not re-issue bank notes which are torn, defaced or excessively soiled.

Notwithstanding anything contained in any enactment or rule of law to the contrary, no person shall of right be entitled to recover from the Governor General in Council or the Bank the value of any lost, stolen, mutilated or imperfect currency note of the Government of India or bank note:

Provided that the Bank may, with the previous sanction of the Governor General in Council prescribe the circumstances in and the conditions and limitations subject to which the value of such currency notes or bank notes may be refunded as of grace and the rules made under this proviso shall be laid on the table of both Houses of the Central Legislature.

The Bank shall not be liable to the payment of any stamp duty under the Indian Stamp Act, 1899, in respect of bank notes issued by it.

(1) If in the opinion of the Governor General in Council the Bank fails to carry out any of the obligations imposed on it by or under this Act, he may, by notification in the Gazette of India, declare the Central Board to be superseded, and thereafter the general superintendence and direction of the affairs of the Bank shall be entrusted to such agency as the Governor General in Council may determine, and such agency may exercise the powers and do all acts and things which may be exercised or done by the Central Board under this Act.

(2) When action is taken under this section the Governor General in Council shall cause a full report of the circumstances leading to such action and of the action taken to be laid before the Central Legislature at the earliest possible opportunity and in any case within three months from the issue of the notification superseding the Board.

No person in British India other than the Bank or, as expressly authorized by this Act, the Governor General in Council shall draw, accept, make or issue any bill of exchange, hundi, promissory note or engagement for the payment of money payable to bearer on demand or borrow, owe or take up any sum or sums of money on the bills, hundis or notes payable to bearer on demand of any such person:

Provided that cheques or drafts, including hundis, payable to bearer on demand or otherwise may be drawn on a person's account with a banker, shroff or agent.

(1) Any person contravening the provisions of section 31 shall be punishable with fine which may extend to the amount of the bill, hundi, note or engagement in respect whereof the offence is committed.

(2) No prosecution under this section shall be instituted except on complaint made by the Bank.

Assets of the Issue Department.

(1) The assets of the Issue Department shall consist of gold coin, gold bullion, sterling securities, rupee coin and rupee securities to such aggregate amount as is not less than the total of the liabilities of the Issue Department as hereinafter defined.

(2) Of the total amount of the assets, not less than two-fifths shall consist of gold coin, gold bullion or sterling securities:

Provided that the amount of gold coin and gold bullion shall not at any time be less than forty crores of rupees in value.

(3) The remainder of the assets shall be held in rupee coin, Government of India rupee securities of any maturity and such bills of exchange and promissory notes payable in British India as are eligible for purchase by the Bank under sub-clause (*a*) or sub-clause (*b*) of clause (2) of section 17 or under clause (1) of section 18:

Provided that the amount held in Government of India rupee securities shall not at any time exceed one-fourth of the total amount of the assets or fifty crores of rupees, whichever amount is greater, or, with the previous sanction of the Governor General in Council, such amount plus a sum of ten crores of rupees.

(4) For the purposes of this section, gold coin and gold bullion shall be valued at 8.47512 grains of fine gold per rupee, rupee coin shall be valued at its face value, and securities shall be valued at the market rate for the time being obtaining.

(5) Of the gold coin and gold bullion held as assets, not less than seventeen-twentieths shall be held in British India, and all gold coin and gold bullion held as assets shall be held in the custody of the Bank or its agencies:

Provided that gold belonging to the Bank which is in any other bank or in any mint or treasury or in transit may be reckoned as part of the assets.

(6) For the purposes of this section, the sterling securites which may be held as part of the assets shall be securities of any of the following kinds payable in the currency of the United Kingdom, namely:—

(*a*) balances at the credit of the Issue Department with the Bank of England;

(*b*) bills of exchange bearing two or more good signatures and drawn on and payable at any place in the United Kingdom and having a maturity not exceeding ninety days;

(*c*) government securities of the United Kingdom maturing within five years:

Provided that, for a period of two years from the date on which this Chapter comes into force, any of such last mentioned securities may be securities maturing after five years, and the Bank may, at any time before the expiry of that period, dispose of such securities notwithstanding anything contained in section 17.

Liabilities of the Issue Department.—(1) The liabilities of the Issue Department shall be an amount equal to the total of the amount of the currency notes of the Government of India and bank notes for the time being in circulation.

(2) For the purposes of this section any currency note of the Government of India or bank note which has not been presented for payment within forty years from the 1st day of April following the date of its issue shall be deemed not to be in circulation, and the value thereof shall, notwithstanding anything contained in sub-section (2) of section 23, be paid by the Issue Department to the Governor General in Council or the Banking Department, as the case may be ; but any such note, if subsequently presented for payment, shall be paid by the Banking Department, and any such payment in the case of a currency note of the Government of India shall be debited to the Governor General in Council.

On the date on which this Chapter comes into force the Issue Department shall take over from the Governor General in Council the liability for all the currency notes of the Government of India for the time being in circulation and the Governor General in Council shall transfer to the Issue Department gold coin, gold bullion, sterling securities, rupee coin and rupee securities to such aggregate amount as is equal to the total of the amount of the liability so transferred. The coin, bullion and securities shall be transferred in such proportion as to comply with the requirements of section 33 :

Provided that the total amount of the gold coin, gold bullion and sterling securities so transferred shall not be less than one-half of the whole amount transferred, and that the amount of rupee coin so transferred shall not exceed fifty crores of rupees :

Provided further that the whole of the gold coin and gold bullion held by the Governor General in Council in the gold standard reserve and the paper currency reserve at the time of transfer shall be so transferred.

(1) After the close of any financial year in which the minimum amount of rupee coin held in the assets, as shown in any of the weekly accounts of the Issue Department for that year prescribed under sub-section (1) of section 53, is greater than fifty crores of rupees or one-sixth of the total amount of the assets as shown in that account, whichever may be the greater the Bank may deliver to the Governor General in Council rupee coin up to the amount of such excess but not without his consent exceeding five crores of rupees, against payment of legal tender value in the form of bank notes, gold or securities :

Provided that if the Bank so desires and if the amount of gold coin, gold bullion and sterling securities in the assets does not at that time exceed one-half of the total assets, a proportion not exceeding two-fifths of such payment shall be in gold coin, gold bullion or such sterling securities as may be held as part of the assets under sub-section (6) of section 33.

(2) After the close of any financial year in which the maximum amount of rupee coin held in the assets, as so shown, is less than fifty crores of rupees or one-sixth of the total amount of the assets, as so shown, whichever may be the greater the Governor General in Council shall deliver to the Bank rupee coin up to the amount of such deficiency, but not without its consent exceeding five crores of rupees, against payment of legal tender value.

(1) Notwithstanding anything contained in the foregoing provisions, the Bank may, with the previous sanction of the Governor General in Council, for periods not exceeding thirty days in the first instance, which may, with the like sanction, be extended from time to time by periods not exceeding fifteen days, hold as assets gold coin, gold bullion or sterling securities of less aggregate amount than that required by sub-section (2) of section 33 and, whilst the holding is so reduced, the proviso to that sub-section shall cease to be operative :

Provided that the gold coin and gold bullion held as such assets shall not be reduced below the amount specified in the proviso to sub-section (2) of section 33 so long as any sterling securities remain held as such assets.

(2) In respect of any period during which the holding of gold coin, gold bullion and sterling securities is reduced under sub-section (1), the Bank shall pay to the Governor General in Council a tax upon the amount by which such holding is reduced below the minimum "prescribed by sub-section (2) of section 33 ; and such tax shall be payable at the bank rate for the time being in force, with an addition of one per cent. per annum when such holding exceeds thirty-two and a half per cent. of the total amount of the assets and of a further one and a half per cent. per annum in respect of every further decrease, of two and a half per cent. or part of such decrease :

Provided that the tax shall not in any event be payable at a rate less than six per cent. per annum.

The Governor General in Council shall undertake not to re-issue any rupee coin delivered under section 36 nor to put into circulation any rupees, except through the Bank and as provided in that section ; and the Bank shall undertake not to dispose of rupee coin otherwise than for the purposes of circulation or by delivery to the Governor General in Council under that section.

(1) The Bank shall issue rupee coin on demand in exchange for bank notes and currency notes of the Government of India, and shall issue currency notes or bank notes on demand in exchange for coin which is legal tender under the Indian Coinage Act, 1906.

(2) The Bank shall, in exchange for currency notes or bank notes of five rupees or upwards, supply currency notes or bank notes of lower value or other coins which are legal tender under

the Indian Coinage Act, 1906, in such quantities as may, in the opinion of the Bank, be required for circulation; and the Governor General in Council shall supply such coins to the Bank on demand. If the Governor General in Council at any time fails to supply such coins, the Bank shall be released from its obligations to supply them to the public.

Obligation to sell sterling.—The Bank shall sell, to any person who makes a demand in that behalf at its office in Bombay, Calcutta, Delhi, Madras or Rangoon and pays the purchase price in legal tender currency, sterling for immediate delivery in London, at a rate not below one shilling and five pence and forty-nine sixty-fourths of a penny for a rupee:

Provided that no person shall be entitled to demand to buy an amount of sterling less than ten thousand pounds.

Obligation to buy sterling.—The Bank shall buy, from any person who makes a demand in that behalf at its office in Bombay, Calcutta, Delhi, Madras or Rangoon, sterling for immediate delivery in London, at a rate not higher than one shilling and six pence and three-sixteenths of a penny for a rupee:

Provided that no person shall be entitled to demand to sell an amount of sterling less than ten thousand pounds:

Provided further that no person shall be entitled to receive payment unless the Bank is satisfied that payment of the sterling in London has been made.

Cash reserves of scheduled banks.—(1) Every bank included in the Second Schedule shall maintain with the Bank a balance the amount of which shall not at the close of business on any day be less than five per cent. of the demand liabilities and two per cent. of the time liabilities of such bank in India as shown in the return referred to in sub-section (2).

Explanation.—For the purposes of this section liabilities shall not include the paid-up capital or the reserves, or any credit balance in the profits and loss account of the bank or the amount of any loan taken from the Reserve Bank.

(2) Every scheduled bank shall send to the Governor General in Council and to the Bank a return signed by two responsible officers of such bank showing—

(*a*) the amounts of its demand and time liabilities, respectively, in India,

(*b*) the total amount held in India in currency notes of the Government of India and bank notes,

(*c*) the amounts held in India in rupee coin and subsidiary coin, respectively,

(*d*) the amounts of advances made and of bills discounted in India, respectively and

(*e*) the balance held at the Bank,

at the close of business on each Friday or if Friday is a public holiday under the Negotiable Instruments Act, 1881, at the close of business on the preceding working day; and such return shall be sent not later than two working days after the date to which it relates:

Provided that where the Bank is satisfied that the furnishing of a weeky return under this sub-section is impracticable in the case of any scheduled bank by reason of the geographical position of the bank and its branches, the Bank may require such bank to furnish in lieu of a weekly return a monthly return to be dispatched not later than fourteen days after the end of the month to which it relates giving the details specified in this sub-section in respect of such bank at the close of business for the month.

(3) If at the close of business on any day before the day fixed for the next return, the balance held at the Bank by any scheduled bank is below the minimum prescribed in sub-section (1), such scheduled bank shall be liable to pay to the Bank in respect of each such day penal interest at a rate three per cent. above the bank rate on the amount by which the balance with the Bank falls short of the prescribed minimum, and if on the day fixed for the next return such balance is still below the prescribed minimum as disclosed by this return, the rates of penal interest shall be increased to a rate five per cent. above the bank rate in respect of that day and each subsequent day on which the balance held at the Bank at the close of business on that day is below the prescribed minimum.

(4) Any scheduled bank failing to comply with the provisions of sub-section (2) shall be liable to pay to the Governor General in Council or to the Bank, as the case may be, or to each, a penalty of one hundred rupees for each day during which the failure continues.

(5) The penalties imposed by sub-sections (3) and (4) shall be payable on demand made by the Bank, and, in the event of a refusal by the defaulting bank to pay on such demand, may be levied by a direction of the principal Civil Court having jurisdiction in the area where an office of the defaulting bank is situated, such direction to be made only upon application made in this behalf to the Court by the Governor General in Council in the case of a failure to make a return under sub-section (2) to the Governor General in Council, or by the Bank with the previous sanction of the Governor General in Council in other cases.

(6) The Governor General in Council shall, by notification in the Gazette of India, direct the inclusion in the Second Schedule of any bank not already so included which carries on the business of banking in British India and which—

(*a*) has a paid-up capital and reserves of an aggregate value of not less than five lakhs of rupees, and

(*b*) is a company as defined in clause (2) of section 2 of the Indian Companies Act, 1913, or a corporation or a company incorporated by or under any law in force in any place outside British India,

and shall by a like notification direct the exclusion from that Schedule of any scheduled bank the aggregate value of whose paid-up

capital and reserve becomes at any time less than five lakhs of rupees, or which goes into liquidation or otherwise ceases to carry on banking business.

The Bank shall compile and shall cause to be published each week a consolidated statement showing the aggregate of the amounts under each clause of sub-section (2) of section 42 exhibited in the returns received from scheduled banks under that section.

The Bank may require any provincial co-operative bank with which it has any transactions under section 17 to furnish the return referred to in sub-section (2) of section 42, and if it does so, the provisions of sub-sections (4) and (5) of section 42 shall apply so far as may be to such co-operative bank as if it were a scheduled bank.

Agreement with the Imperial Bank—(1) The Bank shall enter into an agreement with the Imperial Bank of India which shall be subject to the approval of the Governor General in Council, and shall be expressed to come into force on the date on which this Chapter comes into force and to remain in force for fifteen years and thereafter until terminated after five years' notice on either side, and shall further contain the provisions set forth in the Third Schedule:

Provided that the agreement shall be conditional on the maintenance of a sound financial position by the Imperial Bank and that if, in the opinion of the Central Board, the Imperial Bank has failed either to fulfill the conditions of the Agreement or to maintain a sound financial position, the Central Board shall make a recommendation to the Governor General in Council, and the Governor General in Council, after making such further enquiry as he thinks fit, may issue instructions to the Imperial Bank with reference either to the agreement or to any matter which in his opinion involves the security of the Government monies or the assets of the Issue Department in the custody of the Imperial Bank, and in the event of the Imperial Bank disregarding such instructions may declare the agreement to be terminated.

(2) The agreement referred to in sub-section (1) shall, as soon as may be after it is made, be laid before the Central Legislature.

General Provisions.

The Governor General in Council shall transfer to the Bank rupee securities of the value of five crores of rupees to be allocated by the Bank to the Reserve Fund.

After making provision for bad and doubtful debts, depreciation in assets, contributions to staff and superannuation funds, and such other contingencies as are usually provided for by bankers, and after payment out of the net annual profits of a cumulative dividend at such rate not exceeding five per cent. per annum on the share capital as the Governor General in Council may fix at the time of the issue of shares, a portion of the surplus shall be allocated to the payment of an additional dividend to the shareholders calculated on the scale set forth in the Fourth Schedule and the balance of the surplus shall be paid to the Governor General in Council:

Provided that if at any time the Reserve Fund is less than the share capital, not less than fifty lakhs of rupees of the surplus, or the whole of the surplus if less than that amount shall be allocated to the Reserve Fund.

(1) Notwithstanding anything contained in the Indian Income-tax Act, 1922, or any other enactment for the time being in force relating to income-tax or super-tax, the Bank shall not be liable to pay income-tax or super-tax on any of its income, profits or gains:

Provided that nothing in this section shall affect the liability of any shareholder in respect of income-tax or super-tax.

(2) For the purposes of section 18 of the Indian Income-tax Act, 1922, and of any other relevant provision of that Act relating to the levy and refund of income-tax any dividend paid under section 47 of this Act shall be deemed to be "Interest on Securities."

The Bank shall make public from time to time the standard rate at which it is prepared to buy or re-discount bills of exchange or other commercial paper eligible for purchase under this Act.

(1) Not less than two auditors shall be elected and their remuneration fixed at the annual general meeting. The auditors may be shareholders, but no Director or other officer of the Bank shall be eligible during his continuance in office. Any auditor shall be eligible for re-election on quitting office.

(2) The first auditors of the Bank may be appointed by the Central Board before the first annual general meeting and, if so appointed, shall hold office only until that meeting. All auditors elected under this section shall severally be, and continue to act as, auditors until the first annual general meeting after their respective elections:

Provided that any casual vacancy in the office of any auditor elected under this section may be filled by the Central Board.

Without prejudice to anything contained in section 50, the Governor General in Council may at any time appoint the Auditor General or such auditors as he thinks fit to examine and report upon the accounts of the Bank.

Every auditor shall be supplied with a copy of the annual balance-sheet, and it shall be his duty to examine the same, together with the accounts and vouchers relating thereto; and every auditor shall have a list delivered to him of all books kept by the Bank, and shall at all reasonable times have access to the books, accounts and other documents of the Bank, and may, at the expense of the Bank if appointed by it or at the expense of the Governor General in Council if appointed by him, employ account-

ants or other persons to assist him in investigating such accounts, and may, in relation to such accounts, examine any Director or officer of the Bank.

(2) The auditors shall make a report to the shareholders or to the Governor General in Council, as the case may be, upon the annual balance-sheet and accounts, and in every such report they shall state whether, in their opinion, the balance-sheet is a full and fair balance-sheet containing all necessary particulars and properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs, and, in case they have called for any explanation or information from the Central Board, whether it has been given and whether it is satisfactory. Any such report made to the shareholders shall be read together with the report of the Central Board, at the annual general meeting.

Returns.—(1) The Bank shall prepare and transmit to the Governor General in Council a weekly account of the Issue Department and of the Banking Department in the form set out in the Fifth Schedule or in such other form as the Governor General in Council may, by notification in the Gazette of India, prescribe. The Governor General in Council shall cause these accounts to be published weekly in the Gazette of India.

(2) The Bank shall also, within two months from the date on which the annual accounts of the Bank are closed, transmit to the Governor General in Council a copy of the annual accounts signed by the Governor, the Deputy Governors and the Chief Accounting Officer of the Bank, and certified by the auditors, together with a report by the Central Board on the working of the Bank throughout the year, and the Governor General in Council shall cause such accounts and report to be published in the Gazette of India.

(3) The Bank shall also, within two months from the date on which the annual accounts of the Bank are closed, transmit to the Governor General in Council a statement showing the name, address and occupation of, and the number of shares held by, each shareholder of the Bank.

Agricultural Credit Department.—The Bank shall create a special Agricultural Credit Department the functions of which shall be—

(*a*) to maintain an expert staff to study all questions of agricultural credit and be available for consultation by the Governor General in Council, Local Governments, provincial co-operative banks, and other banking organisations.

(*b*) to co-ordinate the operations of the Bank in connection with agricultural credit and its relations with provincial co-operative banks and any other banks or organisations engaged in the business of agricultural credit.

(1) the Bank shall, at the earliest practicable date and in any case within three years from the date on which this Chapter comes into force, make to the Governor General in Council a report, with proposals, if it thinks fit, for legislation, on the following matters, namely:—

(*a*) the extension of the provisions of this Act relating to scheduled banks to persons and firms, not being scheduled banks, engaged in British India in the business of banking, and

(*b*) the improvement of the machinery for dealing with agricultural finance and methods for effecting a closer connection between agricultural enterprise and the operations of the Bank.

(2) When the Bank is of opinion that the international monetary position has become sufficiently clear and stable to make it possible to determine what will be suitable as a permanent basis for the Indian monetary system and to frame permanent measures for a monetary standard it shall report its views to the Governor General in Council.

(1) The Local Board of any area may at any time require any shareholder who is registered on the register for that area to furnish to the Local Board within a specified time, not being less than thirty days, a declaration, in such form as the Central Board may by regulations prescribe, giving particulars of all shares on the said register of which he is the owner.

(2) If it appears from such declaration that any shareholder is not the owner of any shares which are registered in his name, the Local Board may amend the register accordingly.

(3) If any person required to make a declaration under sub-section (1) fails to make such declaration within the specified time, the Local Board may make an entry against his name in the register recording such failure and directing that he shall have no right to vote, either under section 9 or section 14, by reason of the shares registered in his name on that register.

(4) Whoever makes a false statement in any declaration furnished by him under sub-section (1) shall be deemed to have committed the offence of giving false evidence defined in section 191 of the Indian Penal Code, and shall be punishable under the second paragraph of section 193 of that Code.

(5) Nothing contained in any declaration furnished under sub-section (1) shall operate to affect the Bank with notice of any trust, and no notice of any trust expressed, implied or constructive shall be entered on the register or be receivable by the Bank.

(6) Until Local Boards have been constituted under section 9 the powers of a Local Board under this section shall be exercised by the Central Board in respect of any area for which a Local Board has not been constituted.

(1) Nothing in the Indian Companies Act, 1913, shall apply to the Bank, and the Bank shall not be placed in liquidation save by order of the Governor General in Council and in such manner as he may direct.

(2) In such event the Reserve Fund and surplus assets, if any, of the Bank shall be divided between the Government in Council and the shareholders in the proportion of seventy-five per cent. and twenty-five per cent., respectively:

Provided that the total amount payable to any shareholder under this section shall not exceed the paid-up value of the shares held by him by more than one per cent. for each year after the commencement of this Act subject to a maximum of twenty-five per cent.

(1) The Central Board may, with the previous sanction of the Governor General in Council, make regulations consistent with this Act to provide for all matters for which provision is necessary or convenient for the purpose of giving effect to the provisions of this Act.

(2) In particular and without prejudice to the generality of the foregoing provision, such regulations may provide for all or any of the following matters, namely:—

(*a*) the holding and conduct of elections under this Act, including provisions for the holding of any elections according to the principle of proportional representation by means of the single transferable vote;

(*b*) the final decision of doubts or disputes regarding the qualifications of candidates for election or regarding the validity of elections;

(*c*) the maintenance of the share register, the manner in which and the conditions subject to which shares may be held and transferred, and, generally, all matters relating to the rights and duties of shareholders;

(*d*) the manner in which general meetings shall be convened, the procedure to be followed thereat and the manner in which votes may be exercised;

(*e*) the manner in which notices may be served on behalf of the Bank upon shareholders or other persons;

(*f*) the manner in which the business of the Central Board shall be transacted, and the procedure to be followed at meetings thereof;

(*g*) the conduct of business of Local Boards and the delegation to such Boards of powers and functions;

(*h*) the delegation of powers and functions of the Central Board to the Governor, or to Deputy Governors, Directors or officers of the Bank;

(*i*) the formation of Committees of the Central Board, the delegation of powers and functions of the Central Board to such Committees, and the conduct of business in such Committees;

(*j*) the constitution and management of staff and superannuation funds for the officers and servants of the Bank;

(*k*) the manner and form in which contracts binding on the Bank may be executed;

(*l*) the provision of an official seal of the Bank and the manner and effect of its use;

(*m*) the manner and form in which the balance-sheet of the Bank shall be drawn up and in which the accounts shall be maintained;

(*n*) the remuneration of Directors of the Bank;

(*o*) the relations of the scheduled banks with the Bank and the returns to be submitted by the scheduled banks to the Bank;

(*p*) the regulation of clearing-houses for the scheduled banks;

(*q*) the circumstances in which, and the conditions and limitations subject to which the value of any lost, stolen, mutilated or imperfect currency note of the Government of India or bank note may be refunded; and

(*r*) generally, for the efficient conduct of the business of the Bank.

(3) Copies of all regulations made under this section shall be available to the public on payment.

In the Indian Coinage Act, 1906, for section 11 the following section shall be substituted, namely:—

"11. Gold coins, coined at His Majesty's Royal Mint in England or at any mint established in pursuance of a proclamation of His Majesty as a branch of His Majesty's Royal Mint, shall not be legal tender in British India in payment or on account, but such coins shall be received by the Reserve Bank of India at its offices, branches and agencies in India at the bullion value of such coins calculated at the rate of 8.47512 grains troy of fine gold per rupee."

The Indian Paper Currency Act, 1923, the Indian Paper Currency (Amendment) Act, 1923, the Indian Paper Currency (Amendment) Act, 1925, and the Currency Act, 1927, are hereby repealed.

In sub-section (3) of section 11 of the Indian Companies Act, 1913, after the word "Royal" the words "Reserve Bank" shall be inserted.

Trade.

India is pre-eminently an agricultural country, and that fact dominates the course of its trade. The great export staples are the produce of the soil—wheat, seeds, cotton and jute. If we look back on the course of Indian trade over a long period of years we shall note a striking development towards stability. In the days that are past, the outturn of the soil was subjected to periodic shocks from famines arising from the failure of the rains, when the export trade in these staples dwindled to small proportions. But the spread of irrigation has produced a great change, and though no doubt in future heavy losses may be incurred from the weakness of the monsoons, they are never likely to be as catastrophic as in such year as 1896-97 and 1899-1900. Well over thirty per cent. of the culturable area of the Punjab is under irrigation, and huge new works are in progress to utilise the waters of the Sutlej, and of the Indus in Sind. Whilst these great works have been carried out or are in progress to spill on the land the floods of the snowfed rivers of the North, other works of a less imposing character have safeguarded the arid tracts of the South. A chain of storage lakes arrests the rains of the Western Ghats and through canals spreads them over the parched lands of the Deccan. The rivers of the South like the Cauvery are being harnessed to preserve their flood waters for Madras. All over India irrigation works, large and small, are being restlessly pressed forward, and their effect is to give a far greater stability to Indian agriculture.

The destination of these surplus crops is another factor of importance. The great customer for Indian cotton is Japan, and to a lesser extent the Continent of Europe. Continental Europe is also a large buyer of her oilseeds and another produce, and of her hides and skins. Whilst the United Kingdom is the great market for tea and wheat, foreign countries are very important facts in the Indian export trade; therefore India had a vital interest in the economic recovery of Europe. When the post-war boom collapsed it hit India hard and for a year or two the export trade reeled under the shock. The progress of the Dawes Plan and the measures taken under the League of Nations to assist Austria and Hungary back to industrial health had a special bearing on the prosperity of India; they have been elements of importance in inducing her recovery of prosperity.

But whilst India is pre-eminently an agricultural country, she ranks at the International Labour Office at Geneva as one of the great industrial countries of the world. Her manufacturing industries are few in number and are concentrated in a few areas, but they are of great importance. The largest is the cotton textile industry, which has its home in the town and Island of Bombay, with important subsidiary centres at Ahmedabad, Sholapur and Nagpur. Next in importance is the jute industry. Raw jute is a virtual monopoly of Bengal, and the jute mills are concentrated in and near Calcutta. The metallurgical industry is of more recent growth. The principal centre is Jamshedpur, the seat of the works of the Tata Iron and Steel Company where subsidiary industries have sprung up to utilise the products of the blast furnaces and mills. A very large proportion of the jute manufactures is exported. The cotton textile industry has lost a considerable part of its export trade to Japan, the Far East and East Africa; the mills find their principal outlet in India itself, and even there they are subject to severe competition from Japan and China. The iron and steel industry is for the most part a home industry, though large quantities of Indian pig iron are shipped to the Far East, and in some years to the western ports of North and South America. Therefore, whilst India is still in the main an agricultural country, three-quarters of her population drawing their sustenance from the soil, her manufacturing industries are of large and growing importance, and their prosperity every year affects in an increasing degree the general prosperity of the people.

I.—GENERAL.

Agricultural Conditions in India.—The monsoon of 1932 was fairly normal and gave, on the whole, well-distributed rains in spite of a rather weak start and a prolonged break in August. Averaged over the plains of India, the total rainfall during the monsoon period was only 3 per cent. below the normal. During the retreating period of the monsoon the rainfall was in excess in Bengal, Bombay Mysore, Assam, Bihar and Orissa, Punjab, Hyderabad and Madras, but defective elsewhere. Taking the year as a whole, the total rainfall was within 20 per cent. of the normal over most of the country. The season was generally favourable, and crops fairly good. The outturn of rice, though it fell short of last year's plentiful harvest by 7 per cent. was quite good, being almost equal to the average of the preceding five years. A very good yield was obtained for the sugarcane crop of 1932-33 and the total production exceeded the previous year's record yield by 17 per cent. The outturns of cotton and sesamum increased by 12 and 14 per cent. respectively, and those of groundnut and castor seed by 25 and 1 per cent. respectively as compared with the preceding year. Under restricted cultivation the production of jute in 1932 amounted only to 5.8 million bales, which, though slightly

greater than the previous year's yield, was still about half the average production during the preceding five years. The wheat crop of 1931-32, which moved mostly during the year under review, was 3 per cent. less than that of the preceding season, but was slightly above the average of the preceding five years. The production of rape, mustard and linseed (winter oilseeds) crops for 1931-32 also showed increases of 4 and 10 per cent. respectively as compared with the preceding season.

Industrial Situation in India.—The year 1932 must be considered as satisfactory so far as industrial disputes are concerned, for the numbers of strikes and of workers involved during the year were the lowest recorded for any year since 1920. Such strikes as did occur during 1932 mostly affected the railways and jute mills, the only serious cases being the strikes in the workshops of the Madras and Southern Mahratta Railways at Perambur, Arkonum and Hubli and in the Howrah, Kinnison, Kelvin and Standard Jute Mills in Bengal. The first quarter of the year 1933, however, has already been marked by disputes in the Bombay cotton mills.

Volume of Trade.—The following figures have been compiled to show the values of imports and exports of merchandise on the basis of the declared values in 1913-14. These statistics are necessarily approximate, but they are sufficiently accurate to afford a fairly reliable measure of the course of trade :—

(In crores of Rupees)

	1913-14	1924-25	1925-26	1926-27	1927-28	1928-29	1929-30	1930-31	1931-32	1932-33
Imports ..	183	137	143	156	181	190	189	157	143	162
Exports ..	144	250	246	228	248	260	263	235	200	176
Total trade in merchandise excluding re-exports.	437	387	389	384	429	450	452	392	343	338

The table above shows a further retrogression from the level of 1931-32, indicating as it does a decline of Rs. 5 crores, on the basis of 1913-14 prices, in the total trade in merchandise (excluding re-exports). It is significant that the decline was confined to the export side, the imports having shown an increase of Rs. 19 crores.

Prices in India.—The index number for Calcutta wholesale prices fell by 43 per cent. from September, 1929, to March, 1933. The index in September, 1931, was 91 as against 143 in the same month in 1929. For the five months October, 1931, to February, 1932, the index number was steady, ranging between 96 to 98, owing to the disassociation of the sterling from gold, but from March, 1932, the decline started again. Recently there has been a slight tendency generally to a rise in prices and the Indian Calcutta index number also records an increase from 82 in March, 1933, to 89 in June, 1933, which is a hopeful sign. Apart from the tendency, there were few indications, however, that the turning point in the world depression had been reached. The main characteristic of the Indian price index numbers during the past few years, is the larger fall in agricultural prices as compared with industrial prices. Another noticeable feature is that the distinct improvement in prices of most of the staple commodities, which marked the close of the year 1931 and the beginning of the year 1932, was not in evidence later. Coming to details the heaviest declines in December, 1930, were in cotton raw, jute raw, wheat and oilseeds; in December, 1931, in oilseeds, tea, hides and skins and rice; in December, 1932, in jute raw, oilseeds, and tea, rice, and hides and skins; in March, 1933, in oilseeds, rice and jute raw, hides and skins and tea; and in June, 1933, in oilseeds, jute raw, rice, cotton raw, and hides and skins. It will be thus seen that the heaviest declines have invariably been in raw materials. Among manufactured articles, the slump in prices of jute manufactures was consistently heavier than in the prices of any other manufactured article, cotton manufactures and metals following in order. Of agricultural products, sugar suffered least, largely as a result of the increased import duties on this article.

Imports.—The total value of the imports of merchandise into British India during 1932-33 amounted to Rs. 133 crores and that of exports to Rs. 136 crores. Compared with the preceding year, there was an improvement of Rs. 7 crores or 5 per cent. in the case of imports, while there was a decline of Rs. 25 crores or 15 per cent. under exports. On the import side there was an improvement noticeable in India's demand for

foreign textiles. The increase recorded under this head amounted to one of Rs. 12 crores on a total of Rs. 35 crores recorded in 1931-32. Expressed in percentages, this meant an advance of 34 per cent. over the figures for 1931-32 and of 13 per cent. over those of 1930-31. The advance under the textile group was primarily the result of larger imports of cotton piecegoods, the total receipts of which amounted to 1,225 million yards valued at Rs. 21,26 lakhs as compared with 776 million yards valued at Rs. 14,67 lakhs in 1931-32. All the principal descriptions of cotton piecegoods participated in this improvement, grey goods increasing by 107 million yards, whites by 133 million yards and coloured by 202 million yards. Imports from the United Kingdom as well as Japan recorded advances under all the descriptions. Arrivals of cotton twist and yarn also rose from 31.6 million lbs. valued at Rs. 2,99 lakhs to 45.1 million lbs. valued at Rs. 3,79 lakhs. There were concurrent advances under some of the other important items included in the textile group—notably an increase of Rs. 1,59 lakhs under silk raw and manufactured, of Rs. 1,34 lakhs under wool and woollens and of Rs. 72 lakhs under artificial silk (including yarn and goods of artificial silk mixed with other materials). Owing to increased finer spinning in the local mills the imports of raw cotton rose still further from 79,000 tons to 85,000 tons. Under the metals group there was a decline of Rs. 5 lakhs. Imports of iron and steel fell from 371,000 tons to 326,000 tons in quantity and from Rs. 6,32 lakhs to Rs. 5,30 lakhs, in value. Under machinery and mill work there was a decline of Rs. 38 lakhs, although sugar and textile machinery recorded increases. The value of hardware imported advanced from Rs. 2,61 lakhs to Rs. 2,99 lakhs. The year witnessed a further diminution in the imports of motor vehicles from Rs. 2,89 lakhs to Rs. 2,43 lakhs, the number of motor cars imported having fallen from 7,220 to 6,201 and that of omnibuses from 4,302 to 2,676. Concomitantly with the reduction under motor vehicles, the value of the imports of rubber manufactures also declined from Rs. 2,21 lakhs to Rs. 1,98 lakhs. Mainly as a result of the increased local production under the shelter of the protective duty, India's requirements of foreign sugar of all kinds fell from 556,000 tons valued at Rs. 6,16½ lakhs to 401,000 tons valued at Rs. 4,23 lakhs. Arrivals of mineral oils also declined from 217 million gallons to 188 million gallons and in value from Rs. 9,04 lakhs to Rs. 6,70 lakhs. Imports of kerosene oil declined from 85.7 million gallons to 59.5 million gallons, while those of fuel oils advanced from 100.8 million gallons to 104.5 million gallons. Consignments of provisions also contracted from Rs. 3,41 lakhs to Rs. 2,93 lakhs, chiefly due to a falling off in the value on vegetable products, condensed milk and farinaceous foods. Imports of paper and pasteboard recorded an improvement of 449,000 cwts. in quantity and of Rs. 36 lakhs in value. Arrivals of wheat fell away from 111,300 tons to 33,500 tons in quantity and from Rs. 73 lakhs to Rs. 29 lakhs in value.

Exports.—On the export side, the outstanding feature was a further slump in the raw cotton trade due to comparatively high prices of the Indian staples. Despatches of raw cotton fell from 2,369,000 bales valued at Rs. 23 crores to 2,063,000 bales valued at Rs. 20 crores. Cotton manufactures (including twist and yarn) recorded a decline of Rs. 1½ crores and amounted to Rs. 3 crores. Exports of twist and yarn receded from 22 million lbs. to 15 million lbs. in quantity and from Rs. 1,28 lakhs to Rs. 79 lakhs in value. Owing to severe competition from Japan in practically all the usual markets abroad shipments of Indian cotton piecegoods dropped from 104.6 million yards worth Rs. 3,24 lakhs to 66.4 million yards worth Rs. 2,09 lakhs. The downward movement in the export trade in jute continued during the year and the decline in the value of raw and manufactured jute exported amounted to one of about Rs. 1½ crores. Shipments of raw jute declined from 3,285,000 bales to 3,153,000 bales in quantity and from Rs. 11,19 lakhs to Rs. 9,73 lakhs in value. Exports of gunny bags, however, advanced from 389 millions valued at Rs. 10,94 lakhs to 415 millions valued at Rs. 11,16 lakhs, while those of gunny cloth shrank from 1,021 million yards worth Rs. 10,45 lakhs to 1,012 million yards worth Rs. 10,24 lakhs. Under good grains the value of the shipments declined from Rs. 20,37 lakhs to Rs. 16,08 lakhs and the quantity from 2,614,000 tons to 2,056,000 tons. Exports of wheat which had amounted to 20,000 tons in 1931-32 fell away to 2,000 tons only in 1932-33. Despatches of rice dropped from 2,372,000 tons to 1,887,000 tons in quantity and from Rs. 18,14 lakhs to Rs. 14,46 lakhs in value. Shipments of tea improved in quantity from 342 million lbs. to 379 million lbs., but on account of the low level of prices the value declined from Rs. 19,44 lakhs to Rs. 17,15 lakhs. Exports of oilseeds amounted to 733,000 tons valued at Rs. 11,31 lakhs, which meant a decline of 26 per cent. in quantity and of 22 per cent. in value in comparison with the exports of the preceding year. The decline was chiefly due to a falling off in the demands for groundnuts from 672,000 tons to 433,000 tons, for linseed from 120,000 tons to 72,000 tons, and for castorseed from 104,000 tons to 86,000 tons. Rapeseed, however, recorded an improvement of 61,000 tons in quantity and of Rs. 80 lakhs in value. Despatches of metals and ores declined from 829,000 tons worth Rs. 5,47 lakhs to 695,000 tons worth Rs. 4,68 lakhs. There was a decline in the shipments of hides and skins from 49,300 tons valued at Rs.8,92 lakhs to 41,700 tons valued at Rs. 7,43 lakhs. Exports of lac amounted to 418,300 cwts. valued at Rs. 1,24 lakhs which represented a decline of 10 per cent. in quantity and of 33 per cent. in value in comparison with the corresponding figures for 1931-32. Exports of coffee rose by 18,000 cwts. in quantity and by Rs. 15 lakhs in value.

Balance of Trade.—The visible balance of trade in merchandise and treasure for the year 1932-33 was in favour of India to the extent of Rs. 68 crores as compared with Rs. 90 crores in 1931-32, Rs. 38 crores in 1930-31 and the record figure of Rs. 109 crores in 1925-26. The transactions in treasure on private account resulted in a net export of treasure, amounting to Rs. 65 crores as against Rs. 55⅝ crores in the preceding year. Gold showed a net export of Rs. 65½ crores and silver a net import of Rs. 73 lakh. Net exports of currency notes amounted to Rs .13 lakhs.

Tariff Changes.—The changes in the tariff made under the various Acts passed during the latter part of 1931 and the earlier part of 1932 were dealt with in the preceding year's Review. Since then seven Acts have been passed, introducing numerous changes in the tariff.

The most important of these Acts is the Indian Tariff (Ottawa Trade Agreement) Amendment Act, 1932, which gave effect to the tariff changes necessitated by the Trade Agreement made by the Government of India and His Majesty's Government in the United Kingdom at the Imperial Economic Conference held at Ottawa during July-August, 1932. Hitherto the Indian tariff was a single-decker one and did not differentiate between imports from different countries, except in the case of certain protected classes of iron and steel goods and cotton piecegoods where higher rates of duty on goods manufactured in countries other than the United Kingdom were imposed. Under the Ottawa Trade Agreement India for the first time departed from the single-decker tariff policy and adopted, on terms of reciprocity, tariff preference for certain classes of goods produced or manufactured in the United Kingdom. The Agreement also provided for the exchange of preference with the non self-governing Colonies and Protectorates.

On the part of India this Agreement involved the grant to the United Kingdom of a 7½ per cent. tariff preference on certain classes of motor vehicles (motor cars and motor omnibuses, chassis for motor omnibuses, motor vans and motor lorries and parts and accessories thereof) and a 10 per cent. tariff preference on the following classes of goods:—

Apparel (excluding hosiery and articles made of silk or artificial silk), certain arms and ammunition, asbestos manufactures, boots and shoes of leather, brushes and brooms, certain building and engineering materials, buttons, certain chemicals and chemical preparations excluding manures, cocoa and chocolate, confectionery, cordage and rope other than of jute and cotton, cork manufactures, cutlery, drugs and medicines except narcotics, earthenware and porcelain, furniture and cabinet-ware, glue, hardware excluding electro-plated ware, instruments apparatus and appliances and parts thereof (electrical, musical, photographic, scientific and philosophical, surgical, wireless and miscellaneous), leather and certain manufactures thereof liquors (ale and beer, spirit in drugs, etc., and perfumed spirit), certain machinery and millwork, metals (aluminium, brass, bronze and similar alloys, copper, German silver, certain classes of iron and steel, lead wrought and zinc wrought or manufactured), oils (fish oil, certain essential oils, mineral lubricating oil, petroleum in paints, etc., and vegetabe oils other than coconut, groundnut and linseed), oil cloth and floor cloth, engine and boiler packing, certain paints and painters' materials certain classes of paper and pasteboard, certain kinds of provisions and oilman's stores, rubber manufactures, smokers' requisites, toilet soap, stationery, textiles (haberdashery and millinery) woollen manufactures other than blankets and rugs, toilet requisites, toys and requisites for games and sports, umbrellas and umbrella fittings, vehicles not mechanically propelled and cycles.

In most of these classes of goods the preference was subject to certain specified exceptions and also to the general reservation that it did not extend to—

(*a*) commodities to which protective duties are applicable;

(*b*) commodities which were free of duty at that time; or

(*c*) commodities on which on grounds of national policy a specially low rate of duty had been imposed.

In the class of iron and steel goods, the preference extended only to those commodities which were not subject to protective duties and in the class of machinery only to those articles which paid ordinary revenue rate of 25 per cent. *ad valorem* and not to those which in the interests of agriculture and industries were free of duty or were subject only to the temporary duty of 10 per cent. *ad valorem*. In the class of textiles it extended only to articles of apparel, haberdashery and millinery which were dutiable at 25 per cent. *ad valorem* and to woollen manufactures, with specified exceptions in each case. As regards goods made of cotton, silk or artificial silk, it was agreed that a 10 per cent. preference would be extended to these goods with the exception of certain cotton manufactures (twist and yarn, piecegoods, thread for sewing, blankets, handkerchiefs in the piece, hosiery, rope and towels in the piece), silk and artificial silk yarn, piecegoods and thread for sewing certain goods of silk and artificial silk mixed with other materials (twist and yarn, piecegoods and thread for sewing) and articles on which protective duties might be imposed as a result of the Indian Tariff Board's enquiry which was being conducted at that time.

In the case of Colonies and Protectorates, the Agreement provided for the grant by India of preference to certain staple exports of the Colonial Empire including—

Specified gums and resins, oil-seeds, vegetable and essential oils, unground spicies, coconuts and coconut products, fish, fruits and vegetables, sago and tapioca, tea, coffee rum and unmanufactured tobacco.

A Supplementary Agreement regarding iron and steel was entered into between the two Governments in the September following, which provided for the adjustment of the Indian import duty on galvanised sheets as shown below:—

Rs. 30 *per ton* on sheet made in the United Kingdom from Indian sheet bar.

Rs. 53 *per ton* on sheet made in the United Kingdom from other sheet bar.

Rs. 83 *per ton* on sheet not made in the United Kingdom.

These revised duties will remain in force till the 31st March 1934.

The Tariff Amendment Act mentioned above made necessary changes in Schedule II to the Indian Tariff Act, 1894, with effect from 1st

January, 1933. The articles subject to the preferential rates of duty are included in two new parts, VIII and IX, to Schedule II. Part VIII contains all the articles which were dutiable under Part V at the general revenue duty of 25 per cent. *ad valorem* and which are now liable to the standard rate of 30 per cent. and the preferential rate of 20 per cent. for British goods. Part IX contains all the articles on the preferential list which were dutiabe at special rates, that is, at rates either higher than or lower than the general revenue rate. In these cases the necessary preference has been provided for either by entirely raising the previous rate or partly by raising and partly by lowering it, the standard rate having in no case gone beyond 50 per cent. *ad valorem*.

The Cotton Textile Industry Protection (Amendment) Act, 1933, extended the operation of the protective duties imposed under the Cotton Textile Industry (Protection) Act, 1930. These duties were to expire on the 31st March, 1933, but the Amendment Act extended their operation up to 31st October, 1933, pending the consideration by the Government of India of the Tariff Board's Report on the Indian cotton textile industry.

The Wheat Import Duty (Extending) Act, 1932, extended the operation of the temporary customs duty on wheat and wheat flour to 31st March 1934.

The Salt Additional Import Duty (Extending) Act, 1933, extended for another year the operation of the 1931 Act, subject to certain modifications, as recommended by the Salt Industry Committee of the Legislative Assembly. It reduced the additional duty from 4½ as. to 2½ as. per *maund* and extended its operation to 31st March, 1934.

The Indian Finance Act, 1933, fixed (*i*) a minimum specific duty of 2 as. (excluding surcharge) on uppers of boots and shoes not entirely made of leather and (*ii*) minimum specific duties of 4 as. per square yard and 2 as. 3p. per square yard respectively, with no surcharge, on artificial silk piecegoods and silk or artificial silk mixtures. It also rounded off the *ad valorem* duty of 34⅔ per cent. (including surcharge) on these mixtures to 35 per cent. with no surcharge. This Act was passed on the 31st March, 1933, but under the provisions ofthe Provisional Collection of Taxes Act, 1931, the tariff changes mentioned above came into force on the 1st of that month.

The Indian Tariff (Ottawa Trade Agreement) Supplementary Amendment Act, 1933, corrected, with effect from the 8th April 1933, a few inaccuracies and discrepancies in the 1932 Act which had been brought to light by a further scrutiny of the schedules to that Act and by practical experience of the new tariffs. The reference to ferrous sulphate was deleted from item No. 88 as it had already been specified elsewhere as green copperas. Alum, the protective duty on which lapsed on the 31st March, was included in the non-preferential descriptions of chemicals. The preference inadvertently given to British manufactures in respect of moist white lead and newsprinting paper was withdrawn. Copper braziers were grouped with copper sheets liable to preferential rate. Tea chests and parts and fittings thereof were specified separately and were made liable to the ordinary non-preferential rate. The preference to British incandescent mantles was made clear, while, on administrative grounds, the lubricating oil item was re-drafted to include oils other than mineral, pure and mixed, which are not ordinarily used for any purpose other than lubrication. The preferential rate for colonial products was withdrawn in the case of certain glass-making chemicals. Gold and gold-plated pen nibs were specified separately with the United Kingdom preference, while in the interest of the Indian industry, two glass-making materials, liquid gold and covered crucibles, were given a specially low preferential rate of duty.

The Indian Tariff (Amendment) Act, 1933, amended sub-items (*i*) and (*ii*) in item No. 148A relating to galvanized iron or steel sheets of British manufacture and made it clear that the preferential rate is applicable only to sheets manufactured from Indian sheet bar imported into the United Kingdom after the ratification of the Ottawa Trade Agreement.

The protective duties imposed under the **Heavy Chemical Industry (Protection) Act, 1930**, on hydrochloric, nitric and sulphuric acids, alum, aluminium sulphate, copper sulphate, magnesium sulphate, sodium sulphate, sodium sulphide and zinc chloride lapsed on the 31st March, 1933, and these became liable to the ordinary duty with or without preference, to the United Kingdom manufacture. Magnesium chloride, however, continues to be liable to the protective duty.

Besides the statutory changes mentioned above, the period of operation of the additional protection accorded to iron or steel galvanized sheets, fabricated, and pipes and tubes made therefrom has been extended to 31st March, 1934, under section 3 (4) of the Indian Tariff Act, 1894. Similarly, under section 3 (5) of the above Act, the import duty on non-British cotton piecegoods was increased to 50 per cent. *ad valorem* with a minimum specific duty of 5½ as. per lb. in the case of plain grey with effect from 30th August, 1932. With effect from 7th June, 1933, these rates have been further increased to 75 per cent. *ad valorem* and 6¾ as. per lb. respectively.

II—IMPORTS OF MERCHANDISE.

The following table shows the comparative importance of the principal articles imported in British India :—

IMPORTS. (In thousands of Rupee

—	1928-29	1929-30	1930-31	1931-32	1932-33	Percentage o total import of mer- chandise in 1932-33.

Cotton Manufactures (Rs. 26,83 lakhs.)—The total value of the imports of cotton manufactures in the year under review amounted to Rs. 26,83 lakhs as against Rs. 19,15 lakhs in the preceding year and Rs. 25,26 lakhs in 1930-31. Thus it will be seen that the imports under this head revived considerably as compared with the preceding year and even exceeded the figure of 1930-31. As compared with 1929-30, however, there was still much leeway to be made up, the value of the imports in that year having amounted to Rs. 59,49 lakhs. Imports of cotton twist and yarn amounted to 45.1 million lbs. valued at Rs. 3,79 lakhs as against 31.6 million lbs. valued at Rs. 2,99 lakhs in 1931-32. Thus there was an increase of 13½ million lbs. or 43 per cent. in the imports under this head. Imports of piecegoods in the year under review were 1,225 million yards valued at Rs. 21,26 lakhs as compared with 776 million yards valued at Rs. 14,67 lakhs in 1931-32 and 890 million yards valued at Rs. 20,05 lakhs in 1930-31. The increase in yardage as compared with the preceding year was, therefore, 450 million yards and even compared with 1930-31 that was 335 million yards. Compared with the last normal year, 1929-30, however, the imports were 694 million yards less.

It will be seen from the above figures that the import trade in cotton manufactures showed a distinct improvement as compared with the preceding year or even with 1930-31. Compared with 1929-30, the last normal year, however, the trade was still considerably smaller. The improvement in the year under review was of considerable magnitude and it will be worth while examining the causes of this upward movement. The first cause which suggests itself is a probable revival in the demand for piecegoods, the consumption of which had fallen off considerably in the previous two years. It will be seen from the table that the amount available for consumption was 333 and 364 crores of yards in 1930-31 and 1931-32 respectively as compared with 419 crores of yards in 1929-30, 365 crores of yards in 1928-29 and 413 crores of yards in 1927-28. Thus the postponement of demand which was the result of the peculiar conditions of the two previous years may have led to a better demand in the year under review. A second cause which also improved the demand was the considerably lower prices of piecegoods which ruled in the year under review. The declared values of all classes of piecegoods touched lower levels, the fall being greater in the cases of white and coloured goods. The Calcutta index number in the case of cotton manufactures, which is an index of internal prices, fell much further than in the previous years. The index was 127 in April 1931, and in spite of a very slight fall in the end of the year 1931-32 it remained at 127 in April 1932. By April, 1933, however, the index had fallen to 112. This fall in the prices of cotton manufactures certainly encouraged their consumption, especially as this fall tended to reduce, to some extent, the wide disparity between the fall in the agricultural incomes of the masses and the fall in the cost of the imported goods which they bought. The chief cause of the fall in prices of cotton piecegoods was the selling of cotton piecegoods in India by Japan at very low rates. The depreciating *yen* exchange helped Japan in this respect and even the additional duty placed on these imports in the middle of the year did not stem the tide, as the Japanese manufacturers' advantage increased with the further depreciation of the rupee-yen exchange. The very low prices at which Japanese goods were offered greatly increased their consumption and the prices of competing goods of other than Japanese origin had also to be lowered to keep pace. These lower prices created a better effective demand for piecegoods and consequently the consumption as well as imports

improved considerably. This has been one of the most important causes of the improvement in piecegoods imports. A third cause of the increase in imports is to be found in the comparative weakness of the boycott agitation in the year under review. Owing to the measures adopted by Government the agitation had been considerably weakened and the trade in imported piecegoods became profitable again. These causes led to an increase in imports both from Japan and the United Kingdom; but owing to the low prices which Japan would take her share increased far more than that of the United Kingdom.

The value of the different classes of cotton manufactures imported during the past five years and the pre-war year 1913-14 is set forth below :—

—	1913-14 (pre-war year).	1928-29	1929-30	1930-31	1931-32	1932-33
	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)	Rs. (lakhs)

Grand Total ..	66,30	63,24	59,49	25,25	19,15	26,83

Cotton Twist and Yarn (Rs. 3,79 lakhs).—The imports of cotton twist and yarn amounted to 45.1 million lbs. in quantity and Rs. 3,79 lakhs in value in 1932-33 as compared with 31.6 million lbs. and Rs. 2,99 lakhs in 1931-32. The quantity of yarn imported in the year under review increased by 13.5 million lbs. as compared with the previous year, the increase in value being Rs. 80 lakhs. As compared with 1929-30, the last normal year, there was an increase in the quantity of imports in the year under review by 1.2 million lbs. In value, however, there was a decline of Rs. 2,21 lakhs. The average declared value per lb. of yarn imported during the year was Re. 0-13-5 as compared with Re. 0-15-2 in the previous year, Re. 1-0-11 in 1930-31 and Rs. 1-5-10 in 1929-30. Of the total imports, 18.1 million lbs. came from Japan, the largest supplier, 13.4 million lbs. from the United Kingdom and 13.3 million lbs. from China. Imports from these countries in 1929-30 were 10.9 million lbs., 20.1 million lbs. and 10.6 million lbs. respectively. Thus as compared with 1929-30, the imports from the United Kingdom had shrunk by 6.7 million lbs., whereas imports from Japan and China had gone up by 7.2 million lbs. and 2.7 million lbs., respectively. It is obvious therefore that Japan had considerably improved her position in this trade as compared with the preceding year or with 1929-30. The position of Japan is even stronger than is shown merely by the imports from Japan, as the mills in China are largely owned by Japanese interests.

Cotton Piece-goods (Rs. 21,26 lakhs).—The imports of cotton piecegoods, including fents, increased from 776 million yards in 1931-32 to 1,225 million yards in 1932-33, an increase of 449 million yards or 58 per cent. As compared with 1929-30, however, there was still a deficit of 694 million yards in yardage. The value of the imports increased from Rs. 14.7 crores to Rs. 21.3 crores, an increase of Rs. 6.6 crores. The value figure in the year under review is, however, considerably less than in 1929-30 when it amounted to Rs. 50 crores. Compared with the pre-war year 1913-14, the imports of 1932-33 were less by 1,973 million yards. The figures for the three important classes of cotton piecegoods from 1913-14 onwards are given in the following table :—

—	Grey (unbleached)	White (bleached)	Coloured printed or dyed.
Year.	Million yards	Million yards	Million yards
1913-14 ..	1,534.2	793.3	881.8
1914-15 ..	1,320.2	604.2	494.8
1915-16 ..	1,148.2	611.4	358.7
1916-17 ..	847.0	589.8	454.9
1917-18 ..	625.5	502.3	395.6
1918-19 ..	583.4	286.6	227.3
1919-20 ..	533.3	322.0	208.3
1920-21 ..	580.2	421.8	489.3
1921-22 ..	635.6	306.2	138.3
1922-23 ..	931.0	402.5	243.8
1923-24 ..	704.0	415.3	347.5
1924-25 ..	845.5	548.9	407.0
1925-26 ..	709.1	465.1	365.8
1926-27 ..	748.4	571.0	447.4
1927-28 ..	875.5	556.5	504.8
1928-29 ..	838.6	554.1	506.9
1929-30 ..	925.5	473.6	483.5
1930-31 ..	365.0	271.6	245.7
1931-32 ..	249.4	279.7	223.2
1932-33 ..	356.0	412.7	424.8

It appears from the above table that in the year under review imports of grey goods increased from the low figure of the previous year and amounted to 356 million yards as compared with 249 million yards in 1931-32. Compared,

however, with 1929-30 the imports are seen to be of relatively small dimensions. The imports of plain grey goods amounted to 218 million yards in 1932-33 as compared with 166 million yards in 1931-32 and 423 million yards in 1929-30. Imports of bordered grey goods amounted to 138 million yards as compared with 83 million yards in the preceding year and 502 million yards in 1929-30. These figures show that the trade under this item, though showing some signs of revival as compared with the preceding year, was still far behind the figure of 1929-30. Imports of white goods increased considerably in the year under review from 280 million yards in 1931-32 to 413 million yards, an increase of 133 million yards. Even compared with 1929-30, the imports of the year under review were only less by 61 million yards. Coloured goods increased from 223 million yards in 1931-32 to 425 million yards in 1932-33, an increased of 91 per cent. The declared value of grey goods declined from 3 as. 7 p. in 1929-30 to 2 as. 6 p. in 1931-32 and to 2 as. 3 p. in 1932-33. The decline in the case of white goods was from 4 as. 6 p. in 1929-30 to 2 as. 11p. in the year under review, whereas for the same period, coloured goods fell from 5 as. to 3 as. 2 p. The following table shows the declared value per yard of the three classes of goods for a number of years:—

Cotton piecegoods.	13-14.	24-25	25-26	26-27	27-28	28-29	29-30	30-31	31-32	32-33
	A. p.	A. p.	A. p.	A. p.	A. p.	A. p.	A. p.	A. p.	A. p.	A. p.
Grey (unbleached) ..	2 8	5 5	4 11	4 2	3 11	3 10	3 7	3 0	2 6	2 3
White (bleached) ..	2 11	5 11	5 6	4 11	4 5	4 5	4 6	3 8	3 1	2 11
Coloured, printed or dyed	3 5	7 10	6 11	6 2	5 7	5 6	5 0	4 5	3 8	3 2

The imports of coloured, printed and dyed goods from 1925-26 are set forth below:—

	1925-26		1926-27		1927-28		1928-29	
	Million yards.	Rs. (lakhs.)	Million yards.	Rs. (lakhs.)	Million yards.	Rs. (lakhs.)	Million yards.	Rs. (lakhs.)
Total printed goods.	166.9	6,55	176.8	6,13	235.3	7,53	244.4	7,41
Total dyed goods ..	106.8	4,88	157.0	6,17	158.3	5,61	155.6	5,62
Total woven coloured goods.	92.1	4,49	113.6	4,92	111.2	4,38	106.9	4,32

	1929-30		1930-31		1931-32		1932-33	
	Million yards.	Rs. (lakhs.)	Million yards.	Rs. (lakhs.)	Million yards.	Rs. (lakhs.)	Million yards.	Rs. (lakhs.)
Total printed goods.	199.9	5,77	106.5	2,61	104.9	2,08	237.0	3,97
Total dyed goods ..	151.0	4,92	93.1	2,69	93.0	2,29	147.7	3,37
Total woven coloured goods.	132.5	4,47	46.1	1,52	25.4	68	40.1	1,00

Imports in the year under review in all the three lines increased considerably as compared with the preceding year, the increase being largest in the case of printed goods. Even as compared with 1929-30, the figures showed a considerable decline only in the case of woven coloured goods, whereas in the case of printed goods it actually showed an increase. Under printed goods the quantity imported was 237 million yards as compared with 105 million yards in the previous year and 200 million yards in 1929-30. Imports of dyed goods amounted to 148 million yards as compared with 93 million yards in 1931-32 and 151 million yards in 1929-30. Thus, the imports of the year under review were only 3 million yards less than in 1929-30. Imports of woven coloured goods rose from 25 million yards in 1931-32 to 40 million yards in 1932-33; but compared with 1929-30, there was a decrease of over 92 million yards. The

detailed figures relating to the imported piecegoods are given below in millions of yards :—

Grey (unbleached).	1913-14 (pre-war year.)	1929-30	1930-31	1931-32	1932-33
Dhutis, saris and scarves	806.1	501.1	171.0	83.6	138.8
Jaconets, madapollams, mulls, etc. ..	150.4	53.0	19.3	23.7	26.8

Total ..	831.8	483.5	245.7	223.2	424.8

Under greys nearly every item showed increases as compared with the preceding year, though there were big gaps to be made up as compared with 1929-30. Imports under dhutis went up from 84 million yards to 139 millions yards. In 1929-30, however, imports under this head were 501 million yards. Similarly, under longcloth and shirtings there was an increase of 49 million yards to 183 million yards as compared with the preceding year, but compared with 1929-30 there was a decrease of 157 million yards. Jaconets also showed a small increase from 24 million yards to 27 million yards. In 1929-30 the figure under this head was 53 million yards. Under white goods all the items showed increases as compared with the preceding year, but compared with 1929-30 only jaconets and longcloths showed increases. Imports of jaconets amounted to 229 million yards as compared with 155 million yards in the previous year and 220 million yards in 1929-30. Similarly, import sunder longcloth amounted to 110 million yards as compared with 80 million yards in 1931-32 and 104 million yards in 1929-30. The only other item of importance under white goods which showed an increase was nainsooks which amounted to nearly 31 million yards as compared with 21.5 million yards in 1931-32 and a little over 53 million yards in 1929-30. The other items showed slight increases as compared with the preceding year, though the figures fell short of the level attained in 1929-30. In coloured goods there were considerable increases under all the items as compared with the preceding year, but as compared with 1929-30 only shirtings showed an increase. Imports under shirtings increased from 63 million yards in 1931-32 to 116 million yards, the figure of 1929-30 being 106 million yards. Drills and jeans increased from 33

million yards in 1931-32 to 71 million yards in 1932-33. Imports in 1929-30 were 87 million yards. Imports under cambrics, prints and chintz increased from 20 and 23 million yards in 1931-32 to 41 and 50 million yards in 1932-33, the imports in 1929-30 being 43 and 61 million yards respectively. The other items also showed increases as compared with the preceding year. Thus, it will be seen that under white and coloured goods the trade had regained to some extent the position which it had occupied in 1929-30.

The percentage shares in 1913-14 and the past five years of the United Kingdom and Japan, the two principal competitors for the Indian piece-goods import trade, in each of the three important classes of piecegoods are set forth below :—

Percentage shares of the United Kingdom and Japan in the imports of cotton piecegoods.

	1913–14		1928–29		1929–30		1930–31		1931–32		1932–33	
	United Kingdom	Japan	United Kingdom	Japan	United Kingdom	Japan	United Kingdom	Japan	United Kingdom	Japan	United Kingdom	Japan
Cotton piecegoods—												
Grey	98.8	.5	69.4	28.8	56.2	42.5	39.2	59.8	23.9	74.3	31.2	68.5
White	98.5	..	94.8	1.0	92.1	2.9	84.6	10.3	74.0	21.4	68.1	29.2
Coloured	92.6	.2	66.2	21.7	57.6	31.9	60.0	30.2	49.4	42.4	45.7	50.4

The share of the United Kingdom increased to some extent under greys as compared with the preceding year. There was a consequential drop in the share of Japan. The share of the United Kingdom in the year under review amounted to 31 per cent. as compared with only 24 per cent. in the preceding year and 56 per cent. in 1929-30. Japan's share in the year under review was 68.5 per cent. as compared with 74 per cent. in the preceding year and 42.5 per cent. in 1929-30. The decrease in Japan's share in the year under review is of a very small magnitude. The increase in her share in the past few years has been largely due to the attractively low prices at which Japan has offered her goods. On the other hand, the share of the United Kingdom which had been falling off considerably for 4 or 5 years up to 1931-32 shows some signs of revival in the year under review. As regards white goods, Japan has been making considerable progress in the last four years. In 1929-30 her share in white goods was under 3 per cent. By 1930-31 it had risen to over 10 per cent. In 1931-32 it had gone up to 21 per cent. and in the year under review it was a little over 29 per cent. The share of the United Kingdom, on the other hand, declined from 92 per cent. in 1929-30 to 68 per cent. in 1932-33. In coloured goods also Japan is fast capturing the Indian market from the United Kingdom and in the year under review Japan has ousted the United Kingdom from the position of the largest supplier of these goods. The share of the United Kingdom dropped from 58 per cent. in 1929-30 to 46 per cent. in 1932-33, whereas Japan's share went up from 32 per cent. in 1929-30 to over 50 per cent. in 1932-33. The percentage shares of the principal sources in the total imports of piece-goods into India are shown below :—

Percentage shares in the total quantities of piecegoods imported.

	13-14	23-24	24-25	25-26	26-27	27-28	28-29	29-30	30-31	31-32	32-33
United Kingdom	97.1	88.8	88.5	82.3	82.0	78.2	75.2	65.0	58.8	49.4	48.7
Japan	.3	8.2	8.5	13.9	13.6	16.4	18.4	29.3	36.1	43.8	47.3
United States	.3	.5	.5	1.0	.9	1.4	1.5	1.7	1.0	2.5	1.7
Netherlands	.8	.7	.6	1.1	1.1	1.0	1.0	1.1	1.5	.9	.4
Other countries	1.5	1.8	1.9	1.7	2.4	3.0	3.9	2.9	2.6	3.4	1.9
Total ..	100	100	100	100	100	100	100	100	100	100	100

The outstanding feature of the table, as was noted in the Reviews for the last three years, is the definite, and continuous trends, in opposite directions, of the percentage shares of the United Kingdom and of Japan during the past nine years. Japan increased her share from 44 per cent. in 1931-32 to 47 per cent. in 1932-33. The share of the United Kingdom, on the other hand, further declined from 49.4 per cent. to 48.7 per cent. Thus, the share of the United Kingdom was reduced from 97 per cent. in 1913-14 to a little under 49 per cent. in 1932-33, whereas Japan from a position of no importance whatever increased her share enormously, and is now responsible for almost half the total quantity of piecegoods imported into India.

Of the total quantity of piecegoods imported 27 per cent. was received in Bombay as compared with 22 per cent. in the previous year. The shares of Bengal and Madras continued stationary at 29 and 8 per cent. respectively, that of Sind, which amounted to 28 per cent. in 1931-32, stood at 25 per cent. in the year under review. Similarly, there was a decrease in the share of Burma to 11 per cent. in 1932-33 as compared with 13 per cent. in the preceding year.

Artificial silk (Rs. 4,16 lakhs).—The trade under this head continued to increase, both in quantity and value, as compared with the preceding two years; but, as compared with 1929-30, there was only an increase in quantity but not in value. It may be mentioned that the increase in quantity has been of much greater magnitude than that in value, as the average declared value of piecegoods has been falling consistently since 1929-30 when it was 8 as. 11 p. per yard to 4 as. 9 p. in 1931-32 and 3 as. 11p. in the year under review. Imports of artificial silk yarn in the year under review amounted to 11 million lbs. valued at Rs. 93 lakhs as compared with 8 million lbs. valued at Rs. 82 lakhs in the preceding year. The largest increase in imports has been from Italy, whose share increased from 3.9 million lbs. to 5.6 million lbs. Japan also sent 1.8 million lbs. as compared with 0.4 million lbs. in the preceding year. The share of the United Kingdom went up from nearly a million lbs. to 1.7 million lbs. On the other hand, imports from the Netherlands, France and Switzerland showed some decline.

As regards piecegoods of cotton and artificial silk, the outstanding feature, as noted in the previous reviews, was the enormous growth of the imports from Japan under this head. The total import of such piecegoods in the year under review was 125 million yards valued at Rs. 3,10 lakhs as compared with 85 million yards valued at Rs. 2,52 lakhs in the previous year. The share of Japan in the total imports was 115 million yards or 92 per cent. Japan's share in the previous year was 75 million yards and in 1930-31 only 38 million yards.

As has been remarked in the last year's review, Japan was exporting to India cloth made entirely of artificial silk in bright colours and attractive designs at prices as low as 3 as. to 4 as. per yard. At such prices artificial silk piecegoods were replacing the better type of printed and dyed cotton goods. It may be interesting to note that the declared value per yard of Japanese piecegoods of cotton and artificial silk mixed was 3 as. 6 p. in the year under review as compared with 4 as. 6 p. in the preceding year, 6 as. 4 p. in 1930-31 and 8 as. 11 p. in 1929-30. As against this the declared value of the Italian imports under the same head was 7 as. 9 p. in 1932-33, 4 as. 11 p. in the preceding year and 7 as. 2 p. in 1929-30. Similarly, the declared value of the imports from the United Kingdom was 7 as. 7 p. in the year under review as compared with 9 as. 4 p. in the preceding year and 8 as. 6 p. in 1930-31. As a result of the low and attractive prices of imports from Japan, the other countries were more or less ousted from the market. The share of Italy declined from 5.2 million yards to 4.5 million yards and the share of Switzerland from nearly 2 million yards to a little under a million yards. The United Kingdom, however, increased her share from 1.6 million yards to 3.6 million yards.

Silk, raw and manufactured (Rs. 4,33 lakhs).—The imports of raw silk increased from 1.6 million yards valued at Rs. 62 lakhs in 1931-32 to 3.2 million yards valued at Rs. 1,17 lakhs in 1932-33. The predominant supplier of raw silk was China, including Hongkong, which supplied 2.9 million lbs. or 92 per cent. of the total imports into India. Imports from Japan, the only other source worth mentioning, increased from 34,000 lbs. to 165,000 lbs. Imports of silk yarns, noils and warps increased from 1.7 million lbs. valued at Rs. 51 lakhs in 1931-32 to 3 million lbs. valued at Rs. 88 lakhs in 1932-33. Japan's increase in this trade was phenomenal, her share increasing from 116,000 lbs. valued at Rs. 5 lakhs in the preceding year to 1,187,000 lbs. valued at Rs. 40 lakhs in the year under review. Italy was the second largest supplier, her share amounting to 862,000 lbs. valued at Rs. 24 lakhs as compared with 622,000 lbs. valued at Rs. 19 lakhs. Imports from China and the United Kingdom increased from 343,000 and 62,000 lbs. to 418,000 and 260,000 lbs. respectively, but the imports from Switzerland declined from 289,000 lbs. to 96,000 lbs.

Imports of silk piecegoods increased very greatly in quantity from 20 million yards to 35 million yards. This figure is better by 12 million yards as compared with even 1929-30. The value of the imports in the year under review amounted to Rs. 1,81 lakhs as compared with Rs. 1,26 lakhs in the previous year. As in the case of cotton and artificial silk, the rise of Japan in this trade was the feature of the year, her share increasing from 11.7 million yards valued at Rs. 72 lakhs in 1931-32 to 26.8 million yards valued at Rs. 1,33 lakhs in 1932-33. China's share remained almost at the same level as in the preceding year, amounting to 7.9 million yards valued at Rs. 45 lakhs as compared with 7.8 million yards valued at Rs. 50 lakhs. Thus these two countries between them supplied nearly the whole of the imports under this head. The shares of other countries which were insignificant showed decreases in the year under review as compared with the preceding year.

The imports of goods of silk mixed with other materials showed a great increase in the year under review and amounted to 10.1 million yards valued at Rs. 43½ lakhs as compared with 5.1 million yards valued at Rs. 30 lakhs in the preceding year. Imports in 1929-30 were a little under 3 million yards. Thus, in three years the imports had increased by 7 million yards. As in the case of silk piecegoods, Japan was the largest single supplier and her position as compared with the previous year improved considerably. Imports from Japan amounted to 8.4 million yards valued at Rs. 28 lakhs as

compared with 4.1 million yards valued at Rs. 18 lakhs in 1931-32. The imports in 1929-30 amounted to 2 million yards valued at Rs. 19 lakhs. It is clear, therefore, that Japan had reduced her prices very considerably as, although the quantity imported from that source had more than quadrupled as compared with 1929-30, the total declared value had gone up by 50 per cent. only. Imports from the United Kingdom, Germany and Italy increased from 185,000, 170,000 and 31,000 yards in 1931-32 to 250,000 258,000 and 85,000 yards respectively in 1932-33. The share of France fell slightly from 54,000 to 47,000 yards.

Wool, raw and manufactured (Rs. 2,96 lakhs).—There has been a very considerable increase in the value of imports under this head as compared with the preceding year. The increase has been general and was shared by all the sub-heads under this head, except carpets and rugs. Imports of raw wool increased from 6.7 million lbs. valued at Rs. 31 lakhs to 7.2 million lbs. valued at Rs. 42 lakhs in 1932-33. Australia was the largest supplier with 3 million lbs. valued at Rs. 18 lakhs in the year under review as compared with 2.9 million lbs. valued at Rs. 15 lakhs in the preceding year. The United Kingdom increased her share very considerably from a little under a million lbs. valued at nearly Rs. 9 lakhs in 1931-32 to 2.1 million lbs. valued at Rs. 18 lakhs in 1932-33. Thus, the United Kingdom ousted Persia as the second largest supplier of raw wool to India. The share of the latter country amounted to 1.3 million lbs. valued at Rs. 3 lakhs as compared with nearly 2 million lbs. valued at Rs. 5 lakhs in the preceding year. Imports of worsted yarns for weaving increased from 568,000 lbs. valued at Rs. 9 lakhs in 1931-32 to 912,000 lbs. valued at Rs. 15 lakhs in 1932-33. Imports of knitting wool went up from 739,000 lbs. valued at Rs. 14 lakhs to 996,000 lbs. valued at Rs. 18 lakhs.

Woollen piecegoods.—Imports of woollen piecegoods in 1932-33 increased by over 8 million yards as compared with the preceding year and even exceeded the imports of 1929-30 by about a million yards. Imports in the year under review amounted to 13.9 million yards as compared with 5.5 million yards in the preceding year and 12.6 million yards in 1929.30. The value of the imports of 1932-33 amounted to Rs. 1,61 lakhs as compared with Rs. 69 lakhs in 1931-32 and Rs. 2,33 lakhs in 1929-30. The countries which accounted for the great rise in imports under this head in the year under review were France, Italy, Japan and the United Kingdom. The shares of the first three countries amounted to 4.6, 3.6 and 1.4 million yards as compared with 2, 1.4 and 0.1 million yards respectively in the preceding year. The share of the United Kingdom also went up from 1.3 million yards valued at Rs. 25 lakhs to 2.8 million yards valued at Rs. 52 lakhs. The other countries, except Netherlands, also showed increases in their shares. The average declared value per yard of the French, Italian and Japanese supplies were Rs. 0-12-0, Rs. 1-2-8 and Rs. 0-8-9, whereas that of the imports from the United Kingdom was Rs. 1-13-11.

There was a considerable increase in the number of shawls imported. These amounted to 338,000 pieces valued at Rs. 11 lakhs as compared with 164,000 pieces valued at Rs. 6 lakhs in the preceding year. The imports in 1929-30, however, were 658,000 pieces valued at Rs. 27 lakhs. As usual, Germany was the largest single source of supply, her share going up from 114,000 pieces to 186,000 pieces. Imports from the United Kingdom and from other countries also showed considerable increases.

Imports of carpets and floor rugs declined from 267,000 lbs. valued at Rs. 5 lakhs in 1931-32 to 188,000 lbs. valued at Rs. 4 lakhs in 1932-33. In 1929-30 the imports were 604,000 lbs. valued at Rs. 10 lakhs. Imports from the United Kingdom were the highest, amounting to 81,000 lbs. valued at Rs. 1.8 lakhs as compared with 76,000 lbs. valued at Rs. 2 lakhs in the preceding year. The share of Persia receded considerably from 146,000 lbs. valued at Rs. 2 lakhs in 1931-32 to 78,000 lbs. valued at Rs. 80,000 in 1932-33. The declared value per lb. of the United Kingdom supplies was Rs. 2-2-10 and those from Persia Rs. 1-0-4. Imports under the head 'blankets and rugs other than floor rugs' increased from 2.4 million lbs. valued at Rs. 19 lakhs in 1931-32 to 4.2 million lbs. valued at Rs. 34 lakhs in 1932-33.

Metals and manufactures thereof (Rs. 9,73 lakhs).—The imports of metals and manufactures thereof declined by 23,000 tons or 5 per cent. in quantity from 418,000 tons in 1931-32 to 395,000 tons in 1932-33 and by Rs. 4 lakhs or less than 1 per cent. in value from Rs. 9,77 lakhs to Rs. 9,73 lakhs. Iron and steel represented Rs. 5¼ crores of this total as compared with Rs. 6¾ crores in 1931-32 and, as in the preceding year, occupied the fifth place in order of importance among India's imports, the first four being cotton manufactures, machinery and millwork, mineral oils and raw cotton. If such items as machinery and millwork, hardware, cutlery, implements and instruments and vehicles are grouped with metals and manufactures thereof under one head, the total value would aggregate Rs. 32 crores, while the value of yarn and textile fabrics, usually the most important group among India's imports, amounted to Rs. 38 crores in the year under review. In the preceding year the metals group accounted for Rs. 32½ crores, while the textile head totalled Rs. 27 crores.

Iron and steel (Rs. 5,30 lakhs).—The world's production of pig iron in 1932, estimated at 38¾ million tons, was 30 per cent. less than in 1931 and steel output, estimated at 49 million tons, was 28 per cent. less. The biggest declines were registered in the United States, Germany and France, while the decrease in the case of Belgium and Luxemberg was comparatively small. In the United Kingdom the production of pig iron fell by only 5 per cent. from 3.77 million tons in 1931 to 3.57 million tons in 1932, but steel output recorded a small increase of 1 per cent. from 5.20 million tons to 5.26 million tons. Considering the prevailing world depression, it is surprising that the British manufacturers maintained their output to this remarkable extent in spite of the fact that the export trade, particularly with India, suffered from the severe competition from Continental producers.

In India, the imports of all classes of iron and steel, including pig iron and old iron or steel, in 1932-33 were even lower by 12 per cent. than the poor record of the preceding year and amounted to 326,000 tons as compared with 371,000 tons in 1931-32 and 614,000 tons in 1930-31. The year of maximum importation was 1927-28 when 1,197,000 tons of manufactured iron and steel were received. Since then the imports have been steadily declining with a corresponding decrease in the share of the United Kingdom except in 1931-32, when as a result of her departure from the gold standard, the portion of the United Kingdom in the total trade was slightly higher than in the preceding year. In 1932-33, however, there was a set-back and the share of the United Kingdom stood at 43 per cent. as compared with 44.2 per cent. in 1931-32 and 43.8 per cent. in 1930-31. There were also similar decreases in the case of France and the United States of America. On the other hand, the shares of Belgium and Germany were well maintained, being approximately 32 and 7 per cent. respectively as in 1931-32. The efforts made by these two Continental countries to retain the ground in the Indian market led them to cut prices to an extent sufficient to overcome not only the effect of the depreciation of sterling but also the additional duties levied on certain classes of iron and steel materials of non-British origin.

Other metals (Rs. 4,42 lakhs).—Imports of metals, other than iron and steel, rose from 47,000 tons valued at Rs. 3,44 lakhs in 1931-32 to 69,000 tons valued at Rs. 4,42 lakhs in 1932-33, there being an increase under each description of non-ferras metals with the exception of aluminium and lead.

Machinery and millwork (Rs. 11,16 lakhs).—The value of the imports of machinery and millwork declined by 4 per cent. from Rs. 11,57 lakhs in 1931-32 to Rs. 11,16 lakhs in 1932-33. The trade, however, showed a noticeable expansion in some directions, notably under sugar, textile and tea machinery, while in most other branches depressed conditions prevailed. The following table analyses the imports of machinery and millwork according to classes during the last five years :—

	1928-29 Rs. (lakhs).	1929-30 Rs. (lakhs).	1930-31 Rs. (lakhs).	1931-32 Rs. (lakhs).	1932-33 Rs. (lakhs)
Prime-movers	3,04	4,12	2,74	1,56	1,00
Electrical	2,37	2,41	2,39	2,16	1,56
Boilers	1,15	1,09	97	56	45
Metal working (chiefly machine tools).	33	36	30	19	15
Mining	80	61	74	66	38
Oil crushing and refining	40	43	40	35	19

Printing and lithographing presses ..	24	23	14	15	9
Belting for machinery	83	90	64	50	53

Motor vehicles (Rs. 2,43 lakhs).—As might be expected from the state of general trade and the income of the people, the use of motor vehicles was greatly restricted during the year. There was, therefore, a continuation of the decrease in the imports of motor vehicles into India, but of these reduced imports, the percentage share of the United Kingdom showed a noticeable expansion. The improvement in the British proportion in the total importation, which was in evidence since the suspension of the gold standard by Great Britain in September 1931, was greatly accentuated during 1932-33, especially in the latter half of the year. The total imports of motor cars in 1932-33 numbered 6,201 valued at Rs. 1,29 lakhs as compared with 7,220 valued at Rs. 1,48 lakhs in 1931-32 and 12,601 valued at Rs. 2,58 lakhs in 1930-31. The number of British cars advanced from 2,178 or 30 per cent. (valued at Rs. 50½ lakhs) in 1931-32 to 3,958 or 64 per cent. (valued at Rs. 80 lakhs) in 1932-33, of which no fewer than 3,076 cars were imported during the second half of the year. The number of cars imported from the United States of America declined from 3,368, valued at Rs. 65 lakhs to 1,201 valued at Rs. 28½ lakhs and of those from Canada fell from 676 valued at Rs. 10 lakhs to 296 valued at Rs. 6 lakhs. The combined imports from these two countries represented only 24 per cent. of the total number of cars imported in 1932-33 as compared with 56 per cent. in 1931-32 and 66 per cent. in 1930-31. This decrease in the purchases of American cars was due to the exchange handicap and to the growing insistence of buyers for greater economy in the cost of maintenance and operation.

Of the total number of cars imported during the year under review 2,525 cars (3,325) were received in Bombay, 1,634 (1,801) in Bengal, 1,004 (860) in Madras, 642 (824) in Sind and 396 (410) in Burma, the corresponding figures for the preceding year being given in brackets.

The number of motor omnibuses, vans, lorries, etc., imported which had receded from 8,913 valued at Rs. 1,42 lakhs in 1930-31 to 4,302 valued at Rs. 67 lakhs in 1931-32 further declined to 2,676 valued at Rs. 41 lakhs in the year under review. Of the total imports in 1932-33, 93 per cent. or 2,484 represented chassis with a total value of Rs. 33 lakhs as against 62 per cent. or 2,685 valued at Rs. 47 lakhs in 1931-32. Here again the share of the United Kingdom improved at the expense of the United States of America and Canada. The following table shows the number of all classes of motor vehicles registered in the different provinces of British India up to the end of March 1933 :—

Number of motor vehicles registered in British India up to 31st March 1933.

Provinces.	Motor cars, including taxi-cabs.	Motor cycles, including scooters and auto-wheels.	Heavy motor vehicles (lorries, buses, etc.)	Total.
	Number.	Number.	Number.	Number.
Bengal including Calcutta ..	36,861	5,168	4,724	46,753

(*a*) Actually running.
(*b*) Figures relate to the year ending 31st December 1932.

Hardware (Rs. 2,99 lakhs).—The value of the total imports of hardware which had fallen from Rs. 3,60 lakhs in 1930-31 to Rs. 2,61 lakhs in 1931-32 improved, in 1932-33, to Rs. 2,99 lakhs which was still below the pre-War average of Rs. 3,17 lakhs.

Mineral oils (Rs. 6,70 lakhs).—Imports of all kinds of mineral oils into India declined from 216.6 million gallons in 1931-32 to 187.8 million gallons in 1932-33. Imports of kerosene oil decreased from 85.7 million gallons to 59.5 million gallons, and petrol from 13 million gallons to 5 million gallons. Imports of fuel oil rose from 100.8 million gallons to 104.5 million gallons, and batching oil from 7 million gallons to 9 million gallons.

Sugar (Rs. 4,23 lakhs).—Imports of sugar all sorts, excluding molasses, decreased from 516,000 tons in 1931-32 to 370,000 tons in 1932-33, thus showing a decline of 146,000 tons or 28 per cent. The decline in value was from Rs. 6,01 lakhs to Rs. 4,12 lakhs or 31 per cent. The imports in the year 1929-30 were 940,000 tons valued at Rs. 15,52 lakhs. Imports of sugar 23 D. S. and above decreased from 365,000 tons valued at Rs. 4,42 lakhs in 1931-32 to 327,000 tons valued at Rs. 3,67 lakhs in 1932-33. The main fall was in the imports from Java, which amounted to 295,000 tons as compared with 336,000 tons in the preceding year. Imports from the United Kingdom went up from about 4,000 tons to 12,000 tons.

The total amount of beet sugar imported during the year was 41,000 tons valued at Rs. 42 lakhs as compared with 118,000 tons valued at Rs. 1,25 lakhs in the preceding year. Imports from the United Kingdom increased from 19,000 tons valued at Rs. 23 lakhs in 1931-32 to 23,000 tons valued at Rs. 24 lakhs in 1932-33. Imports from Russia, on the other hand, went down from 68,000 tons valued at Rs. 66 lakhs to 9,000 tons valued at Rs. 9 lakhs. Imports from Poland dried up completely and those from Germany amounted to 249 tons only as compared with 15,000 tons and 11,000 tons in the preceding year.

Provisions (Rs. 2,93 lakhs).—Under this comprehensive head, which covers a large variety of articles such as canned and bottled provisions, farinaceous and patent foods, condensed milk, biscuits and cakes, confectionery, bacon and ham, cheese, jams and jellies, pickles

and sauces, butter, cocoa and chocolate, isinglass, ghi, lard and vinegar, the total value of the imports recorded showed a further decline from Rs. 341 lakhs in 1931-32 to Rs. 293 lakhs in 1932-33.

Chemicals (Rs. 2,71 lakhs).—The total imports of chemicals (excluding chemical manures and medicines) in 1932-33 were valued at Rs. 2,71 lakhs, an increase of Rs. 14 lakhs in comparison with 1931-32. Sodium compounds accounted for 47 per cent. of the total imports of chemicals as in 1931-32 and amounted to 1,639,000 cwts. valued at Rs. 1,28 lakhs as compared with 1,515,000 cwts. valued at Rs. 1,21 lakhs in the preceding year. Imports of sodium carbonate amounted to 1,103,000 cwts. (Rs. 65 lakhs) as compared with 1,016,000 cwts. (Rs. 62 lakhs), the United Kingdom, as usual, remaining the chief source of supply. The total consignments of caustic soda, drawn chiefly from the United Kingdom, Russia and the United States of America, rose from 261,000 cwts. valued at Rs. 32 lakhs to 285,000 cwts. valued at Rs. 34 lakhs. Among other descriptions of sodium compounds, the quantities of sodium bichromate, sodium sulphide and borax showed increases part of which was counterbalanced by decreases under sodium silicate, sodium cyanide and sodium bicarbonate. Imports of acids further declined from 29,000 cwts. to 26,000 cwts. in quantity and from about Rs. 8½ lakhs to Rs. 7½ lakhs in value.

Drugs and Medicines (Rs. 1,86 Lakhs).—The total value of drugs and medicines imported recorded a fall of 3 per cent. from Rs. 1,91 lakhs in 1931-32 to Rs. 1,86 lakhs in 1932-33. Imports of camphor fell from 1,933,000 lbs. valued at Rs. 29 lakhs to 1,753,000 lbs. valued at Rs. 25 lakhs.

Paper and Pasteboard (Rs. 2,86 Lakhs).—The total imports of paper and pasteboard increased from 2,191,000 cwts. valued at Rs. 2,50 lakhs in 1931-32 to 2,640,000 cwts. valued at Rs. 2,86 lakhs in 1932-33, of which 2,220,000 cwts. (Rs. 2,49 lakhs) represent paper of all kinds as against 1,915,000 cwts. (Rs. 2,24 lakhs) in the preceding year. Imports of printing paper amounted to 679,000 cwts. valued at Rs. 83 lakhs as compared with 616,000 cwts. valued at Rs. 80 lakhs in 1931-32. Both newsprinting and other kinds of paper recorded increases the former rising from 399,000 cwts. valued at Rs. 45 lakhs to 457,000 cwts. valued at Rs. 47½ lakhs and the latter from 217,000 cwts. valued at Rs. 35 lakhs to 223,000 cwts. valued at Rs. 36 lakhs.

Liquors (Rs. 2,26 Lakhs).—Imports of liquors in 1932-33 did not show any great variation in comparison with the preceding year and totalled 5.4 million gallons valued at Rs. 2,26 lakhs as against 5.7 million gallons valued at Rs. 2,27 lakhs in 1931-32. Compared with 1930-31, the imports showed a much greater decline being less by 25 per cent. in quantity and by 32 per cent. in value. Of the total quantity of liquors imported, ale, beer and porter accounted for 69 per cent. spirit for 28 per cent. and wines for only 3 per cent. Imports of ale, beer and porter remained almost unchanged at 3,718,000 gallons.

Salt (Rs. 79 Lakhs).—The imports of foreign salt by sea into British India advanced by 2 per cent. in quantity from 451,000 tons in 1931-32 to 544,000 tons in 1932-33 and by 10 per cent. in value from Rs. 72 lakhs to Rs. 79 lakhs. With the exception of Aden, the principal source of supply, almost all the other countries sent more than in the preceding year. Of the total quantity imported in 1932-33 nearly 285,000 tons or 52 per cent. came from Aden as compared with 314,000 tons or 70 per cent. of the total in the preceding year. Germany raised her supplies from 26,000 tons to 57,000 tons, Spain from 4,000 tons to 28,000 tons and Italian East Africa from 67,000 tons to 103,000 tons. There were also larger receipts from Egypt which amounted to 40,000 tons as against 15,000 tons in 1931-32, while the United Kingdom slightly reduced her supplies from 26,000 tons to 25,000 tons.

Dyeing and Tanning Substances (Rs. 2,50 Lakhs).—Imports of dyeing and tanning substances showed a decline, the total value amounting in 1932-33 to Rs. 2,50 lakhs, a decrease of Rs. 18 lakhs in comparison with 1931-32 and of Rs. 9 lakhs in comparison with 1930-31. Coal-tar dyes, representing the bulk of the imports under this head, showed a decrease from 17·9 million lbs. valued at Rs. 2,33 lakhs to 13·0 million lbs. valued at Rs. 2,17 lakhs. This set-back was due almost entirely to a decrease in the imports of dyes other than alizarine from 15 million lbs. to 10·6 million lbs. in quantity and from Rs. 2,15 lakhs to Rs. 1,99 lakhs in value. Imports under this head represented 84 per cent. of the total imports of coal-tar dyes as against 83 per cent. in 1931-32. Imports of alizarine dyes showed a decline of about 910,000 lbs. in comparison with the imports of the previous year, which had been returned at 3·2 million lbs. but the value recorded declined slightly from Rs. 18 lakhs to Rs. 17 lakhs.

Spices (Rs. 1,72 Lakhs).—There was a slight increase in the imports of spices, the quantity of which in 1932-33 amounted to 1,272,000 cwts. as against 1,270,000 cwts. in 1931-32. The value, however, showed a further decline from Rs. 2,08 lakhs to Rs. 1,72 lakhs. Betel-nuts showed an increase in quantity from 1,101,000 cwts. to 1,117,000 cwts. but the value fell off from Rs. 1,45 lakhs to Rs. 1,19 lakhs.

Glass and Glassware (Rs. 1,42 Lakhs).—The total value of the imports of glass and glassware amounted to Rs. 1,42 lakhs as compared with Rs. 1,22 lakhs in 1931-32. Almost all the important descriptions under this head recorded improvements. Of the principal countries participating in this trade Japan retained the foremost position and the value of her supplies advanced to Rs. 65 lakhs in 1932-33 from Rs. 42 lakhs in 1931-32 and Rs. 55 lakhs in 1930-31.

Tobacco (Rs. 97 Lakhs).—Imports of unmanufactured tobacco which had improved from 1·6 million lbs. in 1930-31 to 2·8 million lbs. in 1931-32 advanced further to 5·1 million lbs. in the year under review and exceeded those in 1929-30 by half a million lbs. Supplies from the United States of America accounted for 91 per cent. of the total quantity imported in

1932-33 as against 87 per cent. in the preceding year and totalled 4.7 million lbs. as compared with 2.5 million lbs. in 1931-32.

Precious Stones and Pearls (Rs. 84 lakhs).—The trade in precious stones and pearls showed signs of a slight recovery, the value of the consignments having risen from the abnormally low level *viz.*, Rs. 45 lakhs recorded in 1931-32 to Rs. 84 lakhs in 1932-33. Of these, diamonds accounted for Rs. 71 lakhs and pearls, unset for Rs. 10½ lakhs as compared with Rs. 32 lakhs and Rs. 10¾ lakhs respectively in 1931-32. The imports of other precious stones were comparatively small, being valued at Rs. 2½ lakhs in 1932-33 as against Rs. 2 lakhs in the preceding year.

Cement (Rs. 29 lakhs).—Imports of cement showed a further decline from 88,000 tons to 83,000 tons in quantity and from Rs. 41 lakhs to Rs. 29 lakhs in value. The bulk of the consignments during the year came from Japan, supplies from which source amounted to 39,000 tons (Rs. 8 lakhs) as against 29,000 tons (Rs. 9½ lakhs) in 1931-32. There was a further falling off in the contribution of the United Kingdom from 45,000 tons valued at Rs. 25 lakhs to 34,000 tons valued at Rs. 17 lakhs.

Coal (Rs. 6½ lakhs).—Imports of foreign coal declined by 37 per cent. in quantity from 56,000 tons in 1931-32 to 35,000 tons in 1932-33 and by 42 per cent. in value from Rs. 11¼ lakhs to Rs. 6½ lakhs. Bombay, the largest consumer of imported coal, reduced her takings from 28,000 tons to 11,000 tons. The following table shows the sources of the imports of foreign coal during the past five years:—

—	1928-29	1929-30	1930-31	1931-32	1932-33
	Tons	Tons	Tons	Tons	Tons
United Kingdom	39,000	19,000	23,000	24,000	16,000
Natal	105,000	197,000	121,000	23,000	14,000
Japan	1,000	1,000	1,000	1,000	..
Portuguese East Africa ..	21,000	..	5,000	..	..
Australia	1,000	2,000	1,000	4,000	3,000

III.—EXPORTS OF MERCHANDISE.

The following table shows the comparative importance of the principal articles exported from British India:—

EXPORTS.

(*In thousands of Rupees.*)

—	1928-29.	1929-30.	1930-31.	1931-32.	1932-33.	Percentage on total exports of merchandise in 1932-33.

Cotton (Rs. 23.45 Lakhs).—In Indian Cotton crop of the season 1932-33 was estimated at 4,516,000 bales of 400 lbs. each as compared with 4,025,000 bales in the preceding year. The comparatively high parity of Indian cotton led to its gradual replacement by American cotton in Japan and in the Orient in general. The world consumption of Indian cotton for the 12 months ending January 31, 1933 amounted to just over 4 million bales and was far short of the normal annual consumption of 5½ million bales. The high parity thus discouraged the consumption of Indian cotton abroad. Consequently, exports of Indian cotton naturally decreased in the year under review as compared with the preceding year. Exports of Indian cotton in 1932-33 amounted to 2,063,000 bales as compared with 2,369,000 bales in 1931-32 and 4,070,000 bales in 1929-30; and 1932-33 gave the lowest figure of export in the post-War period. The value of the exports amounted to Rs. 20,37 lakhs as compared with Rs. 23,45 lakhs in the preceding year. Japan as usual, was India's biggest customer and her share amounted to 1,085,000 bales valued at Rs. 11,12 lakhs as compared with 1,080,000 bales valued at Rs. 11,05 lakhs in the preceding year. China took only 134,000 bales valued at Rs. 1,33 lakhs as compared with 437,000 bales valued at Rs. 4,52 lakhs. The United Kingdom slightly increased her takings to 167,000 bales valued at Rs. 1,61 lakhs as compared with 166,000 bales valued at Rs. 1,54 lakhs in the preceding year. Exports to Italy declined from 183,000 bales valued at Rs. 1,62 lakhs in 1931-32 to 150,000 bales valued at Rs. 1,44 lakhs in 1932-33. Exports to Belgium, France and Spain rose from 121,000, 81,000 and 45,000 bales to 129,000, 124,000 and 52,000 bales respectively. The following statement gives the monthly exports of Indian

cotton during the last five years together with the pre-War average :—

Exports of Indian cotton in bales of 400 lbs.

(In thousands of Rupees.)

	Pre-war average 1909-14.	1928-29	1929-30	1930-31	1931-32	1932-33
April	303,600	323,600	386,300	424,700	307,300	95,000
May	248,800	372,800	404,900	341,700	283,400	135,400
June	218,900	304,900	382,200	244,500	260,600	121,800
July	190,100	285,200	318,700	258,900	212,300	100,400
August	110,300	216,000	231,300	250,700	259,900	83,300
September	75,300	191,200	211,400	286,800	111,200	163,100
October	66,800	254,000	176,100	223,700	111,300	120,500
November	101,400	175,700	207,200	226,900	135,900	121,500

Cotton Manufactures (Rs. 3,29 Lakhs).—Exports of yarn amounted to 15 million lbs. as compared with 22 million lbs. in the preceding year. The exports of Indian piecegoods declined from 105 million yards to 66 million yards. Exports to most of the countries showed considerable decreases. Persia took only 8 million yards in the year under review as compared with 20 million yards in the preceding year. Similarly, exports to Ceylon amounted to 13 million yards in 1932-33 as compared with 17 million yards in 1931-32. The shares of Iraq, Tanganyika Territory and Arabia declined from 13, 11 and 6 million yards in 1931-32 to 5, 6 and 4 million yards respectively in 1932-33. The shares of most other countries also showed declines.

The total value of the piecegoods exported in 1932-33 declined from Rs. 3,24 lakhs to Rs. 2,09 lakhs. Grey goods accounted for Rs. 13 lakhs, coloured goods Rs. 1,95 lakhs and white goods for a little over Rs. 1 lakh.

Detailed figures of exports for the past three years compared with 1913-14 are given below:—

	1913-14 (pre-war year)	1930-31	1931-32	1932-33
Grey and bleached piece-goods—	Million yards.	Million yards.	Million yards.	Million yards.
Shirtings	2.2	3.9	4.1	1.7
Chaddars and duties	7.6	2.1	2.3	1.9
T. cloth and domestics	21.6	1.3	.6	.4
Drills and jeans	.6	.1	.1	.2
Other sorts	12.2	2.8	1.7	.8
TOTAL ..	44.2	10.2	8.8	5.0
Coloured piece-goods	45.0	87.5	95.8	61.4
TOTAL PIECE-GOODS ..	89.2	97.7	104.6	66.4

Jute and Jute Manufacturers (Rs. 31,44 lakhs).—The total area under jute in 1932 was estimated at 2,143,000 acres as compared with 1,862,000 acres in the preceding year. The yield for the 1932 crop was estimated to be 5,845,000 bales since revised to 7,097,000 bales of 400 lbs. each as against 5,567,000 bales in the preceding year. The total weight of raw and manufactured jute exported during the year amounted to 1,243,000 tons, or 7,000 tons less than in the preceding year. The total value declined from a little over Rs. 33 crores in 1931-32 to nearly Rs. 31½ crores in 1932-33, a drop of Rs. 1½ crores. Raw jute accounted for 31 per cent. of the value and jute manufactures for 69 per cent. as compared with 34 per cent. and 66 per cent. respectively in the preceding year. The following statement compares the quantities exported during the year 1913-14 and each of the past three years:—

	1913-14	1930-31	1931-32	1932-33
Jute (in thousand tons)	768	620	587	563
Bags (in millions)	369	434	389	415
Cloth (in million yards)	1,061	1,271	1,021	1,012

The quantity of raw jute exported was 4 per cent. less than in the preceding year and 27 per cent. less than in the pre-War year 1913-14. Exports of gunny bags increased in number from 389 millions to 415 millions, but those of gunny cloth declined slightly from 1,021 million yards to 1,012 million yards. The production Indian mill consumption and exports of raw jute for the last 20 years are given in table No. 29 and detailed figures of exports of manufactures are given in tables Nos. 30A and 30B.

The total exports of raw jute declined from 587,000 tons valued at Rs. 11 crores in 1931-32 to 563,000 tons valued at Rs. 9¼ crores in 1932-33. Exports to Germany amounted to 123,000 tons valued at Rs. 2,14 lakhs in 1932-33 as compared with 131,000 tons valued at Rs. 2,44 lakhs in 1931-32. The share of the United Kingdom in the year under review decreased to 130,000 tons valued at Rs. 2,24 lakhs from 154,000 tons valued at Rs. 3,11 lakhs. Exports to France amounted to 69,000 tons valued at Rs. 1,16 lakhs in 1932-33 as compared with 52,000 tons valued at Rs. 99 lakhs in 1931-32. Spain took 42,000 tons as compared with 36,000 tons in the preceding year, whereas the United States of America, Italy and Belgium reduced their shares from 49,000, 44,000 and 46,000 tons to 36,000, 37,000 and 39,000 tons respectively.

Foodgrains and flour (Rs. 16,08 lakhs).—The exports under this head declined considerably in the year under review, both in quantity and value, as compared with the preceding year. The total quantity of foodgrains and flour exported amounted to 2,056,000 tons valued at Rs. 16,08 lakhs as compared with 2,614,000 tons valued at Rs. 20,37 lakhs in the preceding year. Exports of rice declined from 2,372,000 tons to 1,887,000 tons. Consignments of wheat dwindled to the paltry figure of 2,000 tons as compared with 20,000 tons in the preceding year and 197,000 tons in 1930-31. Decreases were also noticeable in the shipments of wheat flour, barley, and jowar and bajra from 43,000, 27,000 and 59,000 tons in 1931-32 to 21,000, 17,000 and 16,000 tons respectively in 1932-33. The only increase in exports was in the case of pulses from 93,000 tons to 111,000 tons. There were no exports of maize as in the preceding year.

Tea (Rs. 17,15 lakhs).—The total production of tea in India in 1932 was estimated, as remarked above, at 433 million lbs. as compared with 394 million lbs. in 1931, 391 million lbs. in 1930 and 433 million lbs. in 1929. As usual, Assam contributed the largest share, *viz.*, 257 million lbs. or 60 per cent. of the total output and Southern India 62 million lbs. or 14 per cent. Production in Assam increased by 13.8 million lbs. and in the rest of Northern India by about 19.6 million lbs. The total area under tea in 1932 was 807,500 acres as against 806,700 acres in 1931.

The total shipments of tea during the year recorded an advanced of 11 per cent. in quantity, but the value fell by 12 per cent. There were no exports of green tea during the year and the entire quantity of 379 million lbs. consisted of black tea. Exports to the United Kingdom improved from 291 million lbs. to 331 million lbs., but the value recorded a decline from Rs. 17 crores to Rs. 15 crores. The share of the United Kingdom was 87 per cent. of India's total exports as compared with 85 per cent. in the preceding year. Re-exports of Indian tea from the United Kingdom amounted to 40 million lbs. in 1932-33 as against 50 million lbs. in 1931-32. Stocks in London amounted to 187 million lbs. at the end of the year as compared with 139 million lbs. at the corresponding date of the preceding year. Re-exports of Indian tea from the United Kingdom to the Irish Free State were 14.6 million lbs. as against 17.8 million lbs. a year ago. Re-exports to Russia amounted to 6.3 million lbs. in the year

under review as compared with 3.8 million lbs. in the preceding year. Direct shipments to Russia recorded a slight decline from 3.5 million lbs. to 2.9 million lbs. in 1932-33. Thus the total exports of Indian tea to Russia advanced from 7.3 million lbs. in 1931-32 to 9.2 million lbs. in 1932-33. From the London market other European countries took Indian tea to the extent of 8.7 million lbs. as compared with 10.8 million lbs. in the preceding year. Re-exports from the United Kingdom to the United States of America contracted from 7.9 million lbs. in 1931-32 to 6 million lbs. in 1932-33. Direct shipments to the United States of America, however, advanced from 9.8 million lbs. to 11.1 million lbs. Thus the total exports to the United States of America declined slightly from 17·7 million lbs. to 17·1 million lbs. Re-exports from the United Kingdom to Canada and Newfoundland fell from 6·9 million lbs. in 1931-32 to 3·2 million lbs. in the year under review. Direct shipments to Canada, however, showed an increase from 14·1 million lbs. to 16·7 million lbs. Exports to China fell away from 1·2 million lbs. to 4,500 lbs. only. Exports to Australia, including New Zealand also dropped from 3·5 million lbs. to 2·8 million lbs. and to Egypt from 3·3 million lbs. to 2 million lbs. Exports to Persia declined from 2 million lbs. to 1·5 million lbs.

Exports of tea by sea to foreign countries.

—	1906-07	1915-16	1927-28	1928-29	1929-30	1930-31	1931-32	1932-33
	lbs. (1,000)	lbs. (1,000)	lbs. (1,000)	lbs. (1,000)	lbs. (1,000)	lbs. (1,000)	lbs. (1,000)	lbs. (1,000)
From Northern India (Calcutta and Chittagong).	217,931	301,403	315,109	369,845	326,363	307,147	295,294	323,825

Oilseeds (Rs. 11,31 lakhs).—The total exports of Indian oilseeds declined by 26 per cent. in quantity from 988,000 tons in 1931-32 to 733,000 tons in 1932-33 and by 22 per cent. in value from Rs. 14,59 lakhs to Rs. 11,31 lakhs. An examination of the detailed figures given on the margin shows that there has been a substantial decline in the exports of all the principal oil-bearing seeds with the exception of rapeseed.

The following are the quantities of oilseed exported in recent years :—

—	Pre-war average.	1930-31.	1931-32.	1932-33
	(Thousands of tons.)			
Linseed ..	379	257	120	72

Copra ..	31	..	..	..
Others ..	85	13	14	15
TOTAL ..	1,453	1,037	988	733

Hides and Skins (Rs. 7,43 lakhs).—The trade under this head has been progressively smaller in the last two or three years. The total value of the trade has fallen from Rs. 8,92 lakhs in 1931-32 to Rs. 7,43 lakhs in the year under review, a fall of 16 per cent. The main reason for this decline, as explained in earlier issues of this Review, is the trade depression, which led to a reduction in the demand for hides and skins. The average declared value for raw hides and skins declined from 7 as. 9 p. to 7 as. 2 p., whereas in the case of tanned hides and skins, the decline was from Rs. 1-7-10 per lb. to Rs. 1-7-0 per lb. Shipments of raw hides and skins during the year amounted to 27,300 tons valued at Rs. 2,77 lakhs as compared with 33,600 tons valued at Rs. 3,66 lakhs in the preceding year. Exports of raw hides declined from 16,600 tons valued at Rs. 91 lakhs in 1931-32 to 13,300 tons valued at Rs. 63 lakhs in 1932-33. Exports of raw skins declined in weight from 16,500 tons to 13,300 tons. The total value of the consignments declined from Rs. 2,74 lakhs in 1931-32 to Rs. 2,14 lakhs in 1932-33. Exports of tanned or dressed hides or skins decreased from 15,700 tons valued at Rs. 5,26 lakhs in 1931-32 to 14,500 tons valued at Rs. 4,66 lakhs in 1932-33. Exports of tanned hides amounted to 9,000 tons valued at Rs. 1,62 lakhs in the year under review as compared with 10,300 tons valued at Rs. 2,13 lakhs in the preceding year. There was a slight increase in the exports of tanned skins from 5,400 to 5,500 tons, but the value showed a decline from Rs. 3,14 lakhs in 1931-32 to Rs. 3,04 lakhs in 1932-33.

Lac (Rs. 1,24 lakhs).—Business in the lac markets abroad continued to decline, the depressed conditions in the large consuming industries being pronounced throughout the year

The total exports of lac fell by 10 per cent. in quantity from 464,000 cwts. in 1931-32 to 418,000 cwts. in 1932-33 and by 33 per cent. in value from Rs. 1,84 lakhs to Rs. 1,24 lakhs. the decrease being noticeable in the case of shellac, button lac and stick lac.

Raw Wool (Rs. 1,23 lakhs).—The trade in Indian raw wool received a setback, the exports falling from 41 million lbs. to 32 million lbs. in quantity and from Rs. 2,77 lakhs to Rs. 1,23 lakhs in value. Of the total quantity shipped the United Kingdom took 28 million lbs. or 87 per cent. as compared with 35 million lbs. or 85 per cent. in the preceding year, while the remainder went mainly to the United States of America and, to a less extent, to Germany and other Continental countries. Besides Indian wool, a fairly large quantity of foreign wool of Tibetan and Central Asian origin is imported across the frontier and then re-exported from India.

Oils (Rs. 54 lakhs).—The total exports of oils, consisting mostly of vegetable oils, were valued at Rs. 54 lakhs in 1932-33 as compared with Rs. 57 lakhs in 1931-32. Shipments of vegetable oils increased from 1,900,000 gallons valued at Rs. 30 lakhs to 2,444,000 gallons valued at Rs. 38 lakhs. Exports of castor oil continued to increase and amounted to 1,125,000 gallons valued at Rs. 17 lakhs as compared with 982,000 gallons valued at Rs. 15 lakhs in the preceding year and 477,000 gallons valued at Rs. 9 lakhs in 1930-31. Exports of groundnut oil showed a remarkable expansion and totalled 917,000 gallons in 1932-33 as compared with 455,000 gallons in 1931-32 and 166,000 gallons in 1930-31. Despatches of coconut oil declined from 36,000 gallons in 1931-32 to 29,000 gallons in 1932-33.

Metals and Ores (Rs. 4,68 lakhs).—The total exports of ores amounted to 227,000 tons valued at Rs. 1,36 lakhs in 1932-33 as compared with 235,000 tons valued at Rs. 1,47 lakhs in 1931-32. Exports of manganese ore which represent about 87 per cent. of the total quantity of ores exported were even lower than the poor record of the preceding year and totalled 198,000 tons as compared with 212,000 tons in 1931-32 and 486,000 tons in 1930-31. As usual, France was the largest purchaser, but she reduced her takings from 80,000 tons to 75,000 tons. Shipments to Belgium also declined from 35,000 tons to 32,000 tons. Exports to the United Kingdom, which had fallen from 114,000 tons in 1930-31 to 54,000 tons in 1931-32, improved to 55,000 tons in the year under review. A noticeable feature of the trade was the increased participation of Japan, which took 31,000 tons in 1932-33 as against 6,000 tons in the preceding year. There were smaller shipments to Germany and the Netherlands, amounting to 1,300 tons and 2,000 tons respectively. Exports to the United States of America, which had declined from 49,000 tons in 1930-31 to 28,000 tons in 1931-32, ceased altogether in the year under review. The export trade in manganese ore was largely confined to Bengal and Bombay, the former accounting for 69 per cent. and the latter 23 per cent. as compared with 70 and 30 per cent. respectively in the preceding year, the remainder being shipped from Madras. There were no exports of ferro-manganese and ferruginous manganese ore during 1932-33.

Exports of pig iron further declined by 38 per cent. in quantity from 351,000 tons in 1931-32 to 218,000 tons in 1932-33 and by 40 per cent. in value from Rs. 1,23 lakhs to Rs. 74 lakhs. Normally, Japan is the best purchaser of Indian pig iron, but her takings were considerably reduced from 188,000 tons in 1931-32 to 72,000 tons in the year under review. It may be pointed out that in June 1932 Japan raised the import duty on pig iron from 1·70 yen to 6·00 yen per ton. India has been the principal exporter of this material to Japan and the enhancement of the duty has led to a substantial reduction of exports to that country. Exports to the United States of America also declined from 108,000 tons in 1930-31 to 51,000 tons in 1931-32 and further to 33,000 tons in 1932-33. These losses were to some extent compensated by increased shipments to the United Kingdom, which amounted to 76,000 tons in 1932-33 as against 69,000 tons in the preceding year. Exports to China also showed an advance from 15,000 tons to 17,000 tons, while those to Germany declined from 13,000 tons to 8,000 tons. The following table shows the production of pig iron and steel in India during the past three years:—

(In thousand tons.)

——	1930-31.	1931-32.	1932-33.
Production of pig iron	1,140	1,070	880
,, ,, steel (ingots)	625	602	591
Production of finished steel	434	450	427

Other Exports.—Other important exports from India include paraffin wax (Rs. 2,02 lakhs); oilcakes (Rs. 1,96 lakhs); Coffee (Rs. 1,10 lakhs); spices (Rs. 72 lakhs); teakwood (Rs. 40 lakhs); dyeing and tanning substances (Rs. 75 lakhs); unmanufactured tobacco (Rs. 73 lakhs).

Index Numbers of Prices.

The Director General of Commercial Intelligence, Calcutta, publishes from time to time an addendum to the publication Index Numbers of Indian Prices 1861-1926 which brings up-to-date (1) the unweighted index numbers of 28 exported articles; (2) the unweighted index numbers of 11 imported articles; (3) the general un-weighted index number for 39 articles and (4) the weighted index numbers of 100 articles on base 1873-100.

The following table contains these index numbers since the year 1925 :—

Year.	Exported articles 28 (un-weighted).	Imported articles 11 (un-weighted).	General Index No. for all (39) Articles (un-weighted).	Weighted Index No. (100) Articles equated to 100 for 1873.
1925	233	211	227	265
1926	225	195	216	260
1927	209	185	202	258
1928	212	171	201	261
1930	216	170	203	254
1931	177	157	171	213
1932	125	140	128	..
.. .. ..	120	144	..	..

Besides the above wholesale price index numbers, the Director General of Commercial Intelligence, Calcutta, compiles a wholesale price index number for Calcutta while the Bombay Labour Office compiles similar statistics for Bombay and Karachi.

The following table gives these index numbers since 1925.

Wholesale price index numbers for Calcutta, Bombay and Karachi (*Base* 1914).

Year.	Calcutta.	Bombay.	Karachi.
1925	159	163	151
1926	148	149	140
1927	148	147	137
1928	145	146	137
1930	141	145	133
1931	116	126	108
1932	96	109	95
1933	91	109	99
.. ..	87	98	97

About the end of the year 1929 there began a sharp decline in wholesale prices which continued during 1930 and 1931. During 1932 although wholesale prices were slightly lower than in 1931, the fluctuations were within narrow limits. In 1933 prices again recorded a considerable fall.

The various Provincial Governments publish in their respective *Gazettes* fortnightly and monthly statements of retail and wholesale prices of certain important commodities. In addition to these, however, some of the Provincial Governments also publish working class cost of living index numbers. Such index numbers are being published regularly every month for the following centres; for Bombay, Ahmedabad, and Sholapur by the Labour Office of the Government of Bombay; for Nagpur and Jubbulpore by the Department of Industries, Central Provinces and Berar; for seven centres in Bihar and Orissa by the Department of Industries, Bihar and Orissa, and for Rangoon by the Office of the Director of Statistics and Labour Commissioner, Burma, Rangoon.

The Bombay working class *cost of living* Index number with base July 1914-100 stood at 931 in December 1933, the average for the year being 103. The Ahmedabad cost of Living index number with base August 1926 to July 1927-100 stood at 71 in December 1933 while the Sholapur cost of living index number with base February 1927 to January 1928-100 stood at 68 in December 1933. The Nagpur cost of living index number on base January 1927-100 was 59 in November 1933 while the Jubbulpore Index on the same base was 55. For Rangoon, four different index numbers with base 1931-100 are compiled for (*a*) Burmese, (*b*) Tamils, Telugus and Oriyas, (*c*) Hindustanis and (*d*) Chittagonians. The Index Number in December 1933 for these were 88, 91, 91 and 87 respectively.

The catastrophic fall in prices which commenced at the end of 1929 continued also during 1931 although with less vigour than in 1930. In 1932 prices ruled at a slightly lower level than in 1931. In 1933 the downward tendency of prices continued.

The inadequacy as also the general unreliability of Indian price statistics has been the subject of comment by many committees and commissions of enquiry and the majority of the Indian Economic Enquiry Committee of 1925 made many suggestions for the improvement of price statistics and advocated the passing of a Census and Statistics Act. This latter suggestion was also endorsed by the Whitley Commission on Indian Labour and the Government of India have already taken up the consideration of the subject. It is to be hoped that Messrs. Bowley and Robertson who have recently arrived here at the invitation of the Government of India will make recommendation for putting Indian price statistics on a sound footing.

Air Routes.

Imperial Airways service provides through transport from Karachi to Europe and London, arriving at Karachi from Europe each Thursday evening where it connects with Indian Trans-Continental Airways whose service departs from Karachi on Thursday evening reaching Jodhpur the same night. Leaving Jodhpur on Friday morning, it proceeds *Via* Delhi and Allahabad, arriving at Calcutta on Friday evening. On Saturday morning it leaves for Rangoon and Singapore.

From Calcutta, Indian National Airways operate a daily service to Dacca and a bi-weekly service to Rangoon *via* intermediate ports.

In the reverse direction, through air transport is provided from Singapore to Karachi by Indian Trans-Continental Airways and on to Europe and London by Imperial Airway's westbound service, leaving Karachi each Wednesday morning.

The Tata Air Mail Service connects at Karachi with Imperial Airway's Eastbound and Westbound services and provides through air transport to Ahmedabad, Bombay, Bellary and Madras.

The following are the Time Tables for the various services :—

East Bound.

		Time (Local (Standard.)	Day.
London, (*Croydon*) ..	Dep.	12.30	Sat.
Paris	Dep.	17.15	,,
Cairo	Dep.	03.00	Tues.
Baghdad	Dep.	03.00	Wed.
Karachi	Arr.	Afternoon	Thurs.

Imperial Airways.

West Bound.

Karachi	Dep.	09.00	Wed.
Baghdad	Dep.	04.30	Fri.
Cairo	Dep.	04.30	Sat.
Paris	Dep.	09.30	Mon.
London, (*Croydon*) ..	Arr.	11.45	,,

Intermediate calls are made at Brindisi, Athens, Mirabella, Alexandria, Gaya, Rutbah, Basra, Koweit, Bahrein, Sharjah and Gwadah in both directions.

The fares from Karachi are as follows :— to Baghdad, £34 ; to Athens £71 ; to London £95. The through fare from Karachi to London allows for a weight of 100 kilos (221 pounds) per passenger, and a passenger is entitled to free conveyance of luggage to the extent of the difference between his own weight and the 221 pounds mentioned above.

If the difference between the weight of the passenger and 221 lbs. is less than 30 lbs. an additional 33 lbs. of luggage may be carried free. The rate for excess luggage is just over twelve shillings per kilo. Children in arms are weighed with and carried under the same tickets as their mothers or nurses, and other children are charged full fare.

Tata Air Mail.

Africa and the Far East.

Several new air services which are of considerable importance to India have been inaugurated, and of these the most notable is the England-Africa service which connects with the England-India service at Cairo to and provides an entirely new route between Delhi and South Africa.

Other important air lines established are the French service between Paris and Saigon and the Dutch service between Amsterdam and Batavia, both of which pass through Baghdad and Karachi.

Baghdad, in particular, is developing rapidly in importance and it is said, not without reason, that it will soon become the Clapham Junction of the air. This will certainly be the case if the projected services from Persia and Russia materialise.

The proposed extension of the England-India Air Mail to Australia is expected to be brought into operation shortly and a service already operates as far as Singapore.

The Indian Stores Department.

A detailed account of the organisation of the Indian Stores Department at Government of India headquarters and of the successive orders issued by Government to assure as far as possible the purchase of stores of Indian manufacture or in India is to be found in earlier issues of the Indian Year Book. The current rules to regulate stores purchase prescribe that preference in making purchases shall be given in the following order :—

First, to articles which are produced in India in the form of raw materials or are manufactured in India from raw materials produced in India, provided that the quality is sufficiently good for the purpose ;

Second, to articles wholly or partially manufactured in India from imported materials, provided that the quality is sufficiently good for the purpose.

Third, to articles of foreign manufacture held in stock in India provided they are of suitable type and quality requisite.

Fourth, to articles manufactured abroad which need to be specially imported.

The new rules were calculated materially to widen the scope of operations of the Department.

The total value of orders placed by the Department during the year 1932-33, the latest period for which figures are yet available, was Rs. 3,30,90,903, as compared with Rs. 3,60,00,006 during 1931-32. The fall in business was a result of the all round contraction and this was a direct consequence of the curtailment of the activities of the Spending Department imposed by prevailing conditions of trade depression and aggravated by a further drop in commodity prices.

As a result of the close observance of the Rupee Tender Rules by departments of the Central Government and other provincial governments, the number of stores indents submitted for sending to the Director General in India Store Department, London, was 835 and their value Rs. 70,36,880 against 951 for stores valued at Rs. 93,84,301 in the preceding year.

The Department continued throughout the year to assist manufacturers in India to improve the quality of their products. The means adopted included technical advice and suggestions. Every endeavour was made to substitute supplies of indigenous manufacture, wherever possible, without sacrificing economy and efficiency. Among the more notable instances of developments in this direction the Department in their annual report give foremost place to the textile industry.

The final accounts of the Department for the year 1931-32 closed with a total revenue of Rs. 13,84,370 and expenditure of Rs. 24,89,699 showing nett deficit of Rs. 11,05, 329. The expenditure of the year 1932-33 is provisionally shown at Rs. 21,67,056. The reduction which the figures indicate, in spite of a normal growth of expenditure, due to annual increments estimated at Rs. 40,000 per annum, was produced by vigorous retrenchment measures. There was, however, a heavy fall on the credit side of the account, the total earnings amounting to Rs. 10,14,439 as against Rs. 13,84,370.

The question of definitely declaring the Department to be a commercial or service undertaking was under consideration of Government and they decided in January 1930 that it could not for the present be declared a commercial undertaking, as some of its activities were admittedly not a of a commercial character, and that it should therefore be treated as a public service department.

Bombay Stamp Duties.

	Rs.	a.
Acknowledgment of Debt ex. Rs. 20 ..	0	1
Affidavit or Declaration	2	0
Agreement or Memo. of Agreement—		
(a) If relating to the sale of a bill of exchange

Exc. Rs. 100 & does not exc. Rs. 200	1	0
Exc. Rs. 200 & does not exc. Rs. 300	2	4
Up to Rs. 1,000, every Rs. 100 or part	0	12
For every Rs. 500 or part, beyond Rs. 1,000	3	2
Bond, Administration, Customs, Security or Mortgage Deed—For amount not exceeding Rs. 1,000, same duty as a Bond.		
In any other case..	10	0
Cancellation	5	0
Certificate or other Document relating to Shares	0	2
Charter Party	2	0
Cheque and demand drafts are exempt from stamp duty with effect from 1st July 1927.		
Composition—Deed	20	0
Conveyance, not being a Transfer—		
Not exceeding Rs. 50	0	8
Exceeding Rs. 50 not exceeding Rs. 100	1	0
Exceeding Rs. 100 but does not exceed Rs. 200	2	0
Exceeding Rs. 200 but does not exceed Rs. 300	4	8
For every Rs. 100 or part in excess of Rs. 100 up to Rs. 1,000	1	8
For every Rs. 500, or part thereof, in excess of Rs. 1,000..	7	8

Conveyance relating to immoveable property situate *within the cities of* Bombay, Ahmedabad, Poona and Karachi, for the entries in article 23 the following entries shall be substituted, namely :—

23. Conveyance (as defined by section 2 (10) not being a Transfer charged or exempted under No. 62—

	1 Bombay. Rs.	a.	2 Ahmedabad, Poona & Karachi. Rs.	a.
Where the amount or value of the consideration for such conveyances as set forth therein does not exceed Rs. 50	0	8	0	8
Where it exceeds Rs. 50 but does not exceed Rs. 100 ..	1	0	1	0
Where it exceeds Rs. 100 but does not exceed Rs. 200 ..	2	0	2	0
Where it exceeds Rs. 200 but does not exceed Rs. 300 ..	8	8	6	8
Where it exceeds Rs. 300 but does not exceed Rs. 400 ..	12	0	9	0
Where it exceeds Rs. 400 but does not exceed Rs. 500 ..	15	8	11	8
Where it exceeds Rs. 500 but does not exceed Rs. 600.	19	0	14	0
Where it exceeds Rs. 600 but does not exceed Rs. 700 ..	22	8	16	8
Where it exceeds Rs. 700 but does not exceed Rs. 800 ..	26	0	19	0
Where it exceeds Rs. 800 but does not exceed Rs. 900 ..	29	8	21	8
Where it exceeds Rs. 900 but does not exceed Rs. 1,000..	33	0	24	0
And for every Rs. 500 or part thereof in excess of Rs. 1,000	17	8	12	8

	Rs.	a.
Copy of Extract—If the original was not chargeable with duty, or if duty with which it was chargeable does not exceed 1 Rupee	1	0
In any other case	2	0
Counterpart or Duplicate—If the duty with which the original instrument is chargeable does not exceed two rupees—The same duty as is payable on the original. In any other case	2	0
Delivery Order	0	1
Entry in any High Court of an Advocate or Vakil	500	0
In the case of an Attorney	500	0
Instrument—Apprenticeship	10	0
Divorce	5	0
Other than Will, recording an adoption or conferring or purporting to confer Authority to adopt	20	0
Lease—Where rent is fixed and no premium is paid for less than 1 year, same duty as Bond for whole amount; not more than 3 years, same as Bond for average annual rent reserved; over 3 years, same as Conveyance for consideration equal to amount or value of the average annual rent reserved; for indefinite term, same as Conveyance for a consideration equal to the amount or value of the average annual rent which would be paid or delivered for the first ten years if the lease continued so long; in perpetuity, same as Conveyance for consideration equal to one-fifth of rents paid in respect of first 50 years. Where there is premium and no rent, same as Conveyance for amount of premium; premium with rent, same as Conveyance or amount of premium in addition to the duty which would have been payable on the lease if no fine or premium or advance had been paid or delivered.		
Letter—Allotment of Shares	0	2
Credit	0	2
License	10	0
Memo. of Association of Company—If accompanied by Articles of Association	80	0
If not so accompanied	80	0
Notarial Act	2	0
Note or Memo. intimating the purchase or sale—		
(*a*) Of any Goods exc. in value Rs. 20.	0	4
(*b*) Of any Stock or marketable Security exceeding in value Rs. 20—a. 2 for every Rs. 5,000, or part.		
(*bb*) Of Government Security—Subject to a maximum of Rs. 20, 2 as. for every Rs. 10,000, or part.		
Note of Protest by a Ship's Master ..	1	0
Partnership—Where the capital does not exceed Rs. 500	5	0
In any other case	20	0
Dissolution of	10	0
Policy of Insurance—		
(1) *Sea*—Where premium does not exceed rates of 2a., or $\frac{1}{8}$ per cent. of amount insured	0	1
In any other case for Rs. 1,000 or part thereof	0	1
(2) *For time*—For every Rs. 1,000 or part insured, not exc. 6 months ..	0	2
Exceeding 6 and not exceeding 12 months	0	4
If drawn in duplicate, for each part.—Half the above rates, for Sea and Time.		
(3) *Fire*—When the sum insured does not exceed Rs. 5,000..	0	8
In any other case	1	0
In respect of each receipt for any payment of a premium on any renewal of an original policy—One-half of the duty payable in respect of the original policy in addition to the amount, if any chargeable under Art. 53 (*Receipt*).		
(4) *Accident and Sickness*—Against Railway accident, valid for a single journey only	0	1
In any other case—for the maximum amount which may become payable in the case of any single accident or sickness where such amount does not exceed Rs. 1,000, and also where amount exc. Rs. 1,000, for every Rs. 1,000 or part	0	2
(5) *Life, or other Insurance, not specifically provided for*—		
For every sum not exceeding Rs. 250	0	2
Exceeding Rs. 250 but not exceeding Rs. 500	0	4
For every sum insured not exceeding Rs. 1,000 and also for every Rs. 1,000 or part	0	6
If drawn in duplicate for each part half the above rates.		
Insurance by way of indemnity against liability to pay damages on account of accidents to workmen employed by or under the insurer or against liability to pay compensation under the Workmen's Compensation Act of 1923. For every Rs. 100 or part payable as premium ..	0	1
In case of a re-insurance by one Company with another—$\frac{1}{4}$ of duty payable in respect of the original insurance, but not less than 1 anna, or more than 1 Re.		
Policies of all classes of Insurance not included in Article 47 of Schedule I of Stamp Act of 1899 covering goods, merchandise, personal effects, crops and other property against loss or damage, are liable to the same duty as Policies of Fire Insurance.		
Power of Attorney—		
For the sole purpose of procuring the registration of one or more documents. In relation to a single transaction or for admitting execution of one or more such documents	1	0
When required in suits or proceedings under the Presidency Small Causes Courts Act, 1882	1	0
Authorising 1 person or more to act in a single transaction other than that mentioned above	2	0
Authorising not more than 5 persons to act jointly and severally in more than 1 transaction, or generally ..	10	0

	Rs.	a.
Authorising more than 5 but not more than 10 persons to act	20	0
When given for consideration and authorising the Attorney to sell any immovable property—The same duty as a *Conveyance* for the amount of the consideration.		
In any other case, for each person authorised	2	0
Promissory Notes—		
(*a*) When payable on demand—		
(i) When the amount or value does not exceed Rs. 250	0	1
(ii) When the amount or value exceeds Rs. 250 but does not exceed Rs. 1,000	0	2
(iii) In any other case	0	4
(*b*) When payable otherwise than on demand—The same duty as a Bill of exchange for the same amount payable otherwise than on demand.		
(It is important that only *one* stamp of the correct denomination should be used).		
Protest of Bill or Note	2	0
Protest by the Master of a Ship	2	0
Proxy	0	2
Receipt for value exc. Rs. 20	0	1
Reconveyance of mortgaged property—		
(*a*) If the consideration for which the property was mortgaged does not exceed Rs. 1,000—the same duty as a bond for the amount of such consideration as set forth in the Reconveyance.		
(*b*) In any other case	10	0
Release—that is to say, any instrument whereby a person renounces a claim upon another person or against any specified property—		
(*a*) If the amount or value of the claim does not exceed Rs. 1,000—The same duty as a Bond for such amount or value as set forth in the Release.		
(*b*) In any other case	10	0
Revpondentia Bond—The same duty as a Bond for the amount of the loan secured.		
Security Bond—(*a*) When the amount secured does not exceed Rs. 1,000—The same duty as a Bond for the amount secured.		
(*b*) In any other case	10	0
Settlement—The same duty as a Bond (but in its application to the cities of Bombay, Ahmedabad, Poona and Karachi the same duty as a conveyance if the property set apart is immoveable and the purpose is one other than charitable or religious) for the sum equal to the amount or value of the property —settled as set forth in such settlement.	10	0
Revocation of Settlement.—The same duty as a Bond (but in its application to the cities of Bombay, Ahmedabad, Poona and Karachi the same duty as a conveyance if the property set apart is immoveable and the purpose is one other than charitable or religious) for a sum equal to the amount or value of the property concerned as set forth in the instrument of revocation but not exceeding ten rupees.		

	Rs.	a.
Share-warrant to bearer issued under the Indian Companies Act.—One and a half times the duty payable on a conveyance for a consideration equal to the nominal amount of the shares specified in the warrant.		
Shipping Order	0	1
Surrender of Lease—When duty with which lease is chargeable does not exceed Rs. 5—The duty with which such Lease is chargeable.		
In any other case	5	0
Transfers of Shares—One-half of the duty payable on a Conveyance for a consideration equal to the value of the share.		
Transfer of any Interest secured by a Bond, Mortgage-deed, or Policy of Insurance—If duty on such does not exceed Rs. 10—The duty with which such Bond, &c., is chargeable.		
In any other case	10	0
—of any property under the Administrator General's Act, 1874, Section 31.	10	0
—of any trust property without consideration from one trustee to another trustee or from a trustee to a beneficiary—Five rupees or such smaller amount as may be chargeable for transfer of shares.		
Transfer of Lease by way of assignment and not by way of under-lease—The same duty as a conveyance for a consideration equal to the amount of the consideration for the transfer.		
Trust, Declaration of—Same duty as a Bond for a sum equal to the amount or value of the property concerned, but not exceeding	15	0
Revocation of—Ditto, but not exceeding	10	0
Warrant for Goods	0	8

N. B.—The following Press Note issued by the Director of Information, Bombay, on 28th November 1933, is republished for information of the public :—

"At present ½ Anna, 1 Anna, 2 Annas and 4 Annas unified stamps (marked 'India Postage and Revenue') are used for purposes of postage as well as for stamping certain documents *e.g.*, receipts. Government have decided that these stamps should be abolished from 1st April 1934 and that in their place separate stamps for postage and revenue respectively should be introduced. From 1st April 1934 the new postal stamps cannot be used for revenue purposes and the new revenue stamps cannot be used for postal purposes.

"With a view to accustom the public to this change, Government have decided to introduce, during the period from 1st January 1934 to 31st March 1934, special overprinted revenue stamps concurrently with the existing unified stamps. During this period it will be open to the public to use either the special overprinted revenue stamps (marked 'Bombay Revenue') or the unified stamps (marked 'India Postage and Revenue') for the purpose of stamping documents. After 31st March 1934, the new stamps mentioned in paragraph 1 of this Press Note must be used. The special overprinted revenue stamps and the new revenue stamps to be introduced from 1st April 1934 will be available for sale at all post offices.

The Indian National Congress.

For a complete history of the movement represented by the Indian National Congress the reader is referred to earlier editions of the Indian Year Book. The Congress was founded in 1885 by Mr. Allan Octavian Hume, a retired member of the Indian Civil Service, and it held its first session in Bombay at Christmas of that year, the fundamental principles of the Congress were laid down to be :—

Firstly, the fusion into one national whole of all the different and discordant elements that constitute the population of India;

Secondly, the gradual regeneration, along all lines, mental, moral, social and political of the nation thus evolved; and

Thirdly, the consolidation of union between England and India by securing the modification of such of the conditions as may be unjust or injurious to the latter country.

With these objects in view the Congress pursued an uneventful career until 1907. It undoubtedly exercised a great influence in inducing a spirit of national unity amongst the diverse peoples of India, in focussing the chief political grievances, and in providing a training ground for Indian politicians. But in 1907 the Extremists, chiefly of the Deccan and the Central Provinces, who had for some time chafed under the control of the older generation, succeeded in wrecking the Surat session of the Congress and produced a split which had long been seen to be imminent. The senior members of the Congress therefore re-crystallised its creed in definite terms. They laid down that—

"The objects of the Indian National Congress are the attainment by the people of India of a system of Government similar to that enjoyed by the self-governing members of the British Empire, and a participation by them in the rights and responsibilities of the Empire on equal terms with those members. These objects are to be achieved by constitutional means by bringing about a steady reform of the existing system of administration and by promoting national unity, fostering public spirit and developing and organising the intellectual, moral, economic and industrial resources of the country."

For some years following 1907 efforts were made to heal the split and these were without avail until 1916 when a re-united Congress met at Lucknow under the presidency of Babu Ambica Charan Muzumdar of Faridpur in Bengal. But the union then effected was purely superficial; the difference between the Moderates and the Extremists was fundamental; the Extremists captured the machinery of the Congress and from the period of the special session held at Calcutta in September 1920 the Congress passed entirely under the domination of Mr. Gandhi and his lieutenants. In 1927 the Congress actually adopted independence as the goal of India. In the following two years the Congress made what the extreme leftists described as a climb-down, while the Liberals moved towards the left, with the result that for a time there appeared to be a commonness of purpose between the Liberals and Congressmen. At its 1928 Session the Congress, while adhering to Independence, agreed to accept Dominion Status if granted, before the end of 1929. Things were tending towards a satisfactory settlement when in the latter half of 1929 the Congress insisted on the immediate grant of Dominion Status or an assurance that Dominion Status would be the basis of discussion at the Round Table Conference to be convened in England between representatives of England and the two Indias. Here was the parting of the ways. The Liberals went their way and the Congress its own. In fulfilment of the "ultimatum" issued at its previous Session, the Congress, at its 1929 Session, declared for complete independence or "Purna Swaraj." Throughout the year 1930 the Congress was engaged in a defiance of the law of the land which, it was hoped, would help India to attain complete independence. Early next year the Congress actually suspended civil disobedience by virtue of an agreement arrived at with the Government, but the fulfilment of the terms of this agreement gave rise to trouble and another agreement was concluded. As a result of this Mr. Gandhi, on behalf of the Congress, actually went to London to take part in the Round Table Conference. While he was away things took a turn for the worse in the country, and matters reached a crisis with the birth of the New Year. In 1932 the Government bent all its efforts to making it impossible for the Congress to carry on its subversive activities and succeeded fully in its object. Congress was crushed and all forms of Congress work throughout the country were successfully prevented. In fact as well as in law Congress ceased to exist. It became impossible for Congressmen even to hold their annual sessions since 1932. For some time it existed in fact, though not in law; but of late it has ceased to exist even in fact.

THE NON-CO-OPERATION MOVEMENT.

It was in 1920 that Mr. Gandhi, who had only in the previous year unsuccessfully started his Passive Resistance struggle as a protest against the Rowlatt Act, conceived his idea of non-co-operation. Originally intended to be a protest against the British policy towards Turkey, the "fighting" of two other grievance was later on added to its first object, namely, the punishment of officials in the Punjab Martial Law regime and the securing of Swaraj for India. Mr. Gandhi and Mr. Shaukat Ali were able in 1920 to get the Calcutta Special Congress

to endorse their programme of "progressive non-violent non-co-operation" which was reiterated by the annual session at Nagpur which, on Mr. Gandhi's motion, changed its old creed into "the attainment by India of Swaraj by all legitimate and peaceful means." The stern measures adopted by local Governments led to the imprisonment of a large number of active Congressmen with the result that the Ahmedabad Congress in 1921 made a "grim resolve" to challenge the "repression movement" by appointing Mr. Gandhi as dictator and by resolving to start a "No Tax" campaign at Bardoli. The riots in Chauri Chaura in 1922, preceded by the Bombay riots in 1921 during the Prince of Wales' visit (see 1923 and 1924 editions of this book) opened Mr. Gandhi's eyes to the impossibility of maintaining a non-violent atmosphere under exciting conditions. He suspended his proposed civil disobedience campaign, and replaced it by what is known as the Bardoli Programme which eschewed all the aggressive items of non-co-operation in favour of the promotion of intercommunal unity and khaddar. Soon after Mr. Gandhi was arrested for sedition, tried and sentenced to undergo imprisonment for six years. (See 1923 and 1924 editions.)

This turn of events threw cold water on the enthusiasm of non-co-operators who got discouraged. In order, therefore, to sound the country's readiness for aggressive action once more, the All-India Congress Committee appointed a Committee, known as the Civil Disobedience Committee, in June 1922. The Committee toured the country and in October, 1922, produced two reports, one favouring Council entry to offer obstruction to Government and the other recommending the adoption of the Bardoli Programme. A battle royal ensued between the two parties for two or three years, the Swarajists—or the "Co-operators," as they were derisively called by the non-co-operators—carrying the day throughout. Every little triumph of the Swarajists meant a diminution of the prestige and influence of the No-Changers. This went on for some time until the Belgaum session of the Congress, presided over by Mr. Gandhi himself, suspended the non-co-operation programme. Thereby the movement was practically killed, and, strange to say, it received its death-blow at the hands of the very author of its being. But the fond parent did not lose heart and bided his time. His chance came in 1928 when the Congress was split into two warring camps. One was ready to accept Dominion Status for India, while the other would have nothing short of independence. At the psychological moment, Mr. Gandhi staged a re-entry into the political arena—he had been but a silent spectator during the five preceding years—and, professing to effect a compromise within the Congress, provided a loophole for the revival of non-co-operation. Although Dominion Status was actually declared in 1929 to be the goal of Indian political progress, Mr. Gandhi insisted on having it on the spot and when that was naturally refused he returned to his old love, non-co-operation and boycott. He had been biding his time, and the astute politician, that he is, he reintroduced in December 1929 his formula that had been dead five years. Indeed the Congress Executive was authorised to give the signal also for a campaign of non-payment of taxes and civil disobedience. Early in 1930 the Congress executive appointed Mr. Gandhi as "Dictator" for all India and gave him power to launch civil disobedience as and when he thought fit. This Mr. Gandhi did in March and practically the whole country was set ablaze. There was open defiance of the law all over the land, notwithstanding the efforts of the Government to put down illegal activities. The movement waned by the end of the year through sheer exhaustion and civil disobedience was suspended early in 1931 as a result of negotiations between the Viceroy and Mr. Gandhi. The year 1931 was a year of negotiations although the discussions centred on alleged breaches of the Viceroy-Gandhi understanding. The efforts for peace were carried to the point of inducing Mr. Gandhi to participate in the Round Table Conference in London to formulate a constitution for India. All this, however, proved to be a lull in the storm which again broke out in fuller fury early in the New Year. On the ground that the Government had broken the understanding arrived at between the Viceroy and Mr. Gandhi, the Congress leader declared in favour of a revival of aggressive non-co-operation. The Government, however, was apparently prepared for it: simultaneously with the announcement of the Congress decision the Government set in motion its powerful machinery and grappled with the renewed non-co-operation movement before it had time to take root again. Civil disobedience was scotched before it was born this time. In short the Government killed the non-co-operation movement. Another attempt was made in the middle of 1933 to revive it in an attenuated form, but the "individual civil disobedience", as it was called, was still born. (See later).

Congress in 1925-32.

The career of the Congress between the Belgaum session, when the N. C. O. movement was suspended, and the years 1929-30, when civil disobedience was revived, was comparatively dull. During the first half of 1925 the Congress policy was one of aimless drift. The death of Mr. C. R. Das demoralised the Swarajists. Mr. Gandhi promptly went to their rescue and at the end of the year the Swarajists' political programme was formally adopted by the Cawnpore Congress. The 41st session of the Congress, which met in Assam during Christmas week in 1926, set its face against the acceptance of ministerships or other offices in the gift of the Government—in other words, discountenanced "Responsive Co-operation", a new creed which had sprung up within the Swarajist ranks—and approved of the policy of rejection of budget and refusal of supplies until a response to the "national demand" was forthcoming.

All this talk and quarrel about the internal affairs of the Congress were set at rest by the non-inclusion of Indians on the personnel of the **Royal Commission on Indian Reforms.** Most of the leaders fancied that it would be an insult to India if Indians were not appointed members of the Commission. Even moderates, reputed for their sobriety and reasonableness, affected extremism. The Viceroy endeavoured —but in vain—to explain the position to Indian leaders (See Year Book of 1928).

Congressmen, of course, met during Christmas 1927 and resolved to boycott the Simon Commission, declared independence as the goal of India and offered some solutions for the Hindu-Muslim problem. In the following year the Congress, in its plenary session at Calcutta, declared that Dominion status would be acceptable to India. This, it will be recalled, marks a return to 1908 when, soon after the Surat split, it was stated that the objects of the Congress were, among other things, "the attainment by the people of India of a system of Government similar to that enjoyed by the self-governing members of the British Empire." This, however, proved to be a mere smoke-screen raised by Congress tacticians to conceal from the world their real intention which was disclosed in December 1929.

The Congress which met in Calcutta during Christmas in 1928 under the presidency of Pandit Motilal Nehru, was divided into three camps; the advocates of complete independence, those who wanted Dominion status and nothing beyond that, and Pandit Motilal sandwiched between the two, with one foot in either camp. This was just the opportunity for which Mr. Gandhi had apparently been waiting, and he staged a come back at the psychological moment. He threw in his weight with Pandit Motilal and sponsored a compromise formula. This satisfied neither wing but eventually a resolution was adopted which approved of the Nehru Reports embodying a "Swaraj" constitution framed by a committee under the Chairmanship of the Pandit Motilal Nehru and consisting of members of all parties) as a great step in political advance and, whilst adhering to the Madras resolution on independence, the Congress was prepared, subject to the exigencies of the political situation, to adopt the Nehru constitution, if it was accepted by the British Parliament before the expiry of 1929; and if that did not happen the Congress would revive non-violent non-cooperation; Congressmen could, in the meanwhile, carry on propaganda for independence.

The political outlook was gloomy, indeed, and there was a clear call for a generous gesture from Britatin. Lord Irwin, the sympathetic Viceroy, saw this and strove his utmost to ; lacate legitimate Indian feeling. He undertook a trip to England on four months' leave and had long conversations with the India Office Chief and the newly formed Labour Cabinet of Britain. He returned in the last week of October and within a few days of his arrival issued from Delhi a statement which has since become famous as the **Viceroy's Declaration** of October 31, 1929. "I am authorised", he said, "on behalf of His Majesty's Government, to state clearly that, in their judgment, it is implicit in the Declaration of 1917 that the natural issue of India's constitutional progress, as there contemplated, is the attainment of Dominion Status." His Excellency announced the British Government's intention to summon a conference of representatives of British India and Indian States to discuss British Indian and All-Indian problems for seeking the greatest possible measure of agreement for the final proposals to be placed before Parliament.

The main feature of the Congress session held shortly after was the reascendancy to power of Mr. Gandhi. The principal resolution went through successfully and, in fulfilment of the Calcutta Congress "ultimatum," Independence was declared when the New Year was rung in and the "Independence flag" was hoisted.

Events moved very fast in India in 1930 which has been epochal in the country's political history. On the one hand, the British Government took practical measures to devise a constitutional machinery that would place India on the highroad to responsible self-government (see Round Table Conference section); on the other, the Congress, the premier political organisation of the country, made a bold bid for complete independence—or "Purna Swaraj".

Civil Disobedience Movement.

In pursuance of the resolution of the Lahore Congress, it was decided by the Congress leaders early in the year to test the strength and willingness of the country to undertake and carry on a programme involving loss, suffering and sacrifice, and with this end in view they organised what has since been called the "Independence Day" demonstration. The response, according to the Congress leaders, "exceeded anticipations". Having thus ventilated the new revolutionary policy of the Lahore Congress and satisfied themselves that their methods would obtain general support in the country, the Working Committee appointed at Lahore met at Ahmedabad and decided to inaugurate mass civil disobedience. It appointed Mr. Gandhi as the "Dictator" of the Congress and gave him full powers to launch, conduct and carry on the movement.

Before taking what he described as his "final plunge" in politics, Mr. Gandhi wrote in first week of March his famous letter to the Viceroy announcing his determination to launch civil disobedience if his demands were not met. They were the famous Eleven Points of Mr. Gandhi—total prohibition; reduction of the rupee ratio to 1*s.* 4*d*; reduction of the land revenue to at least 50 per cent. and making it subject to legislative control; abolition of the salt tax; reduction of the military expenditure to at least 50 per cent., to begin with; reduction of the salaries of the higher grade service men to one half or less, so as to suit the reduced revenue; protective tariff on foreign cloth; the passage of the Coastal Traffic Reservation Bill; discharge of all political prisoners, withdrawal of all political prosecutions, abrogation of section 124-A, of the Regulation of 1818 and the like, and permission to all Indian exiles to return; the abolition of the C. I. D. or its popular control; and the issue of licenses to use fire-arms for self-defence, subject to popular control.

The reply sent to Mr. Gandhi by the Private Secretary to the Viceroy regretted that Mr. Gandhi contemplated "a course of action which is clearly bound to involve violation of the law and danger to the public peace."

When his impossible demands were turned down, Mr. Gandhi outlined a programme of civil disobedience consisting of various items calculated to subvert the Government by breaking certain laws, reducing its income from excise and customs duties, inducing Government servants to resign, picketing liquor shops and shops dealing in foreign, particularly British, goods, mainly British cloth, and urging the masses not to pay land revenue, chowkidari tax and forest grazing fees. The salt Act was the first target.

After organising his forces in various centres in the country, Mr. Gandhi inaugurated his civil disobedience movement by setting out on a march on foot from his Ashram at Sabarmati with the object of breaking the salt law and defying the Government. He reached Dandi on the seashore and picked up salt without paying duty. The police did not interfere. This was the signal for Congressmen to break the law all over the country simultaneously.

On the first few occasions, the Government merely looked on, but the law-breaking fever spread fast and wide. Eventually the authorities took measures to prevent the manufacture and sale of illicit salt. They were resisted by Congress volunteers who formed a cordon round the spot where salt was made and defied the police to arrest them. The police arrested them at first, but they could not obviously arrest hundreds of spectators who, though not actually engaged in salt making, were encouraging the law-breakers, jeering at the police and indulging in hostile demonstrations. When these crowds began to indulge in violence against the police, the latter had perforce to disperse them by means of the regulation staff known as "lathi". This went on for a while without bringing Purna Swaraj any nearer. Mr. Gandhi found a way out of the rut by declaring that he proposed to raid the salt works at Dharasana, near Surat. Similar raids were planned on the salt depot at Wadala, in Bombay. Shortly after this, however, Mr. Gandhi was arrested under the provisions of a century-old Regulation and confined during the pleasure of the Government as a state prisoner whose activities were a danger to the Government established by law.

The raids on the salt works at Dharasana and Wadala were carried out repeatedly and hundreds were injured when the police repelled the raid and dispersed the raiders and sympathisers. The advent of the monsoon put an end to salt making and salt depot raids. But other illegal activities were taken up.

The anniversary of a dead leader, "Independence Day" or some such pretext was utilised to organise anti-Government demonstrations. The arrest of persons who were courting arrest was also the occasion for a display of hostility against the Government. Such disturbances occurred in several places, and the police had to impose a ban on meetings, processions, demonstrations and the like which invariably disturbed the public peace and led to clashes. Even these prohibitory orders were disobeyed thereby compelling the police to use force. Two such instances occurred in **Sholapur and Peshawar.** In the former place the police were attacked, constables mobbed and murdered in broad daylight, and Government buildings and law courts set on fire. Martial law was introduced and quiet restored after a long time. In Peshawar also rowdy crowds defied the police and even the military. British troops were stoned. People were so much inflamed that it took a number of weeks for the return of normal conditions. It was revealed during the Peshawar disturbances that the Congress propaganda had to some extent interfered with the discipline of a few Indian sepoys.

Nor did the Congress stop here. Thanks to its persistent propaganda, the martial races inhabiting the border were taught to hate the British and to expect the establishment of "Gandhi Raj" at an early date. A belief that the British administration was weakening spread across the border to the Afridis who carried out a series of raids on Peshawar. Not that these were by any means successful; they were easily repelled and severely punished. But it would not do to allow them to continue in the false belief that they could defy the British Government with impunity. The Government, therefore, took prompt punitive measures and put an end to the raids.

Congressmen living in inland areas stirred up villagers against the Government and persuaded them to refuse to pay dues for grazing cattle in the forests. Forest regulations were broken.

Gujerat, where Mr. Gandhi's influence was greatest, was the stronghold of the movement for non-payment of land revenue. In all the four districts of Gujerat ryots were persuaded to withhold payment of arrears of the previous years and, later on, of the instalments of the following year.

The no-tax campaign and the seditious appeals calculated to disturb the loyalty of the police and the troops could not be allowed to continue. Similarly, the authorities could not look on when Government servants in Gujerat, who refused to resign their posts in obedience to the Congress mandate, were subjected to countless hardships in the shape not only of social boycott but also refusal of daily supplies and even of water. In several instances Government servants were coerced and prevented from doing their duty—things were made so hot for them. The activities of the Congress in other spheres also became too mischievous to be tolerated any longer and the Viceroy issued a **series of Ordinances.** One of these gave power to the Government to confiscate the premises of Congress offices whence baneful doctrines emanated. Refusal of normal supplies and services to Government servants was also made an offence. Later in the year all the Congress and allied bodies were declared unlawful associations under another Ordinance.

One of the main objects of the Congress was to deplete the Government treasury by attacking the excise and customs revenue. Excise was the main source of revenue to most provinces and customs to the central government. It was also intended seriously to affect British industry, particularly the Lancashire textile

trade. For this purpose systematic **picketing** of liquor and foreign (especially British) cloth shops was resorted to. This work was reserved for the large number of women who, for the first time in the history of politics in India, joined the movement in response to Mr. Gandhi's appeal. The willing co-operation of the commercial community made the task of the women pickets somewhat easy; but in several cases coercion replaced peaceful persuasion and the consuming public were put to untold hardships. The Viceroy issued an Ordinance making picketing accompanied by intimidation or coercion punishable.

The upheaval had its own effect on impulsive and immature youths and the year witnessed a large number of revolutionary outrages, in many of which bombs and fire-arms were used. Police officers were killed, and an attempt was made to assassinate the Governor of the Punjab. An armed raid was made on the Chittagong armoury. Many deplored these incidents, but the mischief had been done.

The year 1931, however, opened bright, for before the end of January Mr. Gandhi was again a free man. His release was a magnanimous gesture on the part of the British Government, intended to create a favourable atmosphere in India for the reception of the Premier's statement of 19th January and to give the Congress a fair chance to consider the offer embodied therein. On the very day on which the Premier made his famous pronouncement (See "Indian Round Table Conference") leading delegates in London urged the Premier to follow up his statement with a generous gesture in the shape of general amnesty to all political prisoners. M. MacDonald complied and within a week the principal Congress leaders were released from prison.

They soon met together and considered the Premier's statement which, of course, they deemed unacceptable, a deadlock was again threatened; but, thanks to the good offices of eminent Liberal leaders, the Congress secured the Government's assent to what has since become famous as the Irwin-Gandhi Pact or the Delhi Pact. (See 1932 *Indian Year Book*).

This "truce" was signed on the 5th of March and was hailed all over the country as the dawn of a new era of co-operation. The past was for a time forgotten and there was a lull in political activity. All were eagerly looking forward to the Congress delegates contributing the weight of their influence and experience to the success of the second Round Table Conference. Nevertheless, a strong under-current of resentment ran through the ranks of the Congress who openly complained that Mr. Gandhi had weakly surrendered to the Government in agreeing to call off the struggle. This feeling, which was held by the wild men of the left and impetuous youths, was enhanced by the execution of Bhagat Singh and his accomplices who had been judicially found guilty of murder and other terrorist crimes. The execution was the signal for a furore in the country, much to the chagrin of Mr. Gandhi.

It was in this state of feeling that the forty-fifth session of the Congress met at Karachi under the Presidentship of Mr. Vallabhbhai Patel. (See last year's *Indian Year Book*).

The outstanding feature of the Karachi session was the unprecedented outburst of revolutionary sentiment which throughout characterised its proceedings. It was always there, but dormant; and the execution of Bhagat Singh stirred it up. The revolutionaries, particularly from Bengal, asserted themselves publicly and a determined effort was made to torpedo the Delhi Pact. The intensity of feeling could be gauged by the action of a few youths who on the arrival of Mr. Gandhi went to the length of presenting him with a black flower in token of Bhagat Singh's execution. Thus Mr. Gandhi had to work against insuperable odds and it speaks volumes for his great personal influence that he managed to carry the day. This, however, he achieved only by subscribing to a resolution which only half-heartedly condemned terrorist outrages, extolling at the same time the terrorists' motives and their "courage and self-sacrifice." In this connection it may be noted that following this resolution a number of revolutionary crimes were perpetrated during the year. (See last year's *Indian Year Book*).

To return to the Karachi Congress. Such was the charm exercised by Mr. Gandhi over his followers, sober as well as terrorist, that, in the midst of cries denouncing the Delhi Pact as a surrender, the open session of the Congress almost unanimously ratified it and nominated Mr. Gandhi to proceed to the R.T.C. as its representative.

The resolution ran: "This Congress, having considered the provisional settlement between the Working Committee and the Government of India, endorses it, but desires to make it clear that its cult of independence remains intact. The Congress delegation will work for this goal so as to give the nation control over the army, external affairs, finance and economic policy and to have a scrutiny by an impartial tribunal on the financial transactions of the British Government in India and to examine and assess the obligations to be undertaken by India and England—with right for either party to end the partnership at will. Provided, however, that the Congress delegation will be free to accept such adjustments as may be demonstrably necessary in the interests of India, the Congress appoints Mr. Gandhi as its delegate to the R.T.C. with the addition of such representatives as the Working Committee may add later."

Another important resolution passed by the Congress defined "Purna Swaraj." This again was a sop to the clamant left wing and its passage gave a clear indication of the way the wind was blowing. The main idea underlying the resolution was the creation of a socialistic state as outlined by Pandit Jawaharlal Nehru in his presidential address to the previous session of the Congress at Lahore. Astute politician that Mr. Gandhi is, he saw in this resolution a formula which would prevent an alternative revolutionary programme from taking the field.

"Purna Swaraj" was defined as a government which would secure certain specified fundamental rights for the people, living wage for the workers,

reduction of land revenue, levy of inheritance tax, adult suffrage, free primary education, reduction in military expenditure and in civil servants' salaries, control of key industries, etc.

The feeling that prevailed at Karachi characterised the activities of the Congress throughout the rest of the year—the same restlessness at having to accept the Delhi Pact, the same lip condemnation of terrorism side by side with sympathy with terrorists. The "War Lords" of the Congress were chafing under the enforced silence and could hardly resist the tendency to create mischief.

It was very easy for them to pick a quarrel with the Government over the implementing of the Delhi Pact. They accused Government of being "slow and niggardly" in releasing political prisoners. They insisted on the reinstatement of all village officials who had resigned when the Congress campaign was at its height—even in the case of those who had been replaced since. They claimed substantial, if not wholesale, remissions of land revenue on the slightest pretext. They bitterly complained against alleged excesses of the police in collecting land revenue. Taking shelter under the withdrawal of the anti-picketing ordinance they continued their picketing operations as they did during the civil disobedience movement. This last led to several clashes, notably in **Cawnpore** where aggressive picketing resulted in serious and prolonged Hindu-Muslim rioting—described as a "ghastly holocaust"—involving widespread massacre.

Speaking of the Cawnpore disturbances and the communal tension that they led to, one is reminded of the growing differences between the Congress and the Muslims that were a feature of the year's politics. Ever suspicious of Congress bona fides towards Muslim rights, the Mahomedans kept aloof from the civil disobedience movement and any attempt on the part of Congress leaders to rope them in resulted in a clash. Mr. Gandhi, however, made repeated attempts to placate the Muslims, making numerous offers to meet their demands from time to time. The bulk of the Muslim community was particularly angry with Mr. Gandhi and the Congress for the tactics adopted by them to secure the support of the entire community to an agreed formula. Mr. Gandhi and the Congress sought to make capital of the presence of a few Muslims in the Congress, calling themselves Nationalist Muslims. Congress was ready, it was stated, to accept any scheme on which the entire Muslim community, including the Nationalist Muslims, put forward and attempts were accordingly made in Bombay, Ahmedabad, Bhopal, Delhi and Simla, in various parts of the year, to evolve a communal formula; but all fell through.

The Congress made two more attempts in July to arrive at a formula and eventually drew up a "compromise between undiluted communalism and undiluted nationalism." Joint electorates were to form the basis of representation in the future constitution of India, but it was agreed that there should be reservation of seats in the Federal and Provincial Legislatures on the basis of population with the right to minorities to contest additional seats in any province where they were less than 25 per cent. This was, of course, not acceptable to the Muslims, who, to a man, stood by the Fourteen Points.

Disappointment at the failure to solve the communal tangle rendered the political outlook gloomy and the Congress leaders began to wonder whether any good would result from their participation in the Round Table Conference. Meanwhile, those of them who were itching for a fight had succeeded in working up in the country parts, particularly in Gujerat and the U.P., a situation which the Government could hardly tolerates.

In the United Provinces, particularly, an agrarian dispute of a purely economic character, aggravated by growing trade depression, was turned to political advantage by Congressmen. In the result, although the no-rent campaign being part of the civil disobedience movement, was abandoned under the Delhi Pact, it was revived now, nominally as an economic agitation but really as a political weapon. The Government had perforce to take measures to ensure the collection of land revenue, but the Congress protested against them. This was added to the long list of sins of omission and commission, of which the Congress accused the Government. Similarly in Gujerat, it was alleged that the police were using excessively coercive measures to collect Government dues.

On all these grounds, cumulatively, Mr. Gandhi declared that the Delhi Pact had been broken by the Government and that, therefore, he was released from his obligation thereunder to participate in the Round Table Conference on behalf of the Congress. "The civilians have undone the statesman's work", Mr. Gandhi complained. Mr. Gandhi released for publication what he described as a charge-sheet against the Government, who replied with an equally long list of instances in which the Congress agents had broken the Delhi Pact. Lengthy correspondence passed between Mr. Gandhi and the officers of the Government of Bombay and the Government of India, the main point of which was Mr. Gandhi's demand that the Congress should be recognised as an intermediary between the people and the Government and the Government's firm repudiation of that contention. Numerous interviews took place between Congress leaders and Government officers, all of which unfortunately proved fruitless. This new deadlock again darkened the political horizon, but Mr. Gandhi was induced to ask for an interview with the new Viceroy, Lord Willingdon, to "clear up certain misunderstandings."

Then began what were known as the Simla talks. Mr. Gandhi asked for an impartial inquiry into the incidents at Bardoli and once again the Government of India turned it down. Nor was the Congress allowed to negotiate with the Government as a parallel body on an equal footing. Eventually, however, the Government offered to institute a departmental inquiry into the charges made by the Congress against officials in Bardoli and this provided a loop-hole for the Congress to get out of the awkward corner into which it had placed itself. Affecting to be satisfied with this concession, Mr. Gandhi agreed to go to London.

(The part played by Mr. Gandhi at the R.T.C. is referred to in the "Indian Round Table Conference" section.)

With Mr. Gandhi away, conditions worsened in India and his lieutenants continued their activities in defiance of both the Delhi and the Simla Pacts. Very soon an unsatisfactory situation was created in India which found its counterpart in the poor progress made in London towards reaching an agreed formula for the future constitution of India.

Congress propaganda in areas like the North-West Frontier Province, easily susceptible to subversive doctrines, resulted in a flare-up. The tribes on and across the Frontier were led to believe that the British authority was on the wane, and Peshawar was actually invaded. The "Red Shirt" movement, organised by a follower of Mr. Gandhi, was assuming menacing proportions and the Government had to act. An Ordinance was promulgated with a view to checking the spread of this movement, and Khan Abdui Gaffar Khan, its author, was deported from the scene of his operations.

Similarly, an Ordinance was issued to check the aggressive no-rent campaign in the United Provinces, and Pandit Jawaharlal Nehru was arrested for disobeying certain orders passed on him under this Ordinance.

The hollowness of the Congress charges was revealed by the findings of the Inquiry Officer who went into the allegations against the police and the Government in Bardoli. He held that there had been no cases of undue coercion and found most of the Congress charges unfounded.

This gloomy situation coincided with the return of Mr. Gandhi on the 28th of December, without having achieved anything substantial at the Round Table Conference beyond re-stating the impossible Congress demands proclaimed many a time before. The stage was thus set for another political struggle in the country, which began in the first few days of the new year with the arrest of Mr. Gandhi.

Congress in 1931-32.

The Government had planned out its programme thoroughly and was ready to meet any emergency. Within a few hours of the arrest of Mr. Gandhi the Government issued ordinances of a comprehensive character giving wide powers to the executive to deal with the civil disobedience movement with determination, so that there was little scope for escape on the part of Congressmen. (See last year's *Indian Year Book*).

With such wide powers put into operation with extraordinary speed and rigidity, Congressmen all over the country were hauled up within the very first week after the issue of the ordinance. In most cases they were rounded up on suspicion arising out of their past conduct. Later on option was given to them to give undertakings about their future behaviour and thereby obtain their release. In some cases the authorities succeeded in securing such undertakings, but in the majority of cases Congressmen remained firm. In the first three months of the operation of the ordinance the jails in almost every province were full to overflowing and special accommodation had to be found for the thousands of prisoners who were incarcerated under the new policy.

When the life of the ordinances was about to expire at the end of six months the Government in the centre as well as in the various provinces acknowledged that they had almost succeeded in scotching the Congress movement; but they pleaded that, although the movement had been brought under control, the danger of its revival was not absent. It was therefore decided to consolidate all the ordinances into one omnibus ordinance and renew them till the end of December. Before the year closed the Government came forward with Bills both in the centre and in the provinces to put into the form of a statute the more important provisions of the consolidated ordinance. The legislatures in the country had no strong Congress element on account of the boycott of councils adopted by the Congress during the last general election, so that the Government did not find much difficulty in getting the ordinance bills passed into statutes. The only concession they made was to limit its duration to one or two years in the different provinces.

After the first flush of the operation of the ordinances the Congress movement gradually weakened. No doubt the Congress had its so-called Emergency Councils and Dictators carrying on civil disobedience activities in a spasmodic manner, but it became apparent as the year 1932 advanced that the support from the country became less and less month by month.

Early in the year 1932 an attempt was made to hold the annual session of the Congress at Delhi. Similarly another attempt was made early in 1933 also. On both occasions Pandit Madan Mohan Malaviya came forward to preside. Batches of Congressmen went from different parts of the country to Delhi and Calcutta, respectively, but they were all arrested on leaving their places or before reaching their destination and set free again after the date of the projected session. The Congress claimed that in spite of all this obstruction they held the sessions and passed resolutions reaffirming the civil disobedience movement; but the whole thing was practically reduced to a farce. It was really a game of hide and seek. It is not impossible in such large cities like Delhi or Calcutta for a handful of men to meet in spite of the determination of the police to prevent any formal meetings. Such was really the case. When the police were not within sight and before they could come a few men crowded together, "held the session" and passed resolutions. No sooner was this done and, in fact, while the "session" was in progress, the police arrived, dispersed the meeting and arrested those who participated in the "proceedings".

One side effect of the movement for the boycott of British goods was the riot between Hindus and Muslims in the city of Bombay. It appears

that the Muslim community was against the boycott movement and in the attempt to assert its liberty to purchase whatever goods it wanted it came into conflict with the Hindu section of the commercial public. Words led to blows and quarrels led to a riot which lasted nearly two months levying a heavy toll of nearly 400 killed and several thousands wounded.

Thus from very early in the year 1932 the country was in the grip of the civil disobedience movement and the measures which the Government adopted to suppress it. After the Government had put about 75,000 persons in jail all over the country, the movement, as stated before, began to wane and by the end of the year it had nearly disappeared.

In the latter half of 1932 His Majesty's Government published what is known as the Communal Award laying down what it considered to be an equitable settlement of the mutual claims of the different religious sections in the country as regards seats in the legislatures and the proportion in which they should be divided among them. This award was necessitated by the failure of the representatives of different communities to arrive at a common settlement during the first two sessions of the Round Table Conference. In the course of the second R.T.C. the minorities, consisting of the Muslims, the depressed classes and the Anglo-Indians, arrived at a mutual settlement known as the Minorities Pact which, they claimed, had the support of 46 per cent. of the population of India.

When the Award was published it was strongly resented by the Hindu community and by the extreme section of the Muslim community which did not get everything that was claimed for the community. In the Punjab and Bengal, especially, it led to a strong agitation on the part of the Hindus.

A section of public men made repeated attempts to arrive at a mutual settlement in order to replace the Award as provided in the Award itself, but nothing resulted.

Similarly there was great dissatisfaction among the Hindu community about the separate electorates on which basis provision had been made in the Communal Award for the representation of the depressed classes. The Hindus claimed that the depressed classes, being but a section of the Hindu community, should not be permanently separated from the bulk of the Hindu community. Mr. Gandhi from his prison cell made it a question of conscience and suddenly declared a fast unto death unless the Communal Award was amended in respect of the representation of the depressed classes by means of separate electorates.

This sudden declaration led to a commotion in the country and several leaders gathered together in Poona and, with the help of Dr. Ambedkar and Rao Bahadur Raja, representing the two rival groups of the depressed classes, and the help of representative Hindus like Pandit Malaviya, arrived at a formula known as the Poona Pact, which was a modification of that portion of the Communal Award which dealt with the representation of the depressed classes. As the crisis in Mr. Gandhi's life was approaching, owing to prolonged fast, the Prime Minister and the British Cabinet lost no time in effecting a modification of the Award as desired by the signatories to the Poona Pact. (See last year's *Indian Year Book*.)

An incidental effect of this fast of Mr. Gandhi was that it served to bring him once more in the limelight after months of obscurity. As during the past two or three years the Congress stood for Mr. Gandhi and *vice versa* and as the Government had successfully suppressed the Congress movement, Mr. Gandhi's name and personality receded into the background at least temporarily. This oblivion into which Mr. Gandhi had been forcibly thrust was shattered by the "fast unto death", and he became once more the dynamic influence of the previous year. It is true that his activities were confined to the uplift of the depressed classes, but the contact that he was thereby enabled to establish with the outer world served to hearten his sympathisers. During the fast he was given the option of leaving the jail and choosing his own residence, provided he undertook not to take any part in the civil disobedience movement, but Mr. Gandhi did not avail himself of this conditional offer of freedom and continued to remain in jail.

Even after he broke his fast he was permitted to continue his activities for the amelioration of the condition of the depressed classes and to work for the abolition of untouchability from within his prison cell. His agitation for a change in the age-long social law among Hindus provoked a counter-agitation on the part of orthodox Hindus who went to the length of suggesting that even if it meant Mr. Gandhi's death they would not surrender an inch. The outburst of social-reformist enthusiasm engendered by the "fast unto death" gradually waned and in certain respects even a set-back ensued. Untouchables' claim for equality with caste Hindus in the matter of entry into temples led to clashes. These circumstances induced Mr. Gandhi to undertake an unconditional fast for twenty-one days. Thus once again Congress leaders and sympathisers had the satisfaction of seeing the author of non-co-operation in the public eye, though in a non-political sphere.

In consideration of the moral and spiritual value attached by Mr. Gandhi to his new fast and in view of his old age and weakened state of health, Government unconditionally released him the day after the commencement of the fast. Immediately after his release Mr. Gandhi suspended civil disobedience for six weeks, and the period of suspension was subsequently extended till August 1. The fast ran its prescribed course and was broken at the end of three weeks. Mr. Gandhi is an adept in fasting for long periods and therefore stood the ordeal very well. Very soon he regained his normal health. During his convalescence he held consultation with Mr. M. S. Aney, the acting President of the Congress, and with Dr. M. A. Ansari and Dr. B. C. Roy, two leading Congressmen, who were attending upon him as his medical advisers. As a result of these conversations, Mr. Gandhi convened an informal conference of such of the leading Congressmen as were out of jail at the

time for considering how far and in what direction the Congress should change its policy. The Conference met in Poona in the middle of July and was attended by representative Congressmen from all over the country.

Mr. Gandhi had in the meanwhile sent for the Rt. Hon. V. S. Sastri, who came from Coimbatore. One could now gauge what his advice must have been, but it is clear that the Congress leader paid little heed to his counsel.

The proceedings of the Conference were throughout lively. Two schools of thought emerged from the discussions: one held that civil disobedience had had sufficient trial but had failed to achieve the end in view, "as the repressive policy of Government has proved too strong for it"; the other school was not willing to admit defeat. Even though the number of persons ready to go to jail and make sacrifices for the country was steadily falling, it was argued, it was not numbers but the determination to win freedom which was an important factor in changing the mentality of Government. Many favoured the abandonment of civil disobedience and openly acknowledged the failure of the movement, but it seemed clear that Mr. Gandhi refused to surrender; according to him a Satyagrahi should not rest until his objective was attained.

Eventually the Conference resolved to withdraw civil disobedience as from August 1, provided an honourable agreement was reached with the Viceroy by Mr. Gandhi, who was authorised to seek an interview with his Excellency for that purpose. The Conference refused unconditionally to withdraw civil disobedience or to accept Mr. Gandhi's suggestion to replace mass civil disobedience by individual civil disobedience.

In pursuance of this resolution, Mr. Gandhi requested the Viceroy to grant him an interview; but the request was turned down on the ground that the interview was for the purpose of initiating negotiations with Government regarding conditions for the withdrawal of civil disobedience and that Government could not enter into any negotiations for the withdrawal of a wholly unconstitutional movement. A second request by Mr. Gandhi, offering to explain to the Viceroy that the proceedings of the Poona Conference, taken as a whole, were calculated to bring about honourable peace, met with a similar fate. The reply to the second request was that there could be no question of holding conversations with the representative of an association which had not abandoned a movement intended to coerce Government by means of unlawful activities.

Soon after the conclusion of the Conference, Mr. Aney, the acting President of the Congress, issued a statement in which he refused unconditionally to withdraw the civil disobedience movement, but ordered the discontinuance for the time being of all mass civil disobedience, including the no-tax and no-rent campaigns, reserving the right to any individual who might be ready for suffering. The secret methods adopted till then were to be abandoned and all Congress organisations, including the office of the A.I.C.C., should cease to exist for the time being.

Meanwhile, Pandit Jawaharlal Nehru was released from jail a short while before his time, owing to the serious condition of his mother's health. This gave him an opportunity of meeting Mr. Gandhi and they had several days' close consultations. It was agreed that they should record their respective opinions on the Congress policy in the form of letters to each other and these were later published. Sharp differences of opinion manifested themselves during these conversations, but the two leaders agreed to ignore them for the present and concentrate on such aspects of Congress work which were common ground between them. From the published correspondence between them it became known that Pandit Nehru insisted that the Congress should put into practice its professed sympathy for the masses and not rest content with mere paper resolutions. He would have the Congress come into the open and engage itself in active work in the cause of the peasants and workers. In short, he adumbrated an economic scheme based on his socialistic ideals. Mr. Gandhi, however, accepted the young leader's scheme as an ideal, but refused to adopt it as a working programme for the immediate future. They agreed to differ and each pursued his own course.

Mr. Gandhi left Poona and reached Ahmedabad through Bombay. Anticipating his sudden arrest, he dismantled his Sabarmati Ashram, giving the inmates full freedom to act as they liked, either to follow him to jail or to work for their ideals according to their lights. He offered the Ashram property to Government and at the same time intimated his desire to march to the village of Raas, accompanied by a few devoted followers, to practice "individual civil disobedience." The contemplated march was prevented and Mr. Gandhi and his followers were taken into custody. The Congress dictator was taken to Yeravda and served with an order under the Criminal Law Amendment Act restricting his movements, which he naturally disobeyed. Thereupon he was re-arrested, tried in court and sentenced to one year's imprisonment in "A" class. He was thus no more a State prisoner detained under a century-old regulation at the will of the executive government, enjoying extra-penitentiary rights in respect of interview, etc., but an ordinary prisoner like other political offenders. This circumstance notwithstanding, Mr. Gandhi insisted on being given the same facilities to do propaganda on behalf of the Harijans as he enjoyed during his incarceration under Regulation III of 1818. As a special case Government waived certain of the jail rules and allowed him, within limits, to direct the Harijan uplift movement. He first accepted these concessions, but changed his mind and announced a hunger strike until he was given the former facilities. Government remained unmoved and after a few days' fast he was removed to hospital still as a prisoner. When, however, he entered the danger zone, he was unconditionally released on medical advice. He broke his fast, but declared that he would not exploit the release granted under such peculiar circumstances to

further political ends. He would consider himself a political prisoner till the expiry of the period of sentence imposed on him. During all this period there was very little Congress activity. Government did not allow the Congress to raise its head. What little interest there was in Congress work was side-tracked and people's attention, was diverted to Harijan work—one more instance of how the Congress was Mr. Gandhi and *vice versa* during the past few years. He threw himself heart and soul into the Harijan campaign, but as far as politics were concerned he issued on himself a self-restricting ordinance. Government let him free to tour the country urging the removal of untouchability, collecting funds for the education and social amelioration of the Depressed Classes, pleading with high class Hindus to open the doors of caste temples to Harijan worshippers and to give them the use of public roads, wells, etc. He visited several places in the Karnatak, Andhra, the Tamil Districts and Malabar, including Mysore, Cochin, Travancore and Hyderabad States. He met with opposition from orthodox Hindus, and rowdy scenes and even clashes occurred at more than one place between the Sanatanists (orthodox people) and the reformers.

The tour was interrupted by the disaster in Bihar where unprecedented earthquake shocks had laid waste fields and reduced towns to ruin. On reaching Patna after same delay Mr. Gandhi found that the situation called for immediate and sustained relief and reconstruction, and at a meeting of the Central Relief Committee he announced his readiness to offer the respectful co-operation of the Congress with Government in affording relief to the destitute victims. Once before Congress leaders had taken an active interest in the proceedings of the Assembly in connection with the Temple Entry Bill (which has been circulated for eliciting public opinion); and now in the face of a great disaster the Congress again decided to co-operate. Many attached great significance to this gesture and foresaw the development of co-operation in other fields of public activity.

In fact, the country had been prepared for a change in Congress policy. One small but important section of Congressmen in Maharashtra (including the Berars) proclaimed a revolt against civil disobedience and started a separate party within the Congress to work for the lifting of the ban on Councils and to contest the elections under the new reform scheme. The Democratic Swaraj Party (as the new organisation was called) was composed predominantly, of right wing Congressmen of the Maharashtra districts of Bombay and C.P. This constituted a definite move to break the influence of Mr. Gandhi and his junta on nationalist opinion in the country. The three articles of the Party are firstly, the achievement of complete independence by all legitimate and peaceful means should be the country's goal; secondly civil disobedience, whether of the individual or mass variety, should in the present circumstances of the country be withdrawn; and, thirdly, all representative institutions from the village panchayats to the Central Legislature should be captured for the political advancement of the country.

These efforts were assisted by similar action by other sections of Congressmen in Madras and the Andhra Provinces. The intensity of revolt grew steadily until an attempt was made to convene a conference during the Easter at Delhi to discuss the re-orientations of Congress policy. Nothing definite, however, has happened upto the time of writing this review, but indications point to a swing to the right. A change in Congress policy seems certain soon after the publication of the report of the Joint Select Committee.

Indian Princes and Reforms.—During the past four or five years the Indian Princes have figured largely in discussions on the future constitutional machinery of British India. They became actively interested in British Indian Reforms with the announcement made by representative Princes at the First Round Table Conference that they would join an All-India federation provided there were adequate safeguards for them. This enthusiasm however, waned in 1931 when some prominent Princes began to entertain doubts about the advisability of their joining the Federation. The Congress resolution which set its goal as the establishment of a socialist state and the subsequent pronouncements of Congress leaders, including Mr. Gandhi, on their intentions if they gained power, made the Princes pause before they plunged. The Maharaja of Patiala was the first to come into the open to warn his brother Princes against the dangers to their very existence involved in the Federal Structure Committee's plan. He declared that smaller States were bound to suffer the fate of the smaller German principalities under the Confederation of 1815 and disappear from the map of India. He suggested the advisability of a Union of Indian States directly in relationship with the Crown. He was later followed by other Princes, who shared his fears, and the view gained in strength that unless adequate guarantees were given for the continued maintenance of their rights and privileges, they should not give their consent to join the proposed Federation.

When the Maharaja of Bikaner accepted the idea, on behalf of his brother Princes, at the first Round Table Conference, to join the All-India Federation, no details of the scheme for the entry of the Princes were discussed. When the question was later gone into at the Federal Structure Sub-Committee of the R. T. C. it became evident that the Princes had a number of mental reservations and conditions precedent to their entry. On their return to India they had mutual consultations and the Maharaja of Patiala became the sponsor of a modified plan of federation, namely, that, instead of each Ruler entering the Federation singly on his own terms, the matter should be discussed by the Chamber of Princes and the terms for their entry should be so settled that the Princes as a body should form one group of their own and join the federation only for certain specific purposes and to the extent that they consented to do so.

This gave a new aspect to the whole question. For some time there was difference of opinion between one section of Princes led by the Maharaja of Bikaner and another led by the Maharaja of Patiala.

Later on they arrived at a settlement between themselves and a common plan was evolved whereby the Princes were to settle the terms of entry of all of them ; it was also proposed that unless a proportion of over fifty per cent. of the States joined no State should join singly. As regards their representation in the two federal Chambers, it was found that however widely the legislatures were enlarged seats could not be provided for each one of the 600 odd Indian States. Out of these 600 more than half are what may be called small or minor States. And the larger States like Hyderabad, Mysore and Baroda naturally objected to be placed on the same level as the smaller States which are no more than mere principalities. Then an attempt was made to give representation to the smaller States on the group system. At the meeting of the Chamber of Princes held in Delhi in March 1933 the Princes made a serious attempt to bring about a settlement of this question. Efforts were also made since then to settle this thorny problem, but the general opinion seemed to be in favour of leaving it to be settled by Government.

Apart from this, the main anxiety of the States in joining the federation is that their integrity and their rights under treaties should not in any way be affected except to the extent that they voluntarily agree to accede in what are called treaties of accession. They fear that once they enter democratic chambers they will not be able to hold on against the onslaught of democracy and by a process of wearing down they will soon be reduced to the position of mere principalities. It was with this object that the late Jam Saheb of Nawanagar, as the Chancellor of the Chamber of Princes, proposed several safeguards for guaranteeing the position of the States against the danger foreshadowed above.

Almost all the Princes of India or their representatives had gathered at Delhi about the time of the publication of the White Paper. The scheme was generally supported by the Princes, subject to the incorporation in the Constitution Act of safeguards for the maintenance of internal autonomy, an equitable distribution of seats among the States in the federal legislature and a satisfactory settlement of the claims made by the Princes under the vague term "paramountcy." The White Paper laid down, among other things, that the allocation of seats for States in the legislature should be dependent (in the case of the upper chamber) on the rank and importance of the States as indicated by dynastic salutes, etc., and (in the case of the lower chamber) on population. On this question the White Paper left room for adjustments among the Princes themselves. In the absence of a settlement, it became clear, an Award by the British Government might become necessary.

Interest next shifted to London where the Joint Parliamentary Committee took evidence on the Reforms proposals. Representatives of the Standing Committee of the Princes' Chamber demanded statutory provisions rendering it permissible for States to enter the proposed Federation collectively through a confederation, measures to secure weightage for the representation of States in the Legislature in the event of a bare minimum federating at the outset, prohibition of discussion of the domestic affairs of States in the Federal Legislature, co-ordinate powers for the Upper House in voting supplies at joint sessions, freedom for States from direct taxation and inviolability of treaties. These conditions were considered essential, but entry into federation would depend on the final completed picture of the Indian constitution.

Some difference of opinion was noticeable amongst the representatives of the Indian States on the question of confederation. Mr. Maqbool Mahmood said that 40 out of 109 Chamber members favoured confederation, which was not opposed to federation but was intended to be a collective organisation to keep the States together for exchange of views with British Indian representatives. Sir Akbar Hydari opposed this idea. He said : Hyderabad would not join a confederation, but did not object to the option of joining being available to other States.

In the course of the proceedings of the Committee, the Princes' representatives declared that the States would not take more than a year after the Constitution Act and the Treaty of Accession had been finally formulated to come to a final decision on federation, provided the door was left open for federating at a later stage.

On the question of finance, Sir Akbar Hydari announced that, if the Budget of British India, central and provincial, was balanced at the time the Constitution Act was passed, the States would immediately enter the federation on the basis of the position then existing.

A certain amount of confusion was created by the claim made by Sir Manubhai Mehta, on behalf of the Chamber of Princes, for the right to secede if the Princes felt it necessary to do so after their experience over a period of time. He conceded the same right to Burma. Sir Akbar Hydari, however, opposed this. The proposal was stoutly opposed by the Secretary of State also. Sir Samuel Hoare said in the course of his evidence before the Committee that when the Crown placed the power acquired from the Indian States at the disposal of the Federation for the functioning of the Federation, it became part of the Federation and the Crown could not return it to the States ; nor could the States demand or resume it later on.

Yet another sensation was caused by the insistence of Mr. Churchill and his followers that the Princes were being jockeyed into accepting Federation so that the White Paper scheme could be pushed through. This, however, was unequivocally repudiated by the representatives of the Princes themselves and by the Secretary of State.

Meanwhile the States peoples met in conference and urged that it should be made obligatory on the Princes to join the Federation and demanded that the States peoples must be represented on the Federal Legislature.

The National Liberal Federation

The definite breach between the moderate and extremist elements in the Congress at its special session in Bombay in August 1918 (*vide* 1919 edition of this book) witnessed the birth of the National Liberal Federation which has, since then, been the platform of Indian moderate leaders. It held its first session in Bombay in 1918, Sir Surendranath Banerjee presiding. The Federation adopted for its creed the old Congress formula which was set aside by the Nagpur Congress.

Those who had held the Federation in high esteem for its moderation, sobriety and balanced judgment suffered a rude shock in 1927 when the Liberal body and its leading lights proved the saying, "If you scratch a Liberal you will find an extremist." Liberal leaders bade goodbye to their avowed principle of co-operation with the Government when they expressed themselves in favour of a boycott of the Royal Commission on Indian Reforms on the ground that there was no Indian on it.

Thenceforward Liberal politics became negative and barren, and leaders who had enjoyed a reputation for sane-thinking came to be regarded as the "wild men" of the Congress. Boycott was the breath of their nostrils, although they were declaring now and then that the door was still open for Government to "make a gesture of co-operation". Their monotonous stagnation was, however, slightly relieved by the efforts at constitution making undertaken at the instance of the Congress. Liberals heartily co-operated in this endeavour and attended the All-Parties Conference summoned by the Congress in the middle of the year. Sir Tej Bahadur Sapru, President of the Liberal Federation, consented to serve on the Committee appointed by the Conference to draft a constitution for India. After months of toil the Committee produced a constitution according to which India would enjoy the status of the Dominions of the British Empire. The report also offered a solution for the communal dissensions and a formula to govern the relations between British India and the Indian States. It was, in a sense, a Liberal document, for the Liberals were the only group of men in the country who unanimously and unreservedly accepted the entire report.

The plea for the grant of Dominion Status was very strongly urged by Sir Chimanlal Setalvad, President of the 1928 Session of the Liberal Federation, who said that the trusteeship of England was coming to an end. The British had to deal with a people who had attained majority and were demanding from the so-called trustees their property and also asking for accounts. The British must change their mentality and must realise the feeling that was growing in the country, which if not guided properly, would swallow everything. This firm attitude on the part of the Liberals whom Government were not slow to recognise as their allies served to hasten the advent of a new era. The changing political situation was exhaustively reviewed at personal interviews between the British Cabinet and the India Office and Lord Irwin, who had gone home on four months' leave. As a result of these conversations, the Viceroy made soon after his return from leave what is now famous as the Proclamation of October 31, 1929. (For details see Congress section).

By the time the Liberals foregathered at Madras, things had moved pretty rapidly in Congress circles. Congress talk of severance of British connection led Liberals to break away from the extremists. Once again the Liberals expressed disapproval of Congress methods. Sir Phiroze Sethna, who presided, denounced the movement which aimed at the severance of India's connection with the Empire and opposed the campaign of civil disobedience.

The Liberal Party's leaders had a busy time of it throughout the year 1930. They had, on the one hand, to set their faces against the civil disobedience movement conducted by the Congress and, on the other, to prepare a strong case for Indian Reforms such as would withstand the attack of diehards in Britain.

The annual session of the Liberal Federation during Christmas had to be postponed owing to the absence of many of its leaders in London and owing to the fact that the discussions at the Round Table Conference had not concluded by then.

The session met in July 1931 under the presidency of Mr. C. Y. Chintamani.

The principal resolutions passed by the Federation demanded that the Federal Executive should be made responsible to the popular Chamber of the Legislature; the residuary powers must be vested with the Central Government; a definite scheme for the Indianisation of the Defence Forces including officers and men within a specified time should be immediately propounded and provision of facilities for the training of Indians for service in all arms of defence, so as to complete the process within a specified period, should be in charge of a Minister responsible to the Legislature; the future Government of India must have complete freedom to adopt measures for the promotion of basic trades and industries; no special powers must be given to the Governor-General and the Governors except in extreme cases of emergency; separate electorates should be done away with and there should be joint electorates with reservation of seats for minorities; there should be no statutory fixation of a majority and the position of all important minorities should be equitably considered in the determination of weightage.

This firm attitude was further stiffened when details of the Round Table Conference scheme began to be worked out both in England and in India in the latter half of 1931.

Early in the year 1932 the personnel of the three committees foreshadowed by the second R.T.C. was announced. The Indian States Committee, presided over by the Rt. Hon. J. C. C. Davidson, dealt with the Indian States only and considered the problems arising out of the federation of the Indian States with British India. Similarly the Percy Committee concerned itself with the financial aspects arising out of the All-India Federation from the Indian point of view. Neither of these committees included any Indian public men from British India. The most important of the three committees was the Franchise Committee presided over by Lord Lothian. It contained a good number of Indians. The recommendations of the Franchise Committee were practically endorsed by the third R.T.C. But the White Paper containing the prop sals of His Majesty's Government for the constitutional reform of India has not embodied these recommendations in important particulars.

While the committees were drafting their reports, Sir Samuel Hoare, the Secretary of State for India, took up the question of constituting the third Round Table Conference. In doing so the British Cabinet at first adopted a plan and procedure radically different from that of the two previous Conferences. The proceedings were to be in camera; the agenda was to be fixed; the number of delegates was considerably cut down; in short, the conference method, according to political opinion in India, was materially whittled down.

This led to angry protests from the progressive Indian section of the R.T.C. They held meetings and leading members like Sir T. B. Sapru threatened non-co-operation. The Council of the Liberal Party met simultaneously and announced the conditions on which it would co-operate with the Cabinet in the matter of the R.T.C. and called upon the Government to make a public announcement accepting these conditions.

In response to these protests and appeals a slightly more liberal scheme was announced. The Liberal Party complained that the Cabinet had paid no heed to the conditions published by it and the party as such refused to co-operate with the R.T.C. Sir T. B. Sapru and the progressive section which worked with him, however, accepted the modified plan and consented to work in the third R.T.C.

When the results of the third R.T.C. were known in India they led to protests on the part of the Liberals and other politically minded sections. A manifesto signed by about one hundred leading and influential public men was issued pointing out many defects in the scheme of the Secretary of State.

When the White Paper embodying the proposals of His Majesty's Government were actually issued the Liberals began to complain even more bitterly and affirmed that the White Paper prop sals were to some extent even more retrograde than the announcement at the Round Table Conference. Even communal parties were not satisfied with it.

The main point of criticism was that the White Paper was based on entire mistrust of the capacity of Indians to bear the burden of responsible government. Consequently, it was argued, it was overweighted with so many checks and safeguards that, in their desire to keep the control of affairs in the hands of Parliament and the Secretary of State by means of the special powers of the Governor-General and the Governors, real responsibility was almost blotted out both in the federal centre and the provinces. Similarly, some Liberal leaders contended, the reservations in the Central Government in respect of defence, foreign relations, etc., and important deductions from the control of the legislatures, had placed a bar sinister against the evolution towards Dominion Status. As regards finance, nearly eighty per cent. of the budget was earmarked, so that the financial responsibility of the legislature was circumscribed to one-fifth portion of the budget. "Questions like tariffs, currency, exchange and the development of indigenous trade and commerce," some complained, "will practically be controlled from Whitehall through the agency of the Governor-General in the exercise of his special powers. The scheme does not lay down any time limit for bringing to an end the period of transition; nor does it provide any constituent powers for the democratic growth of the constitution without reference to Parliament.

A session of the Liberal Federation was held at Calcutta during the Easter of 1933. Dewan Bahadur Ramachandra Rao, a member of the first two R.T.Cs., presided. Leading Liberals like the Rt. Hon. V. S. Sastri took prominent part in the deliberations. The Federation, after two days' full discussion in committee, passed a comprehensive resolution pointing out what in its opinion are defects in the White Paper scheme and suggesting modifications therein so as to render it acceptable to moderate sections in the country. The Liberal Party as such was not represented in the body of Indians chosen to be associated with the Joint Select Committee, nor did the Party as such send any witnesses to give evidence before the Joint Committee.

About this time fresh attempts were made to induce the Liberal Party to co-operate with the Joint Parliamentary Committee, but they remained firm and kept themselves aloof as a party. But Sir Phiroze Setlna and Mr. N. M. Joshi (both Liberals) were invited to go to England, and went in their individual capacity. Free to take their own action, Liberals organised opinion in the country and issued a manifesto signed by members of all parties pointing out the defects in the White Paper. The press and the platform were also utilised to carry on propaganda against the White Paper.

As the Joint Committee began to take evidence they suspended their activities for a while, watching how the Government's proposals were re-shaping themselves under pressure of cross-examination in the committee.

During the interval they held the Annual Session of the Liberal Federation at Madras in Christmas week when the resolutions of the Calcutta Session were reiterated. The most important part of the proceedings of the Federation at Madras was a resolution authorising its President, Mr. J. N. Basu, to take the initiative on behalf of the Liberal Federation as soon as the report of the Joint

Committee was published and convene a conference of all progressive parties in the country to discuss the recommendations made by the committee. At the time of writing, the report is being drafted.

From the Indian point of view, the evidence led before the Joint Parliamentary Committee was incomplete in that the two leading political organisations of the land, namely, the Congress and the Liberal Federation, did not co-operate. Opinion in India steadily hardened as evidence of a reactionary character continued to be tendered to the Committee. (See Round Table Conference Chapter).

As the Congress had practically ceased to function during this period, Liberals and other progressive sections in the country thought it advisable to meet to discuss the White Paper and suggest modifications in it. The Liberals took the lead in this matter and circulars were sent to various leaders. The response, however, was not encouraging, and it did not seem easy to reconcile the various elements in the country and bring them to agree to a common basis. For example, if the Communal Award was to be discussed the Muslims would not join; and if it was to be excluded, the Hindu Mahasabhaites would stay aloof. Similarly, Congressmen did not look with favour on the scheme when they found that the proposed conference would have no "sanction" to enforce its demands. Partly in consideration of these circumstances and partly because it was realised that the White Paper had been sufficiently criticised, the idea of calling a conference was deferred until after the publication of the report of the Joint Select Committee.

MUSLIM ORGANISATIONS.

The awakening of political consciousness among Muslims in India as a separate entity dates back to 1906 when the All-India Muslim League was formed. It worked up its influence steadily, so that when it was hardly ten years old it became sufficiently important to enter into an agreement—known since as the Lucknow Pact—with the powerful Indian National Congress. The League fell on evil days in the 'thirties, and differences set in among its members. When enhanced powers were conferred on India by the Montford Reforms, Muslims became more and more politically minded and began to aspire for a greater share in the control of the administration of the country and in Government posts. This feeling gave rise to the formation of a new body whose promoters concentrated on aggressive presentation of Muslim demands. With the prospect of still further constitutional reforms at the end of the first ten years of the working of the Montford Scheme, these leaders strove to organise Muslims into an influential body which would safeguard their interests more effectively than the League. The result was the All-Parties Muslim Conference in 1928. Muslims' attention had already been diverted towards the end of the War by the Khilafat agitation carried on by the Khilafat Committee. The growing weakness of the League and the dissensions within it were at once the cause and effect of the birth of rivals which while it contributed to wider political education of the community, diffused the energy of its leaders and divided their loyalty among different organisations. The constitutional discussions in the Round Table Conference and later served to check the spread of this fissiparous tendency. The publication of the Communal Award and its inclusion in the White Paper Scheme of Reforms in 1933 helped this process of consolidation. At the time of writing, thanks to the efforts of the Aga Khan and other leaders, the League has been unified, the various Muslim organisations brought into closer and co-ordinated activity and encouraging progress made in the task of bringing in the Conference also into the Muslim Unity Scheme.

The Moslem League.—The All-India Moslem League came into being in 1906 out of the universal desire among leading Mussalmans of that time for an effective organisation to protect their communal interests. With a view to secure separate Muslim representation in the legislative bodies of the land under the Minto-Morley scheme of constitutional reform then under discussion, Indian Moslems who had been hitherto keeping aloof from politics organised the League. Its original objects were the promotion of loyalty to British Government, the protection of political and other rights of Mussalmans and to place their needs and aspirations before Government in temperate language and to promote inter-communal unity without prejudice to the other objects of the League. Moslem opinions slowly advanced: and in 1913 the securing of self-government within the British Empire was included in the objects. The League was a powerful and influential body in 1916 and 1917, and what is known as the Lucknow pact of communal representation arrived at between the League and the Congress in 1916 was bodily incorporated in the Government of India Act, 1919. The birth of the Khilafat Committee however overshadowed the League which from 1919 had almost disappeared till April 1923 when it met for a brief period under the presidentship of the late Mr. Bhurgri, but had to be adjourned for want of a quorum. In 1924, however, some influential Moslem leaders like Mr. M. A. Jinnah thought that the Khilafat Committee's functions having ceased in view of the Turkish deposition of the Khalifa decided to revive the League which met under Mr. Jinnah's chairmanship at Lahore in May 1924. The Lahore session practically did nothing else save to reorganise the scattered branches of the League.

The 1925 and 1926 sessions of the League were noted for their virility. The Muslims displayed greater allegiance to their communal organisation in proportion to the loyalty of the Hindus to their Maha Sabha. Suspicion and distrust, enmity and open hostility began to prevail between the two communities. Proportionate distribution of the loaves and fishes of office, on the political side, and the questions of the Hindus playing music before mosques and the Mahomedans killing cows, on the religious side, constituted the points of difference which frequently led to inter-communal riots. The situation was regarded with grave concern by serious minded leaders, some of whom, under

the leadership of Mr. Jinnah, met at Delhi early in 1927 and offered, in the name of the Muslims, to surrender their right to communal electorates, provided, among other things, Sind was constituted, into a separate province and reforms were introduced in the N. W. Frontier Provinces and Baluchistan. This offer, however, was acceptable neither to the Hindus nor the Muslim masses who insisted on the continuance of the separate electorates. A schism set in the Muslim League which was accentuated by the announcement of the personnel of the Statutory Commission on Indian Reforms. The non-inclusion of Indians on the Commission was construed by a certain section of the Muslims as an insult to India; and those who held this view decided to boycott the Commission. The majority of the community, however, thought otherwise. The gulf between the two sections widened during 1928. The 1929 Session served to strengthen the new organisation, the All Parties Muslim Conference. Refusing to walk into Mr. Jinnah's parlour the supporters of the All Parties Muslim Conference were engrossed in their constructive work. They were joined by the members of the Shafi section of the League who had come to Delhi in the hope of making up their differences with the Jinnah group but who were sadly disillusioned. The two organisations have since been functioning independently, the Conference daily gaining strength and the League losing its grit on the community and suffering from internal differences. The League's domestic quarrels were, however, settled early in 1934 and at the time of writing attempts are being made for bringing the League and the Conference together.

The All Parties Muslim Conference.—The publication of the Nehru Report hastened the advent of the All-Parties Muslim Conference. The Conference was called in 1928 to counteract the effect of the Nehru Report and to formulate the Muslim community's demand in regard to the future constitution of India. Notwithstanding the refusal of the Jinnah Leaguers to participate in the proceedings, the Conference was attended by almost all the prominent Muslim leaders of the country, including a very large number of the members of the Councils and the Assembly. There was ready agreement on the unsuitability of the Nehru Report, but difference of opinion prevailed with regard to the goal of India. Persons like Mr. Mahomed Ali stood for complete independence and, of course, for the boycott of the Commission; while Sir Mahomed Shafi, who had a very large following, favoured co-operation with the Commission in the framing of a constitution within the Empire. Things wore a gloomy aspect for a while, but thanks mainly to the tact of the President, the Aga Khan, a compromise was reached whereby the mention either of "Dominion status" or "Independence" was omitted from the resolution put before the Conference which demanded merely "a federal constitution". Similarly it referred neither to the Simon Commission nor to the Nehru Report, but insisted on compliance with the demands of the Conference by any agency which devised a constitution. The Conference has since held the field as the most important and authoritative exponent of the community's views, despite repeated challenges by the League, etc.

Muslim Activities in 1931-33.—Unlike the Congress, the Muslim political organisations used to be known for their lethargy except during the week when their annual meetings are held. During the past three or four years, however, they displayed unusual activity. This is no doubt due to the summoning of the Round Table Conference to settle the basis of India's future constitution. Unattracted by the negative but spectacular programme of the Congress, the majority of the Muslims appreciated the danger of allowing their case to go by default at the momentous London Conference and took a lively interest in its work before and during its proceedings. Repeated attempts were made throughout 1930, particularly during the latter half, to bring Indian Muslim leaders together for ventilating the community's demands. The credit for this useful activity goes to the All-India Muslim Conference, the Muslim League remaining practically inert. In July the Executive Board of the All-Parties Muslim Conference met at Simla and formulated the community's demands. The Simon Report was examined and rejected, but the Round Table Conference was welcomed. Shortly after the opening of the Round Table Conference, the All-Parties Muslim Conference met at Lucknow and reiterated what have come to be known as Mr. Jinnah's Fourteen Points, which demand a series of provisions calculated to protect the community against possible Hindu aggression. The more important of the Fourteen Points are: federal constitution with residuary powers vested in the provinces; uniform provincial autonomy; effective representation for minorities in all provincial legislatures; one-third representation for Muslims in the Central Legislature; guarantee against a disturbance of the Muslim majority in the Punjab, Bengal, the N.-W. Frontier Province; full religious liberty; no prejudicial communal legislation except under certain conditions; share for Muslims in the cabinet and the services; reforms for the N.-W. F.-P. and Baluchistan; separation of Sind; protection of Muslim culture; and insistence on separate electorates unless the above points are conceded. The Hindus seemed in no mood to concede their demands; the Congress persisted in its civil disobedience campaign, paying little heed to the Muslim desire to settle the communal problem before fighting the Government; the Hindu delegates in London did not allay Muslim fears—these factors produced among the Muslims a frame of mind which found expression in the presidential address delivered by Sir Muhammad Iqbal, at Allahabad towards the fag end of the year. Typifying the prevalent Muslim exasperation, Sir Muhammad demanded the formation of a Muslim State in the North-West, comprising Sind, the Punjab and the N.-W. Frontier Province, within the State of India. Such a state would afford a permanent solution of the communal problem, he said and averred that the cultural development of the community demanded it.

In the year 1931, communal agreement became a necessity in view of the important deliberations in London concerning the future constitution of India. The ratification of the Delhi Pact by the Congress and its resolve to participate in the London Conference brought the communal issue to the forefront. The first Round Table Conference had ended with an assurance by the Premier that no legislation

would be undertaken without satisfaction being afforded to the minorities. And if the Congress wished to have its scheme accepted by the Conference it was up to it to carry the Muslims with it. Faced with the task of making constructive proposals, the Congress seriously set about making provisions satisfactory to the Muslims and other minorities.

The leaders of the community, who had not much faith in promises made by the Hindu-ridden Congress, refused to be satisfied with anything less than statutory guarantees for the protection of their rights and privileges. Their suspicions were increased by the manner in which a few members of their community, styling themselves as "Nationalist Muslims", were playing into the hands of the Congress leaders. The task of carrying on negotiations was thus rendered more complex. A series of conversations was held in the summer between Mr. Gandhi, the Muslim leaders and the Nationalist Muslims, but no useful scheme emerged.

The Muslim leaders, on the other hand, strove to consolidate the position of the community and to present a united front at the Round Table Conference. A special session of the All-India Muslim Conference reiterated the Muslims' Fourteen Points and affirmed that the continuance of the majority community in its present state of mind would produce civil war. It accused the British authorities of spineless handling of the position and warned them that their pandering to the Congress would ruin the country.

The Conference was so strong on the question of guarantees for the continued enjoyment of their rights that a proposal was seriously discussed that if their demands were not conceded the Muslim delegates should refuse to co-operate with the Round Table Conference and oppose Dominion Status or responsibility at the centre. The discussion, however, was adjourned *sine die*.

As time passed on it became increasingly evident to the Muslim leaders that Mr. Gandhi was trying to play off the Nationalist Muslims against the whole community, and Mr. Shaukat Ali gave a stern warning to Mr. Gandhi and the Congress.

Shortly after the All-India Conference had held its special session, the Nationalist Muslims met in conference and passed a resolution which favoured the introduction of a federal constitution, residuary powers vesting in the federating units. Representation in the Legislatures was to be on the basis of (a) universal adult franchise, (b) joint electorates, (c) reservation of seats in the Federal and Provincial Legislatures on a population basis for minorities less than 30 per cent., with the right to contest additional seats. The resolution added that Nationalist Muslims were prepared to negotiate for a settlement of the outstanding questions on the basis of joint electorates and adult franchise.

In pursuance of this offer, negotiations were opened between the two wings of the Muslim community but it came to nothing.

The latter half of 1932 and the early months of 1933 were marked by countless attempts not only to consolidate the ranks of the Muslims but also as between the Muslims and the other communities. Real activity started only with the publication of the Communal Award. The Council of the All-India Muslim League met in September and resolved that although the Award fell short of the minimum demands of the Muslims it represented a method which removed a great obstacle from the path of constitutional advance. This represented the bulk of Muslim opinion.

The unity move took various shapes and engaged the attention of numerous conferences. Paradoxically enough it led to unity and discord at the same time. While it brought together those Muslims who wished to consolidate what they had achieved for the community in recent years by securing for it the seal of approval of the other communities and carry these latter with them through the remainder of the constitutional discussions, it alienated the leftist Muslims who would be party to no compromise with Hindus and others who, they argued, had denied them their due until the British Government came to their rescue. The latter section was led by Sir M. Iqbal, Dr. S. Ahmed, Moulvie Sahfi Dawoodi and others.

The first of these important conversations were held in Lucknow in October when Muslims of almost all shades of opinion except the Iqbal school accepted thirteen of the famous Fourteen Points. As for the 14th, namely, the nature of the electorates, the leaders gathered, agreed to start negotiations on the basis of what is known as the Mahomed Ali Formula which makes it obligatory upon a successful candidate to the councils to secure ten per cent. votes of the other communities and 40 per cent. minimum of the recorded votes of his own community For this method it was claimed that it was better than either joint or separate electorate as "it would enable the right type of Hindu and Muslim to be returned". This was definitely opposed by the Muslim Conference group led by Sir M. Iqbal.

Then followed what were called Unity Conferences in November and December—the latter to ratify the conclusions reached at the former. In connection with both of these, progressive Muslims, including Maulana Shaukat A', but excluding the Iqbal group, held their own communal meetings and drew up a formula embodying the maximum they were prepared to concede for the sake of unity and peace, and their formula was later discussed at the regular Unity Conference. The two sessions of the Unity Conference dragged on for a number of days and after numerous deadlocks reached in understanding on most of the points in dispute such as Sind, Baluchistan, Punjab, residuary powers etc. But when the efforts had all but succeeded the conversations ended abruptly owing to the uncompromising attitude adopted by the Bengal Hindus who refused to yield even an inch.

Thus after months of negotiations the position was as it had been before the publication of the Communal Award. Ideed, it became slightly

worse to the extent that it definitely isolated the Iqbal group and the Punjab Muslims. This unfortunate development found expression in the way in which a provisional settlement arrived at on the Punjab communal question with the aid of Sir Fazl-i-Hussain was rejected by the Punjab Muslims in the first few months of 1933.

Muslim Activities in 1933-34.—Notwithstanding these reverses, a renewed attempt was made early in 1933 to amalgamate the Conference and the League. These met with instant failure. Far from securing the end, they resulted in creating a split in the ranks of the League. When a proposal was made in the Council of the League in March to amalgamate the League with the Conference, the question was raised whether the Council could take a decision binding on the parent body. The motion was ruled out by the acting President, Main Abdul Aziz, who was physically thrown out of the chair for giving that ruling. The meeting ended amidst scenes of confusion and violence. The differences were soon composed, but on the understanding that no controversial subjects like amalgamation with the Conference would be brought up. A manifesto signed by leaders of various provinces urged the re-habilitation of the League into the "Parliament of Indian Muslims" and a cable was sent to Mr. M. A. Jinnah, who was then in England, to return to India, assume charge of the League and restore it to its original status and influence. Despite this, the peace in the League proved to be short-lived. In May the trouble reappeared, and the officers of the League were suspended by the acting President for "improperly" convening a meeting of the Council. At a meeting of the Council in the end of that month, the scenes of March were repeated and the President was again pushed out of the chair. These incidents served to emphasise the breach that had occurred in the ranks of the followers of the League. The gulf became wider towards the end of the year when two sessions of the League were held, one in Calcutta and the other in Delhi. The dispute continued right up to February 1934 when, thanks to the good offices of the Aga Khan, the League was reunited under the presidency of Mr. Jinnah.

The publication of the White Paper set the various Muslim organisations busy. The executive board of the All-India Muslim Conference met together and asked for the largest measure of fiscal, administrative and legislative autonomy for the provinces, demanded the curtailment of the Governor's powers and urged statutory safeguards for the protection of the personal law, education and culture of Muslims. Similarly, the League session at Calcutta expressed dissatisfaction with such of the provisions of the Communal Award and the White Paper as fell short of the Muslim demands in respect of their representation in the legislatures. The Delhi Session of the League wanted the Governors' powers to be clearly defined in the constitution and opposed all efforts to change the Communal Award.

Meanwhile Mr. Shaukat Ali returned to India from his American tour and forthwith got into touch with Pandit Madan Mohan Malaviya to bring about inter-communal unity. The move, which did not progress very smoothly owing to the stiff attitude adopted by the leaders of the Hindu Mahasabha, had to be abandoned when the attention of the Hindus was diverted by Mr. Gandhi's fast. The refusal of the Congress in July to give up civil disobedience made it impossible for Muslims to continue to negotiate with Hindus who were wedded to an unconstitutional body.

Mr. Shaukat Ali instead took active interest in a new move to bring about complete unity among all Muslim organisations, so that the community could act as one when the reforms were introduced. The unity talks continued throughout the year and even in the first two months of 1934. The plan met with considerable opposition from the All-India Muslim Conference and the Hafiz Hidayat Hussain section of the League, who felt that the object of the promoters of unity was to compromise on the electorate question. In spite of the non-co-operation of these two bodies, the unity conference met at Lucknow in December under the presidency of the Raja of Salempur. Representatives of the other League, the Khilafat Committee, the Nationalist Muslim Party and the Jamait-ul-Ulema took part.

The President denied the charge that it was an electioneering stunt and affirmed that the object was to secure the political and social amelioration of the community and to weld the various sections into one body working for their common good. The idea was to form a unity board consisting of representatives of the various organisations each of which would continue to function as a separate entity.

The President criticised the White Paper, but added that they had to accept the Communal Award in the absence of a better and more satisfactory substitute based on inter-communal agreement.

The unity board suggested was formed shortly after; but by way of practical work, not much has been done up to the time of writing.

The Aga Khan had meanwhile arrived in India and his presence acted like a tonic on the League. After a series of conferences between the leaders of the two sections, it was decided that the officers of both sides should resign and submit to the Aga Khan's arbitration. This was done and His Highness suggested that the League should be reunited and Mr. Jinnah requested to become its President. Mr. Jinnah agreed and the League emerged once again a harmonious body after years of strife. The Aga Khan's efforts to bring together the League and the Conference did not meet with success.

The Khilafat Committee.—The origin of the Central Khilafat Committee is to be found in the closing days of the Great War when Turkey was feeling the consequences of defeat at the hands of the Allies. Mussulmans in India naturally sympathised with their co-religionists in Turkey and carried on ceaseless agitation against the division of Turkey into small bits among the Allies. Being anxious for the safety of the holy places of Islam and opposed

to the dismemberment of Turkey, they felt a considerable amount of bitterness against the British, who as the principal Allied Power, were dictating their own terms to vanquished Turkey. Formed thus for the protection of the Khilafat as a temporal as well as a religious Power, the Central Khilafat Committee was exploited to good purpose by the leaders of the Congress movement in India which had found in "the Punjab Wrongs" an effective means of propaganda against the British rule in India. Commonness of ill feeling towards the British brought the two closer. While it gave impetus to the Congress by securing for the Congress support from the Muslims, it also received support from the Congress in agitating for the "righting of the Khilafat wrongs." Thus the two worked side by side, mutually helpful.

Madras Khilafat Conference under the chairmanship of Mr. Shaukat Ali unfolded a programme of progressive non-co-operation and appealed to the country for support. The Khilafat Committee, with the huge funds at its disposal, was able to draft in a large number of delegates to the Calcutta special Congress in 1920 when the non-co-operation programme was accepted by that body with two more objects added to it, namely, the obtaining of Swaraj and the righting of the Punjab wrongs.

With the deposition of the Khilafat by the Kemalists and the revival of the Moslem League, the Committee's activities have been considerably restricted. Recently the Committee sent a deputation to Nejd to intervene and settle the dispute between the warring elements. Though the Government of India were willing to permit a deputation of the Committee to Turkey, the Turkish Government did not quite like the idea which had consequently to be abandoned.

The 1925 session of the Khilafat Conference was rendered lively by Mr. Hasrat Mohani whose speech strongly criticising Sultan Ibn Saud was subsequently expunged. The resolution adopted by the conference under the presidentship of Mr. Abul Kalam Azad condemned the British policy in Iraq and the League's decision on Mosul and declared that if the Turks went to war on the latter issue the Conference would deem it its duty to help them.

For some years since then one heard little about the public activities of the Committee, although many of its domestic quarrels engaged the attention of the public. Funds, however, continued to be collected for the "activities" of the Committee which could hardly be specified. Things dragged on until the latter half of 1927, when the leaders found the Khilafat organisation a useful tool for purposes of their propaganda for boycotting the Statutory Commission on Indian Reforms. This was successfully achieved by the extremist wire-pullers at Madras in 1927.

In the next year, however, a peculiar situation arose as the result of the publication of the Nehru Report. This document raised many controversial issues. Its two main recommendations, namely, Dominion Status for India and joint electorates with temporary reservation of seats, were not acceptable to the Khilafatists whose ideal was an extreme type of nationalism coupled with rank communalism. They wanted complete independence for India but insisted on the continuance of separate electorates. This state of mind found expression at the annual session of the Khilafat Conference which met in 1928 at Calcutta.

In the years following the publication of the Nehru Report, the Khilafat Committee re-appeared on the Indian political stage and vigorously strove to repudiate that document. This it succeeded in doing, as the Muslims with one voice condemned it as pro-Hindu. As months passed by, it became increasingly clear to the Muslims that the Congress was getting more and more Hindu-ridden and that they could not expect due protection for their communal rights from the Congress or its leaders. The appreciation of this situation by the Muslim masses was mainly due to the activities of the Khilafat Committee and its leaders. Thus when the Khilafat Conference met in Lahore in 1929 it was resolved that the Khilafatists should participate in the Round Table Conference convened by the British Government to settle the future constitution of India, although in the same breath the Conference declared itself in favour of independence. This latter, however, was but a wordy sop to the extremists, as the main body of Khilafat workers started in 1929 and continued since then a regular fight against the Congress.

In the past few years, in addition to the effective prevention of the Muslims from joining the Congress unless the communal question was satisfactorily settled, the Khilafat Committee did a considerable work abroad. The Ali brothers, who were the soul of the Khilafat movement, worked for the Arab federation and the Tanzim of Mussulmans all over the world. During this time, the movement lost Maulana Mahomed Ali, who passed away in London in the midst of his strenuous work for his country and his co-religionists; and the work of carrying on the increasing activities of the Khilafat Committee fell on the shoulders of his brother Maulana Shaukat Ali. The invitation to bury the departed leader in the mosque of Omar in Jerusalem brought the Indian Muslims closer to the Arabs. This fellow feeling among Muslims in different parts of the globe found expression in a huge conference held in Jerusalem which served to create a new spirit of internationalism among the followers of Islam—one of the cherished objects of the Indian Khilafatists.

The advent of the Nazi regime in Germany and its anti-semtic policy turned the Jews out of that country. This led to an increasing concentration of Jews in Palestine. Jews all over the world was stirred by the plight of Jewish exiles from Germany and this gave vigour to the movement for a national home for Jews in Palestine. Muslims there were adversely affected by this and involved the sympathy of their co-religionists in India who readily responded. The Khilafat organisation took a leading part in this activity. A Palestine Delegation paid a visit to India and Indian Muslims, whose extra-territorial patriotism was

aroused, called meetings and sent deputation to the authorities. Arrangements were also made for sending a deputation to London.

As the representatives of Indian Muslims in the London Conference, the Ali brothers effectively safeguarded their interests. In addition, Maulana Shaukat Ali repeatedly impressed on British audiences and leaders the advisability of keeping the Indian Muslims contented as it would please Muslims in other parts of the world.

The history of the Khilafat movement followed a peculiar course on the North-Western Frontier Province of India. There the Khilafat organisation conducted a ceaseless agitation over the local grievances of the Muslim population and the disaffection towards the Government thus created was promptly exploited by the Congress for furthering its own lawless activities. Being sturdy people accustomed to fighting, they often found it impossible to observe the Congress creed of non-violence. A number of clashes ensued, with attendant casualties.

The fourteenth session of the Khilafat Conference met at Ajmer in September 1932 under the presidentship of Sheikh Abdul Majid. He condemned the caste system among Hindus which, according to him, was responsible for the demand of separate electorates by the depressed classes. As for separate electorates for Mussalmans, he held there was no choice left to them except to ask for such a safeguard. He reiterated the fourteen points, but was none the less in favour of a compromise if it was possible on honourable lines. He suggested the voluntary dissolution of all the existing political organisations of Mussalmans and the formation of one comprehensive body. At the open session of the conference a resolution was passed characterising the communal award as absolutely unsatisfactory in that only three out of the fourteen points had been conceded by it.

The All-India Khilafat Committee met at Lucknow in December 1933, when the Palestine Conference was also held. The President, Mr. Murtaza Bahadur, protested against the Balfour Declaration which "converted the home of Arabs for centuries, which was sacred to the Muslim world, into a national home for Jews." A resolution was passed deciding to reorganise Khilafat Committees in all parts of India, so that they might "safeguard the sacred lands from occupation and invasion by non-Muslims." The Conference also resolved to send a deputation to the Viceroy, to organise a party of Indian Muslims to visit Palestine and later to place their case before British Ministers.

The Round Table Conference.

The first session of the Indian Round Table Conference, which was held in London during the autumn of 1930 and January 1931, was remarkable for the spirit of unity. At the first sitting Sir Tej Bahadur Sapru, on behalf of the British Indian Delegates, extended an invitation to the Princes and States to consider entering an All-Indian Federation, which would establish a federal government and a federal executive, embracing both the British Provinces and the Indian States in one whole, associated for common purposes, but each securing control of their own affairs, the Provinces autonomous, and the States sovereign and autonomous. This, though it struck an unexpected note at the Conference, was no more than the fruition of an old idea. The authors of the Montagu-Chelmsford Report, which laid the foundations of the great Reform Act of 1919, visualised the steady progression of the federal idea, but the notable passage in which they indicated this purpose slipped into the background in the confused and difficult days that followed. Sir John Simon and his colleagues, who conducted the parliamentary inquiry into the working of this Act, declared their adhesion to the federal idea, and proposed as a contribution to it the establishment of A Council of Greater India, in which the representatives of British India and the Indian States should sit for the discussion of matters of common concern. The Government of India, in a lengthy despatch on the Simon Report, also adhered to the federal principle, though they expressed the view that it was a distant ideal. Many Indian publicists had declared the faith that without the adoption of the federal principle no substantial growth of the Indian constitution was practicable. But although federalism had always been in the background, none had possessed sufficient courage to bring it into the forefront until Sir Tej Bahadur Sapru invited the Princes to consider it. The invitation was promptly accepted. His Highness the Maharaja of Bikaner, speaking for the general body, at once declared that subject to the incorporation in the statute of certain defined conditions—they were in substance the guaranteeing of the sovereignty and treaty rights of the States, and the protection of their essential interests—the Princes and States would favourably consider any such proposal; later he averred his belief that, provided the completed picture was satisfactory, seventy-five per cent. of the States would join a federation.

Real Progress.—By common consent, this patriotic offer by the Princes and States transformed the situation. The goal of the British-Indian publicist was the establishment of responsible government in India, with "safeguards" during the transitional period, and ultimate

Dominion status for that responsible government. With the assurance of the participation of the Princes and States, bringing a powerful element of stability into the governing machine, Lord Reading, speaking for the Liberals, accepted the crucial proposition of a responsible government at the centre. Later, the spokesmen for the Conservative Party took up the same position, though perhaps in more cautious terms. On this guiding principle substantial progress was made in sketching the outline of a federal constitution. True, the Minorities Question, that is to say the adequate protection of the minorities in the Indian population, especially the great Moslem community, remained unsettled and Moslem acceptance of responsibility at the centre was conditional on the solution of this very thorny issue. But the measure of progress was so satisfactory before the Conference separated in January 1931, that speaking for His Majesty's Government the Prime Minister, Mr. Ramsay MacDonald, was in a position to make the following announcement:

"The view of His Majesty's Government is that responsibility for the Government of India should be placed upon Legislatures, Central and Provincial, with such provisions as may be necessary to guarantee, during a period of transition, the observance of certain obligations and to meet other special circumstances, and also with such guarantees as are required by minorities to protect their political liberties and rights.

"In such statutory safeguards as may be made for meeting the needs of the transitional period, it will be a primary concern of His Majesty's Government to see that the reserved powers are so framed and exercised as not to prejudice the advance of India through the new constitution to full responsibility for her own Government."

Participation of Congress.—But representative as it was in all other respects, the first session of the Congress embraced no representative of The Indian National Congress. For various reasons that stood aloof. During the interval between the rising of the first session, and the convening of the second, negotiations were carried on with a view to the Congress suspending the Civil Disobedience Movement on which it had embarked and joining in the task of framing the new constitution. These discussions ended in what was called "The Gandhi-Irwin Pact", which embodied a settlement covering the whole field in dispute, and in an undertaking on the part of the Congress to participate in the Round Table discussions, and to suspend civil disobedience. After many hesitations Mr. Gandhi, who was appointed sole representative of the Congress, sailed for England, and others who had remained aloof from the earlier proceedings joined the Delegation. At first Mr. Gandhi's contribution to the work of the Conference was helpful. Though he was perhaps more anxious to justify Congress, and to maintain its right to speak for India, he accepted the principle of federation, and the task of making it easy for the Princes and States to enter therein. But afterwards his contribution was less helpful. Specially was this the case in relation to the Minorities.

The Communal Award.

The decision of the British Government in regard to the representation of the various communities in British India in the Provincial Legislatures, on which the communities themselves were unable to agree, was published in August 1932. The award followed a thorough and comprehensive inquiry into the proportions and position of the various communities in the Provinces. The decision was not given on strictly arithmetical lines; thus the Sikhs with 32 seats out of a total of 175 in the Punjab Legislature secured a larger representation than they would on a population basis. The table of distribution avoided the term Hindu. Its place was taken by the heading "General", but it was clear that those under that heading would be overwhelmingly, if not entirely, Hindu, for Muslims, Sikhs, Indian Christians (with some exceptions) Anglo-Indians and Europeans would vote in separate communal constituencies. The seats were distributed as follows: General, 705; Depressed Classes, 61; Backward areas, 20; Sikhs, 35; Muslim, 489; Indian Christians, 21; Anglo-Indians, 12; Europeans, 25; Commerce and Industry, 54; Landholders, 35; Universities, 8; and Labour, 38.

With regard to the Depressed Classes, it was explained that they would vote in the general constituencies, but in order to ensure adequate representation to them special seats were also allotted. It was contemplated that this arrangement, which gave the members of these classes two votes, should be limited to 20 years. As to women voters, His Majesty's Government came to the decision to limit the electorate for each special woman's seat to voters from one community.

Accompanying the award was an explanatory statement by the Prime Minister in the course of which he observed as follows:

"Our duty was plain. As the failure of the communities to agree amongst themselves had placed an almost insurmountable obstacle in the way of any constitutional development, it was incumbent upon the Government to take action. In accordance, therefore, with the pledges that I gave on behalf of the Government at the Round Table Conference in response to the repeated appeals from representative Indians and in accordance with the statement approved by the British Parliament, the Government are to-day publishing a scheme of representation in the provincial assemblies that they intend, in due course, to lay before Parliament unless, in the meanwhile the communities themselves agree upon a better plan.

"We should be only too glad if at any stage before the proposed Bill becomes law the communities can reach an agreement amongst themselves. But guided by the past experience the Government are convinced that no further negotiations will be of any advantage and they can be no party to them. They will, however, be ready and willing to substitute for their scheme any scheme whether in respect of any one or more of the Governors' Provinces or in respect of the whole of British India that is generally agreed to and accepted by all the parties affected."

THE THIRD CONFERENCE.

Following the publication of the communal award, the third session of the Round Table Conference was summoned in London. The Congress did not participate in it. Most of its leaders including Mr. Gandhi were in prison for reviving the civil disobedience movement. Profiting by past experience Government refused to consider the question of releasing them unless and until the lawless movement which they had initiated was unconditionally called off. The Conference was nevertheless attended by representatives of all other parties in India and lasted from 17th November 1932 to 24th December 1932. Its achievements were summed up by Sir Samuel Hoare, the Secretary of State for India, in his concluding speech at the final plenary session. He said :

I would venture to sum up the results in two sentences. I would say, first of all, we have clearly delimited the field upon which the future constitution is going to be built. In a much more detailed manner than in the last two years we have delimited the spheres of activity of the various parts of the constitution. Secondly and I regard this result as much more important than even that important first result, we have I believe created an *esprit de corps* amongst all of us that is determined to see the building that is going to be reared upon the field that we marked out both complete in itself and completed at the earliest possible date. Lord Chancellor, I said that we had marked out the ground. Let me explain by a few examples what I mean by that assertion. I take the various parts of the constitutional structure in order.

I begin with the part that Indian India, the India of the States, is to play in the Federation. There we have made it quite clear that there is no risk in any respect to the Treaties or to the obligations into which they and we have entered. I hope that I have made it quite clear that all questions governed by that general term "paramountcy" do not enter into the Federal scheme at all. I think also I may say that we made some progress in the enquiry over which Lord Irwin presided one day this week into the methods by which the States will accede to the Federation.

Let me say in passing—for I think it may help our future discussions both here and in India—that we have always regarded an effective Federation as meaning the accession of a reasonable number of States and, as at present advised, we should regard something like not less than half the States seats and not less than half the population as the kind of definition that we have in mind.

Next I come to the Federation and the Units Here, again, I think we have made great progress in delimiting the field between the Centre on the one hand and the Provincial and States Units on the other. We have been very carefully through the lists of Federal and non-Federal activities, and we have got much nearer to agreement than we have ever reached before.

Next there is the very difficult question of Federal Finance, one of the most vital questions in the whole field of Federal activities. Unfortunately we were discussing that question at a time of great difficulty. We have been discussing it at a time when no Government in the world has sufficient money for its needs. But I think I can claim that there again we have made some substantial progress. I fully admit that there are differences still to be recognised and to be reconciled. I do not think it could be otherwise in any question of this kind.

As regards the size of the Chamber, I had hoped that we should have reached a greater measure of agreement than we have found possible during these last weeks. It has been made clear that there still are differences to be reconciled, not only differences between British India and the States, but differences between the bigger States and the smaller States, differences even between some members of the Chamber of Princes and other members of the Chamber of Princes.

Then there was the question of the representation of the communities in the Centre particularly of the Muslim Community. There I think I can say definitely—I think I have said it indirectly very often before—that the Government consider that the Muslim Community should have a representation of 33⅓ per cent. of the British Indian seats in the Federal Chambers. So far as Indian India is concerned, that must be a matter for arrangement between the communities affected and the India of the Princes. But so far as the British Government has any part in the question, we will at any time give our good offices to making it as easy as possible for an arrangement between those parties in regard to future allocation of seats. There again I venture to say that definitely to-day, because I am anxious that that factor in the problem should not in any way impede the future progress in elaborating the further stages of the Constitution.

Now, with all these Federal questions, I can see that there is a grave anxiety in the minds of many members of the Conference—and I can sympathise with that anxiety—lest the various complications of which I have just given you certain instances should take too long to settle, and that the Federation itself will drift into the dim distance and will cease to be a reality in practical politics.

Feeling that anxiety, Sir Tej Bahadur Sapru asked last night that a definite date should be placed in the Bill at which time the Federation should come into being. He qualified his request—and qualified it, no doubt, quite rightly—with the reservation that if the conditions were not fulfilled, Parliament must have some means at its disposal for postponing the date of the Federation.

Now I agree with him that the last thing in the world that we wish to see the Federation drift back into being simply an idea and not an

integral part of the Indian Constitution. But I think I ought to say that I do find a difficulty in agreeing—if indeed this is the time to agree or disagree—to anything in the nature of a definite date in the provision of the Act. The difficulties that are in my mind are twofold. I am not quite sure—and here I am speaking very candidly in the presence of representatives of the States—what reaction something that might appear to be rather in the nature of an ultimatum might have on the Indian States themselves.

Again, I find this difficulty, I feel the machinery of the Constitution will be of an extremely complicated nature, and I think that Parliament, if it were confronted with a definite date, might demand a longer interval and more cautious provisions than it would require if there were no fixed date. After all the machinery for bringing the Act into operation is going to be of a very complicated nature. I have always contemplated that some such method as a Parliamentary Resolution of both Houses would be adopted for bringing the Federation into operation, and that that method would be adopted at the earliest possible opportunity.

What I can say to Sir Tej Bahadur Sapru is that we are going to do our utmost to remove every obstacle in the way of Federation and to remove it at the earliest possible date. Let me also say to him, we do not intend to inaugurate any kind of provincial autonomy under conditions which might leave Federation to follow on as a mere contingency in the future.

Lastly, let me say a word upon another side of this part of our discussions. For the last two years we have discussed the question of certain new Provinces. We have discussed the question of Sind from the very opening of our deliberations two years ago. Last year we discussed in detail for the first time the question of Orissa. Since those discussions we have had expert enquiries into both questions.

Basing our views upon the Reports of those enquiries, basing our views still more on what appears to be a very general agreement both in India and in Great Britain, we have come definitely to the conclusion that Sind and Orissa should both be separate Provinces. No doubt there will be details of machinery to settle and some of them of a rather complicated kind.

Lord Chancellor, I have now dealt with the more prominent of the features of our discussions that emerge upon the more directly constitutional side of the Federation itself. Let me now come to the other series of problems that in some cases affect more directly Great Britain and in other cases affect certain communities and certain interests in India itself. I mean by this all that chapter of questions that by a rough and ready phrase we have described as "safeguards." Lord Chancellor, let me say at the outset of my observations that I regard the safeguards not as a stone wall that blocks the road, but as the hedges on each side that no good driver ever touches but that prevent people on a dark night falling into the ditch. They are not intended to obstruct a real transfer of responsible power. They are not intended to impede the day to day administration of any Indian Minister. They are rather ultimate controls that we hope will never need to be exercised for the greater reassurance of the world outside both in India and in Great Britain. Let me take the two instances that have been most prominent in this part of our discussions. Let me take the most difficult question of all the difficulty of a transfer of financial responsibility. There, Lord Chancellor, I am not disclosing any secret when I say that during the last twelve months the British Government have fully accepted the fact that there can be no effective transfer of responsibility unless there is an effective transfer of financial responsibility. We have fully accepted that fact and we have done our best in the very difficult circumstances that have faced us to reconcile the legitimate demand of every Indian politician for financial control with the legitimate demand of every one who is interested in finance, not only for stability, but for a situation in which there would not even be a suggestion that stability could be questioned. For in the field of finance it is not only the fact itself that matters, but it is what people say about that fact.

Now our difficulties have arisen from two sources. In the first place, there is the fact that, as things are at present, a large part of the Indian revenue has to be devoted to meeting the obligations that have grown up during these years of partnership between Indian and Great Britain. That in itself—and I am sure no one would question the justice of the point of view—makes people here, investors who invested their money in Indian securities, men and women whose families are interested in the meeting of the old obligations, extremely nervous of any change. Secondly, there is the fact that we are passing through, I suppose, the most difficult financial crisis that has faced Asia and Europe for many generations. In the case of India there is a peculiar difficulty, namely, that a large body of short-term loans raised under the name of the Secretary of State in London, fall due for payment in the next six years. That means that, if the Federation is to start with a good name, if its solvency is to be assured, some means must be found for meeting these short-term maturities without impairing the future of Indian credit.

Lord Chancellor, those are the hard facts that have faced the Government during the last twelve months. Those are the hard facts that we discussed in great detail and with great goodwill at the Financial Safeguards Committee. The British Government, the British delegation, and sections of the Conference, came to the view that in those conditions certain safeguards were absolutely necessary if we were to keep the confidence of the world outside and if we were to make it possible in the future for a Federal Government to raise money upon reasonable terms. That, gentlemen, in a few sentences is the history of the safeguards. In particular, is the history of the safeguards that has loomed very largely in our discussions this year, the history of the Reserve Bank. We feel that, if confidence is to be maintained in the financial stability and credit of India, a Reserve Bank must be in effective operation.

I come now to the question of Defence, a question that again has loomed very large, and rightly so, in our discussions. We had first of all, as you all remember, a debate in full Conference—a debate in which I think I may claim that there was complete unanimity that Defence, until it can be transferred to Indian hands, remains the sole responsibility of the Crown. It was, however, clear to me in the course of the discussions, and afterwards in an informal talk that I was able to have with certain leading members of the Conference, that there were differences of opinion as to the methods by which Indian political opinion might be consulted in the administration of the Reserved subject.

Let me take in order two or three of the principal points to which Sir Tej Bahadur attached importance in these discussions. First of all, there was the question of the discussion of the Defence Budget. We were all agreed that it should be non-votable. In the nature of things, I think that was inevitable, but we are quite prepared to take the necessary steps to see that the Budget should be put, as he and his friends wish, in blocks, not in a perfunctory manner simply to be discussed as a whole.

Next he was anxious about the employment of Indian troops outside India without the approval of the Federal Government or the Federal Legislature. There I think he and his friends were agreed that where it was actually a case of the defence of India, in which no Imperial considerations entered at all, the defence say, of the Frontier of India itself, there the responsibility—the sole responsibility—of the Crown should remain undiluted. More difficult questions arose in cases when Indian troops might be employed for purposes other than directly Indian purposes. Now in those cases I can say to him I would prefer not to be precise as to the exact method. I myself feel sure that a means will be found to leave the decision in some manner to the Federal Ministry and to the Federal Legislature.

Next, there was an important series of questions connected, first of all, with the Indianisation of the Army, that is to say, the greatest participation of Indians themselves in the defence of India and, secondly, as to the bringing into consultation as much as possible the two sides of the Government. He and his friends were anxious that statutory provision should be made in some way for both these objects. The Lord Chancellor and the British Government still take the view, and we feel we must maintain it, that statutory provision is too inelastic, if you define statutory provision in the narrow sense. But I think I can meet him and his friends effectively by including directions to the Governor-General in both these respects in the Instructions.

Now he said, quite rightly, that his attitude towards that proposal would depend very much upon the Instructions themselves. As regards the Instructions we intend first of all to allude to them in the body of the Statute. And then we intend to ask Parliament to agree to a novel procedure, but a procedure that I believe is well fitted to the conditions with which we are faced, namely, that before certain of them are submitted to His Majesty, both Houses of Parliament should have the opportunity of expressing their views upon them. The effect of that would be to give the Instructions a Statutory framework by the allusion in the Act itself, and to give them a Parliamentary framework by the Resolutions that would be passed approving of them before they are submitted for His Majesty's approval.

As to the other proposals that Sir Tej made in the matter of Defence, we still feel that the Governor-General should have an unfettered power in selecting his Defence Minister; but we will make it quite clear in the Instructions that we wish the two sides of the Government to work in the close co-operation, and that we do definitely contemplate—I would ask his attention to this point, and we will make an allusion to it in the Instructions—that before the Estimates are actually put to the Federal Assembly the Finance Minister and that doubt the Prime Minister should have an opportunity of seeing them and giving to the Governor-General their views upon them.

We have been planning a scheme and a very complicated scheme, but we have also been trying to create a spirit of co-operation. Several members of the Conference were very kind to me last night when they said that I had played some small part in helping to foster this spirit of co-operation during the last few weeks. I thank them for what they said, but I say that their kind words were really undeserved. The spirit of co-operation is due to much greater events and to much greater people than any with whom I am connected or any that I could ever hope to emulate.

Immediately after the conclusion of the Conference, His Majesty's Government, in pursuance of their pledges, proceeded to draft the White Paper incorporating their tentative conclusions.

The White Paper.

The proposals of His Majesty's Government for Indian constitutional reforms which are now under examination by a joint Committee of Parliament were issued in March this year in the form of a White Paper. Though the intention is to speed up the necessary legislation, no date is suggested in the White Paper for the actual change in the Indian system of Government. The Royal Proclamation inaugurating the new system shall not be issued until both Houses of Parliament have agreed on the date.

By the proposals put forward, the Provinces are given autonomy and to a Federal Government is conceded responsible government over the whole field of administration allotted to the Federation except in regard to certain "reserved" subjects. The Federation will consists of the autonomous provinces of British India, 11 in number, including the new Provinces of Sind and Orissa, and the Indian States. It will be brought about by the Princes surrendering a defined corpus of their present sovereign rights to the Federation but retaining internal autonomy in respect of rights not so surrendered, unaffected by any other consideration than the existing suzerainty of the Crown.

It is a condition of the setting up the Federation:—(1) That rulers of States representing not less than half the aggregate population of the Indian States and entitled to not less than half the State's seats in the Upper House of the Legislature shall have executed the necessary Instrument of Accession; and (2) That a Reserve Bank, free from political influence, will have been set up and already successfully operating. These conditions fulfilled, it will rest with both Houses of Parliament to move the Crown by an address to issue a Royal Proclamation inaugurating the Federation.

Reserved Subjects.

The Governor-General and Viceroy will have a dual capacity. Governor-General as head of the Federation, and Viceroy as conducting relations with States outside the federal sphere. As Governor-General he will be aided and advised by a Council of Ministers responsible to the Legislature in all matters save those concerned with the three Departments to be reserved to his personal administration namely, Defence, External Affairs, and Ecclesiastical Affairs.

The Governor-General is also given a special responsibility for certain purposes:—(1) The prevention of grave menace to the peace or tranquillity of India or any part thereof. (2) The safeguarding of the legitimate interests of minorities. (3) The safeguarding of the financial stability and credit of the Federation. (4) The securing to the members of the Public Services of any rights provided for them by t Constitution and the safeguarding of th legitimate interests. (5) The protection the rights of any Indian State. (6) T prevention of commercial discriminatio (7) Any matter which affects the administr tion of the reserved departments.

In fulfilment of these special responsibiliti the Governor-General is empowered to a either without or contrary to the advice of h Ministers and can himself pass a Governo General's Act to secure any of these purpose and is given all powers to secure the necessar finance.

Apart from the reserved departments and these special responsibilities there is another category of prerogatives or powers, the majority of them such as are usually associated with the head of a Constitutional State, the others to meet the particular conditions of India:— (*a*) The power to summon, prorogue, and dissolve the Legislature. (*b*) The power to assent to or withhold assent from Bills or to reserve them for His Majesty's pleasure. (*c*) The power to summon joint sessions of the two Houses of the Legislature in cases of urgency. (*d*) The grant of previous sanction to the introduction of legislation:—(1) Repealing, amending, or repugnant to any Act of Parliament extending to British India or any Governor-General's or Governor's Act or Ordinance; (2) affecting any department reserved to the control of the Governor-General; (3) affecting coinage and currency of the Reserve Bank; (4) affecting religion; (5) affecting the procedure regulating criminal proceedings against European British subjects.

In case of emergency the Governor-General also has certain Ordinance-making powers. In the event of a breakdown of the machinery of government he is empowered to assume full control. The system is continued under which expenditure connected with the reserved subjects is not subject to the vote of the Assembly. In regard to other finance he has power to restore any cut interfering with the carrying out of any of his special responsibilities. Various heads of expenditure will not be subject to the vote of the Legislature although they may be discussed. These include the loans services, the expenditure of the reserved departments, and the salaries and pensions of the Indian Civil Service.

The special and wide powers thus conferred on the Governor-General are by command conveyed in the Instrument of Instructions given him by the King Emperor on assuming office, to be exercised only in special circumstances and not in everyday routine and normal circumstances, except in the case of the reserved departments.

Federal Legislature.

The Federal Legislature resembles the existing Central Legislature in composition and will consist of two Chambers—the Upper Chamber or Council of State consisting of 260 members, 100 appointed by the Princes, 150 elected by members of the Provincial Legislatures of British India, and 10 nominated members; the other, the Lower Chamber or House of Assembly, consisting of 375 members, of whom 125 will be appointed by the Princes and the others elected directly according to the seats allocated to each Province and to the several communities and interests in each Province. In the present British India Legislature Chambers only a proportion of the members is elected.

The Legislature will be debarred from passing laws of a discriminatory character. In particular it will be unable to pass laws subjecting any British subject or company domiciled in the United Kingdom to any disability or discrimination in the exercise of certain specified rights, if a British Indian subject or company would not be subjected in the United Kingdom to a disability or discrimination of a similar character.

The Provinces.

In the Provinces certain subjects (Reserved subjects) have hitherto been administered by the Governor-in-Council and others (Transferred subjects) by the Governor and Ministers in the Legislature. But Governors, like the Governor-General, are given special responsibilities, with corresponding powers to discharge these responsibilities, confined in scope of course to the Province.

The Provincial Legislatures are enlarged and the allocation of seats and method of election are in accordance with the provisions of his Majesty's Government's Communal Award of August 4 last. The present nominated members and official bloc disappear in favour of wholly elected Legislatures, so far as the Lower Houses in the Provinces are concerned. In Bengal, the United Provinces, and Bihar the Legislatures will be bicameral with a small proportion of nominated members (not officials) in the Upper Chambers, in the other eight Provinces unicameral.

For the franchise for the Lower Chamber of the Federal Legislature the proposals lay down qualifications the effects of which should be to enfranchise between 2 and 3 per cent. of the population of British India, and similar but lower qualifications for the franchise for the Provincial Legislatures should produce a Provincial electorate in the neighbourhood of 14 per cent. of the total population of British India or some 27 per cent. of the adult population. Women can vote for and will have seats reserved for them in both the Federal Assembly and Provincial Legislatures.

Public Services.

The proposals confirm existing rights of the Public Services. The Secretary of State will continue to make appointments to the Indian Civil Service, the Indian Police, and the Ecclesiastical Department, and the conditions of service of persons so appointed will be regulated by rules made by the Secretary of State. He will determine the number and character of such appointments and may prohibit the filling of any post declared to be a reserved post otherwise than by the appointment of a person appointed by the Crown, the Secretary of State or the Secretary of State in Council.

At the expiry of five years from the commencement of the Constitution Act a statutory inquiry will be held into the question of future recruitment for the Indian Civil Service, Indian Police, and the Medical and Railway services, and the Governments in India will be associated with the inquiry. The decision on the results of the inquiry will rest with His Majesty's Government and will be subject to the approval of both Houses of Parliament. Pending the decision on this inquiry, the present ratio of British to Indian recruitment will remain unaltered. The administration of the Railways is by a Statutory Railway Board so composed as not to be subject to political interference.

The Secretary of State's Council for India is abolished and its place is taken by not less than three and not more than six advisers to be consulted as the Secretary of State may think fit, except that their concurrence is required in relation to certain service matters.

A Federal Court with both an Original and Appellate jurisdiction in cases raising constitutional issues such as the spheres of the Federal, Provincial and States authorities is set up and power is given to establish a Supreme Court to act as a Court of Appeal in British India.

It has not been possible to include Burma in the proposals, as Burma has delayed a decision as to whether it wishes to be separated from India in accordance with the constitution outlined for it at the close of the Burma Round Table Conference or to remain a Province of India.

JOINT PARLIAMENTARY COMMITTEE.

After the publication of the White Paper, steps were taken to appoint members of the House of Commons and the House of Lords to a Joint Select Committee to consider the proposals and report to Parliament. The White Paper was to be regarded as embodying the Government's scheme, but the Committee had full liberty to produce any plan it thought proper. There was more than one debate in the two Houses of Parliament for the nomination of members to the Joint Committee, and ultimately the three leading parties in Parliament, Conservatives, Liberals and Labour, agreed to appoint their representatives. While the Labour Party showed some unwillingness in the beginning to appoint its nominees, it yielded eventually; but the Right Wing section of the Conservatives in both Houses, represented by Mr. Winston Churchill and Lord Lloyd, refused to co-operate and kept themselves free to deal with the report of the Joint Committee in any manner they thought proper.

Simultaneously steps were taken to select representatives from British India and Indian States to co-operate in the Joint Committee's inquiry. Some difficulty was experienced in fixing the status of these nominees; while under the British constitution Parliament could not appoint any outsiders to its Committee, the Indians would not accept any position except that of practical equality with members of Parliament serving on the Committee. The difficulty was solved by styling the Indian representatives as assessors, and giving them liberty to cross-examine witnesses and hold discussions with the members of the Committee, but not to join in the report or sign it.

The question of the procedure to be adopted by the Committee and the nature and quantum of evidence to be led before it presented an initial obstacle, in view of the wide scope of the inquiry and the voluminous nature of the material to be dealt with, but this was soon tided over. Another real trouble in the initial stages of the Joint Committee's work was the disinclination of almost all political parties in India to co-operate with the Committee or lead evidence before it on their behalf. This objection too disappeared after a time, and the Committee eventually examined a large number of Indian witnesses representing various schools of thought. The inquiry lasted about six months, and all interests, including the Indian Sevices, voiced their cases. Even die-hard Conservatives like Mr. Churchill appeared before the committee; but the principal witness was Sir Samuel Hoare himself, although he was a member of the Committee. His evidence occupied more than a fortnight and covered the entire ground of the White Paper, in the course of which he submitted several memoranda in order to elucidate doubts and fill gaps. By common consent Sir Samuel Hoare ably maintained his ground against the representatives of die-hard Conservatives on the Committee, but Indian political opinion held that on several points he had to yield, Indians looked with disfavour on his explanations in respect of defence, fiscal autonomy, commercial discrimination and India's right to retaliate against Dominions which discriminated against her, which were construed as weakening India's constitutional position.

Immediately on the publication of the White Paper, Indian politicians, even of the moderate variety, expressed themselves in strong terms against some of its provisions.

On the other hand, it had the support of a number of communal parties, including the Muslims.

While the Joint Committee inquiry was in progress, Sir Tej Bahadur Sapru, one of the leading British Indian delegates, was unable to continue in London longer than July and placed on record suggestions for the improvement of the Reform proposals with a view to rendering them acceptable to Indian opinion. Similarly His Highness the Aga Khan, the leader of the British Indian delegation, and his British Indian colleagues submitted a joint memorandum towards the close of the sittings of the Joint Committee in the hope that their suggestions would be taken into consideration at the time of the drafting of the report.

Both these memoranda cover a wide ground and demand a number of radical changes in the White Paper scheme. Sir Tej Bahadur said that "no constitution, which fails to satisfy certain essentials, will meet with the needs of the situation in India. Those essentials are: responsibility at the centre and provincial autonomy with certain safeguards for the period of transition; reserved subjects, army, foreign and ecclesiastical departments to be under the control of the Governor-General for the period transition, which should not be long or indefinite; adoption of a definite policy in respect of reserved departments facilitating their transfer to the legislatures within the shortest period compatible with safety of the country and efficiency of administration, and a definite declaration in the statute of the constitutional position of Indian within the British Commonwealth of Nations."

The other memorandum is specially notable because it was signed by all the Indian Delegates, majority and minority representatives. It made it clear the modifications suggested would not affect the basic structure of the scheme but were intended to ensure that the reserved powers were so framed and exercised as not to prejudice the advance of India to full responsibility and to secure that the period of transition was not indefinitely extended. It urged that the preamble to the Constitution Act should contain a definite statement that the "natural issue of India's constitutional progress is the attainment of Dominion Status." Indian public opinion, it said, had been profoundly disturbed by the attempts made during the last two or three years to qualify the repeated pledges given by responsible ministers on behalf of His Majesty's Government. "Following the precedent of some of the Dominion constitutions, a definite date after the passing of the Act should be fixed for the inauguration of the Federation."

The memorandum also demanded greater control over defence, finance and the services. The signatories urged that the Army Counsellor should be a non-official Indian, there should be a definite programme of Indianisation, the cost of defence should be substantially reduced and the Indian Army should not be employed outside the country except for Indian defence.

On the subject of financial safeguards they did not object to the appointment of an adviser to the Governor-General for a limited period, provided he did not interfere in the day-to-day administration and that he should advise the Governor-General only when he considered the financial stability or credit of the Federation to be in danger. Legislation in respect of currency, coinage and the Reserve Bank must not be subject to the previous consent of the Governor-General.

They demanded statutory recognition of India's freedom to regulate her fiscal policy without reservations or qualifications and, while they had no objection to a general declaration about British subjects holding public offices or practising any profession or trade, they stoutly opposed any provision which would make it impossible for India to discriminate against the subjects of the Dominions and Colonies which imposed disabilities on Indian subjects. The proposal to continue the recruitment to the Services by the Secretary of State was also objected to and the demand was put forth that the Central Services should be recruited by the Federal Government and the Provincial Services by the Provincial Governments.

Mr. N. M. Joshi submitted a separate memorandum making suggestions for health insurance for workers and invalid and old age pensions and seeking to improve the provisions for labour legislation and representation.

THE FUTURE OF BURMA.

Throughout the discussions on the Indian Reforms proposals the question of Burma's future occupied a secondary position, as nothing could be definitely settled until the Burmans themselves decided whether they would join the proposed all-India Federation and share the lot of the Indian provinces, or become a separate unitary entity with constitutional advance analogous to that conferred on India, subject to similar safeguards. It was thought that a new election to the Burma Legislative Council would give the electorate an opportunity to express itself on this question. The election was held and resulted in a majority for the antiseparationists. When, however, the new Council was called upon to give a straight answer to the question Separation or Federation on the lines of His Majesty's Government's proposals it declined to do so. A large number of resolutions were tabled, but not one of them provided a clear indication of the people's mind. Even the anti-separationists did not vote for Federation, but expressed a desire to cast their lot with India as an experimental measure, reserving the right to withdraw from the Federation at a later date. Several adjournments were granted to enable the parties to arrive at a compromise resolution and, after the Governor had refused further to prolong the sittings, which had lasted several days, the special session of the Council was prorogued.

If Burma herself gave an inconclusive verdict, the British Government could not remain idle; that would have been unfair both to India and Burma. Therefore, a few months later (in August) Sir Samuel Hoare presented to the Joint Parliamentary Committee a memorandum embodying Government's proposals for the future constitution of Burma if it were decided to separate Burma from India. He, however, made it clear that if the Joint Committee decided that Burma should be included in the Indian Federation, the proposals of the White Paper (subject to consequential adjustments) would apply to Burma in the same way as they would apply to any other province of India. As the Burma Council had refused to choose separation on the basis of the constitution outlined by the Premier, he suggested that the Committee should invite some Burma representatives for consultation to assist in determining which of the two courses would be in the best interests of Burma. Assuming that Burma was to be separated, he outlined a scheme of constitutional advance under which executive authority in a unitary Burma would vest in the Governor, who would also be the Commander-in-Chief. He would himself direct and control the administration of finance, external affairs, ecclesiastical affairs, monetary policy, currency, coinage, and matters connected with scheduled areas. Other subjects would be administered by Ministers elected by, and responsible to, the Council. The Legislature would be bicamera.

Shortly after the submission of this memorandum Sir Samuel expressed the opinion that an overwhelming body of Burmans had supported separation from India. He added that Burma could not be granted the right of secession, as it would be a bad precedent and would be fatal to Federation.

In pursuance of the policy of giving Burmans the fullest opportunity to determine the future form of their constitution, the Joint Parliamentary Committee decided in November to invite twelve representative Burmans for consultation. A prolonged discussion took place in December, in which both sides freely ventilated their respective points of view. "The result of the elections to the special session of the Burma Council should be construed as a vote against separation"; "There are no two opinions in Burma; all are for separation; the so-called federationists are also for separation—but after a time." These were the conflicting views expressed in London. On behalf of His Majesty's Government, Sir Samuel made it plain that Britain had no axe to grind and that she was actuated solely by the desire to do the best for Burma. There the matter rests pending the report of the Parliamentary Joint Select Committee on the White Paper.

The Indian Legislature.

The Annual Budget Session of the Indian Legislature opened in New Delhi with a meeting of the Legislative Assembly on Wednesday, 1st February, when His Excellency the Viceroy delivered an inaugural address. In the course of this, His Excellency specially referred to the declining civil disobedience movement and, having re-emphasised the determination of his Government not to relax the measures in force against it so long as circumstances made them necessary, referred to the recently passed Legislation on the subject and said: "The Acts which are now on the Statute Book will not be permanent, but will be in force during the difficult period of transition from the present to the new constitution, when there is a special risk of certain elements in the population trying to substitute the methods of revolution for those of constitutional and orderly progress. I trust that when the period for which these Acts will remain in force has expired, those in whose hands the power will then rest will find themselves able safely to discard them and that the threat which direct action presents to the evolution of constitutional self-government will have been destroyed. I regret that there is not as yet any open sign of a recognition on the part of the leaders of the civil disobedience movement of the harm their policy has caused to the country. Though their efforts to revive enthusiasm meet with little success, they still remain pledged to that policy. I am firmly convinced, however, that the march of events will gradually carry them further and further away from the sterile methods of negation and obstruction, and that in spite of themselves they will find that they are caught up in the living forces of constructive politics which the near approach of the new constitution is releasing on all sides."

His Excellency also specially referred to the terrorist movement in Bengal, said there had been some improvement in the situation and declared that the despatch of troops to the Province had had a reassuring effect upon the loyal population.

His Excellency expressed great satisfaction at the general good-will exhibited at the recent Third Round Table Conference and said: "My last and strongest impression is of work well done and of another milestone behind us on the road of constitutional advance. There is no tarrying on that road. Steadily and surely the march to Federation proceeds." The Viceroy showed with what interest he had met individual Indian Delegates since their return from the Conference to India.

His Excellency forecast the introduction of a Bill to establish an Indian Reserve Bank and expressed keen satisfaction at the success of the Finance Department loan conversion programme whereby 50 crores of loan money was dealt with in a manner which "must be a record in the financial history of the Government." His Excellency noted how at each step in the fulfilment of the programme the level of Government's credit had been raised, so that whereas in June 1932, Government borrowed on a basis of somewhat over 5½ per cent. the latest transactions showed Government's credit established very nearly at a 4 per cent. level.

In conclusion the Viceroy, after emphasising the need for further economy in expenditure said: "I think it is true to say that there is now in the world and particularly in India, a growing sense that in present world conditions some sort of economic planning is necessary for every country. My Government are very much alive to this feeling and here again we have our eyes on the future and desire to prepare for the new Government measures for providing more accurate statistical information, and for evolving a co-ordinated economic policy." His Excellency went on specially to refer to investigations lately undertaken to deal with the competition of road and rail transport.

Among the mass of official legislation of a minor character with which the session started was a Bill to prohibit the pledging of labour of children. This came up on report by Select Committee and was passed into law. A motion to refer to Select Committee a Bill to amend the Auxilliary Force Act was passed. The aim of the Bill was to provide for a certain amount of reorganisation and was primarily an economic measure. One of the most important measure brought forward during the session was a Bill to establish a Medical Council in India and to provide for the maintenance of a British-Indian Medical Register. This, after prolonged discussion on various days, was referred to a Select Committee on 12th April. An official Bill to regulate the payment of wages to people employed in industry, a measure brought forward to deal with the undue withholding of wages and the late payment of wages, by employers, was ordered for circulation to elicit public opinion. Other bills dealt with taxation of incomes, with the possession of wireless, receiving apparatus and the extension of the current protection of Indian wheat, cotton, textiles and salt.

A Bill of great importance introduced on 8th April was one to provide for the imposition of additional Customs Duties on imported goods for the purpose of safeguarding industries in British India. The provision of the Bill provided for a duration of the measure until 31st March 1935. The reason for its introduction was the need to deal with the influx of Japanese manufactured goods at destructive competitive rates. The Commerce Member informed the House that Government had taken steps to denounce the Indo-Japanese Trade Convention. The denunciation required six months' notice and would, therefore, not come into operation until 10th October. The new Bill armed Government with extensive powers for the imposition of safeguarding duties by executive order as soon as the denunciation took effect. The Bill was after considerable discussion, passed by the House without a division on 12th April.

Another important measure brought before the House by Government was a Bill to supplement the provisions of measures passed by the Bengal, Bihar & Orissa, Bombay, United Provinces and Punjab Governments and Legislatures to take the place of numerous Ordinances for the suppression of civil disobedience. The Government of India's bill was instituted for the enactment of certain provisions beyond the

competance of Provincial Governments and their Legislatures. The Central measures were the subject of prolonged debate, but the general purport of the speeches was to show a preponderating body of opinion heartily in support of Government's determination to eradicate civil disobedience. The Bill was finally passed by 48 votes to 30, non-official Muhammadans being almost unanimously on the side of Government, while several other non-official Indian members voted in the official Lobby and other elected members who did not feel themselves able to vote for the measure nevertheless assisted its passage by absenting themselves from the division, the total number of votes cast, being only 78 out of a House of 146.

Railway Budget.

The Annual Railway Budget was presented to the Assembly on 16th February by the Hon'ble Sir Joseph Bhore, Member for Railways. He pointed out that it was unavoidable that the Railway estimates should reflect the prevalent severe economic depression but said there were legitimate grounds to hope that the country had at last touched rock bottom and that though recovery might yet be delayed the worst had in all probability already been passed. On that assumption the estimates were framed. The loss in the working of commercial lines in the year 1931-32 finally turned out to be 7¼ crores or a quarter of a crore less than anticipated. The loss on strategic lines was, as usual, just under two crores. The total loss of 9¼ crores, was met to the extent of just under 5 crores by the withdrawal of the uninvested balance of the Reserve Fund and for the remaining 4¼ crores, an equivalent amount was taken as a temporary loan from the Depreciation Fund.

The Budget for 1932-33 anticipated a total deficit on commercial lines of 7½ crores. The Estimates when the Budget was presented in February, 1933, indicated that the results would be 1¾ crores worse, the deterioration being due to a further fall in earnings. Traffic receipts were estimated to be 2½ crores below the budget figures. The loss on lines including 2 crores on strategic lines was thus expected to be 9½ crores, a figure only slightly above the loss of 1931-32. This sum was withdrawn from the Depreciation Fund. The balance to the credit of that fund, which was nearly 15 crores at the beginning of 1932-33 and under the current budget received an increase of about 8 crores (owing to the nett accretion due to the surplus of payments into the fund over withdrawals from it to meet current expenses and renewals) so that at the end of the year it would stand at 13¾ crores.

For the year 1933-34 the estimates showed total traffic receipts 88¼ crores and total working expenses, including depreciation, just over 63 crores, nett traffic receipts thus being nearly 25¼ crores. It was calculated that nett revenue would be insufficient to meet interest charges by about 7¾ crores. This deficit, of which 5¾ crores was in respect of commercial lines, had again to be found by a temporary loan from the Depreciation Fund, which would thus at the end of 1933-34 stand at 13¾ crores. In anticipation that the lowest depths of the economic depression had already been touched, the estimates provided for an increase of 1¾ crores, or a little under 2 per cent. on the current year's figures.

It was announced in connection with the Railway Budget that the 10 per cent. cut in pay previously introduced throughout the Government services would not fully be continued during 1933-34, but could not, on the other hand, completely be restored, and that for the coming year there would again be a cut of 5 per cent. in pay and that in conjunction with that official salaries would for the first time come under the 25 per cent. income tax surcharge already introduced as an emergency measure on all income except non-official ones.

General Budget.

The Finance Member, the Hon'ble Sir George Schuster, presented the Annual General Budget on the evening of 28th February. At the outset he said that the emergency plan introduced in September, 1931, to produce budgetary equilibrium for the years 1931-32 and 1932-33 had worked successfully. The results for 1931-32 turned out nearly 2 crores better than was anticipated in March, 1932, and the accounts for the year showed a deficit, after providing nearly seven crores for the Reduction of Debt, of 11¾ crores. For the year 1932-33 the latest revised estimates indicated an almost exact realisation of the budget forecast of a surplus of 215 lakhs, the actual surplus being placed at 217 lakhs, again after providing nearly seven crores for the Reduction of Debt. The results for the two years combined thus showed a total budgetary deficit of 9.58 crores, against which may be set a total provision of 13.73 crores for reduction and avoidance of debt. The Finance Member expressed satisfaction that in the two years from the beginning of April 1931 to the end of March 1933, "which I think may fairly be described as the two most difficult years for finance that the world in times of peace has ever known," India would not only have paid her way but have provided a nett sum of 415 lakhs for reduction of debt.

Reviewing the trade returns of the concluding year, the Finance Member said they seemed to reinforce one of the points which he emphasised in his speech a year previously, namely, the extreme power of resistance, in spite of diminished purchasing power, which India showed in maintaining the consumption of certain standard necessities of the masses. As regarded the three articles which were taken as necessities for the masses, the quantities for consumption were in all cases higher for 1932 than for the ten-year average 1920-30. Piece-goods, with a total of 5,827 million yards as compared with 4,923 million yards for the earlier period, were 18 per cent. up. Kerosine Oil, with a total 235 million gallons as compared with 232 million gallons for the earlier period, was 1 per cent. up. Salt, with a consumption of 2,106,000 tons as compared with 1,965,000 tons for the earlier period, was 7 per cent. up. The returns showed a fall in value for machinery and mill-work of about 40 per cent. a fall both in quantity and in value of lubricating oil of between 30 and 40 per cent. an increase in quantities of cement, accompanied by a fall in values, and an increase of 26 per cent. in the value of chemicals, the total value of all these articles for 1932 being 70 per cent. of the value for the ten years ending 1930, for which figures had been tabulated. Turning to what he called luxuries, the Finance

Member showed that the imports of motor-cars in 1932 was 5,300 compared with an annual average of 11,400 in the earlier ten years. Tobacco consumed in 1932 represented 61 per cent. in quantity and 51 per cent. in value of the earlier period, liquors 93 per cent. and 73 per cent. respectively. "Altogether, the total value of the three luxury articles consumed in 1932 represents 58 per cent. of the average value for the earlier period." Sir George Schuster added that the figures indicated very heavy decreases in the consumption of certain luxury and quasi-luxury articles.

With exports for the ten months, April-January, at 101¼ crores and imports at 112¼ crores, India had an adverse balance of trade in merchandise, but this was more than made up by sales and export on private account of gold. Out of £80 millions which represented the proceeds of the export of gold, Government acquired £70 millions and £10 millions served to repay foreign funds temporarily invested in India. Government out of its £70 millions used £34½ millions to meet its own current requirements and £35½ millions to repay sterling loans and strengthen its reserves. Therefore, out of the total £80 millions of gold proceeds only £34½ millions were used to meet current requirements and the balance of £45½ millions went to reduce India's external obligations and strengthen her public reserves.

"Looking at the matter from the side of the Indians who have sold the gold, they have acquired 107½ crores of rupees and of this, while a portion has been spent in meeting current requirements (*i.e.*, paying customs duty on imported goods and other taxes), a very substantial portion also, as is clear from the figures which I have given, must have been retained in currency or invested in Government securities."

The Finance Member estimated civil expenditure for 1933-34 at 20,53 lakhs, that is, 36 lakhs less than in the preceding year. He showed nett military expenditure at 46.20 crores.

The Budget, in the course of general discussion, had as good a reception from the non-official benches as could be expected. The Indian Finance Bill was passed without a division on 28th March without having been amended to an extent unacceptable by Government.

Other Business.

The House, on 8th March, received with expressions of regret by the leaders of all parties a message from His Excellency the Viceroy signifying his acceptance of the resignation of the Hon'ble Sir Ibrahim Rahimtulla of his office of President of the Assembly. The election of a new President was fixed for 14th March and on that date Sir R. K. Shanmukham Chetty was unanimously elected, being the only member nominated. Approval of his election was speedily notified by His Excellency the Viceroy and Mr. Chetty was formally congratulated by leaders of all parts of the House. The election of a new Deputy President in place of Mr. Chetty took place on 20th March. There were seven candidates. The election was keenly contested. Five of the candidates withdrew before the ballot was held and the result of the ballot was the election of Mr. Abdul Matin Chaudhury by 64 votes, the other candidate in the ballot, Mr. Muhammad Yamin Khan, receiving 56 votes.

There took place during the session a two days' debate on His Majesty's Government's White Paper containing proposals for Indian constitutional reform. The Hon'ble Sir Brojendra Mitter, as Leader of the House, formally started the discussion by moving that the White Paper be taken into consideration. To this Sir Abdur Rahim moved on behalf of the Opposition Parties an amendment which substituted for the original motion one running as follows :—

"This Assembly requests the Governor-General in Council to convey to His Majesty's Government that, in the opinion of this Assembly, unless the proposals of His Majesty's Government for Indian Constitutional Reform are substantially amended in the direction of conceding greater responsibility and freedom of action to the representatives of the people in the Central and Provincial spheres of Government, it will not be possible to ensure peace, contentment or progress of the country."

The amendment was carried without a division. Government did not participate in the debate.

An important non-official Bill before the Assembly during the session was one by Mr. C. S. Ranga Iyer "to remove the disabilities of the so-called Depressed Classes in regard to entry into Hindu Temples." Mr. Ranga Iyer, on 24th March, moved that it be circulated for the purpose of eliciting public opinion by 30th July 1933. The debate on the motion did not conclude before the end of the session.

Autumn Session.

The annual autumn session of the Legislature commenced with meetings of the Legislative Assembly in Simla, beginning on 22nd August. The first business of importance was a motion for the adjournment of the House in order to raise the question "whether this Assembly wholly approve of the attitude of Government in restricting facilities afforded to Mahatma Gandhi, restricting these much more unlike the previous occasion, which has compelled him to resort to fast unto death." The motion referred to correspondence between Government and Mr. M. K. Gandhi, who was in jail at Yeravda after conviction and sentence by the District Magistrate of Poona for breach of the law. Mr. Gandhi, on the last occasion when he was in jail, was not a convict but was restrained by executive order. He now claimed the same privileges of correspondence and publicity work as he enjoyed on the former occasion. These privileges Government were ready to concede only in part and Mr. Gandhi went on hunger strike in order to coerce Government into conceding the whole. The outstanding feature of the debate in the Assembly was the widespread expression of opinion on the non-official benches in support of Government's decision. The debate proceeded to within half a minute of the two hours permitted to it under the Legislative Rules. The President then informed the member in possession of the House that he only had half a minute more. That member thereupon read a telegram just received from Poona by a news agency and stating that Mr. Gandhi

had unconditionally been released, that he was looking very weak and that he had broken his fast. This concluded the discussion. Government had, as a special case, informed the Provincial authorities that they authorised the release when it became evident that his fait would result in his death.

His Excellency the Viceroy addressed both Houses of the Legislature at a joint sitting on 30th August. His Excellency reviewing events since his last address to the Legislature, referred to the negotiations arranged to take place with Japan and Lancashire in regard to imports of cotton piece-goods. His Excellency pointed to the depreciation of the Japanese currency relatively to the rupee as the main cause necessitating the recent denunciation of the Indo-Japanese Trade Convention, and welcomed the representatives of the Japanese Government and the representatives of the Japanese textile-industry now on their way to India for negotiations with Indian official and industrial delegates respectively. His Excellency also noted that the industrial delegation from Lancashire was on its way to India and emphasised the significance of the fact that the Lancashire industrialists were to take part in a tri-partite industrial conference with Indian and Japanese industrialists and not with Government.

His Excellency reminded the Legislature that when he addressed the Assembly in February he expressed the belief that the march of events would gradually carry the leaders of the civil disobedience movement further and further away from sterile methods of negation and obstruction and that they would find themselves caught up in the living forces of constructive politics. His Excellency added: "I think that what has happened in the last few months has borne out that belief. It is true that civil disobedience still maintains a precarious existence through the personal influence of its author, but the popular judgment has really discarded it, and the pathway to happier conditions is broadening out before us. The minds of men and women are turned in the direction of constructive work rather than of continuing an unmeaning struggle. I hope we can feel that an unhappy page in the history of the country has been turned over, and that advanced political thought in India can henceforth address itself to the problems of the future."

His Excellency pointed out that in that new India to which we were advancing there was need, and there would be scope, for the co-operation of many diverse elements. His Excellency was also able to point out that conditions in Bengal were slowly improving though there had recently, in Madras, been a reminder of the manner in which the infection of the poisonous doctrines of terrorism might spread.

His Excellency noted that the White Paper containing the proposals of His Majesty's Government for Constitutional Reform was now in the hands of the Joint Parliamentary Committee, to which he wished all success. His Excellency concluded his address with an appeal in which he said: "If we are to ensure the rapid progress which we all desire in the way of Constitutional Reforms, we must create the atmosphere in which that progress can develop. Little can be done by Government alone. An equal responsibility must lie upon Honourable Members themselves and other leaders of political thought in India, to whom we must look to use their influence by their speeches, be public meetings and propaganda to see that the electorates of the future are made fully aware of the great advance we are striving to achieve through the White Paper proposals. I appeal to you, therefore, with all the sincerity at my command, to take up the responsibility with courage and energy so as to help your country forward to the attainment of her ultimate goal as an equal partner in the shaping of the destinies of the British Empire."

On the first non-official bill day of the session the first business was the resumption of consideration of a motion made in the Legislative Assembly by Mr. C. S. Ranga Iyer on the 24th March, for the circulation of a bill "to remove the disabilities of the so-called depressed classes in regard to entry into Hindu temples." This motion was, after a one day's debate, carried.

An important official measure introduced during the session was a new Indian States (Protection) Bill, the purpose of which was to prevent agitation or movements in British India organised for the purpose of subverting the administrations of the Indian States. This measure, on the Home Member's motion for consideration, was subject to much apprehensive discussion. There appeared to be general agreement that conspiracies for the subversion of the States' administrations should not be permitted in British India, but it was felt that the Bill was too widely drafted and there were both apprehension that the measure might interfere with the liberty of discussing in British India the affairs of the States and determination that publicists in British India should not be prevented from joining in such discussion. Eventually, the Home Member accepted a suggestion by the leader of the Independent Party that the Bill should be sent for circulation for eliciting public opinion. Further debate was stopped by a closure motion, which was carried by 57 votes to 9, and the motion for circulation was carried by 66 votes to 7.

The Finance Member on 8th September introduced a Bill to institute a Reserve Bank. Owing to the special importance of the occasion, he made a brief explanatory speech in doing so. It explained that he had brought forward the measure now in order that it might eventually be dealt with in a special session of the Legislature to be held before the next Budget Session in Delhi. The Finance Member, therefore, moved reference of the measure to a Joint Committee of both Houses of the Legislature. The debate spread over three days and the motion was then accepted without a division. The motion to refer to the same Joint Select Committee a Bill to amend the **Imperial Bank of India Act** in order to make changes in it in conformity with the new Reserve Bank Bill was also accepted.

The Hon'ble the Member for Industries and Labour secured the assent of the House to a motion to refer to a Select Committee his bill to consolidate and amend the law regulating labour in factories. Both Houses of the Legislature debated at length a former motion submitted

by Government to supplement their promise to bring the future administration of Aden under discussion in the Legislature before orders in regard to it were passed, and each House adopted a motion protesting against the complete transfer to the Colonial Office of the Aden Settlement and requested the Governor-General in Council to convey to His Majesty's Government the strong desire of the people of India that the proposed transfer should not take place.

The report of the Select Committee on the Indian Medical Council Bill was presented. A leading feature of it was a proposed amendment to the Bill eliminating the provision for the establishment of an Indian medical register and thus ending the discussion concerning who should have a right to a place on the register. The Bill was passed by the Assembly on 20th September and was subsequently passed without for the alteration, by the Council of State.

November Session.

A Special Session of the Central Legislature commenced in New Delhi on Monday, 20th November, 1933, and on the first day of it there were presented in the Assembly the reports of the Joint Select Committee on the Reserve Bank of India Bill and the Imperial Bank of India Bill respectively. It was hoped when the session was called that both these bank bills would be passed in the course of about three weeks, but the Assembly did not dispose of the Reserve Bank of India Bill until the afternoon of the 22nd December, and there was then no time for it to take up the Imperial Bank of India Bill at all. In the circumstances, neither Bill reached the Council of State.

The important questions raised by non-official Indian members on the Reserve Bank Bill dealt with the method of election of the governing body of the Bank, the reserve powers provided for the Governor-General, the rupee ratio to which the Bank was directed to work, the share qualification for elections to the governing body, the distribution of shares between the different provinces, the location of the Bank's principal offices, the question whether the Bank should have an office in London or employ the Bank of England for its agency work there, the qualifications of governors of the Bank. The most keenly contested point was probably the clause directing the Bank to maintain the rupee exchange ratio at 18*d.* sterling. A great deal of agitation was carried on outside the House in order to bring pressure upon non-official members in this respect and there were demands for the reduction of the ratio from 18*d.* to 16*d.*, for its being unloosed from 18*d.* and permitted to find its own level and so on. Disagreements among members concerned in these various amendments had a good deal to do with the defeat of each, and in the end the ratio provision as it originally appeared in the Bill was adopted by an overwhelming concensus of opinion and amongst the strongest in support were many of the agrarian members upon whom the devaluationists had mainly relied for the success of their campaign.

The Assembly carried against Government an amendment directing the Bank to establish a London Branch rather than employ the Bank of England for its work in London. The debates in the House were throughout conducted in a spirit of co-operation between the official and non-official benches.

The Indian Tariff Board, 1933.

Sericulture.—The Indian Tariff Board opened the year with the issue of a lengthy questionnaire in connection with an inquiry which the Government of India on 3 December 1932 directed it to make into the claim of the Indian sericultural industry for protection. It later issued a further general questionnaire on the same subject and a special one concerning the silk handloom industry. The Board, comprising Mr. Fazal Ibrahim Rahimtoola, president, and Messrs. G. T. Boag, C.I.E., I.C.S., and H. R. Batheja, I.E.S., members pursued their inquiry thenceforward and signed their report to Government on 15 May 1933, but the report was not published before the year ended, one reason being the organisation and progress of the Indo-Japanese trade negotiations, which were particularly concerned with the cotton and silk industries, during the summer and autumn.

Iron and Steel.—The Government of India on 26 August 1933 published a Resolution in which they directed the Tariff Board to conduct a new inquiry into the protection of the Indian steel industry. The protection afforded to steel manufacture under existing legislation was due to expire on 31 March 1934 and clause 3 of the Steel Industry (Protection) Act of 1927, provided for an earlier inquiry in regard to its continuance. Stop in instituting this new inquiry Government gave the following terms of reference:—

(*a*) The Board is requested to re-examine the measures of protection now enjoyed by the steel industry under the Steel Industry (Protection) Act of 1927 as subsequently amended, the Wire and Wire Nail Industry (Protection) Act of 1932 and the Indian Tariff (Ottawa Trade Agreement) Amendment Act of 1932 and to report in respect of each protected article whether it is still necessary to continue protection and if so whether the existing measure of protection should be increased or diminished or whether the manner in which protection is conferred should be altered:

(*b*) Special consideration to be observed in regard to the wire nail industry, to the claims of industries making iron and steel products and in regard to whether the legislature's original motion affirming the principle of discriminating protection is fulfilled.

The Board's report was not published by the end of the year.

The Peoples of India.

It is essential to bear in mind, when dealing with the people of India, that it is a continent rather than a country. Nowhere is the complex character of Indians more clearly exemplified than in the physical type of its inhabitants. No one would confuse the main types, such as Gurkhas, Pathans, Sikhs, Rajputs, Burmans, Nagas, Tamils, etc., nor does it take long to carry the differentiation much farther. The typical inhabitants of India—the Dravidians—differ altogether from those of Northern Asia, and more nearly resemble the tribes of Malaya, Sumatra and Madagascar. Whatever may be their origin, it is certain that they have settled in the country for countless ages and that their present physical characteristics have been evolved locally. They have been displaced in the North-West by successive hordes of invaders, including Aryans, Scythians, Pathans and Moghals, and in the North-East by Mongoloid tribes allied to those of Burma, which is India only in a modern political sense. Between these foreign elements and the pure Dravidians is borderland where the contiguous races have intermingled.

The people of the Indian Empire are divided by Sir Henry Risley (Caste, Tribe and Race, Indian Census Report, 1901; the Gazetteer of India, Ethnology and Caste, Volume I, Chapter 6) into seven main physical types. There would be eight if the Andamanese were included, but this tiny group of Negritos may be disregarded.

The Turko-Iranian, represented by the Baloch, Brahui and Afghans of Baluchistan and the North-West Frontier Province. Probably formed by a fusion of Turkiand Persian elements, in which the former predominate. Stature above mean; complexion fair; eyes mostly dark but occasionally grey; hair on face plentiful; head broad, nose moderately narrow, prominent, and very long. The feature in these people that strikes one most prominently is the portentous length of their noses, and it is probably this peculiarity that has given rise to the tradition of the Jewish origin of the Afghans.

The Indo-Aryan occupying the Punjab, Rajputana, and Kashmir, and having as its characteristic members the Rajputs, Khattris, and Jats. This type, which is readily distinguishable from the Turko-Iranian, approaches most closely to that ascribed to the traditional Aryan colonists of India. The stature is mostly tall; complexion fair; eyes dark; hair on face plentiful, head long; nose narrow, and prominent but not specially long.

The Scytho-Dravidian, comprising the Maratha Brahmans, the Kunbis, and the Coorgs of Western India. Probably formed by a mixture of Scythian and Dravidian elements. This type is clearly distinguished from the Turko-Iranian by a lower stature, a greater length of head, a higher nasal index, a shorter nose, and a lower orbito-nasal index. All of these characters, except perhaps the last, may be due to a varying degree of intermixture with the Dravidians. In the higher groups the amount of crossing seems to have been slight; in the lower Dravidian elements are more pronounced.

The Aryo-Dravidian or Hindustani, found in the United Provinces, in parts of Rajputana, and in Bihar and represented in its upper strata by the Hindustani Brahman and in its lower by the Chamar. Probably the result of the intermixture, in varying proportions, of the Indo-Aryan and Dravidian types. The head-form is long with a tendency to medium; the complexion varies from lightish brown to black; the nose ranges from medium to broad, being always broader than among the Indo-Aryans; the stature is lower than in the latter group and usually below the average according to the scale. The higher representatives of this type approach the Indo-Aryans, while the lower members are in many respects not very far removed from the Dravidians. The type is essentially a mixed one, yet its characteristics are readily definable, and no one would take even an upper class Hindustani for a pure Indo-Aryan or a Chamar for a genuine Dravidian. The distinctive feature of the type, the character which gives the real clue to its origin and stamps the Aryo-Dravidian as racially different from the Indo-Aryan is to be found in the proportions of the nose.

The Mongolo-Dravidian, or Bengali type of Lower Bengal and Orissa, comprising the Bengal Brahmins and Kayasthas, the Mahomedans of Eastern Bengal, and other groups peculiar to this part of India. Probably a blend of Dravidian and Mongoloid elements, with a strain of Indo-Aryan blood in the higher groups. The head is broad; complexion dark; hair on face usually plentiful; stature medium; nose medium, with a tendency to broad. This is one of the most distinctive types in India, and its members may be recognised at a glance throughout the wide area where their remarkable aptitude for clerical pursuits has procured them employment. Within its own habitat the type extends to the Himalayas on the north and to Assam on the east, and probably includes the bulk of the population of Orissa; the western limit coincides approximately with the hilly country of Chota Nagpur and Western Bengal.

The Mongoloid type of the Himalayas, Nepal, Assam, and Burma, represented by the Kanets of Lahul and Kulu; the Lepchas of Darjeeling and Sikkim; the Limbus, Murmis and Gurungs of Nepal; the Bodo of Assam; and the Burmese. The head is broad; complexion dark, with a yellow tinge; hair on face scanty; stature short or below average; nose fine to broad, face characteristically flat; eyelids often oblique.

The Dravidian type extending from Ceylon to the valley of the Ganges, and pervading Madras, Hyderabad, the Central Provinces, most of Central India and Chota Nagpur. Its most characteristic representatives are the Paniyans of Malabar and the Santals of Chota Nagpur. Probably the original type of the population of India, now modified to a varying extent by the admixture of Aryan, Scythian, and Mongoloid elements. In typical specimens the stature is short or below mean; the complexion very dark, approaching black; hair plentiful, with an occasional tendency to curl; eyes dark; head long; nose very broad, sometimes depressed at the root, but not so as to make the face appear flat. This race, the most primitive of the Indian types, occupies the oldest geological formation in India, the medley of forest-clad ranges, terraced plateau, and undulating plains which stretch roughly speaking, from the Vindhyas to Cape

Comorin. On the east and the west of the peninsular area the domain of the Dravidian is conterminous with the Ghats, while further north it reaches on one side to the Aravallis, and on the other to the Rajmahal Hills. Where the original characteristics have been unchanged by contact with Indo-Aryan or Mongoloid people, the type is remarkably uniform and distinctive. Labour is the birthright of the pure Dravidian whether hoeing tea in Assam, the Duars, of Ceylon, cutting rice in the swamps of Eastern Bengal or doing scavenger's work in the streets of Calcutta, Rangoon and Singapore, he is recognizable at a glance by his black skin, his squat figure, and the negro-like proportion of his nose. In the upper strata of the vast social deposit which is here treated as Dravidian these typical characteristics tend to thin and disappear, but even among them traces of the original stock survive in varying degrees.

The areas occupied by these various types do not admit of being defined as sharply as they must be shown on an ethnographic map. They melt into each other insensibly; and although at the close of a day's journey from one ethnic tract to another, an observer whose attention had been directed to the subject would realise clearly enough that the physical characteristics of the people had undergone an appreciable change, he would certainly be unable to say at what particular stage in his progress the transformation had taken place.

TOWN AND COUNTRY.

The progress of urbanisation in India—if there has been any progress at all—has been very slow during the past thirty years, the whole increase being a little more than one per cent. The percentage of the urban population to the total is only 11, which however shows an increase of 0.8 per cent. since the last census, due partly to the natural increase of the pre-existing urban population and partly to migration from rural areas. The percentage of urban population ranges from 3.4 in Assam to 22.6 in Bombay which is the most urbanised of the major provinces. Compared to this, the urban population in France is 49 per cent., in Northern Ireland 50.8 per cent, in Canada 53.7 per cent, in the U. S. A. 56.2 per cent. and in England and Wales 80 per cent.

The greatest degree of growth has been in the number of towns with a population of from 20,000 to 50,000, the total population of which is now nearly double that of towns of 50,000 to 100,000. All classes of towns have increased in population, except those with populations of between 5,000 and 10,000 and those having under 5,000. Thus the large industrial and semi-industrial towns have benefitted at the expense of the smaller towns.

DISTRIBUTION OF POPULATION IN GROUPS OF TOWNS ACCORDING TO SIZE AND IN RURAL TERRITORY.

Class of Places.	1931.		1921.		Percentage of total Population.

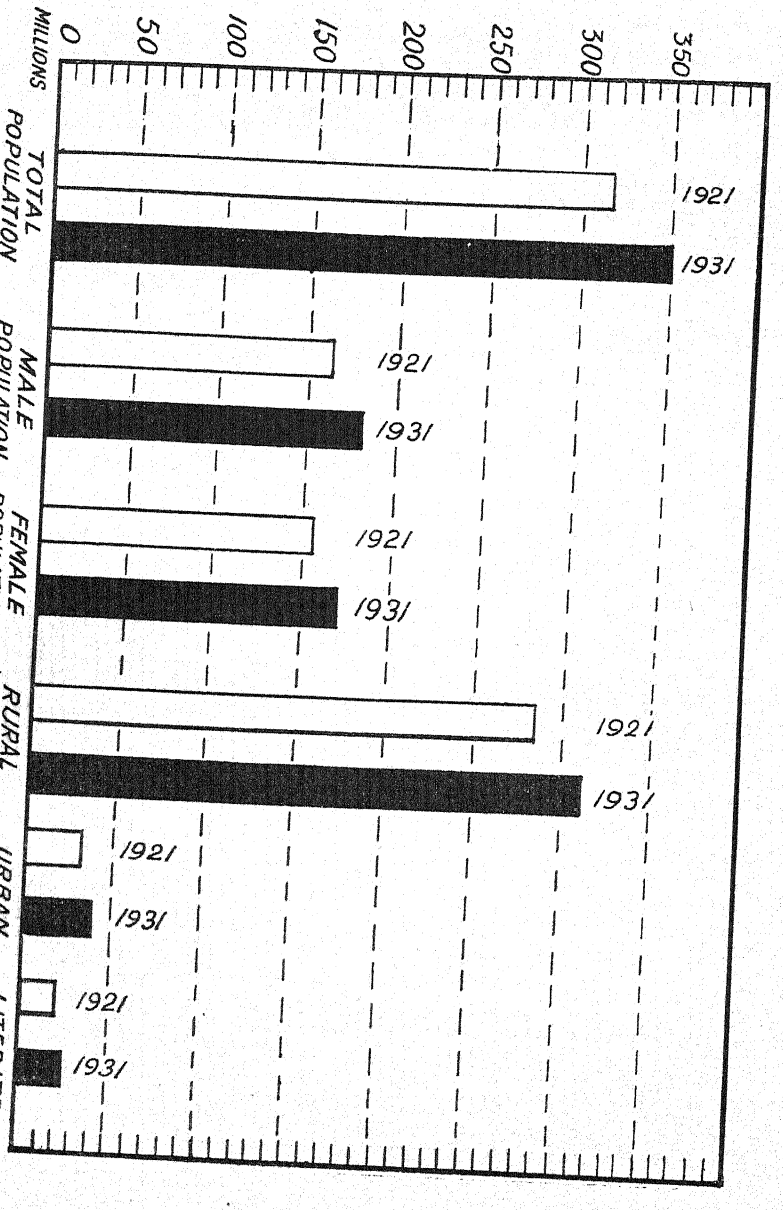
Migration.—Of the population of the Indian Empire only 730,546 were enumerated as born in other parts of the world. Of these 595,078 are of Asiatic birth, 118,089 of European birth and 17,379 others. The emigration from India is approximately 2.5 million, the balance of migration being against India.

Nearly all of these migrants are resident in other parts of the British Empire. There are about 165,500 Indians in the Union of South Africa, of whom 142,979 are found in Natal. There are 26,759 in Kenya; the other overseas Indian communities in order of size are Mauritius 268,870, Trinidad and Tobago 138,667, British Guiana 130,540, Fiji 75,117 and much smaller numbers in Tanganyika, Jamaica, Zanzibar, Uganda and Hong Kong. There are about 11,000 Indians scattered in numbers of under 2,000 in various other parts of the British Empire and probably about 9,000 in the British Isles. The total number of Indians in the Empire outside India is 2,300,000. Outside the Empire there are about 100,000 Indians, 25,000 in the Dutch East Indias, 35,000 in Dutch Guiana, 7,500 in Madagascar and smaller numbers in Portuguese East Africa, the U. S. A., Persia, Iraq and other countries.

The Chart below gives at a glance the changes in India's population in decade the 1921-31—the total, sex, urban rural and literacy.



RELIGIONS.

The subject of religion is severely controversial in India, where often it is coloured by politics and racialism. As the Year Book aims at being impartial, all disputed inferences are excluded. As a matter of fact, Dr. Hutton, the Commissioner for the latest census refers to an excess of zeal on the part of all parties to register as many adherents as possible in view of the possibility of a communal franchise based on the census returns. "So high did feeling run over the return of religion in the Punjab", he says, "that disputes as to whether a man was *Adi Dharmi* (Adherent of the original religion) or Sikh added to a number of affrays and at least to one homicide. Speaking broadly, of every hundred persons in the Indian Empire 68 are Hindus, 22 Mahomedans, 3 Buddhists, 3 follow the religion of their tribes, one is a Christian and one a Sikh. Of the remaining 2 one is equally likely to be a Buddhist or a Christian, and the other most probably a Jain, much less probably a Parsi and just as possibly either a Jew, a Brahmo, or a holder of indefinite beliefs. The enumerated totals of the Indian religious are set out in the following table :—

Religion.	Actual number in 1921. (000's omitted.)	Proportion per 10,000 of population in 1921.	Variation per cent. (Increase +, Decrease—), 1911-1921.
Hindu	239,195	6,824	+10·4
Arya	468	15	+92·1
Sikh	4,336	124	+33·9
Jain	1,252	36	+ 6·2
Buddhist	12,787	365	+10·5
Iranian [Zoroastrian (Parsi)]	110	3	+ 7·8
Musalman	77,678	2,216	+ 13
Christian	6,297	179	+32·5
Jew	24	1	+10·9
Primitive (Tribal)	8,280	236	—15·3
Miscellaneous (Minor Religions and religions not returned)	571	16	+3,072·6

A feature of the above table is easily the large increase in the number of those returned as "miscellaneous". This is explained by the fact that the latest census grouped all those who returned their religion as Adi-Hindu, Adi-Dravida, etc., under "miscellaneous".

The Hindus largely predominate in the centre and south of India, and in the Madras Presidency they are no less than 88 per cent. of the population. Hindus are in the majority in Assam, Bihar and Orissa, the United Provinces, the Central India tracts, Rajputana and Bombay. Muhammadans monopolize the North-West Frontier Province, Baluchistan and Kashmir and are considerably in excess in the Punjab and Eastern Bengal and Sind. They form about 32 per cent. of the population of Assam, 15 per cent. in the United Provinces and 10 per cent. in Hyderabad. The Buddhists are almost entirely confined to Burma where they are 84 per cent. of the population. The Sikhs are localized in the Punjab and the Jains in Rajputana, Ajmer-Merwara and the neighbouring States. Those who were classed as following Tribal Religions are chiefly found in Bihar and Orissa, the Central Provinces and Assam, but Bengal, Burma, Madras, Rajputana, Central India and Hyderabad also returned a considerable number under this head. More than half of the total number of Christians reside in South India including the Hyderabad State. The remainder are scattered over the continent, the larger numbers being returned in the Punjab, the United Provinces, Bengal, Bihar and Orissa, Burma, Bombay and Assam. The Parsis and Jews are chiefly residents of the Bombay Presidency.

Christians.—The Christian community now numbers just 6¼ millions of persons in India or 1.79 per cent. of the population. This constitutes an increase of 32.5 per cent. over the last census of which 20 per cent. is ascribed to convasions during the decade 1921-31. Nearly 60 per cent. of Christians are returned from the Madras Presidency and its States, and the community can claim 35 persons in every 1,000 of the population of the British districts of Madras and as large a proportion as 27 per cent. in Cochin and 31.5 per cent. in Travancore. Elsewhere the Christians are scattered over the larger Provinces and States of India, the Punjab and Bihar and Orissa.

MAIN STATISTICS OF THE INDIAN EMPIRE.

The Census of India was taken on the night of February 24th in Burma and on that of 26th in India. The total population of India as thus ascertained is 352,837,778, *viz.*, British Territory 271,526,933 and Indian States 81,310,845 giving an increase of 24,670,742 in British Territory and 9,224,556 in Indian States.

The following table shows the percentage of variation in the country's population at the last two censuses and in the last 50 years :—

——	1921 to 1931.	1911 to 1921.	1881 to 1931.
Whole India ..	+10.6	+1.2	+39.0
Provinces ..	+10.0	+1.3	+36.8

* Variation calculated from 1901-1931.

† Variation calculated from 1891-1931.

POPULATION OF PRINCIPAL TOWNS.

It is claimed that the city of Calcutta contains 35,000 more inhabitants than Bombay which is the next largest city in India. There are nearly twice as many inhabitants in Calcutta proper as there are in Madras and almost three times as many as there are in Rangoon. Alone of the large cities of India, Bombay records a decrease in population since the 1921 census.

Lahore which has expanded to more than half as large again as it was in 1921 has increased its population by actually a larger numbers during the decade than Calcutta. The same is true of Delhi and Madras which increased by 47 per cent. and 22 per cent. over their population of 1921. On the other hand, although the increase of 119,470 in the population of Calcutta during the last decade is greater than has been recorded in any of the other cities the percentage increase amounts to only 11 as compared with 21.5 in Karachi, 15.9 in Rangoon, 14.5 in Ahmedabad and 14.2 in Lucknow. Taking the suburban areas into account the population of Calcutta is 1,485,582 of which 1,196,734 are to be found in the city proper included in the municipal area.

City.	Total Population.	Density.	Females per 1,000 males.	Literates per 1,000.		Percentage Variation.

AGE AND SEX.

The table below shows the age distribution of 10,000 males and females of the Indian population by 10-yearly age groups at the last two censuses:—

Age-group.	1931.		1921.		Age-group.	1931.		1921.	
	Males.	Females.	Males.	Females.		Males.	Females.	Males.	Females.
0—10 ..	2,802	2,889	2,673	2,810	40—50 ..	968	891	1,013	967
10—20 ..	2,086	2,062	2,087	1,896	50—60 ..	561	545	619	606
20—30 ..	1,768	1,856	1,640	1,766	60—70 ..	269	281	347	377
30—40 ..	1,431	1,351	1,461	1,398	70 and over.	115	125	160	180
					Mean age ..	23.2	22.8	24.8	24.7

The mean age in India is only 23.02, as against 30.6 in England and Wales. The rate of infant mortality in India in the decade 1921-31 shows an appreciable reduction on the rate of the previous decade, even if allowance be made for the heavy mortality of the influenza years. It is in the towns that the highest infantile mortality is found. The table below shows the rates from 1925 to 1930 for presidency towns and certain provincial capitals.

INFANTILE MORTALITY RATES PER 1,000 LIVE-BIRTHS DURING.

City.	1925.	1926.	1927.	1928.	1929.	1930.
Bombay	357	255	316	314	301	298
Calcutta	326	372	340	276	259	268
Madras	279	282	240	289	259	246
Rangoon	352	320	204	341	321	278
Lucknow	260	287	256	301	269	329
Lahore	222	241	201	204	214	187
Nagpur	258	302	254	299	291	270
Delhi	183	238	201	210	259	199

Special causes contribute to the high mortality of infants in India.

Owing to the custom of early marriage, cohabitation and child-birth commonly take place before the woman is physically mature and this, combined with the primitive and insanitary methods of midwifery, seriously affects the health and vitality of the mother and through her of the child. If the child survives the prenatal and natal chances of congenital debility and the risks of child-birth, it is exposed to the dangers of death in the early months of life from diarrhœa or dysentery. According to the Executive Health Officer of Bombay city, by far the greater number of infantile deaths are due to infantile debility and malformation, including premature birth, respiratory diseases coming next, then convulsions, then diarrhœa and enteritis.

Sex Ratio.—The figures of the population of India by sexes, as recorded by the latest census, show a further continuation of the steady fall in the proportion of females to males that has been going on since the beginning of this century. This shortage of females is characteristic of the population of India as compared to that of most European countries. The female infant is definitely better equipped by nature for survival than the male, but in India the advantage she has at birth is probably neutralised in infancy by comparative neglect and in adolescence by the strain of bearing children too early and too often. A good deal of recent work on sex ratios has tended to the view that an increase in masculinity is an indication of declining population, but this is not the case in India as a whole. The all-India ratio is 901 females per 1,000 males for Muslims and 951 females per 1,000 males for Hindus. The only provinces in which there is actually an excess of women over men are Madras and Bihar and Orissa, though the Central Provinces can be added if Berar be excluded. Where females are in excess, the excess is still most marked in the lower castes and does not always extend to the higher. Among the aboriginal tribes, however, the numbers of the two sexes are approximately equal.

Marriage.—The subject of polygamy has been discussed fully in the report of 1911. Both Hindus and Muhammadans are allowed more wives than one, Muhammadans being nominally restricted to four. As a matter of practice polygamy is comparatively rare owing to domestic and economic reasons and has little effect on the statistics. The custom of polyandry is recognized as a regular institution among some of the tribes of the Himalayas and in parts of south India. It is also practised among many of the lower castes and aboriginal tribes. Its effect is reflected in the statistics of a few small communities such as the Buddhists of Kashmir where the proportion of married women to married men is exceptionally low, but otherwise the custom is of sociological rather than of statistical interest.

The table below shows the percentage for each sex of married persons who are under the age of 15 years.

Number per 1,000 *of total married who are under 15 years.*

Provinces, etc.	Males.	Females.
India	65.7	157.3
Burma	1.8	6.7
India Proper	68.0	161.8
Hindus	73.1	164.1
Muslims	59.4	174.3
Jains	32.5	108.3
Tribal	49.6	93.3
Sikhs	26.9	74.6
Christians	15.4	43.3

Widows and Remarriage.—Infant marriage naturally involves infant widowhood, a feature of no significance where remarriage is allowed, but of serious importance where it is not. Widows among Hindus numbered just under two millions in 1931; but the general ratio of widows has decreased as compared with 1921. In the 1921 census there were 175 widows in every 1,000 females, a figure which had fallen in 1931 to 155. It is, however, Jains and Hindus who place an effective ban on widow remarriage, and in both these communities the total ratio of widows has fallen; Jain widows in 1931 were 253 per 1,000 females, but in 1931 only 221, and the 1921 figure of 191 widows in every 1,000 Hindu females has fallen to 169 in 1931. On the other hand, there has already been a very remarkable increase in child widows particularly under the age of 5 years, which can be attributed to the rush of marriages anticipatory to the Child Marriage Restraint Act, a rush which it is to be feared will contribute large numbers of young widows to the figures of the 1941 census unless there is before then a very pronounced change of attitude towards widow remarriage in Hindu society generally. In every thousand Hindu women there are still 169 widowed, 22 of whom are under thirty years of age and over a quarter of those under 20. In spite of reformist movements to popularise widow remarriages, they are still uncommon enough to attract attention in Indian papers whenever they take place.

SOCIAL AND ECONOMIC CONDITIONS.

Literacy.—The number of persons in India Literate in the sense of being able to write a letter and read the reply.

Literacy, in the sense of ability to write a letter and to read the answer to it, has grown enormously in the past fifty years, although it is at present not very high in comparison with countries in the west. Ninety-five out of every 1,000 of the population are now literate, as against 82 ten years ago and less than 40 half a century ago. Burma leads the provinces in the matter of literacy; for in that province literacy, even if not of a very high order, is a habit, traditional in both sexes and all classes, both boys and girls being taught in the monasteries of which almost every Burman village has at least one. Cochin, Travancore and Baroda follow Burma in the order of literacy. Cochin State, in spite of a very rapid growth in population and in spite of having started with a very high ratio, has been able to do more than keep pace with that growth.

Literacy is much more prevalent in towns than in the country, as both the need for, and the opportunities of, acquiring it are greater. An analysis of the population of the cities shows that 348 out of 1,000 males and 149 out of 1,000 females are literate, while the corresponding figures for literacy in English in towns are 1,473 males and 434 females.

The country taken as a whole, female literacy is comparatively absent in India proper except in Kerala. Cochin State has more than one literate female to every two literate males and Travancore only a little less, while Malabar has nearly one to every three, Coorg a little less than one to every three, Baroda a little fewer and Mysore one to every five. Besides the

difficulty, still felt very strongly in most provinces, of getting good women teachers, one of the most serious obstacles to the spread of female education is the early age of marriage, which causes girls to be taken from school before they have reached even the standard of the primary school leaving certificate.

Treated in communal or religious groups, the greatest progress has been made by Sikhs, Jains, Muslims and Hindus, in that order, but the leading literate communities are the Parsis, Jews, Burmans, Jains and Christians. The following table analyses the position of the Indian communities in respect of literacy:—

Religion.	Number per 1,000 who are literate.
All religions (India)	95
Hindus	84
Sikhs	91
Jains	353
Buddhists	90
Zoroastrians (Parsis)	791
Muslims	64
Christians	279
Jews	416
Tribal	7
Others	19

English Language.—Literacy in English language is still less in India and is confined mostly to the town-dwelling population. Two hundred and twelve out of every 10,000 males and 28 out of every 10,000 females are literate in English, and both sexes taken together 123 out of 10,000. Viewed in relation to the various religions and communities, the figures are as follow:—

Religion.	Number per 10,000 aged 5 and overs who are literate in English.
All religions (India)	123
Hindus	113
Sikhs	151
Jains	306
Buddhists	119
Zoroastrians (Parsis)	5,041
Muslims	92
Christians	919
Jews	2,636
Tribal	4
Others	28

Territorially, Cochin State leads in literacy in English with 507 per 10,000; Coorg follows with 238, Bengal (211) and Travancore (158) coming next.

Languages.—In the whole Indian Empire 225 languages were returned at the census, dialects, as has been previously explained, not having been separately considered.

The principal languages are given in the following statement:—

Language.	Total number of speakers (000's omitted.)				Number per 10,000, of total population.	
	1931.		1921.			
	Males.	Females.	Males.	Females.	Males.	Females.
Western Hindi	37,743	33,804	50,210	46,504	2,090	1,990
Bengali	27,517	25,952	25,239	24,055	1,523	1,527
Telugu	13,291	13,083	11,874	11,727	736	770
Marathi	10,573	10,317	9,296	9,095	585	607
Tamil	10,073	10,339	9,284	9,496	558	608
Punjabi	8,799	7,040	8,961	7,272	487	414
Rajasthani	7,271	6,627	6,656	6,025	403	390
Kanarese	5,690	5,516	5,253	5,121	315	325
Oriya	5,485	5,709	4,852	5,192	304	336
Gujerati	5,610	5,240	4,967	4,585	311	308
Burmese	4,332	4,522	4,135	4,288	240	266
Malayalam	4,533	4,605	3,736	3,762	257	271
Lahnda (or Western Punjabi)	4,603	3,963	3,050	2,802	255	233

The necessity of a common medium of conversation and intercourse, which has given rise to bi-lingualism and the consequent displacement of tribal languages, has formed the subject of a considerable amount of discussion and suggestion during the last decade and a good deal has been written on the possibility of a *lingua franca* for India. The combined speakers of Eastern and Western Hindi considerably exceed in number the strength of any other individual language in India, and if we add to these two languages Bihari and Rajasthani, which so resemble Hindi as to be frequently returned under that name in the census schedules, we get well over 100 millions of speakers of tongues which have some considerable affinities and cover a very large area of northern and central India. In their pure forms these four languages may be scientifically distinct; but this is not the popular view. There is a common element in the main languages of northern and central India which renders their speakers, without any great conscious change in their speech, mutually intelligible to one another, and this common basis already forms an approach to a *lingua franca* over a large part of India.

Infirmities.—These are classes under four main heads—insanity, deaf-mutism, blindness and leprosy. The appended statement shows the number of persons suffering from each infirmity at each of the last six censuses and the proportion per hundred thousand of the population:—

Infirmity.	Number afflicted with ratio per hundred thousand of the population.					
	—	1921.	1911.	1901.	1891.	1881.
Insane	120,304 34	88,805 28	81,006 26	66,205 23	74,279 27	81,132 35
Deaf-mutes	230,895 66	189,644 60	199,891 64	153,168 52	196,861 75	197,215 86
Blind	601,370 172	479,637 152	443,653 142	354,104 121	458,868 167	526,748 229
Lepers	147,911 42	102,513 32	109,094 35	97,340 33	126,244 46	131,968 57
TOTAL ..		860,099 272	833,644 267	670,817 229	856,252 315	937,063 407

There had been a continuous decline in the total number as well as in the proportion of persons recorded as afflicted up to 1901. This fall has been ascribed partly to a progressive improvement in the accuracy of the diagnosis and partly to an actual decrease in the prevalence of the infirmities, owing to the improvement in the material condition of the people to better sanitation and (especially in the case of blindness) to the increasing number of cures effected with the aid of modern medical and surgical science. In the decade ending 1901 the relatively high mortality of the afflicted in the two severe famines must have been a considerable factor in the decline shown at that census, but the method of compilation adopted in 1901 and in the previous census was defective, and, certainly in 1901, many of the persons afflicted must have escaped notice in the course of tabulation. Compared with the year 1891, there was a slight decrease in the total number of persons recorded as afflicted in 1911, the proportion per hundred thousand persons falling from 315 to 267. The increase in ratio as well as in numbers since then is attributed to increased accuracy of enumeration.

Occupation.—It is a well known fact that the majority of the people in India live on agriculture. The latest census puts down the number of those engaged in the exploitation of animals and vegetation at 103,300,000, while those engaged in industry number 15,400,000. Thus about 67 per cent. of the country's workers are employed in the former and 10 per cent. in the latter. This does not, however, mean that all the 103 millions are land-owners. Rights in land in India are complicated and involved to a degree, incredible to persons familiar only with the simpler tenures of western Europe. Between the man who cultivates land and the man who nominally owns it there are often a number of intermediate holders of some interest or other in the produce of the land. If a comparison is made between the area of land under crops and the number of agriculturists actually engaged in cultivation in British India, it is that for each agriculturist there are 2.9 acres of cropped land of which 0.65 of an acre is irrigated. The cultivation of special crops occupies under two per cent. of the population concerned in pasture and agriculture, the greater part of whom are engaged in the production of tea. Forestry employs fewer than special cultivation.

In recent years there has been an increase in the number of people living on the production and transmission of physical force, that is, heat, light, electricity, motive power, etc. Silk spinning and weaving, manufacture of chemical products, and the manufacture of tobacco have proved more popular than before. Transport by road has attracted more men, while the use of water for internal transport has decreased, harbours being used more freely for external transport by sea. About five million persons are engaged in organised industry.

It is noteworthy that less than one million people, who man, the army, the Navy, the air force, the police, the services, etc., manage the administration of this vast country; in other words, 350 odd millions are ruled by one million servants of the state.

There has of late been increasing unemployment, especially among the educated classes. An attempt to include these in the last census has not met with success, but it is significant that graduates of Madras University join the police department on Rs. 10 per mensem and are held fortunate in getting even that.

Indians Overseas.

NUMBERS.—The total Indian population resident in the countries to which Indians mainly emigrate for purposes of settlement, according to the latest available returns, is as follows: —

Name of country.	Indian population.	Date of Information.
British Empire.

* Including Straits Settlements, Federated and Unfederated Malay States.
† Indian Estate Labourers only.

Origin of Indian Emigration.—Emigration is prohibited by the Hindu Shastres, and there is little evidence of any settlement of Indians overseas in early times except in Sumatra, Java and Ceylon. Emigration for purposes of labour dates from the beginning of the 19th century. From 1800 A. D. onwards Indians crossed the Bay to the Straits Settlements to work on the sugar, spice, tapioca, and cocoanut plantations of Penang, and this intercourse was allowed to continue for long without regulation. The first officially recorded instance of genuine recruitment for labour emigration occurred in 1830, when a French merchant, named Joseph Argand, carried some 150 artizans to Bourbon. The abolition of slavery in British colonies in 1834 gave the first great impetus to the movement. The sugar planters of Mauritius at once turned to India as their best recruiting ground, and between 1834 and 1837 obtained at least 7,000 recruits from Calcutta. The Government of India at a very early stage realised the necessity of bringing such emigration under regulation. The Law Commission was asked to investigate the case and to make recommendations for securing the well-being of emigrants. They advised that no legislation was required except in order to prevent undue advantage being taken of the simplicity and ignorance of emigrants by providing that a magistrate should satisfy himself that all contracts were entered into freely and understood by them and in order to secure that sufficient provision was made for their accommodation and sustenance during the voyage. A copy of every engagement was also to be transmitted to the Government under which the emigrants were to live. These recommendations were embodied in the first Emigration Act (V of 1837), which also provided that contracts should be determinable after 5 years.

History of Emigration.—Under the above Act emigration during 1837 was permitted to Mauritius, British Guiana and Australia (89 men, the first and last direct emigrants to Australia). In 1838 emigration was suspended owing to agitation in England regarding the abuses to which the system was liable, and a committee of enquiry reported in 1840 that emigrants were being entrapped by force or fraud, robbed of their wages and treated with brutality. In consequence, emigration was prohibited (Act XV of 1842) except to Mauritius and there control was tightened. In Act XXI of 1844 emigration under still stricter regulation was allowed to Jamaica, British Guiana and Trinidad. Act XIII of 1847 removed the restrictions on emigration to Ceylon. The emancipation of slaves in the French colonies in 1849 gave rise to a system of emigration from French Indian ports to Réunion and Bourbon, which was largely based on crimping in British territory. This practice was checked by Act XXIV of 1852. In 1858 emigration was opened to St. Lucia, and in 1860 to St. Vincent, Natal and St. Kitts. In the latter year a more elaborate Act, based on a convention with the French Government was passed legalising and regulating emigration to Réunion Martinique, Guadeloupe, and French Guiana. Act XIII of 1864 marks an important stage in the history of emigration, since it elaborated and consolidated the whole system of control. It was itself amended in 1869 and 1870 in important respects with the object of preventing epidemics on emigrant vessels and improving sanitary conditions in settlements. In 1869 emigration was permitted to Grenada, and in 1872 to Surinam. Owing to the removal of the Straits Settlements from the control of the Government of India in 1867, emigration to that colony came under all the restrictions imposed by the Emigration Act and was only permitted from the port of Negapatam. Owing to the injury caused to the agricultural industries of the colony, these restrictions were removed in 1872, subject only to magisterial control of recruitment in India. In 1870 complaints reached the Government of India of gross abuses in the treatment of emigrants in British Guiana. A commission of enquiry was appointed, and their report led to important legislation in the colony for the protection of Indian immigrants, which was subsequently extended to Trinidad. Owing to similar complaints from Natal and Mauritius, commissions of enquiry were also instituted in both these colonies, and their reports in 1872 brought to light a number of points requiring amendment.

Recent Legislation.—In 1871 a fresh consolidating Act was passed (Act VII of 1871) by which the Acts regulating emigration to the French Colonies and two amending Acts to Act XIII of 1864 were incorporated in the general law. The question of revision of the law again came up for consideration in 1882, when several cases of kidnapping and other objectionable practices were reported to the Government of India. The opportunity was taken to depute two officials (Major Pitcher and Mr. Grierson) to ascertain, in the N. W. P. and in Bengal respectively, the way in which the system of recruitment actually worked, the respects in which it was open to improvement, and the attitude of the people towards emigration. Their reports were reviewed by the Government of India, and finally in 1883 the law was again recast and consolidated by Act XXI of that year. This Act specifies the countries to which emigration is lawful, but empowers the Governor-General in Council to add to the list by notification, and also to prohibit emigration to any of the countries in the list on the ground of epidemic disease and or excessive mortality among emigrants in such country, or on the ground that proper measures have not been taken for the protection of emigrants, or that the agreements made with them in India are not duly enforced. This Act with certain amendments of no importance to the system of indentured emigration remained in force until 1908, when a fresh revision of the law was undertaken.

Under the Act of 1908 (XVII of 1908) the countries to which emigration was lawful were the British Colonies of Mauritius, Jamaica, British Guiana, Trinidad, St. Lucia, Grenada, St. Vincent, Natal, St. Kitts, Nevis, Fiji, the Seychelles, the Netherlands Colony of Dutch Guiana and the Danish Colony of St. Croix. Emigration to St. Lucia, Grenada, St. Vincent, St. Kitts, Nevis, the Seychelles and St. Croix ceased soon after the passing of the Act, the demand for fresh labour having died out

Emigration to Natal was discontinued from the 1st July 1911 as the Government of India were satisfied that it was undesirable to continue to send Indian labour to that country. Emigration to the French Colonies of Reunion, Martinique and Guadeloupe had been suspended prior to the passing of the Act of 1908 on account of repeated complaints of the inadequate precautions taken for the proper treatment and repatriation of the immigrants.

The labour laws of the several Colonies provide for the protection and welfare of resident Indian labourers. The Government of India also occasionally depute to the colonies their officers to report on the condition of Indian labourers. Deputations from India visited Fiji and British Guiana in 1921. In spite of all precautions certain social and moral evils had grown up in connection with the indentured system of emigration and Indian public opinion has during the last decade been strongly opposed to it. The whole system was exhaustively examined by the Government of India in 1915 in the light of the report received from Messrs. McNeill and Chimanlal, and they arrived at the conclusion that the time has come when contract labour should be abolished. The Secretary of State for India accepted this policy and authorised the Government of India to announce the abolition of the indentured system and the announcement to this effect was made in 1916.

In 1922 a further step forward was taken in Act VII of 1922 which prohibited indentured emigration and all unskilled emigration, except to countries specially approved by the Legislature. Emigration to Ceylon and Malaya was brought under control, and the definition of "Emigrant" was extended to cover all persons "assisted" to depart from India.

Present Position.—Indian emigration questions have recently taken on a wider aspect. The status of Indians in the Empire generally is one in which the Indian public now take keen interest. It is no longer possible to deal with the treatment of Indian labour apart from other classes of Indian emigrants and travellers. In several colonies and dominions considerable Indian communities have sprung up, which although composed largely of the descendants of indentured labourers, are themselves free and lawfully domiciled citizens of the countries in which they are settled, but have not yet been placed on a footing of legal, social, political and economic equality with the rest of the population. The issues round which public interest at present centres are three:—

(*a*) Control of emigration.

(*b*) Rights of Indians to admission to other parts of the Empire.

(*c*) Rights and disabilities of Indians domiciled overseas.

These questions may be considered separately.

Control of Emigration.—So far as unskilled labour is concerned, the Government of India have assumed absolute powers of control. The terms of section 10 of the Emigration Act of 1922 are as follows:—

"10. (1) Emigration, for the purpose of unskilled work, shall not be lawful except to such countries and on such terms and conditions as the Governor-General in Council, by notification in the *Gazette of India*, may specify in this behalf.

"(2) No Notification shall be made under sub-section (1) unless it has been laid in draft before both Chambers of the Indian Legislature and has been approved by a resolution of each Chamber, either without modification or addition, or with modifications and additions to which both Chambers agree, but, upon such approval being given, the notification may be issued in the form in which it has been so approved."

Under this law emigration has been legalised to Ceylon on the following conditions:

(1) The emigrant shall—

(*a*) have been recruited by a person licensed for that purpose by and responsible to an officer (hereinafter called the Emigration Commissioner) appointed by the Government of Ceylon, or

(*b*) have applied direct to the Emigration Commissioner for an assisted passage and have been accepted by him.

(2) The emigrant shall not, before leaving British India, have entered into a contract of service for a period exceeding one month.

(3) Within six months from the issue of this Notification, or within such further period as the Governor-General in Council may by notification appoint, the Legislature of Ceylon shall have enacted that any contract of service for a period exceeding one month entered into by an emigrant shall be void.

(4) No part of the cost of his recruitment, subsistence during transport, or transport shall be recoverable from any emigrant and all expenses in this connection shall be defrayed from a common fund to be raised in such manner and managed by such agency as may appear suitable to the Colonial Government.

(5) The Government of Ceylon shall at any time when so desired by the Governor-General in Council admit and give all facilities to an Agent appointed under section 7 of the Act.

(6) Within one year of his arrival in Ceylon any emigrant who has been assisted to emigrate at the cost of the common fund referred to in clause (4) shall, on satisfying the Agent appointed under section 7 of the Act that his return to his home is desirable either on the ground of the state of his health or on the ground that the work which he is required to do is unsuitable to his capacity, or that he has been unjustly treated by his employer, or for any other sufficient reason, be repatriated free of cost to the place of recruitment, and the costs of such repatriation shall be defrayed by the Government of Ceylon or the Ceylon Planters' Association.

(7) If at any time there is no Agent appointed under section 7 of the Act, the Government of Ceylon shall appoint a person to perform the duties of the Agent as set forth in clause (6).

(8) Within six months from the issue of this Notification, or within such further period as the Governor-General in Council may by notification appoint, the Legislature of Ceylon shall have enacted that no payment made in India by a recruiter to an emigrant to enable him to pay off debts before emigrating shall be recoverable.

(9) The Government of Ceylon shall furnish such periodical reports and returns as may be required from time to time by the Government of India in respect of the welfare of persons emigrating to Ceylon in accordance with this Notification.

Similar conditions have been imposed in the case of Malaya. Emigration was also permitted to Mauritius for a period of 1 year only with effect from May 1st, 1923, and limited to a number not exceeding 1,500 labourers. The terms were more onerous than in the case of nearer Colonies and the arrangement has now lapsed.

Emigration to British Guiana for the purpose of unskilled work has also been declared lawful on the terms and conditions given below, but the date from which emigration is to commence has not yet been fixed:—

Emigration to British Guiana.—Emigration to British Guiana for the purpose of unskilled work shall be lawful with effect from such date as the Governor-General in Council may with the concurrence of the Governor of British Guiana notify in the *Gazette of India* on the following terms and conditions, which shall thereupon become operative:—

(1) The family shall be the unit for the purposes of emigration. Not more than 500 families shall be permitted to emigrate and the number of persons included in the said 500 families shall not exceed 1,500.

(2) The emigrants shall either have been recruited by a person licensed for that purpose by and responsible to an officer (hereinafter called the Emigration Commissioner) appointed by the Government of British Guiana, or have applied direct to the Emigration Commissioner for an assisted passage and have been accepted by him.

(3) No part of the cost of his recruitment of subsistence during transport shall be recoverable from any emigrant and all expenses in this connection shall be borne by the Government of British Guiana or met from funds at their disposal.

(4) The Government of British Guiana shall at any time when so desired by the Governor-General in Council, admit and give all facilities to an Agent appointed under section 7 of the Act.

(5) If at any time there is no Agent appointed under section 7 of the Act, or if the Agent is absent or unable to perform his duties, the Government of British Guiana shall at the request of the Governor-General in Council appoint a person to perform temporarily the duties of the Agent.

(6) Prior to the arrival of the emigrants a Settlement Commission shall be appointed in British Guiana to select and prepare suitable agricultural land for the emigrants and generally to supervise their employment. The Agent referred to in clause (4) shall, on appointment, be a member of such Commission.

(7) The Government of British Guiana shall offer to each family for its separate enjoyment a holding comprising not less than five acres of suitable agricultural land prepared for cultivation on the terms hereinafter set out in a locality which shall be healthy and shall have an adequate supply of good drinking water. All expenses in connection with the preparation of the holdings shall be borne by the Government of British Guiana and shall in no case be recoverable from an emigrant.

The annual rent of the holding shall be fixed by the Settlement Commission at a rate not exceeding the lowest rate paid in the locality.

After an emigrant has been in occupation of a holding for three years, he shall, provided that he has cultivated a portion of the holding either by himself or through some member of his family, be entitled to a grant of the holding on payment at any time during the ensuing four years of such fees not exceeding 24 dollars as may be fixed by the Settlement Commission.

On the expiry of seven years from the date of the commencement of his occupation of a holding an emigrant shall acquire absolute ownership in the holding provided that he has paid the rent and fees referred to in the foregoing paragraphs of this clause and has brought under cultivation either by himself or by some member of his family half the area of his holding.

(8) An emigrant on arrival in British Guiana shall be housed and maintained without charge by the Government of British Guiana for at least one month.

(9) If any emigrant so requires loans shall be made to him for maintenance, house accommodation, payment of rent and for agricultural purposes generally. Free medical assistance and free skilled supervision shall be provided.

(10) Any emigrant shall be entitled to repatriation at the expense of the Government of British Guiana to the place of his former residence in India on the expiry of 7 years from the date of his arrival in British Guiana.

Any emigrant shall be entitled to repatriation at the expense of the Government of British Guiana to the place of his former residence in India on the expiry of more than 3 and not more than 5 years from the date of his arrival in British Guiana on payment to the Government of British Guiana of half of the cost of his passage from his residence in India to British Guiana.

Any emigrant shall be entitled to repatriation at the expense of the Government of British Guiana to the place of his former residence in India on the expiry of more than 5 and not more than 7 years from the date of his arrival in British Guiana on payment to the Government of British Guiana of quarter of the cost of his passage from his residence in India to British Guiana.

(11) Notwithstanding anything contained in the last preceding clause the Government of British Guiana on the request of an Agent appointed under section 7 of the Act shall repatriate at its own expense and without any payment by or on behalf of the emigrant to the place of his former residence in India any emigrant at any time after his arrival in British Guiana.

(12) An emigrant shall be at liberty at any time after his arrival in British Guiana to take up work or employment other than or in addition to the cultivation of a holding on lease from the Settlement Commission.

(13) The ordinance enjoining compulsory education in British Guiana shall be enforced to the same extent in the case of Indian children as in the case of children belonging to other communities.

(14) Boards of arbitration in regard to wages shall be established before the arrival of the emigrants and Indians shall be adequately represented on such boards.

(15) Any Indian who has emigrated to British Guiana before the date of this notification and under any agreement in force at the date of this notification is entitled to an assisted return passage to India shall not be required to pay more than 25 per cent. of the excess in the cost of his return passage and clothing over the cost of such passage and clothing at the time of his first arrival in the colony.

(16) Any Indian who has emigrated to British Guiana before the date of this notification and has at the date of this notification become or thereafter becomes destitute shall be entitled to be repatriated to India at the expense of the Government of British Guiana without being further required to prove that he has become incapable of labour.

(17) The Government of British Guiana shall furnish such periodical reports and returns as may be required from time to time by the Government of India in respect of the welfare of the persons emigrating to the Colony in accordance with this notification.

Admission of Indians to Other Parts of the Empire.—On the motion of the Government of India this question was discussed at the Imperial War Conferences, 1917 and 1918, and the policy accepted by the self-governing dominions and the British Government was embodied in the following resolutions:—

"(1) It is an inherent function of the Governments of the several communities of the British Commonwealth including India, that each should enjoy complete control of the

composition of its own population by means of restriction on immigration from any of the other communities.

"(2) British citizens domiciled in any British country, including India, should be admitted into any other British country for visits, for the purpose of pleasure or commerce, including temporary residence for the purpose of education; such right shall not extend to a visit or temporary residence for labour purposes or to permanent settlement.

"(3) Indians already permanently domiciled in the other British countries should be allowed to bring in their wives and minor children on condition: (*a*) That not more than one wife and her children shall be admitted for each such Indian; and (*b*) that each individual so admitted shall be certified by the Government of India as being the lawful wife or child of such Indian."

The first paragraph of this resolution has regularized the various restrictions on immigration which the self-governing dominions have, from time to time, adopted and which, without expressly differentiating against Indians are in practice used in order to check Indian immigration, the objections to which are stated to be not racial or political but economic. Australia prohibits the entry of any person who fails to pass a dictation test of not less than 50 words in any prescribed language. New Zealand prohibits the entry of any person who has not received in advance a permit from the Dominion Government which is refused to any person regarded as unsuitable to settle in the country. South Africa prohibits the entry of any person deemed by the Minister of the Interior on economic grounds or on account of his standard or habits of life to be unsuited to the requirements of the Union. Canada prohibits the landing of any person who has come to the Dominion otherwise than by continuous journey from the country of which he is a native and unless he possesses in his own right 250 dollars. Newfoundland and the Irish Free State impose no restrictions. All the self-governing Dominions have adopted special exemptions in favour of students, tourists and merchants visiting the countries for the temporary purposes of commerce, pleasure, or education. India on its side has assumed power to regulate the admission of immigrants from any other part of the Empire or foreign countries, by means of passports. A bill has also been passed by the Indian Legislature empowering the Government of India to make rules "for the purpose of securing that persons not being of Indian origin, domiciled in any British possession, shall have no greater rights and privileges as regards entry into and residence in British India, than are accorded by the law and administration of such possession to persons of Indian domicile." With regard to the Crown colonies and protectorates, the attitude of the Indian Government is that there is no justification for placing any restrictions on the immigration of British Indians, which are not placed on other classes of British subjects, and this principle has in practice been observed by the Colonial Office except in the case of Kenya colony where, as stated hereafter, the British Government has reserved to itself the right to impose restrictions on the immigration of classes of people whose entry into the colony may have an adverse effect on the economic evolution of the indigenous population.

Rights and Disabilities of Indians Lawfully Domiciled Overseas.—The policy of the Empire is summed up in the resolution of the Imperial Conference, 1921, which was recorded in the following terms:—

"This Conference reaffirms that each Community of the British Commonwealth should enjoy complete control over the composition of its own population by restricting immigration from any of the other communities, but recognises that there is incongruity between the position of India, as an equal member of the Empire, and the existence of disabilities upon British Indians lawfully domiciled in some parts of the Empire, and this Conference, therefore, is of opinion that in the interests of the solidarity of the Commonwealth it is desirable that the rights of such Indians to citizenship should be recognised."

"The representatives of South Africa regret their inability to accept this resolution in view of the exceptional circumstances of the greater part of the Union. The representatives of India while appreciating the acceptance of this resolution, nevertheless feel bound to record their profound concern at the position of Indians in South Africa and hope that by negotiations between India and South Africa a way can be found as soon as may be to reach a more satisfactory position."

The Right Hon'ble Srinivasa Sastri visited the Dominions of Australia, Canada, and New Zealand in the course of 1922 as the emissary of the Government of India to assist them in giving effect to this resolution. The main object of his mission was to appeal to the Governments and public of Canada and Australia fully to enfranchise qualified domiciled Indians. At the time of Mr. Sastri's visit Indians resident in Queensland and Western Australia had neither the provincial nor the federal franchise. In Canada, Indians resident in British Columbia were and are still excluded from the dominion as well as the provincial franchise. While successful in securing a more sympathetic atmosphere towards Indians, Mr. Sastri failed to bring about any modification in the existing electoral laws.

The question of giving effect to the resolution of 1921 was raised by the Indian representatives at the Imperial Conference, 1923. Their proposal was as follows:—

"Let the Dominion Governments who have an Indian population, let His Majesty's Government in the areas under their direct control, such as Kenya, Uganda, Fiji and other places where there are Indians resident, appoint Committees to confer with a Committee which the Government of India will send from India and explore the avenues of how best and how soonest the principle of equality implicit in the 1921 Resolution may be implemented."

This proposal was favourably received by the Dominion Premiers, excluding General Smuts; and by the Secretary of State for the

Colonies who cordially agreed that there should be full consultation and discussions between him and a Committee appointed by the Government of India upon all questions affecting British Indians domiciled in British Colonies and protectorates and mandated territories. In pursuance of the proposal, the Government of India appointed a Committee in March 1924 composed of Mr. J. Hope Simpson, M.P., *Chairman*, H. H. the Aga Khan, Sir B. Robertson, Diwan Bahadur T. Rangachariar, M.L.A., and Mr. K. C. Roy with Mr. R. B. Ewbank, C.I.E., I.C.S., as Secretary to make representations to the Colonial Office on certain outstanding question affecting Indians in Kenya and Fiji. The Committee assembled in London early in April 1924 and dispersed towards the end of July. During this period they had several interviews with the Secretary of State for the Colonies and the officials of the Colonial Office, in which they made representations upon a variety of important matters affecting Indians in Kenya, in Fiji and in the mandated territory of Tanganyika. In regard to Kenya, the representations covered all questions of interest to India dealt with in the decision of His Majesty's Government. The result of these representations was announced by Mr. J. H. Thomas in the House of Commons on August 7th, 1924. The situation in Kenya also improved as a result of the work of the committee by the decision of the Indian community to relinquish their former attitude of non-co-operation and to accept an arrangement by which they will select five members to be nominated by the Governor to the Legislative Council. The result of the representations which the Committee made on certain outstanding questions relating to Indians in Fiji was announced on January 12th, 1927, when the Government of India published the more important papers relating to the negotiations which had been going on with the Colonial Office for some time.

Summary of present Position.—Outside Australia, N. Zealand and Canada the position stands as follows:—.

(1) **South Africa.**—The main grievances of Indians, which led to a passive resistance movement headed by Mr. Gandhi, were settled by the compromise embodied in the Indians Relief Act, 1914 and by the guarantee known as the Smuts-Gandhi agreement. The substance of this agreement is embodied in the following extracts from letters:—

(i) Mr. Gorges, Secretary for the Interior, to Mr. Gandhi, June 30th, 1914: "With regard to the administration of existing laws, the Minister desires me to say that it always has been, and will continue to be, the desire of the Government to see that they are administered in a just manner and with due regard to vested rights."

(ii) Mr. Gandhi to Mr. Gorges, July 7th, 1914:

"By vested rights I understand the right of an Indian and his successors to live and trade in the township in which he was living and trading, no matter how often he shifts his residence or business from place to place in the same township."

This has been officially interpreted to mean "that the vested rights of those Indians who were then living and trading in townships, whether in contravention of the law or not should be respected."

In 1920 an Asiatic Enquiry Commission was appointed to investigate the grievances of Indians regarding their rights to trade and hold land in the Union. Their main recommendations were as follows:—

(1) Law 3 of 1885 (Transvaal), the Gold Law of the Transvaal (Act No. 35 of 1908) and Act No. 37 of 1919 should not be repealed.

(2) There should be no compulsory repatriation of Asiatics; but

(3) Voluntary repatriation should be encouraged.

(4) There should be no compulsory segregation of Asiatics; but

(5) A system of voluntary separation should be introduced under which municipalities should have right, subject to certain conditions:—

(*a*) to lay out residential areas for Asiatics:

(*b*) to set aside certain streets or portions of the town for Asiatic traders to which existing license holders should gradually be attracted.

(6) These areas should be selected and allocated by a board of independent persons in consultation with the Municipal Council and Asiatic community.

(7) In Natal the right of Asiatics to acquire and own land for farming or agricultural purposes, outside townships, should be confined to the coast belt, say, 20 to 30 miles inland.

(8) A uniform "License Law" applicable to all the Provinces of the Union should be possible, be enacted. If that is impracticable, the law relating to the issue of Trade Licenses in the Cape Province, the Transvaal and Natal should be assimilated in a comprehensive consolidating Act of Parliament providing, *inter alia*:—

(*a*) That the granting of all licenses to trade (not being liquor licenses) shall be entrusted to municipal bodies within the area of their jurisdiction; outside those areas, to divisional Councils in the Cape Province, and in the other Provinces to special Licensing Officers appointed by the Administrator.

(*b*) The grounds upon which an application for the grant of a new license may be refused

(*c*) That the reasons for the refusal to grant any license shall be recorded, together with any evidence tendered for or against the application.

(*d*) That, in the case of the refusal of a license on the ground that the applicant is not a fit and proper person to hold the same or to carry on the proposed business, there shall be a final appeal to a Special Appeal Board, appointed by the Administrator,

(e) That municipal bodies shall have the right to prohibit the license holder, or any other person, from residing in any shop, store or other place of business.

(9) There should be no relaxation in the enforcement of the Immigration Laws, and more active steps should be taken to deal with prohibited immigrants who have evaded the provisions of those laws.

(10) The administration of the Asiatic policy of the Government should be placed in the hands of one official, under whose charge would come all administrative functions, together with the official records relating to Asiatics. This officer should also be entrusted with the duty of securing full statistics regarding Asiatics in the Union and of the arrivals in and departures from South Africa. Details of all applications for trade licenses, and transactions in connection with the purchase of land and property made by Asiatics throughout the Union, should be sent to him in order to ensure the enforcement of the provisions of Section 8 of Act 22 of 1913.

On the other hand, he should keep in close touch with the various sections of the Indian community, see that the laws are applied in a just manner, give a ready ear to any complaints or grievances and generally safeguard their interests.

From the above it will be observed that the Commission recommended the retention of a law prohibiting the ownership of land by Asiatics in the Transvaal, and another of its recommendations, threatened the right which Indians had previously enjoyed of acquiring and owning land in the Uplands of Natal. Against this latter proposal the Government of India earnestly protested, but it was not accepted by the Union Government.

Present Position.—Indians enjoy both the political and municipal franchise only in the Cape Province and the municipal franchise only in Natal. In the remaining two provinces they are not enfranchised. They are subjected to differential treatment in the matter of trading licenses, specially in the Transvaal. Their immigration into the Union is barred and severe restrictions exist on inter-provincial migration. In the Transvaal they are not allowed to acquire immovable property outside locations and on the Witwatersrand they are subject to the restrictions of the Gold Law.

The anti-Asiatic party have made several efforts, especially in Natal, further to curtail the rights of Indians. Some of these are merely irritating social disabilities, such as railway regulations debarring Indians from travelling in any other carriages except those reserved for them, and similar rules restricting their use of tramways at Durban, and excluding them from race courses and betting club rooms. Examples of recent anti-Asiatic legislation of major importance are:

(a) The Natal Rural Dealers Licensing Ordinance, transferring the power of granting trading licenses from the Licensing Officer to an elected Licensing Board, on which Indians may not sit.

(b) The Durban Land Alienation Ordinance. This Ordinance, which enables Municipalities in selling land to assign it for particular communities, and to that extent to secure segregation, has been allowed on condition that Asiatic are given reasonable opportunity for acquirin adequate residential sites.

Anti-Asiatic feeling in South Africa.—A bill for the segregation of Asiatics known as the Class Areas Bill was introduced in the Union Assembly in March 1924, which though not specifically directed against Indians, contained provisions which could be used for the compulsory segregation of all Asiatics in certain areas. Indian opinion was deeply agitated over the prospect of this legislation which it was apprehended might in the existing state of public opinion in South Africa result in the economic ruin of a large number of Indian traders in the Union. In response to the vigorous protests made by the Government of India the Union Government gave an assurance that it was their desire and intention to apply the measure if it became law in a spirit of fairness to the interests and reasonable requirements of resident Indians. The Government of India whilst welcoming the assurance were unable to rest satisfied with this position and made every effort to persuade the Union Government to abandon the project. For the moment they succeeded, as in consequence of the unexpected dissolution of the South African Parliament the bill lapsed, but the Union Government thereafter appointed a committee to inquire for some other country in the world which would be suitable for Indian immigration and to be a home for Indians going from South Africa. The report of the committee is awaited.

In Natal an Ordinance was introduced in the Provincial Council in 1921 dealing with the township franchise to the detriment of the Indian community. It was again introduced in 1922 and in a modified form in 1923 but in each instance the Union Government withheld its approval. In 1923, the Union Government itself introduced a measure entitled "The Class Areas Bill," containing provisions which could be used in urban areas for the compulsory segregation of Asiatics. Indian opinion was deeply exercised over the prospects of this legislation, despite the assurance of the Union Government that it desired to apply the measure in a spirit of fairness to the interests and reasonable requirements of Indian residents. But in consequence of the unexpected dissolution of the South African House of Assembly in April, 1924, the Bill lapsed. Towards the end of December 1924, news was received that the Government of South Africa had given its consent to the Natal Borough Ordinance. This measure while safeguarding the rights of Indians already on the electoral roll of Boroughs, prevents further enrolment of Indians as burgesses. Similarly the Natal Township Franchise Ordinance (No. 3 of 1925) was passed to or to render Indians ineligible for Township Franchise in future. Further, towards the end of January 1925, news was received that the Union Government had gazetted a Bill to amend the Mines and Works Act in order to take powers to refuse certificates of competency to natives or Asiatics in certain occupations. The Government of India made suitable representations in the matter to the Union Government and the Select Committee to which the measure was referred altered its wording so as not to refer to Asiatics and natives directly. The Bill as amended by the Select

Committee was passed by the Union Assembly but rejected by the Senate. In January 1926 it was reintroduced and in May it was adopted in a joint Session of the Senate and the Assembly by eighty-three votes to sixty-seven. In reply to representations made by the Government of India they were informed that there was no present intention on the part of the Union Government of extending regulations beyond the position as it existed prior to the judgment of the Transvaal Provincial Division of the Supreme Court in the case Rex *versus* Hildick Smith when it was held that certain regulations with reference to mines and works which have actually been in force in the Union of South Africa since 1911 and in certain provinces for many years before that date were not valid under sections of the Act in terms of which they were promulgated. The Government of India were assured that should any such extension of the scope of these regulations be contemplated in future every reasonable opportunity will be given to all the parties in the Union interested in the matter to make representations.

In July 1925, a more comprehensive Bill, known as the Areas Reservation and Immigration and Registration (Further Provision) Bill, was introduced in the Union Assembly. The Government of India made effective representations against the provisions of this Bill both on grounds of principle as well as of detail.

Deputation to S. Africa.

Towards the end of November 1925, the Government of India, with the concurrence of the Government of South Africa, sent a deputation to South Africa, the personnel of which was as follows :—

G. F. Paddison, Esq., C.S.I., I.C.S., Commissioner of Labour, Madras—*Leader.*

Hon'ble Syed Raza Ali, M.C.S.—*Member.*

Sir Deva Prasad Sarvadhikary, Kt., C.I.E.—*Member.*

G. S. Bajpai, Esq., C.B.E., I.C.S.—*Secretary.*

The main purpose of the deputation was to collect as soon as possible first-hand information regarding the economic condition and general position of the resident Indian community in South Africa and to form an appreciation of the wishes and requirements of the Indian community in South Africa. This deputation was followed by a return visit to India of a Parliamentary deputation from the Union Government of which the following were members :—

The Hon'ble F. W. Beyers, Minister of Mines and Industries, Patrick Duncan, K.C., C.M.G., Messrs. A. C. Fordom, J. S. Marwick, G. Reyburn, O. S. Vermooten, W. H. Rood, and J. R. Hartshorne. As a result of the investigations of these deputations, the Government of India and of the Union arranged for a meeting in the Union of a further delegation from India to explore every possible avenue, in order to arrive at a satisfactory solution of the Indian problem.

The Indian delegation whose members were: Sir Muhammad Habibullah, the Hon'ble Sir Phiroze Sethna, Sir Darcy Lindsay, Sir G. S. Paddison, the Rt. Hon'ble Srinivasa Sastri, Mr. G. L. Corbett and Mr. G. S. Bajpai, assembled in Conference with the Parliamentary deputation in Cape Town on the 17th December 1926. At the Session which lasted until the 11th January 1927, the contentious differences were discussed by the delegates freely and openly and in a spirit of determination to find a satisfactory solution of the outstanding difficulties. At the close of the Conference the delegates were therefore able to recommend the following articles, which were unhesitatingly approved of by the respective Governments, as a basis of agreement :—

(1) Both Governments reaffirm their recognition of the right of South Africa to use all just and legitimate means for the maintenance of Western Standard of life.

(2) The Union Government recognize that Indians domiciled in the Union, who are prepared to conform to Western Standards of life, should be enabled to do so.

(3) For these Indians in the Union who may desire to avail themselves of it, the Union Government will organise a scheme of assisted emigration to India or other countries where western standards are not required. Union domicile will be lost after three years' continuous absence from the Union in agreement with the proposed revision of the law relating to domicile, which will be of general application. Emigrants under the assisted Emigration Scheme, who desire to return to the Union within the three years, will be allowed to do so only on refund to the Union Government of the cost of the assistance received by them.

(4) The Government of India recognise their obligation to look after such emigrants on their arrival in India.

(5) The admission into the Union of the wives and minor children of Indians permanently domiciled in the Union will be regulated by paragraph 3 of Resolution XXI of the Imperial Conference of 1918.

(6) In the expectation that the difficulties with which the Union has been confronted will be materially lessened by the agreement which has now happily been reached between the two Governments and in order that the agreement may come into operation under the most favourable auspices and have a fair trial, the Government of the Union of South Africa have decided not to proceed further with Areas Reservation, Immigration and Registration (Further Provision) Bill.

(7) The two Governments have agreed to watch the working of the agreement now reached and to exchange views from time to time as to any changes that experience may suggest.

(8) The Government of the Union of South Africa have requested the Government of India to appoint an Agent in the Union in order to secure continuous and effective co-operation between the two Governments.

In India, the settlement was on the whole well-received. In South Africa the more responsible newspapers, both English and Dutch, *e.g.*, the "Cape Times" and "Die Burger," paid handsome tributes to both delegations for the statesmanship which they had brought to bear on their work, and the eminently reasonable and practical character of the results achieved by them. The majority of people in both countries doubtless regard it as a good first step in the solution of a complicated problem and the spirit, of which it is the outcome, as the best guarantee of a progressive and friendly adjustment honourable to both parties.

The friendly relations which were happily established between the Government of India and the Union Government of South Africa as a result of the agreement not only continue but have grown in warmth and sincerity. The Government of India sent out as their first Agent in South Africa the Right Hon'ble Srinivasa Sastri, P.C., who was a member of the Government of India's Delegation to the Cape Town Conference. His appointment was received with universal approval both in India and South Africa, the satisfaction felt by the Union Government being indicated by their decision, as an act of grace to make his appointment, to extend an amnesty to all Indians illegally present in the Union. On their part the Union Government after the ratification of the Agreement by the two Governments, lost no time in introducing legislation to give effect to their undertakings under it, so that when Mr. Sastri arrived in South Africa in June 1927 all that remained to be done was to take action under Part III of the Agreement relating to the measures required for the upliftment of the Indian community. Most of the provisions of this part concern the Province of Natal where the bulk of the Indian population of the Union is resident, and the Union Government were not slow in moving the Provincial Administration to appoint a Commission to enquire into the condition of Indian education in that province and to devise the means necessary for its improvement. Co-operation with this Commission on the part of the Government of India was provided by the Deputation from India of two educational experts—Mr. K. P. Kichlu, I.E.S., Deputy Director of Education in the United Provinces, and Miss C. Gordon, B.E. (Edin.), Madras Educational Service, Lecturer in Kindergarten methods at the Government Training College at Saidapet, to advise and assist the Commission in its investigations and deliberations.

A notable feature of the present situation was the marked spirit of friendliness and goodwill which now animates the Union Government in dealing with all problems affecting the domiciled Indian community. An example of this occurred in the year 1927 when a measure was introduced in the Union Parliament known as the Liquor Bill, clause 104 of which purported to prohibit the employment of Indians on any licensed premises—hotels, clubs, breweries etc. The appearance of this clause, which threatened the livelihood of 3,000 Indians engaged in such occupations, caused consternation among them and the Minister in charge decided to withdraw the clause from the scope of the Bill.

Much of the credit for the salutary measures referred to and the spirit of friendliness which they denote were due to the Right Hon'ble Mr. Sastri, the Agent of the Government of India in South Africa, whose tact and honesty earned for him the confidence of the European community, official and non-official alike and an increasing measure of their sympathy and assistance in furtherance of the Indian cause. Gratifying response was made by the Indians to this appeal for £20,000 for the purpose o opening a combined Teachers' Training and High school in Durban. The institution which meets an urgent need for Indians in the Union of South Africa was opened on October 14th, 1922, by His Excellency the Earl of Athlone, Governor General of South Africa. It is known as the Sastri College and has on its staff six fully qualified Indian teachers recruited in India.

In India the Government of India have appointed officers to look after repatriates and their personal property immediately upon their return from South Africa, to arrange for their despatch to their homes and, if possible, to find them employment for which they may be suited.

Early in 1929, the Rt. Hon. V. S. Srinivasa Sastri retired on the expiration of his period of appointment, and Sir Kurma Venkata Reddi, Kt., was chosen as his successor. In December 1929, sudden and serious illness compelled Sir Kurma Reddi to return to India on sick leave. During the time he held his post, Sir Kurma amply justified his selection to this important office. Sickness having compelled him to retire Kunwar Sir Maharaj Singh, Kt., C.I.E., M.A., Barrister, has appointed to succeed him.

Early in February 1930 the Government of the Union of South Africa set up a Select Committee of the House of the Assembly to enquire into certain questions relating to the right of Indians to occupy and own fixed property in the Transvaal and to propose such legislation to the House as it might deem fit. This decision was the result of a number of recent judicial judgments bearing upon the occupation of premises on proclaimed grounds in the Transvaal by persons belonging to the native races of Asia and to the wide-spread belief that the intentions of the Union Parliament as indicated in Act 37 of 1919 which purported to prohibit the acquisition of immovable property by Asiatics subsequent to its coming into operation were being systematically defeated. As the labours of the Committee were likely to affect important Indian interests, and as Sir Kurma Reddi was on leave in India, the Government of India deputed Mr. J. D. Tyson, I.C.S., to make suitable representations to the Committee for safeguarding legitimate Indian interests and to give the Indian community in the Transvaal such assistance as it might need for placing its views before the Committee. The Committee's conclusions which were embodied in a Bill and its Report were placed on the table of the Legislative Assembly of the Union on the 13th May and the Bill prepared by them was

read in the House for the first time on the 14th of that month. As soon as copies of the Bill and the Select Committee's Report reached the Government of India, they made pressing representations to the Government of the Union to allow adequate time for careful examination of the far-reaching provisions of the measure which the Select Committee had prepared. Their representations were not without effect and the Union Government decided to postpone further consideration of the Bill until the next session of the Union Parliament early in 1931.

The bill did not, however, come up before the Union Parliament in 1931, as the Union Government agreed to postpone it further until after the conference between their representatives and the representatives of the Government of India in connection with the revision of the Cape Town Agreement of 1927. This Conference was held at Cape Town in January-February 1932. The Government of India delegation was led by the Honourable Sir Fazl-i-Husain, the other members being the Rt. Honourable V. S. Srinivasa Sastri, Sir Geoffrey Corbett, Sir Darcy Lindsay, Mrs. Sarojini Naidu, Mr. G. S. Bajpai, and Sir K. V. Reddi.

The results of the Conference were announced simultaneously in India and South Africa on the 5th April, 1932. As regards the Cape Town Agreement of 1927, the following statement was made :—

1. "In accordance with paragraph 7 of the Cape Town Agreement of 1927 delegates of the Government of the Union of South Africa and of the Government of India met at Cape Town from January 12th to February 4th, 1932, to consider the working of the Agreement and to exchange views as to any modifications that experience might suggest. The delegates had a full and frank discussion in the Conference which was throughout marked by a spirit of cordiality and mutual good-will.

2. Both Governments consider that the Cape Town Agreement has been a powerful influence in fostering friendly relations between them and that they should continue to co-operate in the common object of harmonising their respective interests in regard to Indians resident in the Union.

3. It was recognised that the possibilities of the Union's scheme of assisted emigration to India are now practically exhausted owing to the economic and climatic conditions of India as well as to the fact that 80 per cent. of the Indian population of the Union are now South African-born. As a consequence the possibilities of land-settlement outside India, as already contemplated in paragraph 3 of the Agreement, have been further considered. The Government of India will co-operate with the Government of the Union in exploring the possibilities of a colonisation scheme for settling Indians, both from India and from South Africa, in other countries. In this investigation, which should take place during the course of the present year a representative of the Indian community in South Africa will, if they so desire, be associated. As soon as the investigation has been completed the two Governments will consider the results of the enquiry.

4. No other modification of the Agreement is for the present considered necessary."

The Union Government, as already mentioned in an earlier paragraph, took action to implement the first part of paragraph 3 of the statement. No suggestions in regard to the exploration of the possibilities of a colonisation scheme for settling Indians both from India and South Africa, in other countries have so far been reported. The South African Indian Congress decided to appoint a delegate to the committee of investigation on certain conditions. The Committee's report is awaited.

As regards the Transvaal Asiatic Land Tenure Act, certain changes were made which, broadly speaking, had the effect of further safeguarding Indian rights than was expected at the time when the results of the Conference were announced in India. These modifications were explained to the Members of the Indian Legislative Assembly in the following statement which was made on the 12th September, 1932 :—

Clause 5 of the original Bill, which sought to segregate Asiatics by provision for the year marking of areas for the occupation or ownership of land exclusively by Asiatics, has been deleted. Instead, the Gold Law has been amended to empower the Minister of the Interior, after consultation with the Minister of Mines, to withdraw any land from the operation of sections 130 and 131 of the Gold Law in so far as they prohibit residence upon or occupation of any land by coloured persons. This power will be exercised, after inquiry into individual cases by an impartial commission, presided over, by a judge, to validate present illegal occupations and to permit exceptions to be made in future from occupational restrictions of the Gold Law.

Fixed property acquired by Asiatic companies up to 1st May 1930, in which the controlling interest was nominally in the hands of Europeans but *de facto* in the hands of Asiatics of which stood lawfully registered in favour of an individual Asiatic on the same date and fixed property held through European trustees immediately prior to the 15th May 1930 will all be protected. Shares held by an Asiatic or Asiatic Company in a private company which in the terms of the original Bill, would have been forfeited to the State if the company acquired any fixed property after the 1st May 1930, are protected, provided that they were held by an Asiatic on the 1st May 1932 and have not been transferred by him since that date and they will be heritable by one Asiatic from another who lawfully holds them.

The provision in the original Bill, which declared illegal the occupation of any fresh 'land' after 1st May 1919 in the same township by an Asiatic, has been made applicable from the 1st May 1930. Extensions made between the 1st May 1919 and 1st May 1930 are protected.

In areas, like Springs, which, according to a judicial pronouncement, were not formerly subject to the restrictive provisions of the Gold Law, but which have now been brought under those restrictions, Indians who were lawfully residing on or occupying land on the 1st May 1930, will have their right of residence or occupation protected and will also be able to transfer the right to their lawful successors in title.

Local bodies, whom the original bill required to refuse certificates of fitness to an Asiatic to trade on the ground that the applicant may not lawfully carry on business on the premises for which the licence is sought, shall have to treat a certificate issued by a competent Government officer to the effect that any land has been withdrawn from the restrictive provisions of sections 130 and 131 of the Gold Law as sufficient proof that a coloured person may lawfully trade on such land. If an application for a certificate, which is necessary for the grant of a licence, is refused on the ground of insufficiency of title to occupy the land on which the business is to be carried on, an appeal may be preferred to the Magistrate of the district. The decision of the Magistrate on any such appeal is further subject to an appeal to the Transvaal Provincial Division of the Supreme Court.

The South African Indian Congress condemned the Act and a Committee to organise Passive Resistance was appointed. But no action has been taken by this Committee pending the report of the Commission, which has been appointed by the Union Government under the chairmanship of the Honourable Mr. Justice Feetham, to enquire into the occupation by coloured persons of proclaimed land in the Transvaal.

Kunwar Sir Maharaj Singh, Kt., C.I.E., M.A., Bar-at-Law, who has succeeded Sir K. V. Reddi, Kt., as Agent of the Government of India in South Africa, closely watched the proceedings of the Commission and assisted the Indian community in the Transvaal to place their case before it.

(2) **Kenya Colony.**—The grievances of Indians domiciled in this Colony are fully set forth in the published despatch of the Government of India, dated October 21st, 1920. The controversy centred round the following points:—

(*a*) FRANCHISE.—Indians have not the elective franchise. The Government of India proposed that there should be a common electoral roll and a common franchise on a reasonable property basis *plus* an educational test, without racial discrimination for all British subjects.

(*b*) SEGREGATION.—Professor Simpson who was sent to East Africa to report on Sanitary matters, recommended segregation on sanitary grounds. The Government of India objected, firstly, that it was impracticable; secondly, that it was commercially inconvenient; and thirdly, that Indians are in practice unfairly treated in the allocation of sites.

(*c*) THE HIGHLANDS.—Lord Elgin decided in 1908 that as a matter of administrative convenience grants of land in the upland area should not be made to Indians. The whole area has now been given out, and the Government of India claim that there is no land left to which Lord Elgin's decision applies. This decision has now, however, been extended so as to prohibit the transfer of land in the uplands to non-Europeans.

(*d*) IMMIGRATION.—Suggestions have been put forward for restricting Asiatic immigration into Kenya. The Government of India claim that there is no case for restricting Indian immigration and that such restrictions would be in principle indefensible.

The Settlement.—The decisions of the British Government were contained in a White Paper presented to Parliament in July 1923. It was held that the guiding principle should be that "the interests of the African native must be paramount," and in light of this it was decided:—

(*a*) FRANCHISE.—A communal franchise was adopted with 11 seats for elected Europeans, 5 elected Indians, one nominated Arab, one missionary representing the Africans, and a nominated official majority. One Indian is also appointed on the Governor's Executive Council.

(*b*) SEGREGATION.—The policy of segregation as between Europeans and Asiatics is abandoned.

(*c*) THE HIGHLANDS.—The existing practice is maintained both as regards initial grants and transfers. A similar reservation in the lowlands is offered to Indians.

(*d*) IMMIGRATION.—Racial discrimination in immigration regulations is rejected. But in the economic interests of the Africans, further control over immigration is necessary. Some arrangement is required for securing a strictly impartial examination of applications for entry into Kenya. The Governors of Kenya and Uganda have been instructed to submit joint proposals for legislation.

The Government of India reviewed their decisions in a resolution published on August 18th, 1923, and recorded "their deep regret that His Majesty's Government did not feel justified in giving greater effect to the recommendations made by them" and reserved liberty to reopen the case on a suitable opportunity. They stated their intention of making representations regarding the action to be taken to implement these decisions, particularly in the matter of the Immigration regulations.

Following upon the Kenya award statutory action was taken by the local administration on the franchise question. Adult suffrage on communal lines was conferred upon Indians. As regards immigration, the Government of India took the opportunity to urge the postponement of the bill giving effect to the decision of His Majesty's Government until such time as the Committee proposed by their representatives at the Imperial conference in 1923 had an opportunity of examining the question of the restrictions therein embodied. Accordingly the introduction of the bill was postponed at the instance of the Colonial Secretary. The Government of Kenya was also asked by His Majesty's Government for an explanatory statement regarding the method proposed for the administration of immigration measures. The Government of India received an assurance from the Colonial Secretary that ample opportunities would be afforded for the expression of their views; and that earnest attention would be given to any representation which their Committee desired to make. As has already been stated such a Committee was appointed in March 1924. The following statement made by the Secretary of State for the Colonies in the House of Commons on 7th August 1924 shows the result of the representation made by the Colonies Committee:—

"(1) IMMIGRATION.—My position is that if danger ever arises of such an influx of immigrants, of whatever class, race, nationality or character, as may likely be prejudicial to the economic interest of the natives, I hold myself entirely free to take any action which may be necessary. Conflicting statistics which have been laid before me have not enabled me to reach a definite conclusion as regards the extent of net Indian immigration. Accordingly steps will be taken to create a statistical department to obtain accurate information with regard to persons of all races arriving in or departing from Kenya. Meanwhile the Kenya Immigration Ordinance will not be enacted.

(2) FRANCHISE.—I have given careful consideration to representations in favour of a common poll, but I am not prepared to resist the conclusion already arrived at that in the special circumstances of Kenya, with four diverse communities, each of which will ultimately require electoral representation, the communal system is the best way to secure the fair representation of each and all of these communities.

(3) HIGHLANDS.—I consider that the Secretary of State for the Colonies has no alternative but to continue pledges, expressed or implied, which had been given in the past, and I can hold out no hope of the policy in regard to agricultural land in the Highlands being reconsidered.

(4) LOWLANDS.—It was proposed to reserve an area in the lowlands for agricultural immigrants from India. The Committee made it plain that it is averse from any reservation of land for any immigrant race, subject to the suggestion that before applications for land in lowland areas are invited an opportunity should be taken of sending an officer experienced in Indian settlement and agricultural methods to report on the areas. At present any consideration of the matter is in suspense pending receipt from the colony of reports from the native and agricultural points of view on the areas in question."

With regard to the announcement in connection with "Lowlands" the question of deputing an officer to examine these areas was considered by the Government of India who thought it inadvisable to proceed any further with the idea.

The work of the Colonies Committee did much to abate the bitterness which existed in the relations between the different classes of settlers in Kenya, and the situation was further improved by the decision of the Indian community to relinquish their attitude of non-co-operation and to select five members for nomination by the Governor to the Legislative Council.

In June 1924, His Majesty's Government announced the appointment of an East African Committee, under the Chairmanship of Lord Southborough, to consider and report on certain questions regarding the administration and economic development of British East African dependencies. Since this enquiry was likely to affect Indian interests, the Government of India urged that the Indian point of view should be heard before the Committee came to any conclusions. This request was granted, but further action in the matter was suspended, pending the publication of the report of the Commission presided over by Major Ormsby Gore, which visited East Africa to enquire into certain aspects of the questions referred to the Southborough Committee. The report of the Ormsby Gore Commission was published in the United Kingdom on May 7th, 1925. On June 9th, Major Ormsby Gore announced in the House of Commons that, in view of the completeness of the report presented by the Commission which, under his chairmanship, had visited East Africa, His Majesty's Government had decided that the Southborough Committee should not resume its sittings.

In November 1926, information reached the Government of India, that the Government of Kenya contemplated undertaking legislation at an early date in order to make the European and Indian communities responsible for the net cost of their education. It was originally intended to give effect to this decision by levying from Europeans a tax on domestic servants in their employ and from Indians a poll-tax. The Indian community resented this differentiation and, ultimately, the Colonial Government decided that both communities should pay the same form of tax, *viz.*, an adult poll tax. For Europeans this has been fixed at 30 shillings and for Indians at 20 shillings. An Ordinance giving effect to this decision was passed by the Kenya Legislative Council and came into force from 1st January, 1927.

In view of the issue of another White Paper in July 1927, in which it was announced that His Majesty's Government had authorised the Secretary of State for the Colonies to send to Africa a special Commission to investigate the possibility of securing more effective co-operation between the Governments of Eastern and Central African Dependencies and make recommendations on this and cognate matters, the question regarding the position of Indians in Kenya again came to the forefront.

The announcement excited serious apprehensions in India with regard to the future position of Indians in those Colonies. A deputation drawn mainly from both houses of the Indian Legislature also waited on His Excellency the Viceroy on the 17th September, 1927, and represented the position of Indians in East Africa. One of the suggestions made by the deputation was that permission may be given for a small deputation appointed by the Government of India to go over to East Africa in order—

(*a*) to make a general survey of these territories in relation to Indian interests therein, and

(*b*) to help the resident Indian community in preparing their evidence for the Commission.

The Government of India readily accepted this suggestion and, with the approval of His Majesty's Government, sent Kunwar Maharaj Singh, C.I.E. and Mr. R. B. Ewbank, C.I.E., I.C.S., to East Africa. These officers visited Kenya, Uganda, Zanzibar and Tanganyika and

their services are understood to have been greatly appreciated by the resident Indian communities. The personnel of the Commission was announced by the Secretary of State for the Colonies on November 14th, 1927, and was as follows:—The Right Hon'ble Sir Edward Hilton-Young, P.C., G.B.E., D.S.O., D.S.C., M.P. (*Chairman*), Sir Reginald Mant, K.C.I.E., C.S.I., Sir George Schuster, K.C.M.G., C.B.E., M.C., and Mr. G. H. Oldham, *Members*, with Mr. H. F. Downie (*Secretary*). The Commission left England on December 22nd, 1927, and travelled *via* the Nile to Uganda, and thence to Kenya, Tanganyika, Zanzibar, Nyasaland, and Northern Rhodesia, visiting the chief centres and hearing the views of representatives of different sections of the community. The Commission also visited Salisbury for the purpose of conferring with the Government of Southern Rhodesia. The report of the Commission was published on the 18th January 1929.

It was examined by the Government of India in consultation with the Standing Emigration Committee of the Indian Legislature and with prominent representatives of all parties in the Legislative Assembly, who were not members of the Committee. The tentative conclusions reached by Government on the main recommendations in the Report were set out in a telegram to the Secretary of State for India of the 19th March 1929, which was published in India in September 1929.

In March 1929, the Secretary of State for the Colonies sent out Sir Samuel Wilson, Under Secretary of State for the Colonies, to East Africa to discuss the recommendations of the Hilton Young Commission for the closer union of Kenya, Tanganyika and Uganda (and such possible modification of these proposals for effecting the object in view as may appear desirable) with the Governments concerned and also with any bodies or individuals representing the various interests and communities affected, with a view to seeing how far it may be possible to find a basis of general agreement. Sir Samuel was also directed to ascertain on what lines a scheme for closer union would be administratively workable and otherwise acceptable and to report the outcome of his consultations. At the invitation of the Secretary of State for the Colonies, the Government of India deputed the Rt. Hon. V. S. Srinivasa Sastri, P.C., to East Africa to help the local Indian communities to state their views to Sir Samuel Wilson on matters arising out of the Hilton Young Commission's Report and to be at Sir Samuel Wilson's disposal, if he wished to make use of him in dealing with the Indian deputations.

Mr. Sastri left India in April and returned in June 1929. In the Report presented by him on his return he recommended that the Government of India should—

(*a*) press for inquiries as to the basis of a civilisation franchise which shall be common to all races alike;

(*b*) invoke the good offices of the Colonial Office and of the Government of Kenya in securing the consent of the European Community to the establishment of a common roll;

(*c*) oppose the grant of responsible government to Kenya or of any institution leading up to it;

(*d*) oppose the establishment of a Central Council on the lines proposed by Sir Samuel Wilson;

(*e*) demand, in case of the establishment of some such body that the unofficial representatives from each province should include an adequate number of Indians;

(*f*) advocate the continuance of the official majority in the Legislative Council of Kenya;

(*g*) demand that the representation of natives in the Kenya Legislative Council should be by natives or by Europeans and Indians in equal proportions.

In September 1929, the Indian Delegation from E. Africa was received by Sir Fazl-i-Husain, Member in charge of the Education, Health and Land Department of the Government of India at Simla. The delegation was represented by Mr. J. B. Pandya, Mr. C. P. Dala and Mr. Iswardas from E. Africa and Pt. H. N. Kunzru and Sir Purshotamdas Thakurdas, M.L.A.s, Sir Frank Noyce, Secretary, and Mr. A. B. Reid, Joint Secretary in the E. H. L. Department, were also present.

Sir Fazl-i-Husain welcomed the delegation and requested them to tell him in what matter they wished the Government of India to help them. The delegation stated the views of the Indian Communities in E. Africa on the matters arising out of the Hilton Young Commission's Report which in their judgment most vitally affected Indian interests. The statement made by the delegation related principally to the question of common franchise in Kenya, the representation of the natives of the country on the Council, the Federation of the several territories in E. Africa along the lines suggested in the report, the reservation of land in Kenya for the settlement of Indians, the residential segregation of Indians in Kenya, the appointment of an Indian Trade Commissioner in East Africa, the improvement of educational facilities for Indians in East Africa, the appointment of Indians in the higher public services there and the better political representation of Indian interests in Uganda and Tanganyika. The delegation also requested the Government of India to nominate a representative to accompany the Deputation which they propose to send to London shortly to put the Indian case before His Majesty's Government before they pass any orders on the Hilton Young Commission's Report.

Sir Fazl-i-Husain thanked the delegation for their interesting statement, but said that, before he could make any statement on the attitude of the Government of India in regard to the points advanced by the delegation or reply to their request for the nomination by the Government of India, of a representative to accompany the proposed deputation to London, he would like the members of the delegation to attend the meeting which the Government of India had arranged to hold up on the 14th September, with leading members of the Legislature and the

Standing Emigration Committee, so that the latter might have the advantage of hearing the delegation themselves before they advised the Government of India upon the situation. The delegation expressed their readiness to attend the meeting and then withdrew.

Thereafter meetings of the Standing Emigration Committee were held and the decision arrived at by the Government of India was communicated to His Majesty's Government.

The report of Sir Samuel Wilson was published on the 5th October 1929. Another meeting of the Standing Emigration Committee was held soon thereafter to consider the report and a further communication was addressed to His Majesty's Government on the subject.

The conclusions of His Majesty's Government as regards closer union in East Africa were published in June, 1930, in the form of a White Paper and it was announced that they would be submitted to a Joint Committee of the two Houses of Parliament. In accordance with this decision a Select Committee was set up in November, 1930. The Government of India communicated their views in a despatch to the Secretary of State for India on the scheme set out in the White Paper in so far as it affected the Indian population in East Africa. With the permission of the Joint Select Committee of Parliament they also deputed the Right Honourable V. S. Srinivasa Sastri, P.C., C.H., as their representative to present their case and elucidate in the course of oral examination such questions as the Committee might consider necessary to refer to him. The Select Committee examined Mr. Sastri in July, 1931.

The report of the Committee was published simultaneously in England, East Africa and India on the 2nd November, 1931, and the decisions of His Majesty's Government on the recommendations of the Committee together with certain correspondence arising from the report of the Committee were also similarly published on the 24th August, 1932.

As regards the question of *Closer Union*, His Majesty's Government have accepted the view of the Joint Committee that apart from considerations arising out of the Mandatory position of the Tanganyika Territory, the time has not arrived for taking any far-reaching step in the direction of the formal Union of the several East African Dependencies.

As regards the Common Electoral roll, the Committee have stated "that it would be impracticable under present conditions to advocate the adoption of the system in preference to the existing system of election." This recommendation has also been accepted by His Majesty's Government. It has also been decided that no change should be made in the present arrangement which secures an official majority in the Kenya Legislative Council.

During the year 1927, another matter which engaged Government and the public in India was the report of the local Government Commission which was appointed by the Governor of Kenya in July 1926, to make recommendations as to the establishment or extension of local Government for certain areas in the Colony:—The report of the Commission was submitted to the Governor of Kenya in February 1927. The recommendations made were numerous and so far as Indians were concerned they involved a decrease in the proportion of Indian representation on the local bodies at Nairobi and Mombasa and the creation of an European elected majority in both places. This caused resentment among Indians in the Colony and resulted in the abstention from the Legislative Council of four out of five Indian representatives. The Government of India submitted representations to His Majesty's Secretary of State for India on the subject.

In 1928 the Local Government (Municipalities) Ordinance was passed. This amended the law relating to Municipal Govt. in Kenya to provide for the nomination of 7 unofficial Indian Members as against 9 European Members to be elected in Nairobi and for the nomination to the Municipal Board of Mombasa of an equal number of European and Indian Members, *viz.*, 7.

(3) **Fiji and British Guiana.**—Emigration to Fiji was stopped in 1917, under Rule 16 (B) of the Defence of India (Consolidated) Rules in pursuance of the general policy of stopping recruitment under the indentured system of emigration. With a view to secure, if possible, a renewal of emigration to the Colony, an unofficial mission composed of the Bishop of Polynesia and Mr. Rankine, Receiver-General to the Fiji Government, arrived in India in December 1919, and submitted a scheme of colonisation, which was referred to a committee of the Imperial Legislative Council on 4th February, 1920. To secure a favourable reception for the mission the Fiji Government cancelled all outstanding indentures of East Indian labourers from 2nd January, 1920, and also announced their intention to take early measures to provide for the representation of the Indian community on the Legislative Council on an elective basis by two members. In accordance with the recommendations made by the Committee the Government of India informed the mission in March, 1920, that they would be willing to send a Committee to Fiji provided that the Government of Fiji and the Secretary of State for the Colonies would guarantee that "the position of the emigrants in their new home will in all respects be equal to that of any other class of His Majesty's subjects resident in Fiji." In July, 1920, the Government of Fiji informed the Secretary of State for the Colonies of their willingness to give the pledge, subject to his approval. Arrangements with regard to the contemplated deputation, however, were postponed until January 1921, owing to the announcement of Lord Milner's policy in regard to Indians in Kenya, and the desirability of consulting the new Legislature in India. After consultation with the Fiji Government as to the terms of reference and personnel of the deputation, an announcement was made on the 27th June, 1921. But owing to the inability of the two Indian members Messrs. Srinivasa Sastri and Hirdaynath Kunzru, who had been nominated to join the Committee which as finally constituted consisted of Messrs. Venkatapati Raju, G. L. Corbett, Govind Sahai Sharma, and Lieutenant S. Hissam-ud-din Khan, did not reach Fiji until the end of January 1922.

The labour troubles in Fiji in the years 1920-21 had produced an unexpected result in India. The Government of Fiji cancelled the indentures of Indian labourers, as from January 1920, while arrangements were made for the early repatriation of such of them as desired to return to their own country. In consequence, large numbers left Fiji. Many arrived in India comparatively destitute; while others, who were colonial born or whose long residence in the colonies had rendered them unfit for the old social conditions, found themselves utterly out of place—indeed foreigners—in their own country. Returned emigrants from other colonies also, being in difficulties owing to the unfavourable economic situation in India, strongly desired to return to the territories from which they had come. During the early part of 1921, from all parts of India there was a steady drift of destitute and distressed labourers in the direction of Calcutta where they hoped to find ships to take them back to the colonies in which they were certain of work and livelihood. At the earnest representation of the Fiji Government, and after full consultation with representative public men, arrangements were made to relax the emigration restriction in favour of those Indians who were born and had property in any colony, as well as of such near relations as they desired to take with them. Admirable work was done among these distressed persons by the Emigrants Friendly Service Committee which had been formed primarily to deal with the applications of repatriated Indians desirous of returning to Fiji. The Government of India gave discretion to this Committee to permit persons who could prove that they had been in Fiji to return there if they so desired. The local labour conditions stimulated the return of these unfortunate people by giving them assisted passages. The Legislative Assembly had made a grant of £1,000 for the maintenance of these labourers, unt.] such time as they were able to find work and settle down in India. The deputation from India left Fiji on the 3rd April, 1922, and submitted its report to the Government of India. It has not been published.

In February, 1929, Letters Patent under which the constitution of the Fiji Legislative Council was revised were issued. Provision was made, *inter alia*, for the election of three Indian members on a communal basis. On the 4th November, 1929, one of the Indian members moved a resolution recommending the adoption of a common electoral roll in place of the existing communal one. The resolution was supported by the three Indian members and opposed by the rest of the Council including the elected European and nominated Fijian members. As a protest against this vote, all three Indian members resigned their seats and, no Indian having subsequently offered himself for election, the seats remained unfilled throughout the life of the Council. A fresh election was held during 1932 and as a result two Indian constituencies have returned their representatives to the Council, but no candidate offered himself for election from the third constituency. It is understood that two subsequently elected members also withdrew from the Council owing to the decision of the Secretary of State for the Colonies that the introduction of a common electoral roll in Fiji is impracticable at present.

British Guiana.—The Indian population in this colony belong almost entirely to the labouring classes and their grievances are mainly economic. Towards the end of 1919, a deputation consisting of the Hon'ble Dr. J. J. Nunan, Attorney-General, and Mr. J. A. Luckhoo, a prominent Indian who was a member of the combined court, visited India to put forward a scheme for the colonisation of British Guiana by means of emigration from India. This was examined by a Committee of the Indian Legislature, which advised that a deputation be sent from India to investigate conditions on the spot. Owing to certain unforeseen circumstances it was not found possible to proceed with the proposal until 1922, when a deputation consisting of Messrs. Pillai, Keatinge and Tivary visited British Guiana. Mr. Keatinge was a former member of the Indian Civil Service who had retired from the post of Director of Agriculture, Bombay; Diwan Bahadur P. Kesava Pillai was an elected member of the Madras Legislative Council of which he was also Vice-President; and Mr. Tivary was a member of the Servants of India Society who had done considerable amount of Social Welfare Work among the Depressed Classes in the United Provinces. The two reports of the deputation were published on the 21st of January, 1924. Towards the end of the month a deputation from the Colony of British Guiana, consisting of Sir Joseph Nunan, Kt., and the Hon. Mr. J. C. Luckhoo, K.C., arrived in India for further discussions. The Standing Emigration Committee of the Indian Legislature eventually reported that while they would be inclined to view with favour the colonization scheme put forward by the deputation, they would, before making any definite recommendation, like the Government of India to depute an officer to British Guiana to report on certain matter. Kunwar Maharaj Singh, M.A., C.I.E., Bar-at-Law, was deputed for this purpose. He proceeded to that Colony in September 1925. His report was received on February 1st, 1926, and published. He made certain criticisms and suggestions and the whole matter was thus satisfactorily settled. The colonisation scheme has not yet come into operation as the Colonial Government are not in a position at present to afford the cost which it involves.

In March, 1928, following special inquiries by the Colonial Office, reports appeared in the press that a bill had been introduced in the House of Commons empowering His Majesty's Government to alter the constitution of British Guiana by Order in Council. The changes eventually introduced by the British Guiana (Constitution), Order in Council 1928, did not involve any differentiation against Indians and did not in any way infringe the provisions of the special declaratory Ordinance which was passed by the Colonial Government in 1923 and which confers equality of status on all persons of East Indian race resident in the Colony.

(4) **Other Parts of the Empire.**—In Ceylon, Mauritius, and Malaya, the position of Indians has on the whole been satisfactory, and the matters have gone smoothly. The Government of India maintain their own Agents in Ceylon and Malaya. The

question of the fixation of a standard minimum wage for Indian Estate labourers in Ceylon and Malaya has been the subject of negotiations between the Govt. of India and the Colonial Governments ever since the emigration of Indian labour to the Colonies for the purpose of unskilled work was declared lawful in 1923 under the provisions of the Indian Emigration Act, 1922. So far as Ceylon is concerned a settlement satisfactory to the Govt. of India and that of Ceylon has been arrived at, *i.e.*, the standard wage and other outstanding questions affecting the interests of the labourers and the draft legislation to give effect to it was passed by the Ceylon Legislative Council in December 1927 as "Indian Labour Ordinance No. 27 of 1927." The Standard Rates of Wages agreed upon were introduced with effect from the 1st January 1929. In 1931, however, it was decided with the concurrence of the Government of India to reduce these wages by 5 cents for men, 4 cents for women and 3 cents for children by way of readjustment owing to the price of rice issued from estates being fixed at Rs. 4.80 instead of Rs. 6.40 per bushel. In regard to Malaya, Standard Wage Rates which are considered suitable by both the Indian and Malayan Governments have been introduced in certain areas. The rates so fixed were, however, reduced by 20 per cent. with effect from the 5th October 1930 owing to acute depression in the rubber trade. The questions affected by these details have recently received much attention by the Indian and Malay Authorities. The world-wide economic depression has also had repercussions on Indian labourers employed on tea and rubber estates in Ceylon. Wages have had to be reduced, but the Government of India have, with the co-operation of the Colonial Government, successfully prevented such reduction from materially affecting the labourers' standard of living. For those who are unwilling to work on reduced wages facilities for repatriation to their homes in India have been secured. The position in both the countries is being watched by the Government of India, through their Agents.

In April 1924, the Government of Mauritius requested that emigration to the Colony might be continued for a further period of one year, but the Government of India in consultation with the Standing Committee on Emigration decided that consideration of the request should await the results of a local investigation. The Government of Mauritius agreed to receive an Officer for the purpose and to give him all facilities; and in December, 1924, an Indian Officer of Government, Kunwar Maharaj Singh, left India to conduct the necessary inquiry.

Kunwar (now Sir) Maharaj Singh's report was published by the Government of India in August 1925. The various recommendations made in the report were commended to the consideration of the Colonial Government.

In February, 1926, the Government of India received a reply from the Colonial Government stating that they accepted the main conclusion formulated by Kunwar Maharaj Singh in regard to the renewal of emigration to Mauritius, *viz.*, that no more unskilled Indian labour should be sent to Mauritius either in the immediate or near future. With regard to Kunwar Maharaj Singh's suggestions relating to other matters of interest to the Indian population now resident in the Island, the Colonial Government expressed their willingness to give effect to several of them.

The present position of Indians in the Dominions is that under the Canadian Dominion Election Act, Indians domiciled in Canada enjoy the federal franchise in eight out of the nine provinces. In New Zealand, Indians enjoy the franchise on the same footing as all other British subjects. In Australia, sub-section (5) of section 39 of the Commonwealth Electoral Act, 1918-24, was amended in 1925, by adding after the word "Asia" the words, "except British India." This measure gives the Commonwealth franchise to subjects of British India at present domiciled in Australia and is the fruition of the hopes held out by the Commonwealth Government to Mr. Sastri on the occasion of his visit to Australia in 1922. As a result of the representations made in London in 1930 informally by the late Sir Muhammad Shafi at the instance of the Government of India to the Prime Minister of Australia, the electoral law of Queensland has also been revised to enfranchise the British Indians resident in that State. It is, therefore, in Western Australia alone that Indians do not enjoy the suffrage in respect of election for the Lower House. By Acts which have recently been passed by the Commonwealth Parliament, British Indians in Australia have been admitted to the benefits of Invalid and Old Age Pensions and Maternity allowances from which they were hitherto excluded as Asiatics. Old Age Pension is payable to men above 65 years of age, or above 60 years, provided such persons are of good character and have resided continuously for at least 20 years. An Invalid Pension is obtainable by persons, who, being above 16 years of age and not in receipt of an Old Age Pension, have whilst in Australia, become permanently incapacitated for work by reason of an accident or by reason of being an invalid or blind, provided they have resided continuously in Australia for at least five years.

Maternity allowance to the amount of £5 is given to a woman of every child to which she gives birth in Australia, provided the child is born alive and the woman is an inhabitant on the Commonwealth or intends to settle there. This Legislation removes the last grievance of the Indian community in Australia which was remediable by the Federal Government.

Indians in Great Britain.

Some seventy years have gone by since the Parsee community, in the persons of the late Dadabhai Naoroji and other members of the firm of Cama & Co., led the way in the sojourn of Indians in England for business purposes. This lead it has since maintained, though there are both Hindu and Mahommedan business men firmly established there. Nor are the professions unrepresented, for there are in London and elsewhere practising barristers, solicitors and medical men of Indian birth. The number of the latter, especially Parsees, is considerable. Three Indians (all belonging to the Parsee community) have sat in the House of Commons. Since 1910 four Indians—the late Mr. Ameer Ali, the first Lord Sinha, the late Sir Binode Mitter and Sir Dinsha Mulla—have served on the Judicial Committee of the Privy Council. Three Indians are on the Secretary of State's Council. In 1919, the late Lord Sinha was the first Indian to be raised to the peerage and to be appointed a member of the Home Government. In the spring of 1923 Mr. (now Sir) Dadiba Dalal was appointed High Commissioner for India being the first Indian to hold the office. He resigned towards the end of 1924 to be succeeded by Sir Atul Chatterjee, who in 1931 was followed by Sir B. N. Mitra. The early years of the present century saw the gathering of a new Indian element in permanent residence—that of retired officials and business men, or people of independent means who from preference or in order to have their children educated in England, leave the land of their birth and seldom if ever visit it again. Further the stream of Indian summer visitors includes wealthy people who come regularly.

Sectionally, the only Indian community to be fully organised is that of the Parsis. They have an incorporated and well-endowed Parsi Association of Europe. Its central Zoroastrian House, 11, Russell Road, West Kensington, opened in 1929, includes a room devoted to ritual and ceremonial purposes, a reading room and library, and rooms for social intercourse. The Arya Bhavan, a home for orthodox Hindus visiting London, was opened at 30, Belsize Park, Hampstead, in the summer of 1928. Indian business interests have been organised by the formation of the Indian Chamber of Commerce in Great Britain, with offices at 85, Gracechurch Street, E. C. 3. The East India Association (3 Victoria Street S. W. 1.) established in 1867, provides a non-partisan platform for the discussion of Indian problems, and exists "to promote the welfare of the inhabitants of India." The India League (146, Strand, W. C.) under the chairmanship of Mr. Bertrand Russell exists "to support the claim of India for Swaraj (Self-Rule)". At the other end of the scale in Indian political controversy is the Indian Empire Society 128, Alfred Place, South Kensington S. W. 7, with Lord Sumner as President and Field-Marshal Sir Claud Jacob as Chairman of the Executive Committee.

India House.

In March, 1930, the office of the High Commissioner for India was transferred from the inadequate premises in Grosvenor Gardens to the new India House in Aldwych, erected and furnished at a cost of £324,000. The design of this noble building, which has a frontage of about 130 ft. opposite the Waldorf Hotel, was the work of Sir Herbert Baker, A.R.A., with Dr. Oscar Faber as consulting engineer. Although expression of the Indian character of the building is mainly found in the interior, the architect has given to the details of the external elevation, by means of carving, heraldry and symbolism an individuality that proclaims it the London house of India. Including basement and mezzanine floors, there are twelve floors in all, the available space for clerical work alone being between 50,000 and 60,000 ft. The total height from the lower level in the courtyard on the Strand side to the roof is about 100 ft.

On the ground floor there is a great hall for exhibits of the products and art wares of India. This hall is carried up two floors, the upper floor being represented by a wide gallery, and on either side of the exhibition hall there are recesses after the style of an Indian bazaar for special exhibits. From the octagonal entrance hall a great public staircase leads to a gallery round the octagonal hall on the first floor. This gallery in its turn leads to a high vaulted library and reception rooms, and the central portion of the library provides accommodation for large receptions on special occasions.

The staircase, exhibition hall, octagonal hall and library markedly express the Indian character of the building. The walls of the staircase and the halls are of red stone similar in appearance to the Agra and Delhi sandstone, carved and pierced in the geometrical patterns of the *jali* in Indian architecture. Such of the carving as could be completely separated from the structure was actually worked at New Delhi by Indian workmen from Makara marble. The use throughout of Indian hardwoods, chiefly gurgan, for flooring obviates the need for any floor covering. From basement to roof scarcely any wood of non-Indian origin was employed. For panelling and decorative purposes in all parts of the great building silver gray, koko, laurel and the beautiful dark red padouk have been used. The domes and vaults of the building have been embellished by mural

paintings, the work of specially selected Indian artists. The water supply is entirely independent of municipal service, being obtained from two artesian wells sunk some 460 ft. below the basement, where the central heating apparatus is installed.

The Indian Trade Commissioner and his staff are at India House, with all other departments of the Office of the High Commissioner excepting the Stores Department which is at the depot off the Thames at Belvedere Road, Lambeth.

The Students.

Under normal conditions it is the student community which constitutes the greatly preponderating Indian element and creates a constant problem. Its numbers multiplied ten or twelve fold in the quarter of a century before the war. After a very considerable temporary check caused by the Great War the number rapidly expanded from 1919 in spite of pressure on college accommodation. In addition to the ordinary graduate or under-graduate student, there are some youths of good family, including heirs of Indian States, admitted into our public schools, such as Eton and Harrow. There are some 500 Indians at the Inns of Court. Since the war there has been a welcome increase in the number of technical and industrial students. Altogether including technical and medical students, there are fully 2,000 young Indians (some five per cent. of them women) in London, Edinburgh, Cambridge, Oxford, Glasgow, Manchester, Birmingham, Leeds, Sheffield, Liverpool and a few other centres. London absorbs about half the total.

The Advisers.

It is well known that for many years ago Indian students were left to their own devices apart from inadequately supported unofficial effort and the chance of coming under the influence of English friends of their families. But in April 1909 Lord Morley, created for their benefit a Bureau of Information and appointed the late Sir Thomas Arnold to the charge of it under the title of Educational Adviser. The Bureau was located at 21, Cromwell Road, together with the National Indian Association and the Northbrook Society, which were thus given spacious quarter for their social work among the young men. In India the provincial advisory committees to help and advise intending students have been replaced in some instances by University Committees. The work of the Bureau rapidly expanded, and in consequence Lord Crew in 1912 re-organised the arrangement under the general charge of a Secretary for Indian students, Mr. (now Sir) C. E. Mallet who resigned at the close of 1916. He was succeeded by Dr. Arnold under the designation of Educational Adviser for Indian Students to the Secretary of State. Mr. N. C. Sen followed Sir T. Arnold as Local Adviser in London. At Oxford the Oriental Delegacy, and at Cambridge the Inter-Collegiate Committee have been instituted to deal with Oriental students generally; whilst Local Advisers for Indian students have been appointed at Manchester, Edinburgh and Glasgow.

These arrangements underwent far-reaching revision in the autumn of 1920 in connection with the setting up, under the Act of the previous year of a High Commissionership for India in the United Kingdom. The "agency work" Sir William Meyer took over from the Secretary of State included that connected with Indian students. Sir Thomas Arnold accepted an appointment long pressed upon him as Professor of Arabic at the School of Oriental Studies, and the High Commissioner appointed Mr. N. C. Sen and Dr. Thomas Quayle as Joint Secretaries for the Education Department. The administrative work hitherto divided between the India Office and 21, Cromwell Road, was consolidated at the offices of the High Commissioner, thereby obviating a good deal of duplication of files and papers. Dr. Quayle is now Secretary in the Education Department of the Office of the High Commissioner and is assisted by Messrs. P. K. Dutt, R. M. J. Knaster and V. I. Gaster with Miss C. H. Bose to look after women students.

The whole situation was investigated by a committee of inquiry which sat in 1921 under the chairmanship of Lord Lytton. Arrangements had been made for the Committee to continue their investigations in India in the cold weather of 1921-22, but were abandoned in consequence of the refusal of the Legislative Assembly to vote the necessary grant. This largely accounts for the somewhat tentative form of the recommendations of the unanimous report published in October 1922. The opinion was expressed that the only permanent solution of the problem is to be found in the development of education in India. Attention was invited to the diminution of the number of Indian students proceeding abroad that would result from giving effect to recommendations made for such development by previous commissions, and by the establishment of an Indian Bar. The Committee held that it should be possible to secure admission both to British universities and, subject to certain reservations, to the works of manufacturing firms in Great Britain for all Indian students competent to profit by the facilities afforded, provided that some machinery existed to ensure their distribution to the places best suited to their requirements. Subsequently a committee presided over by Sir Edward Chamier recommended the creation of Indian Bars, which should have the effect of much reducing the number of Indians going to the Inns of Court. An Act for the purpose was passed by the Indian Legislature in 1926, but has not narrowed the stream of students at the Inns-of-Court.

The students have hosts of non-official friends and helpers and the report suggested that there should be a conference of representatives of all organisations interested in the social and intellectual welfare of young Indians in Great Britain to discuss the best means for co-ordinating their efforts. Accordingly Sir Atul Chatterjee held a conference in July 1925, when plans were formulated to help to meet the needs of students more particularly in respect to suitable boarding accommodation in London: The subject had been previously discussed at a meeting of the East India Association (April 27,

1925) when a paper was read by Mr. F. H. Brown. The conference came to the conclusion that, since non-official effort admittedly does not meet the need fully the hostel and club at 21, Cromwell-Road, should be maintained, more particularly to provide accommodation for new comers. A small committee with Mr. A. D. Bonarjee (Warden of 21, Cromwell-Road) as Secretary was established to assist students in obtaining suitable accommodation. The increasing number of students coming from Indian States raises the question whether the time has not come for provision to be made for them on lines similar to those adopted by the Education Department of the Office of the High Commissioner. The Mysore State opened in 1929 an agency office at Grand Buildings, Trafalgar Square, and appointed a permanent Trade Commissioner.

Under the presidency of Lord Hawke an Indian Gymkhana Club in 1921 acquired its own sports ground at Osterley, the total cost of purchase and equipment being estimated at £15,000. Generous gifts were made by some Ruling Princes and others, particularly the Maharaja of Patiala, but further help is required. The cricket eleven of the Club has an excellent record in matches at Lords and the Oval and with suburban clubs.

A notable development of 1920 was the opening of the "Red Triangle" Shakespeare Hut in Bloomsbury, off Gower Street, as a union and hostel for Indian and Ceylonese students up to the number of 500. The hostel was removed to permanent premises 106–112, Gower-Street, close to University College in the autumn of 1923. It is Indian both in conception and control, the warden and committee being responsible not to the National Council of Y. M. C. A. in London but to the Indian National Council in Calcutta. While the organization has a definitely moral and spiritual, as well as a social purpose, it is not a proselytising agency. There is a steady average of some 550 members, and the hostel is exceptionally fortunate in securing the voluntary services of men and women of great distinction in many fields for the regular Sunday afternoon and other lectures. The Indian Students Central Association had a Club house and restraurant at 2 Beauford-Gardens, S.W.3, but has ceased to exist: a fate which overtakes many short-lived organisation in relation to India.

There has been some recent development in the matter of periodical literature devoted to India. The weekly *Near East and India* is well known; the fortnightly *Indian Review* is the organ of the India League and the monthly *Indian Empire Review* that of the Indian Empire Society.

SOCIETIES AND INSTITUTIONS IN LONDON CONNECTED WITH INDIA

BRITISH INDIAN UNION.—Promotes friendship and understanding between the two races. 52, High Holborn, W. C. I. *Hon. Secretary:* R. S. Nehra.

CENTRAL HINDU SOCIETY OF GREAT BRITAIN.—Founded to give exposition to Hindu philosophy and culture, to provide for better mutual understanding between Hindus and the British public, and to further the social, economic and political interests of the Hindus in general. *President:* R. S. Nehra. *Sec:* Dr. M. L. Kalra, 188, Lambeth Walk, S. E. 11.

CHIEF PUNJAB ASSOCIATION.—Founded 1925 to achieve for India a position of honour in the British Commonwealth of Nations; to promote better understanding between India and Great Britain; to bring about unity between the sister Communities of India; and to raise the standard of living of the people of India. *President:* Sirdar Hardit Singh. *Secretary:* M. H. Rashid, 445, Strand, W. C. 2.

EAST INDIA ASSOCIATION.—Its object is to promote, by all legitimate means, the welfare of the inhabitants of India generally. The objects and policy of the Association are promoted—(1) by providing opportunities for the free public discussion, in a loyal and temperate spirit, of important questions affecting India; (2) by promoting friendly social contact between Indians and English men interested in India; (3) by lectures and the publication of papers or leaflets correcting erroneous or misleading statements about India and its administration; and (4) generally by the promulgation of sound and trustworthy information regarding the many weighty problems which confront the Administrations in India, so that the public may be able to obtain in a cheap and popular form a correct knowledge of Indian affairs. *President:* Lord Lamington. *Hon. Secretary:* F. H. Brown, C.I.E., 3, Victoria Street, S.W. 1.

INDIA DEFENCE LEAGUE.—Formed to oppose the proposals of H. M. Government for Indian Constitutional Reform in King's Court, 48, Broadway, S. W. 1. The White Paper issued in March, 1933. *President:* Viscount Summer. *Secretary:* Mt. P. W. Donner, M.P.

INDIA SOCIETY.—The study of the arts and letters of India, 3, Victoria Street, S.W. 1. *President:* the Marquis of Zetland. *Hon. Secretary:* F. J. P. Richter, M.A.

INDIAN STUDENTS UNION AND HOSTEL.—112, Gower Street, W. C. 1. *Chairman:* Sir Ewart Greaves. *Warden:* A. S. Iman.

INDIA LEAGUE.—(Formerly Commonwealth of India League) to support the claim of India for Swaraj (Self-Rule). 146, Strand, W. C. 2. *Chairman:* Bertrand Russell.

INDO-BRITISH MUTUAL WELFARE LEAGUE.—*Joint Hon. Secretaries:* Mrs. Hannah Sen and Mrs. C. Hegler (53, Elsworthy Road, N.W. 3.)

INDIAN GYMKHANA CLUB.—Thornbury Avenue, Osterley. To promote the physical well-being of Indian students. *Secretary:* Captain W. R. B. Berry, 10, King's Bench Wall Temple, E.C. 4.

NATIONAL INDIAN ASSOCIATION.—Chief aims to promote the welfare of students. 21, Cromwell Road, S.W. 7. *Secretary:* Miss Dove.

NORTHBROOK SOCIETY.—Makes grants to deserving Indian students. 21, Cromwell Road, S.W. 7. *Hon. Secretary:* E. Oliver.

ROYAL ASIATIC SOCIETY.—Research in the history and antiquities of Asia. 74, Grosvenor Street, W. 1. *Secretary:* Col. D. M. F. Hoysted, C.B.E., D.S.O.

ROYAL CENTRAL ASIAN SOCIETY.—*President:* Lord Allenby. *Chairman of Council:* Lord Loyd. *Secretary:* Miss M. N. Kennedy, 77, Grosvenor Street, London, W.I.

ROYAL EMPIRE SOCIETY.—Formerly Royal Colonial Institute. Northumberland Avenue, W.C. 2. *Secretary:* George Pilcher.

ROYAL SOCIETY OF ARTS has an Indian section before which lectures are delivered on industrial, historical and commercial questions. 18, John Street, Adelphi, W.C. 2. *Secretary:* G. K. Menzies, C.M.G., M.A. *Secretary, Indian Section:* W. Perry.

ROYAL INSTITUTE OF INTERNATIONAL AFFAIRS, Chatham House, 10, St. James' Square, S.W. 1. *Secretary:* Ivison S. Macadam, O.B.E.

PARSEE ASSOCIATION OF EUROPE.—Zoroastrian House, 11, Russell Road, Olympia, W. 14.

SOCIETY FOR PROMOTING THE STUDY OF RELIGIONS.—*President:* The Marquis of Zetland. *Chairman of Council:* Sir Denison Ross. *Hon. Secretary:* Miss M. M. Sharples (17, Bedford Square, W. C. 1.)

STUDENT CHRISTIAN MOVEMENT OF GREAT BRITAIN AND IRELAND.—*Secretary:* R. C. Mackie, Annandale, North End Road, Golders Green, N. W. 11.

UNION OF BRITAIN AND INDIA.—Formed to support the proposals of H. M. Government for Indian Constitutional Reform. 15, Caxton House (East), Tothill Street, S.W. 1. *Chairman of Council:* Sir John Thompson, *President:* Viscount Goschen. *Secretary:* Owne Tweedy.

VICTORIA LEAGUE.—81, Cromwell Road, S.W. 7. *Secretary:* Miss Gertrude Drayton, C.B.E.

WOMEN'S INDIAN ASSOCIATION London Committee. 53, Elsworthy Road, N.W. 3. *Joint Hon. Secretaries:* Miss Avabai Mehta and Mrs. C. Haegler.

Sport.

The year under review marked a big advance by India in the field of sport. No less than five international teams were entertained by India and cricket history was made by the visit of the first official M. C. C. team of cricketers and the playing of the first Test match on Indian soil. Indian cricket was paid a big tribute by the M. C. C., in that they sent out, as captain of their side, Mr. D. R. Jardine, one of the greatest skippers who ever led an England eleven, and a man who was born in India. The men Mr. Jardine led were thoroughly representative of English cricket, even if some of the big names were absent, and it was not surprising that India failed to win a Test. She did manage to share the honours in the second game at Calcutta but was fairly and squarely beaten in the other two. To Amarnath, a young all-rounder from the Punjab, fell the honour of making the first century for India in Test cricket and there were scenes of great enthusiasm on the Bombay ground when he reached three figures. India showed that she has cricketers well up to Test match standard.

The year also saw the birth of the Cricket Club of India, from which great hopes are entertained for the future, and the bringing forward of a scheme for a cricket championship of India. The visit of the M. C. C. overshadowed all other cricket and once again the Bombay Quadrangular tournament was held in abeyance.

The inauguration of the Western Asiatic Games, which were held at Delhi and Patiala, is another achievement which goes to the credit of India. Four countries, Afghanistan, Palestine, Ceylon and India participated and some new records were set up during the games, which were organised on Olympic lines and which were attended by H. E. The Viceroy. Some excellent sport was witnessed at these games, which served to emphasise the urgent need of a properly equipped Stadium for the country, especially a good cinder track.

For the first time in the history of hockey India entertained a foreign hockey team, Afghanistan sending a side which played in several centres, but which was beaten by India in the Western Asiatic Games. This was also the first time Afghanistan had entered the field of international sport.

A foreign tennis team also visited India, a team from West Australia, which India proved good enough to beat. Their visit, however, stimulated interest in tennis which is rapidly making progress. Bombay was also fortunate in being able to see F. J. Perry, the famous English player, for a few hours and E. V. Bobb, the Indian champion, took a set off him.

India is rapidly becoming more sport minded and sport in all its branches is becoming a part of the life of the people. Hockey, perhaps, claims the most players, then comes cricket and tennis and more and more are becoming enthusiasts of one or the other, sometimes all three, of these games. Football is played during the Monsoon and this game is growing, the Indian, in Bengal especially, being a very keen soccer enthusiast, while in Bombay, Madras and the Punjab the game is flourishing. It is governed in Bengal by the Indian Football Association in Western India by the Western India Football Association and in the Punjab by the Northern India Football Association. The chief tournaments are the Indian Football Association Shield played in Calcutta, the Rovers Cup played in Bombay and the Durand Cup played in Simla.

Boxing is another sport which has made progress, though the professional side of the sport appears to have practically died out. There are strong amateur boxing associations in Bombay and Calcutta and the Army organise tournaments frequently all over the country.

Athletics suffer because of the entire absence of tracks in any part of the country. There is a dearth of coaches and very little encouragement for the athlete to keep in training as athletic meetings are comparatively few.

The Turf is the one section which has little to worry about. India possesses some of the finest race courses in the world and at Bombay, Calcutta and Madras, which are the three chief centres enormous crowds attend every meeting. Increased encouragement is being given to Indian bred horses, the best stallions and brood mares are imported, and the sport occupies a high place in the recreations of the people. His Excellency The Viceroy has patronised the turf by entering horses at various meetings and some good races have fallen to him. The Indian Princes support to the turf is well known and the Turf Clubs are flourishing.

Polo has been a favourite game in India for centuries and the Jaipur team earned high praise in Europe. The sport, which had been languishing in Western India, received a big filip by the decision of the Western India Turf Club to organise tournaments.

Golf, Rugby Football, and Yachting are the games of the few, though practically every station has its golf course.

A summary of the chief sporting events of the year appears in the following pages.

Racing.

Bangalore.

Madras Cup. Distance 6 furlongs.—
Mr. Annamalai Chettiar's Good Biz (9st. 6lbs.), Dillon 1
Mr. Md. Oomer's Golden Yew (9st. 4lbs.), O'Neale 2
Haji Sir Ismail Sait's Old Buckenham (8st. 11lbs.), Forsyth 3
Mr. Annamalai Chettiar's Hill Flower (9st.), Evans 4
Won by ½ length, 1½ lengths, ¾ length.
Time.—1 min. 16 1-5 secs.

Bobbili Cup (Div. II). Distance 1 mile.—
Mr. S. Hussain's Polish Pride (8st. 7lbs.), Flynn 1
Mr. J. C. Galstaun's Harmonique (7st. 8lbs.), Mendoza 2
Mr. K. Temmolji's Sky Hawk (7st. 7lbs.), McCarthy 3
Mr. K. Viswanath's Abelard (7st. 6lbs.), Alford 4
Won by 2 lengths, ½ length, short head.
Time.—1 min. 42 1-5 secs.

Bobbili Cup (Div. I). Distance 1 mile.—
Mrs. Apcar and Mr. Esson's Snoops (7st. 13lbs.), Bond 1
Mrs. Watchorn and Mr. Murphy's Bonne Tete (9st. 11b.), Dillon 2
Mr. Gem's Essexbrook (8st. 10lbs.), Obaid. 3
H. H. the Maharaja of Mysore's Alcor (8st. 4lbs.), Hoyt 4
Won by 3 lengths, neck, 1¼ lengths.
Time.—1 min. 41 1-5 secs.

The R. C. T. Cup. C. Distance 1 mile, 3 furlongs.—
Mrs. Goldsmith's Jorrocks (7st. 12lbs.), Dillon 1
Mr. M. R. Patel's Frost (8st. 12lbs.), Hoyt. 2
The Countess of Shannon's Corn Flake (8st 8lbs.), Forsyth 3
Mr. T. A. Williamson's Naypan (7st. 12lbs.), Mendonza 4
Won by 4 lengths, neck, 1½ lengths.
Time.—2 mins. 24 1-5 secs.

The Maharaja of Mysore Gold Cup. Distance 1 mile, 3 furlongs.—
Mrs. John Yorke's Trelawne (8st. 13lbs.), Cooper 1
Mrs. Clarke's Ramah (8st. 10lbs.), Southey. 2
Mr. Gem's Essesbrook (8st. 11lbs.), Obaid. 3
Mr. V. L. Govindraj's Helen's Glory (7st. 3lbs.), Black 4
Won by a short head, 1½ lengths, 2 lengths.
Time.—2 mins. 22 1-5 secs.

Stewards Cup. Distance 1 mile, 3 furlongs.—
Mr. H. Kadum's Waivera (8st. 11b.), Obaid. 1
Mr. S. A. Annamalai Chettiar's Brutus (9st. 13lbs.), Forsyth 2
Mrs. Lalitamba's Chanticleer (10st. 7lbs.), Hoyt 3
Lt.-Col. Murray's Telephone (7st.), McCarthy 4
Won by 1½ lengths, a neck, 2½ lengths.
Time.—2 mins. 7 2-5 secs.

Apollo Cup. Distance 1 mile, 3 furlongs.—
Haji Raj Mahomed's Tara (7st. 6lbs.), H. McQuade 1
The Chief of Miraj's Jalal (7st. 13lbs.), Cooper 2
Messrs. H. Jamoor and Diamond's Broker (7st. 8lbs.), Alford 3
Mr. A. M. Khairaz's Fiery Face (8st. 4lbs.), Selby 4
Won by 1 length, ½ length, 1½ lengths.
Time.—2 mins. 38 secs.

Bangalore Cup (Div. II). Distance 6 furlongs.—
Capt. Goldsmith's Indiscreet (7st. 13lbs.), O'Neale 1
H. H. the Maharajah of Mysore's Lignan (9st.), Burgess 2
Mr. Ali Askar's Pamela Mary (8st. 4lbs.), Meekings 3
Mr. P. C. Barna's Tom Fair (9st. 8lbs.), Bond 4
Won by 1 length, 1¼ lengths, 1½ lengths.
Time.—1 min. 14 3-5 secs.

Bangalore Cup (Div. I). Distance 6 furlongs.—
Mrs. Goldsmith's Insult (8st. 12lbs.), Hill 1
Mr. A. Rozario's Camille (8st. 12lbs.) Clarke. 2
Mrs. Apcar's Snoops (9st.), Bond 3
H. H. the Maharaja of Venkatgiri's Queen of Mars (7st. 10lbs.), Setty 4
Won by 1¼ lengths, a neck, a head.
Time.—1 min. 15 secs.

The Yuvaraja of Mysore's Cup. Distance 1 mile, 3 furlongs.—
Mr. Mahmood's Burzan (7st. 10lbs.), McCarthy 1

WHO'S WHO

AMONG

INDIAN PRINCES CHIEFS

AND

NOBLES

1934-35

SHRIMANT VIJAYASINHRAO FATTESINHRAO RAJE BHOSLE, Raje Saheb of Akalkot.

Born: 1915.

Is a minor, 18 years old.

Passed the Diploma Examination of the Rajkumar College, Rajkot, and attended for some time the Deccan College, Poona, and is at present receiving general education.

Area of State: 498 square miles.

Population: 92,605.

Capital Town: Akalkot (Sholapur District).

The State for the purposes of administration is divided into a Taluka—Akalkot—and two Pethas—Piliv and Kurla. Owing to minority the State is at present administered by the Dowager Rani Saheb Tarabai as Regent with the help of a Government Adviser and exercises wide powers as Regent.

Judicial: An independent High Court Bench established in 1931.

Educational: Primary education free to backward and depressed classes and girls of all castes and creeds. Free secondary education to girls. Scholarships and freeships for secondary and higher education.

Local Self-Government: Municipality at Akalkot and Taluka District Local Board.

General: A New Water Works Scheme costing 8 lakhs, a new Girls' School costing Rs. 30,000 and many other improvements are in hand. State's Reserve Balance Rs. 17,52,090 earmarked for programmes of public works and needs of the Raje Saheb's family.

Government Adviser: RAO BAHADUR A. N. PRADHAN, B.A. He is also on the High Court Bench.

Dewan: MR. V. B. PARULEKAR, B.A. He is also the District and Sessions Judge.

Chief Police Officer: RAO BAHADUR S. R. JAGDALE.

THAKORE SHREE KESHRISINHJI the present Thakore Saheb of Ambaliara is aged about 47 years and completed the Silver Jubilee of his reign in the month of May 1933. The rulers of Ambaliara State are Chowhan Rajputs, tracing their direct descent from Rajputs of Sambhar or Ajmer.

The State was acquired by the valour of the ancestors of the present Chief, during the reign of Aurangzeb (1658 to 1707) and they were famous for the heroic resistance they made more than once to the Gaikwar's troops. The State is entitled to receive tributes in the nature of Ghasdana and Giras Haks from various States as also from the British Treasury.

The State comprises of 36 villages covering an approximate area of 67 square miles, *Population :* nearly 11,000, *Revenue :* of Rs. 96,000.

The State possesses Civil Powers to decide suits upto Rs. 10,000, and Criminal Powers of giving imprisonment upto 2 years and fine upto Rs. 5,000.

Owing to recent changes, the State has been brought under the direct control of the Government of India along with the other Mahi Kantha States.

At present the Thakore Saheb has three sons, the eldest of whom Dada Saheb *alias* Sardarsinhji, is getting his educational training at the Scott College, Sadra.

Primary education is imparted free throughout the State and Medical Relief is also given free to the State people.

Chief Officers of the State :—

(1) K. S. TAKHATSINHJI JALAMSINHJI, *Chief Karbhari and Revenue Officer.*

(2) Mr. THAKORLAL C. DESAI, *Nyayadhish.*

(3) Mr. LAXMANSINH D. CHOWHAN, *Chief Medical Officer.*

SHRIMANT BHAVANRAO SHRINIWASRAO *alias* BALASAHEB PANT PRATINIDHI, the Ruler of Aundh, is a graduate of the Bombay University and a treaty Chief. His age is 65 and is married to Shrimati Saubhagyawati Ramabai Saheb *alias* Maisaheb from the Rode family of Poona.

Heir-Apparent: SHRIMANT BHAGWANTRAO *alias* BAPUSAHEB is 14 years of age.

Shrimant Pantsaheb is alive to the rapid progress going on in the civilized world. A Legislative Assembly was established in the State in 1924. Its strength consists of 39 members with a predominating popular element. The notable feature of the Assembly is that it includes two female members. The Assembly is competent to discuss any subject and pass resolutions without restrictions, while the Annual Budget is passed item by item.

By the Aundh State Act passed in 1931 a Darbar has been formed to run on the administration. It is a miniature executive council and consists of the Dewan of Aundh and the High Court Judge. An elected representative of the people is to be a member of the Darbar from 1935. He takes considerable interest in Rural Uplift and has been making vigorous efforts in that direction.

Shrimant Pantsaheb is a keen student of drawing and painting and has edited Picture Verul, Pictorial Ajanta, Pictorial Ramayana and life of Shivaji in three picture volumes. He also takes great interest in physical exercise and has written in English a book on the subject called "The Surya Namaskaras."

The State possesses an independent High Court. Most of the villages have got Village Panchayats.

MAJOR HIS HIGHNESS RUKUND-DAULA, NUSRAT-I-JANG MUKHLISUD-DAULA, HAFIZUL-MULK NAWAB SIR SADIQ MOHAMED KHAN SAHIB BAHADUR ABBASI V, F.C.I.E., K.C.S.I., K.C.V.O, Nawab Ruler of Bahawalpur.

The State has a Legislative Council of twenty members eight of whom are elected and an Executive Council of six officials with a President. It maintains its own paper currency and coinage, postal system, railways and army. It has a University with six Arts Colleges including one for women and Colleges for Engineering, Medicine, Law and Teaching. It has also an Honours College affiliated to Madras University, a College for Jagirdars and a College of Physical Education. There are also a Central Cottage Industries Institute, a Central Technical Institute and an Observatory. The State is of great historical and archæological interest, as within its limits, are situated many old capitals of ancient and medieval Deccan Kingdoms, famous forts, temples, mosques and shrines and the wonderful Buddhist sculptures and paintings of Ellora and Ajanta.

Capital: Hyderabad—Population 466,000. It is the fourth largest city in the Indian Empire. The city is beautifully situated on the banks of the river Musi, with fine public buildings, broad cemented roads, good electricity and water supply and an efficient bus service run by the State Railway. Among interesting places are the Char Minar, the Mecca Masjid, the fort and tombs of Golconda and the large artificial reservoirs—the Osmanan Sagar and the Himayat Sagar.

HIS HIGHNESS MAHARAJA DHIRAJ SHREE HIMMAT SINGHJI OF IDAR.—The Idar House was founded 200 years ago by two brothers of the Maharaja of Jodhpur. His Highness Maharaja Shree Himmat Singhji is the 10th of this illustrious line, and the grandson of the well known soldier and statesman, His Highness Maharaja Major General Sir Pratap Singhji Sahib of Jodhpur fame. Maharaja Himmat Singh succeeded to the Gadi on the sudden death of His Highness Maharaja Sir Dowlat Singh on the 14th April 1931.

Born: On 2nd September 1899.

Married: in the year 1908 to Shree Jawahar Kunwar Sahiba, the eldest daughter of Raja of Khandela in the Jaipur State.

His Highness received his education at the Mayo College, Ajmer, where he remained for 5½ years, leaving it after a brilliant career in 1916. He attained his diploma standing first in the list of candidates from all the Chief Colleges in India and was awarded His Excellency the Viceroy's medal. He won every class prize from the fifth to the diploma, five prizes for English and eleven others for various subjects. He won prizes in each division in succession for riding, and represented the College against the Aitchison College for 3 years at tent pegging, and also at tennis. For several years he was captain of one or other of the junior football or cricket elevens, and he was one of the best and keenest polo players in the college.

As will be seen, he upheld his family tradition as a horseman. From boyhood he was keen on hunting and pigsticking and before he had joined the College at the age of 10, he had accounted for many panther and bear to his own rifle. His Highness now keeps a racing stable and has had many successes. These active sports are not his only recreation for he has a good ear for music and is interested in painting and photography.

On leaving the college, His Highness Maharaja Shree Himmat Singhji took an active part in the State administration being appointed to His late Highness' Council, and later for several years was in charge of the administration under His late Highness' personal directions. He gained further practical experience from an extensive tour throughout India in 1929-30. He was therefore well qualified to take up his responsibilities as Ruler of His State when he ascended the Gadi of Idar. Since his accession in 1931, many schemes of improvement have been inaugurated which concern the social welfare of his subjects, their education, industries and agriculture. His Highness has embarked on an ambitious programme of reform and advancement which it is expected his experience and keen personal interest will enable him to carry through successfully.

His Highness has got two sons, Maharaja Kumars Shree Daljit Singhji and Amar Singhji, the eldest Maharaja Kumar Shree Daljit Singhji, the heir apparent, was born in 1917.

Salute: 15 Guns. *Area:* 1,669 sq. miles. *Revenue:* Rs. 21 Lacs.

JASDAN is the premier Kathi State and the Rulers are Saketiya Suryavanshi Khshtriyas, being descendants of Katha, the younger son of the Suryavanshi Maharaja, Karan Shruta, of Ayodhya.

The Kathis have, since their advent to this Province, effected a change in the name of the Province from Saurashtra to Kathiawad, and they are one of the most important and influential tribes on the westernmost coast of India.

Darbar Shree Ala Khachar is the present Ruler of Jasdan. He was born on 4th November 1905. He was educated at the Rajkumar College, Rajkot, and has passed the Diploma examination.

He succeeded to the Gadi in June, 1919, and assumed the reins of State administration on 1st December, 1924.

Heir : YUVRAJ SHREE SHIVRAJ aged three years.

Area of the State : 296 square miles including about 13 square miles of non-jurisdictional territory.

Population : 36,632 including non-jurisdictional territory.

Revenue : (gross) Rs. six lacs nearly.

All education is free throughout the State.

Medical relief at the Hospital, etc., is also supplied free.

Importation of liquor is prohibited.

Cultivators are granted permanent heritable tenure with rights of full ownership over their holdings and are protected against usury by special rules for settlement of money-lenders' claims.

Village Panchayats introduced in twenty villages with a non-official president.

Subordinate land-holders have recently been granted the unusual privilege of exemption from resorting to the Civil Court for adjudication of their *inter-se* disputes. These are now settled through the Arbitration Court presided over by the Nyayadhish.

LT. HIS HIGHNESS DHARMADIVAKAR MAHARAJADHIRAJ MAHARAJ RANA SHRI RAJENDRA SINGH JI Dev Bahadur of Jhalawar State.

Born : 15th July, 1900.

RANA SHRI CHHATRASALJI PARWATSINHJI of Kadana State, Rewa Kantha.

Born: 28th January, 1879.

Educated: At the Girassia School, Wadhwan, Kathiawar.

Kadana State was founded in the thirteenth century by Limdevji, the brother of the founder of the Sant State. It has never been conquered by or has paid tribute to any power, but has kept up its independence by the prowess and valour of its own Rulers. The Ruling Family are Puwar or Parmar Rajputs claiming to have descended from the illustrious family of Veer Vikramaditya and Raja Bhoj.

The present Chief takes a personal and keen interest in the administration of his State. For Administrative purposes the State is divided into four Mahals. The State lands have been surveyed and settlements fixed giving more facilities to the cultivators. At the time the Chief ascended the Gadi the State was in the fourth class, but on account of his administrative ability the State is now placed among Class III and the Chief enjoys as a mark of personal distinction full Civil and Criminal powers.

Tagavi-Loans are given to cultivators in cash or kind whenever necessary. Free medical relief is given to the people in the State Dispensary opened for the first time by the present Ruler. Electric lighting has been introduced in Kadana proper. The State maintains three vernacular schools at convenient centres where education is imparted at a very nominal cost. Needy students are given scholarships.

The Chief enjoys the right to elect a representative member to the Chamber of Princes and is entitled to be received and visited by the Governor of Bombay.

SHRIMATI SHARDULKUVERBA, the only daughter of the Ruler, is married to the *Heir-apparent* of Banswara State in Rajputana. The Chief has no son, but sanction to adopt if and when necessary has been obtained from Government. Rule of primogeniture prevails in the State.

Area: 132 sq. miles. *Population:* 17, 560.

Revenue: Rs. 1,12,000 (Approx.)

CHIEF OFFICERS.

Karbhari and First Class Magistrate: MR. MOTISINHJI JETHISINHJI RAVAL.

Rewa is the largest and the easternmost State in the Central India Agency. The State is bounded on the North by the Banda, Allahabad and Mirzapur Districts of the U. P., on the East by the Mirzapur District and the Feudatory State of Chhota Nagpur, on the South by the Central Provinces, and on the West by the States of Maihar, Nagod, Sohawal and Kothi. It is very rich in mineral resources.

The Administration of the State on the executive side is carried on by His Highness with the assistance of a State Council of 8 members of which His Highness is the President. On the Judicial side there is a Chief Court consisting of Judges. A Raj Parishad consisting of 39 members, with the number of officials and non-officials almost equal, has also been established to advise on such matters of public interest as are referred to it. His Highness takes keen interest in the development of trade and industries in the State and with that object has instituted a State Bank.

HIS HIGHNESS MUBARIZ-UD-DOWALA NASRUT-E-JUNG NAWAB SIDI MOHOMMED HAIDER MOHOMMED YAKUT KHAN BAHADUR I, Nawab of Sachin.

Born: 11th September 1909.

Succeeded: 19th November 1930.

Married: Her Highness Arjumand Bano Nawab Nasrut Zamani Nawab Begum, the eldest sister of the Nawab of Loharu, on 7th July 1930.

Educated: At home and later at the Rajkumar College, Rajkot.

Brothers: Captain Nawabzada Sidi Mohommed Suroor Khan Bahadur. Lieut. Nawabzada Sidi Mohommed Freeman Kaiser *alias* Salim Khan Bahadur.

Sachin is the Senior Habshi State in India. The Rulers of Sachin are Habshi Mohommedans, and are the lineal descendants of Nawab Sidi Abdul Karim Mohommed Yakut Khan I, the rightful and Senior claimant to the throne of Janjira, who was dispossessed of his inheritance by his younger brother. In 1733 a triple treaty was concluded between the Nawab of Sachin; the East India Company and the Peshwa, on the basis of a defensive and offensive alliance. The Ruler of Sachin is a member of the Narendra Mandal (Chamber of Princes) in his own right and enjoys full internal sovereignty.

Dumas: The Summer Capital of the Ruler, is a delightful sea resort 10 miles by motor road from Surat, also a pleasure resort during the summer for visitors from Bombay, Ahmedabad, etc., connected with grand trunk telephone and other modern conveniences. *Amusements:* Sea bathing, promenade, tennis, cricket, motoring, etc.

Sachin: Capital of the State and a pretty town on B. B. & C. I. Railway.

Chief Minister: VAZIR-E-AZAM ATMARAMRAO B. ACHREKAR, M.A., LL.B.

RAJA SHRIMANT YESHWANTRAO HINDURAO GHORPADE, MAMLAKATMADAR, SENAPATHI, Ruler of Sandur.

Born: 1908. Succeeded to the Throne in 1928. Assumed the reins of administration in 1930.

Married: On 22nd Dec. 1929 the eldest daughter of Umadat-Ul-Mulk, Raj Rajendra, Major Maloji Narsingh Rao Shitole, Deshmukh, Rustamjung Bahadur of Gwalior.

A son and heir was born to the Ruler on the 7th December 1931, who is named Shrimant Morar Rao Ghorpade after Raja Morar Rao Ghorpade the illustrious ancestor of the present Ruler. A second son was born to the Ruler on the 16th February 1933, and is named Rajkumar Ranjit Singh.

In 1923 the State was brought into direct political relations with the Government of India, in pursuance of Paragraph 310 of the Montford Report, to the effect that "all important States should be placed in direct political relations with the Government of India."

The State possesses sandalwood forests and rich manganese mines. Ramandrug Sanitarium (Altitude 3,200 feet) and Shri Karteekswami Temple are the places of interest.

All temples, wells and schools have been thrown open from 1932 to all Hindus irrespective of caste or creed. Education is imparted free in the State, up to the Matriculation standard.

The "Huzur Darbar" (Executive Council) was constituted on the 1st of April 1932. The Dewan, two Secretaries to Government and any number of extra members whom the Ruler may be pleased to nominate, form the "Huzur Darbar." The following are the Members of the "Huzur Darbar."

(*i*) Shrimant Sardar B. Y. Ghorpade.

(*ii*) Meherban G. T. Konnur, B.A.

(*iii*) Meherban V. Narasimharao, M.A.

(*iv*) Meherban B. V. Krishnan Kutty Menon, B.A., B.L.

To afford to the people an opportunity for expressing their wants and wishes to the Government and to enable them to learn first hand how their actions affect the people and to have the benefit of the suggestions of the latter regarding these measures, the Ruler was pleased to constitute a State Council in 1931.

LIEUTENANT HIS HIGHNESS MEHERBAN SRIMANT SIR CHINTAMANRAO DHUNDIRAO *alias* APPA SAHEB PATWARDHAN, K.C.I.E., Raja of Sangli.

Political Minister.

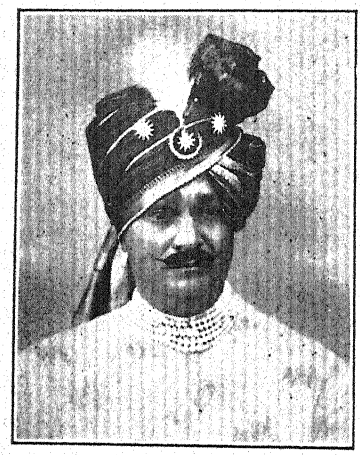
RAO SAHEB Y. A. THOMBARE, B.A.

3rd Councillor.

RAO BAHADUR G. V. PATWARDHAN, B.A., LL.B.

4th Councillor.

MR. Y. V. KOLHATKAR, B.A., LL.B.



THE Ruling Family in the Sant State belong to the Perwar or Parmar caste of Rajput and are believed to have descended from the celebrated family of Vik-amaditya and Raja Bhoj of Ujjain. They first came down from Dhar and settled at Jhalod and finally about the 13th Century at Sant. The founder of the family was Rana Sant who with his brother Limdev was forced to leave Jhalod and established himself at Sant.

Area : 394 square miles.

Population : 83,538 (1931).

Revenue : Rs. 5,21,877.

The present Ruler Maharana Shri Jorawarsinhji was born on 24th March 1881 and installed on the Gadi in 1896. He was formally invested with full powers on 10th May 1902. He was educated in the Rajkumar College, Rajkot, and was associated with the Government Administration of the State for more than a year preparatory to his being invested with full powers. He is an intelligent Prince who keenly supervises the administration of the State. During his regime many improvements have been made and the State is making good progress : The revenue of the State increased—Its lands have been surveyed and regular settlements introduced—Provision for English education made for the first time and Primary and Secondary education made free throughout the State—Election system sanctioned for Municipality—Free medical relief extended by opening new dispensaries in the district. Many other improvements have been introduced during his regime such as founding of a permanent Famine Relief Fund, granting of liberal tagavi loans to the agriculturists during the time of scarcity. Money is also advanced to the local merchants by way of encouragement at cheap rate of interest. Other improvements of utility such as installation of electricity in the towns of Sant and Rampur, clock tower, public gardens, metalled roads in parts have also been made. The regime of Maharana Shri Jorawarsinhji has been anything but a bed of roses. Famine and lean years had made the financial condition of the State far from satisfactory ; but wise management has been instrumental to keeping its head up.

The Rajaji exercises full powers and enjoys a dynastic salute of 9 guns. Primogeniture is the rule of succession to the Gadi and the Darbar's right of adoption has been recognised and confirmed by Government.

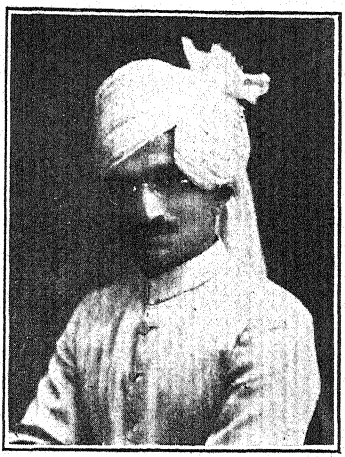
During the Great War the services of the Rajaji Saheb were appreciated by Government. The Government were also pleased to recognise the right of the Rajaji to be a member of the Chamber of Princes.

Heir-apparent : MAHARAJ KUMAR SHRI PRAVINSINHJI was born on 1st December 1907.

Educated in the Rajkumar College, Rajkot.

Married Maharaj Rajkumari, daughter of Maharaj Kumar Shri Vijayarajji, Heir-apparent, Cutch State, on 15th May 1928, at Bhuj.

MAJOR HIS HIGHNESS RAJE KHEM SAWANT BHONSLE BAHADUR, Raja of Sawantwadi.



Born: 20th August 1897.

Educated: At Malvern College in England and on completion of the course at Second Officers' Training Battalion stationed at Cambridge was granted an Honorary Commission in His Majesty's Army. His Highness served in Mesopotamia as a Second Lieutenant attached to the 116th Mahrattas for nearly 2 years during the Great War. In recognition of these services, His Highness was promoted in 1919 to the rank of Honorary Captain and has been permanently attached to the 116th Mahrattas now the 4/5th Mahratta L. I. His Highness was promoted to the rank of Major in 1933. His Highness is a member of the Chamber of Princes in his own right.

Succeeded to the Gadi: On 2nd June 1913 and assumed the reins of administration on 29th October 1924.

Married: Princess Laxmidevi, grand-daughter of His Highness Maharaja Sayajirao Gaikwad of Baroda in April 1922.

Chief Recreations: His Highness is a keen sportsman, Cricket and Tennis are his favourite games.

Heir-apparent: Shrimant Yuvaraj Shivram Sawant, aged 6 years.

Area of the State: 930 square miles. *Population:* 2,30,589.

Average Annual Revenue: Rs. 6,88,000. *Salute:* Permanent 9 guns: Local 11 guns.

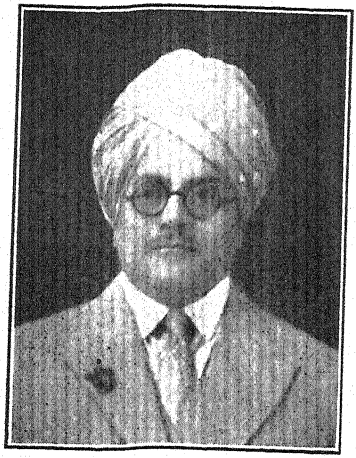
Political Relations: From 1st April 1933 this State has been brought into direct political relation with the Government of India through the Agent to the Governor-General in Kolhapur.

Constitution: His Highness exercises full control over the administration of the State through the Diwan, who is assisted by the Heads of Departments and is advised by a Legislative Committee. During the short period of his rule His Highness has given practical proof of his keen interest in every branch of administration and is striving hard to do anything that can be done for the welfare of his subjects. Medical relief is supplied free. A separate Anti-Malarial Department is run at an annual cost of about Rs. 10,000 for eradication of Malaria. The State spends annually about 10 per cent. of its revenue on Education.

Diwan: R. R. SHIRGAOKAR, B.A., LL.B.

General: Sawantwadi State is an ancient one and was the first State to enter into treaty with the British Government as far back as 1730 A.D. In 1784, the Moghul Emperor at Delhi recognised the sovereignty of the Ruler over the State by means of his Firman which granted to him and his successors the title of Raja and the insignia of royalty, namely, Morchal and the necessary Khilat. This title was subsequently recognised by the British Government.

During the Great War, Sawantwadi shared with the Ratnagiri District the honour of supplying the largest number of men in relation to its population in the whole of Bombay Presidency.



HIS HIGHNESS RAJA LAKSHMAN SEN BAHADUR the present Ruler of Suket is a Rajput of the Chanderbansi clan and it is traditionally asserted that the progenitors of the dynasty ruled in Inderprestha (Delhi) for over a thousand years.

Born : 15th August 1894.

Succeeded his brother Raja Sir Bhim Sen, K.C.I.E., who died on the 12th October 1919. The announcement of recognition and confirmation of his succession was made by the then Lieutenant Governor of the Panjab at an Installation Darbar held at Suket on the 30th March 1920, investing him with full Ruling Powers.

Educated : Aithchison Chiefs' College, Lahore. After finishing his education at the Chiefs' College, he was placed for special training under the Panjab Government. He had his judicial training under the Judges of the Chief Court, his treasury training under the Deputy Commissioner of Amritsar and Settlement Training under Mr. Middleton who was then conducting the settlement operations in the Kangra District.

Recreations : Shooting, Tennis, Cricket and Riding.

Heir-Apparent : SRI YUVRAJ LALIT SEN, born 21st April 1932.

Salute : HIS HIGHNESS THE RAJA SAHIB BAHADUR enjoys a permanent salute of 11 guns and is entitled to be received by His Excellency the Viceroy and Governor General of India.

Address : Suket State, Panjab, India.

Tel. Address : Sundarnagar.

Area of the State : 420 Square miles.

Population : 58,408. *Annual Revenue :* 2,73,000.

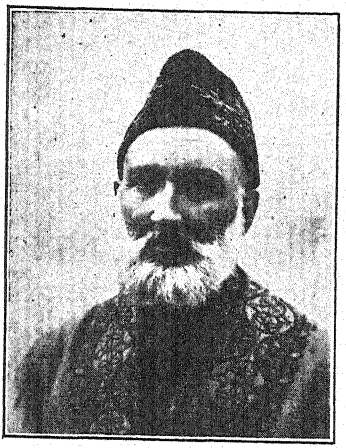
PRINCIPAL OFFICERS.

Acting Chief Secretary : PT. MANMOHAN KISHEN WALI, B.A., Bar-at-Law.

Acting Home Secretary : CH. ATMA RAM, M.A., LL.B.

Private Secretary : RAI SAHIB L. SIDHU RAM.

MIANGUL GULSHAHZADA SIR ABDUL WADOOD, K.B.E., Wali of Swat.



Born : 1885. Established his Government in 1916 and was formally recognised by the British Government in 1926 as Wali or Ruler of Swat.

Family history : Grandson of the famous Akhond of Swat and a religious leader. The family has great influence among most of the tribes of the trans-border including Afridis, etc., who look to the members as their spiritual leaders and hundreds come to pay homage.

State : It is only of recent creation and only due to the ability of the Ruler himself.

Area : is approximately 6,000 square miles.

Revenue : is 14 lacs and the population is mainly of agriculturists.

The State maintains a standing army of 11,000, including 500 cavalry.

The Ruler had had many difficulties in its creation and it is to his patience and endeavours that it came into existence. He is modern in his ideas and has an elaborate telephone system throughout his State, which includes Buner, Chamla, Khudokhel, Kana, Ghorband, Chakesar, etc. He is keen on roads and buildings and has a Hospital and an Anglo-Vernacular School at Saidu, the capital, besides 16 other Primary schools. It is a great achievement when compared to other contemporary trans-border states of much longer standing. He is busy with the internal reforms, social, economical and political.

Recreations : The valley is famous for pheasants, Chikor and ducks ; the chief recreation is shooting, motoring and hill climbing also give amusement.

The Ruler is greatly assisted in all matters by his eldest son Miangul Abdul Haq Jahanzeb, who was formally recognised by the Government as Wali-ahd in 1933.

Wazir : is the head of the Executive and responsible for all matters of the State. His younger brother is the head of the army or Sipah Salar.

HIS HIGHNESS SAID-UD-DAULAH WAZIR-UL-MULK NAWAB HAFIZ SIR MOHAMMED SAADAT ALI KHAN BAHADUR SOWLAT-I-JUNG, G.C.I.E. Nawab of Tonk State (Rajputana) is an Afghan of the Baner tribe known as Salarzie.

Educated in the Rajaram High School, and College, Kolhapur, Elphinstone College and Government Law School, Bombay and attended the High Court for practical training in Law.

Married in 1886, Shrimant Sakal Saubhagyawati Gangabai Maisaheb, daughter of late Mr. Mohaniraj Moreshwar Paranjpe, landlord and pleader, Ahmednagar. Adopted Venkatrao Raosaheb in 1919, who died in 1924. Visited Java in 1913. Made three trips to Europe. Went to Burma in 1927 and to Ceylon in 1930. Is the author of an observant book called "Impressions of British Life and Character." Has also translated some English books into Marathi. Has established a fund called the Ichalkaranji Education Endowment Fund for encouragement of foreign education.

Area of the Jahagir: 241 square miles of which $\frac{1}{6}$ consists of forest.

Population: 68,573. *Revenue:* Rs. 5,25,158.

Administration is conducted with the help of a Council of which Mr. J. L. Goheen, of the American Presbyterian Mission, Sangli, is the head.

MEHERBAN SHRIMANT DATTAJIRAO NARAYAN-RAO *alias* BALASAHEB GHATGE SARJERAO OF KAGAL JUNIOR.

Born : 1873.

Ascended the Gadi : 1898.

Educated at the Rajkumar College with His Highness the late Shri Shahu Chhatrapati Maharajasaheb of Kolhapur and at the Rajaram College, Kolhapur.

Married in 1895.

Heir : Shrimant Yeshvantrao Appasaheb Ghatge Sarjerao, educated in England with His Highness the Chhatrapati Maharajasaheb of Kolhapur and he has of late been conducting the Administration.

Area : 17.3 square miles.

Population : 6,787.

Revenue : Rs. 1,28,717.

The Family is related by matrimonial alliances to the Ruling Family of Kolhapur and those of Baroda, Savantwadi and Dhar. Besides, His Highness the late Chhatrapati Maharajasaheb of Kolhapur and the late Sarjerao of Kagal Senior are great-grandsons of the late Meherban Narayanraosaheb Ghatge, Sarjerao of Kagal Junior in the natural Family.

The Ghatge Family (of which Meherban Dattajirao *alias* Balasaheb Ghatge Sarjerao of Kagal Junior is the present head in the direct line of primogeniture), occupied a position of great distinction long before the rise of the Maratha Power. He is a mediatized Feudatory of the Kolhapur State enjoying the guarantee of the British Government as provided for by Article VIII of the Agreement of 1862 between the Kolhapur State and the British Government and exercises judicial powers as defined by that Article. He also exercises full Revenue and Administrative powers within his Jahagir. The Administration is conducted on the lines of the British Legislation.

SHRIMANT NARSOJIRAO *alias* BABASAHEB SHINDE. Senakhaskhel; Sena-Dhurandhur; Vishwasnidhi; Samust-shree-Dhurandhur of Torgal.

Founder of Dynasty: Narsojirao Shinde founded the Gadi of Torgal in 1679 A.D.

Born: 7th July 1910.

Educated: In Canada (U.S.A.); Kolhapur; Bangalore; Panchgani.

Travels: Canada; Japan; China; and Ceylon.

Married: In May 1931, the daughter of the late Jaghirdar of Kagal (Senior); uncle of the present H. H. The Maharaja of Kolhapur.

Succession: 3rd June 1932.

Heir: SHRIMANT SAMBHAJIRAO *alias* UDEYSINGH SHINDE.

Recreation: Shikar, Football, Cricket, Hockey.

Torgal is situated about 110 miles South-East of Kolhapur, in a particularly enchanting mountainous country. The river Malaprabha flows adjacent to Torgal town and it has imparted an indescribable grandeur to the seven walled Torgal Fort which dates from 154 A.D. and is one of the best fortified forts in the South of Deccan. The Jaghir consists of 34 villages.

The present Shrimant Narsojirao is the 9th descendant in the direct line of Narsojirao, the Founder of Torgal.

Area: 137·2 square miles. *Gross Revenue:* Rs. 1,26,117.

Population: 14,728.

Karbhari: R. J. Savant, B.A. (Retired Municipal Commissioner, Baroda State).

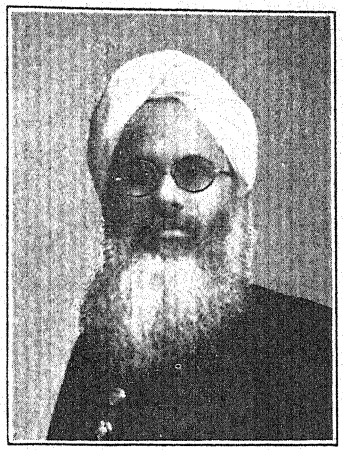
There are other Law Graduates serving as Munsiff and Secretary.

Principal Crops: Cotton; Groundnuts; Wheat.

Principal Forest Produce: Sandal Wood; Babul and Nimb Tree.

Principal Industries: Cotton Ginning Factory; Groundnut Shelling Machines.

Railway Station: Gokak Road (M.S.M.), 49 miles from Torgal.



SIR JOGENDRA SINGH, KT., comes from an old military family of the Amritsar district—is also a Taluqdar of Oudh.

Born: On the 25th of May 1877.

Educated: Privately at home.

From early life he has been interested in agricultural development, education and social reform. Under the guidance of the late Mr. B. M. Malabari and Mr. George Chesney of the Pioneer, he began regular contributions to the press, and his writings attracted notice. He occupied his leisure hours in writing, reading and riding. Early in life he was called upon to work as a Minister for the young Maharaja of Patiala. Lord Hardinge spoke of the late Sir Zulfiqar Ali Khan and him in high terms in the speech that he made at a dinner in Patiala. After about $2\frac{1}{2}$ years in Patiala, he returned to agriculture again. He joined the Council of State when it was first constituted. In the meanwhile, he wrote several books and edited *East and West* and was President of the Sikh Educational Conference and Member of the Indian Sugar Committee, the Indian Taxation Enquiry Committee, Sandhurst Committee and many provincial Committees in the United Provinces and the Punjab. In 1926 he became Minister of Agriculture in the Punjab—an office which he still holds.

CAPT. NAWAB MOHOMAD JAMSHED ALI KHAN of Bagpat Estate, was born in August 1894, and belongs to a respectable family of Muslim Rajputs. The ancestral home is Kalanaur in the Rohtak District (Punjab). Rao Karam Ali Khan, grandfather of the present Nawab, was founder of the Estate. His loyal services were highly spoken of by the Civil and Military Officers of the Government. On the conferment of a big Jagir he settled down at Bagpat (District Meerut) after the Mutiny of 1857-58. On the premature death of his father Rao Khurshed Ali Khan, the present Nawab began to look after the affairs of the Estate while only a boy of 14.

During the Great War (1914-17) he helped the Government with men and money, in recognition of which he was granted an Hony. King's Commission as a Lieutenant in 1920, and was presented with a sword of honour. In 1921 he was also awarded a gold pistol, and a gun by H. E. the Commander-in-Chief in India. He received the title of Nawab in 1923. The same year he presided over the All-India Muslim Rajput Conference at Aligarh. In 1926 he was granted the Kaiser-i-Hind Medal and the title of M.B.E. He is a member of the U. P. Legislative Council from the advent of the Reforms. In 1928 he was elected Chairman of the District Board, Meerut. He is President of the U. P. Zemindars Association, Muzaffernager. In 1930 the Association selected him to go to England at the time of the 1st Indian Round Table Conference and to put their case before the British public and safeguard the interests of the Zemindars. There he addressed a public gathering at Caxton Hall, Westminster on November 25th, 1930 under the Chairmanship of the Right Honorable Lord Meston, K.C.S.I.

Rao Bahadur Abdul Hameed Khan is the younger brother of the Nawab who is living jointly with him. He is in charge of the internal management of the Estate, and it goes to his credit that the estate is prospering under his hands.

RAJA BAHADUR KIRTYANAND SINHA, B.A., of Benaili, Purnea, (Behar, India).

Born : 1883. Is the youngest son of the late Raja Bahadur Lilanand Sinha.

Family History : Banaili Raj is one of the premier estates in Behar to-day and has extensive possessions in Bhagalpur, Monghyr, Purnea, Santhal Pergannas and Maldah. The original ancestor of the family, Pandit Gadadhra Jha of village Baigni Nawadah, in Darbhanga district, because of his great learning and saintliness received great wealth from Emperor Ghyasuddin Tughlakh. Tenth in descent from Gadadhar Jha was Parmanand Chowdhary, who became the real founder of the Banaili family and his son Dular Sinha Chowdhary, received the title of Raja Bahadur from the East India Company, for having helped them substantially in the Nepal War. His son Bedanand Sinha was favoured with the title of Raja Bahadur by Government. Raja Bahadur Bedanand Sinha was succeeded by Raja Bahadur Lilanand Sinha and the present Raja Bahadur of Banaili, Kirtyanand Sinha, is his youngest son.

Raja Bahadur Kirtyanand Sinha, entered the public life of the Province of Behar very early. He was a distinguished member of the old Bengal Legislative Council under the Minto-Morley Reforms, later on served on the Behar and Orissa Legislative Council, as the elected representative of the landholders of Bhagalpur. He was President of the Co-operative Movement in Behar and of the Behar and Orissa Law and Order Conference, held at Gaya in 1931. For conferring liberal benefactions to the public he was deservedly decorated with the title of Raja by Government in 1913. He was put on the Champaran Agrarian Committee by Government to represent the Zemindars and was afterwards made a Raja Bahadur by Government. He announced grant of lands to recruits from among his tenants, for service in the World Great War and placed his own personal cars at the disposal of Government. He subscribed over 1½ lacs of rupees towards Government War Loan Bonds and has made various public donations.

Chief Recreations : While young he was actively interested in Polo, Tennis, Football and Motoring—has a passion for jungle sport and is perhaps one of the most renowned Shikarees in India. Angling, gardening, music and writing books on big game shooting and Homeopathic medicines are the other occupations, in which he takes great interest. His first book " Purnea—a Shikar Land," is a very interesting work on big game shooting in India.

COLONEL MAHARAJ SRI SIR BHAIRUN SINGHJI BAHADUR, K.C.S.I., A.D.C. to His Highness, son of late Maharaj Sri Khet Singhji Sahib, Bikaner State, Rajputana.

Born on Monday, 15th September 1879. He is the first cousin and near relative of Lt.-General His Highness Maharajahdhiraj Raj Rajeshwar Narendra Shiromani Sri Sir Ganga Singhji Bahadur, G.C.S.I., G.C.I.E., G.C.V.O., G.B.E., K.C.B., A.D.C., LL.D., Maharajah of Bikaner.

Educated at the Mayo College, Ajmer.

He was Personal Secretary to His Highness, Vice-President and President of the State Council and Cabinet; and also held very many high offices in the Bikaner State. He is now in charge of the portfolio of Fort, Bada Karkhana, Zenana-Deodhi, Devasthan, General Records, etc., in the State and is also a Member of the Bikaner State Legislative Assembly. He has got a Thikana in the State consisting of Tejrasar, Kharda, Punrasar, Binjhasar, Abhaisinghpura, Jaisinghdesar, Hadlan, Biror also Canal land in Ajitsar and enjoys the Izzat, Honours, Lawazma and Dignity due to Deodhiwala Rajvies in the State.

Author of "Bhairava Bilas," "Bhairava Vinod" and "Rasik Vinod."

He has built Bhairav Bilas, Ajit Bilas, Khet Ashram, Surya Sadan, Tejrasar House and Hawa Bungalow in the State and has opened a Library called "Abhaisingh Library" in memory of and after the name of his late second son Heroji Sri Abhaisinghji Sahib; born on 2nd June 1919 and whose demise occurred on 16th October 1923.

His Heir and successor is Heroji Sri Ajit Singhji Sahib, born on Monday, 30th July 1917, and is receiving his education at the Mayo College, Ajmer, Rajputana.

HIS HIGHNESS THE HON. THE MAHARAJADHIRAJA SIR KAMESHWAR SINGH BAHADUR, K.C.I.E., of Darbhanga.

Born : 28th November 1907.

Ascended the Gadi on 14th July 1929 on the death of his father, Sir Rameshwar Singh Bahadur, G.C.I.E., K.B.E., D. Litt., etc., and is the 19th successor to the Darbhanga Raj.

Family history: Darbhanga Raj is an ancient principality of long standing and is the premier Raj in Bihar to-day. It is more or less identical with Mithila. The Royal family belongs to the Shrotriya Brahmin family of the highest class and the Maharajadhiraja of Darbhanga is the accredited secular head of this community over which he exercises powers, especially in matters social and religious.

The public donations made so far by His Highness to various Universities, Temples and Colleges amount to 6½ lakhs. Generous concessions to his tenants have been made and their welfare receives the constant attention of the Maharajadhiraja.

His Highness the Maharajadhiraja takes a very keen interest in politics—selected as a delegate to the first and second sessions of the Indian Round Table Conference—has been nominated as a member of the Council of State and elected as the President of the Bihar United Party—President of the All-India Landholders' Association and the Bengal Landholders' Association—Life President of the Bihar Landholders' Association—General President of the Sri Bharat Dharma Mahamandal, the premier Association of the Orthodox Hindus in India —Life President of the Maithila Mahasabha—A life-fellow of the Patna University, a fellow of the Calcutta University and the Royal Society for the Encouragement of Arts, etc.—A member of the Royal Empire Society.

In recognition of his public services His Highness was made a K.C.I.E. by His Imperial Majesty The King-Emperor of India in January 1933.

Chief Recreations: Polo, Tennis and Motoring. His Polo team is considered to be the best in Bihar and has won several trophies.

His Highness possesses a rich library wherein there is a number of valuable old manuscripts.

Area of the State : 2,500 square miles.

THE RAJ DEO also known as "Deo Munga" has its seat at the village Deo in the Subdivision of Aurangabad in the District of Gaya in the province of Bihar. The Rajas of Deo belong to the Sisodia clan of the Gohilote Rajputs of the solar race and trace their descent from the Rana family of Udaipur (Mewar). The founder of the present line of Rajas came here in the early part of the 17th century.

The present Raja Jagannath Prasad Sinha is the grandson of Maharaja Sir Jaiprakash Singh Bahadur, K.C.S.I., who was famous in his time for his bravery in quelling the rise of certain tribes in Palamau and for his loyalty to the British Raj during the Mutiny of 1857. Raja Jagannath Prasad Sinha is a painter of great merit and is a past master in photography. His histrionic talents are well-known and admired by many people all over India. Lately he has written and filmed a drama named "Punarjanma" which has elicited praise from all men of education and culture in this province. This is the first film produced in Behar. Besides this his other works are "Bhakta Bhagwan," "Bhakta Tulsi Das," "Sati Parvati," "Rajrishi Prahlad," "Balkrishna," "Punarjanma," "Kalki Autar," "Beshya" for the stage, "Goswami Tulsi Das," "Ras Leela," and "Gobardhan Leela" for Talky.

He has travelled widely and has visited most of the places of interest in India and Europe.

The village Deo is famous for its ancient temple of the sun which is believed to have existed since the "Tretayug." The Raj is bounded on the south by mineral hills which are calling the attention of geologists and are very likely to prove of great interest in the near future.

HIS HIGHNESS MAHARAJA BAHADUR SRI CHANDRA MAULESWAR PRASAD SINGHJI of Gidhour in the District of Monghyr (B. & O.), belongs to the clan of Chandel Rajputs who settled in the highlands of South Behar as early as in 1066 A.D. The Gidhour House founded that year is still flourishing and influential and is regarded as one of the most ancient aristocracy in the entire province of Bengal, Bihar and Orissa for more than eight and a half century.

Area of the Estate : 450 square miles.

The Maharaja is also the sole owner of several big estates containing mica and other minerals in the outlying parts.

Born : November 1890.

Succeeded his father the late the Hon'ble Maharaja Bahadur Sir Ravneswar Prasad Singh, K.C.I.E., in November 1923.

Educated under European and capable private tutors at home.

The Maharaja has been a member of the Legislative Council since the inception of the Reforms till 1926. He is the President of the Divisional and District Landholders' Associations, being the leading Zemindar of the Division. The Gidhour family is noted for its characteristic devotion and piety, and is also famous for its numerous acts of beneficence and extensive charities. The temple of Baidyanath was built by an ancestor of the present Maharaja Bahadur, who is the permanent President of the Temple Committee.

Recognised by the British Government which conferred in 1877 the hereditary title on the holder of the Estate—"*Maharaja Bahadur*"—a distinction enjoyed as the premier nobleman of the Province, until a higher title was created for the province in 1920.

The Raj abounds in hills and jungles fairly full of beasts of prey and also game, and the Maharaja Bahadur possesses among his other trophies a fine pair of tusks from a rogue elephant shot by him, as also a charming specimen of Albino—a White tiger also shot by him—which is preserved for show in the Palace.

Maharaja Bahadur's son and heir-apparent : Kumar Chandra Chur Singhji, *born* in February 1917, is being privately educated. His marriage with the eldest Princess of Tehri Garhwal State, U. P., has been a recent event of note.

Naib Saheb : KUMAR CHANDRA SEKHAR PRASAD SINGH.
Officer in charge of Household : KUMAR BISESWAR SINGH.
Dewan : BABU BASUKI NATH SAHAI.
Secretary : N. L. MAJUMDAR, M.A.
Private Tutor to Kumar Sahib : PANDIT R. C. SHUKLA, M.A.

UMADAT-UL-MULK MAJOR RAJ RAJENDRA MALOJI NARSING RAO SHITOLE DESHMUKH RUSTIME JUNG BAHADUR, Gwalior.

Born : 1896 at Kolawadi in Poona District. Adopted by Shrimant Raj Rajendra Ramchandra Rao Shitole in 1902. Completed his education and Military Training in 1914.

Married : In 1914 Baija Bai, daughter of Sardar Dinkar Rao Khanwalkar of Gwalior.

Visited England in 1911 with H. H. Maharaja Madheo Rao Scindia and was present at Westminster at the Coronation Ceremony of H. M. George V. Represented Gwalior Maharaja in the procession and Darbar of Coronation of 1911, Delhi. Awarded Scindia Medal in 1912. In 1917 was entrusted with the charge of Regiments *viz :* Huzurati, Pagnavis, and Ekkan. Was President of Lashkar Municipality in 1919. Served on many committees found to enhance efficiency of the Gwalior State. In 1923 Master of the Ceremony of the Gwalior State. President of the Maratha Educational Conference, 1922. Visited England again in 1926 with family and was invited to the King's Court. Working at present as Muntazim Jahagirdaran and Member of the Testamentary Board. Officiated Home Member, Gwalior Government, in 1924 and 1930.

Family History : Ladoji Shitole came with Mahadji Scindia to Northern India. Mahadji gave his daughter Her Highness Bala Bai Sahiba Maharaj to Ladoji in marriage. Jahagirs were given in Delhi Province and Scindian Territory.

Area of the Jahagirs : Various places at Pohri, Poona, Khandawa, Bercha, and Jiran, total villages 250. Total Income Rs. 4,66,000.

Education : Pohri has one High School. Municipality managed with elected Members. Jahagirs abound in forest and game abundant.

Children : Eldest daughter Shushila Raje given to Raja Sahib of Sandur.

Son and heir: Sardar Krishna Rao born in 1923 and one more daughter Shri. Vimla Raje born in 1929.

ADMINISTRATION.

Karbhari : MR. G. B. KULKARNI, B.A., LL.B.

NAWAB LUTFUD-DOWLA BAHADUR of Paigah Estate, Hyderabad, Deccan.

His father Nawab Zafar Jung Shamsul Mulk Bahadur was the son of Nawab Sir Khursheed Jah, Amir-i-Kabir, Shamsul Umara and his mother was the daughter of the then Nizam, Nawab Afzalud-Dowla Bahadur, the grand-father of His Exalted Highness, the present Nizam. The head of this family was the Nawab Abul Fateh Khan, Shamsul Umara I. The Estate of the Paigah was awarded him by the Nawab Mir Nizam Ali Khan, the Second Nizam. From that time to the present day the Paigah has been held by the family.

Shamsul Umara I was a descendant of the well-known Sufi Shaik Fariduddin Shaker Gunj. This renowned Sufi died in 1296 A.D. His shrine at Pak Patan is even to-day visited by pilgrims.

Nawab Lutfud-Dowla's real name is Lutfuddin Khan. He was *born* on the 21st July, 1883 A.D. On the death of his father he succeeded him as Amir Paigah by Command of the Nizam. On the 18th August, 1917, he was appointed Minister for the Army and Medical Departments (Regular and Irregular Forces, Military, Civil and Unani Department and Jail). At the Birthday honours, His Exalted Highness conferred upon him the title of Latafat Jung. On organisation of the Executive Council of the State, he was made Member for the Army, Jail and Medical Departments. On February 16th, 1923, at the Birthday of His Exalted Highness, he was honoured with the title of Lutfud-Dowla. On January 26th, 1925, he was Member in charge of Public Works, Irrigation, Drainage and Registration Departments. On June 7th, 1928, he was appointed Member for the Judicial and Ecclesiastical Departments, in which capacity he still continues.

The area of the Estate is about 1,687 square miles with a revenue of Rs. 21,75,397. It consists of 10 Taluqas of 495 villages. Its population is 2,75,448.

SYED MOHIUDDIN ALI KHAN, NAWAB MOHIUDDIN YAR JUNG BAHADUR, B.A. (Cantab.), known generally in the public as "Hunter Sahib," and among the Hindus particularly as Govindachary, was *born* in 1864 in Hyderabad-Deccan.

Is a descendant on his father's side of Nawab Raji Ali Khan (a Farooki by birth), Ruler of Khandesh and Nawab Najeeb Khan, Salar Jung of Delhi, on mother's side of the Nawabs of Poona and Tippu Sultan.

Educated: At the Aligarh College and the Trinity College, Cambridge. Passed History Tripos in 1892, and returned to Hyderabad-Deccan by the end of that year.

Served: H. E. H. the Nizam's Government with the interval of 2 years (1332-33F.) / 1923-24 between 1302-1336F. / 1893-1927. Rose from Division Officer, one after the other, to the posts of Collector, Division, Famine and Customs, Commissioner, and finally retired as Director-General of Revenue, Telangana Districts, by the end of 1927 on the highest possible pension sanctioned by H. E. H. the Nizam in appreciation of the services rendered to the Government.

Married: In 1886 before going to England the only daughter of Nawab Nazim Jung Bahadur, and after his return from England made another Nekah. He has one daughter from the former, who is married, and one son from the latter. He is a young man of good promise, and is at present a Customs Superintendent.

NAWAB MUHAMMAD MOIN-UD-DIN KHAN, NAWAB MOIN-UD-DOWLA, BAHADUR, the only son of the late Nawab Sir Asman Jah Bahadur, one of the three great Paigah Nobles of the Hyderabad State, was born in Hyderabad Deccan in the year 1891. Nawab Moin-ud-Dowla's Paigah or feudal state covers an area of 1,281 square miles and has a population of 276,533, while its annual revenue amounts to Rs. 22 lakhs. He carries on the administration with the help of a Council consisting of a President and two Members.

In 1919 Nawab Moin-ud-din Khan Bahadur was given the title of Nawab Eyanath Jung, and in 1922 the title of Nawab Moin-ud-Dowla. In 1923 he was appointed Minister in charge of the Industrial Department and also a Member of the Executive Council. The next year he was given charge of the Military Department and in 1927 he resigned the post, for, by an order of His Exalted Highness the Nizam, his Paigah Estates were released from the Court of Wards and he was made the Amir of the Sir Asman Jahi Paigah.

Though at one time a keen rider, Polo Player and Racing Noble, Nawab Moin-ud-Dowla Bahadur's present main recreation is shooting. He is also passionately fond of watching cricket, and he has done much to encourage the game and raise its standard not only in Hyderabad Deccan but in the whole of India. The All-India Gold Cup Cricket Tournament, which was started three years ago as a result of his munificence, attracts to Hyderabad most of the best Cricketers in India. The last M.C.C. fixture in Secunderabad, Deccan, was also due to his keen interest in Cricket and his generosity.

NAWAB SALAR JUNG BAHADUR (MIR YUSUF ALI KHAN), one of the premier noblemen of Hyderabad Deccan, and the sole representative of the illustrious family of Sir Salar Jung the Great of the Mutiny fame.

Born: 13th June 1889 at Poona.

Educated: At Nizam College.

Was Prime Minister between 1912-15; has travelled all over Europe, Iraq, Persia, Syria, Palestine, etc., keeps a Polo Team; has got a fine library; takes interest in the Industrial Development of the country and is Director of seven Companies.

Area of State: 1,480 square miles.

Population: 202,739.

Revenue: Over Rs. 15 lakhs.

Administration is divided into several departments on modern lines, and is under direct control of the Nawab Saheb who personally supervises the work.

Family History: About the middle of the 17th century the great grandfather of the Nawab Saheb migrated from Medina to the Adil Shahi kingdom of Bijapur where he settled and married into a noble's family. After the fall of the kingdom, the members of the family took service under the Moguls. Later on they transferred their allegiance to the family of the Nizams and served them as Prime Ministers, who are as follows:—

(1) Shair Jung; (2) Ghayur Jung; (3) Dargah Khuli Khan Salar Jung; (4) Mir Alam; (5) Munirul-Mulk; (6) Sirajul-Mulk; (7) Sir Salar Jung I.; (8) Sir Salar Jung II.; (9) the present Salar Jung.

Address: Hyderabad (Deccan).

AGA SHAH ROOKH SHAH, NAWAB SHAH ROOKH YAR JUNG BAHADUR.

Born : At Mazagon, Bombay, in 1874. Eldest son of the late Aga Akbar Shah, ex-Sheriff of Bombay ; grandson of His late Highness the first Aga Khan and first cousin of His Highness the present Aga Khan.

Educated : In English, Persian and Arabic.

Married : Eldest daughter of the late Aga Shahabuddin Shah in 1897 at Poona.

Nawab Shah Rookh Yar Jung Bahadur was appointed Honorary A.D.C. to H. E. H. the Nizam of Hyderabad in 1918, and Honorary Private Secretary to His Highness the Aga Khan in 1900. He was President of the Poona Suburban Municipality for two consecutive terms from 1925 to 1931, and Chairman of the School Board of that body from 1925 to 1928 in which capacity he promoted primary education to a great extent. He was the founder and President of the Servants of Islam Society, Poona, in 1926 ; Director of the Queen Mary School for Disabled Indian Soldiers at Kirkee from 1923 to 1933 ; Jt. Honorary Secretary of the Lloyd Polo Club, Poona, from 1923 to 1928 ; Chairman of the Executive Committee of the Poona and Kirkee Boy Scouts Association for the last two years. Elected life fellow of the Royal Society of Arts, London, in 1927, President of the Poona District Muslim Educational Society from 1928 to 1931. Nominated as a member of the Bombay Legislative Council in 1932 ; Chairman of the House Accommodation Committee under the Cantonment Act at Poona in 1924. Elected President of Dairat-ul-Adab, Bombay, in 1933.

He is a member of several Clubs and Societies in Bombay and Poona. As a born loyalist he has always stood by the Government.

He is an amateur artist in oil colours and is also fond of sport. He regularly hunted with Bombay and Poona Fox Hounds from 1889 to 1898 and participated in many point-to-point races in Poona. He was a keen cricketer and used to captain his family and school teams between 1898 and 1899.

NAWAB WALI-UD-DOWLA BAHADUR, Member of His Exalted Highness the Nizam's Executive Council in charge of Army, Education, Medical and Sanitation, Registration and Stamps, Archæological and Postal Departments, is a son of Nawab Sir Vicar-ul-Umra Bahadur, Prime Minister to His Highness the late Nizam and a member of the Paigah family, closely related to the ruling family by marriage. The Nawab, who was born on the 16th October 1882, was sent to England at the early age of 7. He entered a preparatory School and after receiving his education at Eton and Cambridge returned to India in 1900.

On his return to India he was attached to a British Cavalry Regiment, The 4th Queen's Own Hussars in Trimulghery, and afterwards joined The Imperial Cadet Corps on the invitation of Lord Curzon, the then Viceroy and Governor-General in India and had further Military Education and training at Meerut and Dehra Dun; later received the King's Commission. He was then posted on the Staff of General Sir Charles Egerton, Commanding the Southern Division, after which his services were transferred to the Nizam's Government where he took appointment as Musketry Officer to the 1st and 2nd Imperial Lancers Regiments. In 1911 after the present Nizam came in power he was given the high appointment of the Army Minister and in 1917, he was appointed Minister in charge of the Judicial, Police, and General Departments. In 1924 he was appointed to act as President of His Exalted Highness the Nizam's Executive Council. In 1927 on the conclusion of the period of his acting appointment, he reverted to the Minister's Post as member in charge of the Army, Education, Medicine and General Departments. He is the *Ex-Officio* Vice-Chancellor of the Osmania University. Being the senior most member in His Exalted Highness the Nizam's Executive Council, he is also its Deputy President.

The Nawab is a keen sportsman having shot many tigers, and a Polo player.

SARDAR BHASAHEB RAISINGHJI, M.L.C., THAKORE SAHEB OF KERWADA, District Broach.

Born: 23rd May, 1881.

Educated: At the Rajkumar College, Rajkot.

Accession: At the very early age of 23 in the year 1904. The Thakore Saheb has managed the Thakrat very efficiently increasing the revenue by about half a lac and has always looked to the interests of his subjects through a sympathetic parental eye. Electric lighting and water supply have also been introduced.

The Thakore Saheb is very popular with his people as well as the Government officials. Besides being a first class Sardar of Gujarat, he is one of the leaders of the Thakores, Sardars, Inamdars and Talukdars of Gujarat whom he has represented for more than 21 years in the Bombay Council.

The Thakore Saheb has been Honorary First Class Magistrate for 27 years.—Was President of the Wagra Taluka Local Board for about 17 years and First elected non-official President of the Broach District Board. Is a member of the District Local Board of Broach. Is Chairman of the School Board of the District Local Board of Broach. Is Vice-President of the Anjuman-I-Islam, Broach—A member of the B. B. & C. I. Railway Advisory Committee, Agricultural Research Committee of Bombay Presidency, etc. The Thakore Saheb has been a staunch supporter of the Constitutional Government for the last 21 years and supplied well over 1,500 recruits during the War as a recognition of which service he has been presented with three medals: One from the War Office, one from the Iron Cross for best work and one special Medal from H. E. Lord Willingdon as Governor of Bombay. He presented a motor ambulance on behalf of the Talukdars of Gujarat to be used in the War and subscribed Rs. 50,000 towards the War loan.

Recently after the suspension of the Broach Municipality by Government he has been elected Chairman and within a short period of 12 months has succeeded in restoring its financial condition, showing a balance of nearly Rs. 90,000 on hand after money being spent on many improvements in the City.

NAWABZADA KHAN BAHADUR SYED DILDAR ALI KHAN of Hossainabad in the District of Monghyr (B. & O.)

Born : 30th September 1856.

Family history : Nawabzada is the scion of one of the oldest and noblest family of India claiming its descent from Bani Hashim on father's side and Hossaini Syed from mother's side. The family has always been well known for literary attainments as well as political power, and was the recipient of *Altamga* from the Emperor Aurangzeb. The Emperor Shah Alam made Nawab Ali Ibrahim Khan "Khalil" a Shash-Hazari (Order of six thousand) noble and conferred the titles of "Khan Bahadur Nawab" and "Aminuddowla Azizul Mulk Naseer Jang." He is highly spoken of by the authors of "Serul-Muta-akharin" and "Gulshan Hind," the two most authentic documents in the world of History and literature of the period ; and was acclaimed also by Warren Hasting as "Amminudduala Azzizul Mulk-Naseer Jung". During the regime of Lord Cornwallis he was the Chief Magistrate and the Governor of Benares where he died in 1208H. He was the author of "Gulzar Ibrahim", "Khulasatul-Kalam", "Marhatta War book", "Chet Singh's rebellion". His letters adorn the British Museum.

Nawab Ali Khan, the father of the Nawabzada, was recognized as a loyal Zemindar and the Parganas of Rajgir and Amarthu were settled with him long after the permanent settlement in the year of Grace 1878 A.D. The income of the Nawab was Rs. 3 lakhs and the area of the family estate 65,540 acres.

Nawabzada Syed Dildar Ali Khan is the head of the Hossainabad family. He is loved by his tenants and is the emblem of Eastern courtesy. His liberality, generosity and religious fervour are unexampled. He is the chief patron of Islamia High School, Shaikhpura and was President of the Provincial Shia Conference. Though the Nawabzada has never been very officious about titles owing to his retiring nature the Government granted him a Sanad in 1903 and conferred the title of Khan Bahadur in 1922. He has free license for keeping a certain number of fire-arms.

Sons : Syed Mohammed Baqar Ali Khan and Syed Mohammed Jabir Ali Khan.

RAJA YUVERAJ DUTTA SINGH of Oel and Kaimarah Estates, Lakhimpur-Kheri, Oudh, U. P.

Born: On the 31st of July 1907.

Ascended the Gadi: On the 24th of April 1933 on the death of his late grandfather Raja Krishna Dutta Singh. His father Kr. Ram Dutta Singh died in the life-time of the late Raja Krishna Dutta Singh who died on the 15th of December 1932 at the age of about 72 years.

The estate is the biggest estate in the district of Kheri and one of the most prominent estates of Oudh. It remained under the superintendence of the Court of Wards from August 1896 to 24th April 1933 on the request of the late Raja during which period the estates flourished very well and the income increased from roughly 3½ lakhs to about 9 lakhs. The area of the estate is 196,960 acres and consists of 223 whole villages and 16 partials. The estate gives very high guzaras to the members of the family. The next heir to the estate is eldest son of Raja Saheb, Kr. Jagdish Narain Dutta Singh who is now about 7 years.

Raja Yuveraj Dutta Singh is a Chauhan Thakur and was educated for a number of years at the Mayo College, Ajmer. He was married in 1926 to the daughter of the late Raja Bindeshwari Parshad Singh Sahib of Payagpur, an estate lying in the districts of Bahraich and Gonda in Oudh. The late General Padam Jung Bahadur Rana, the third son of the late His Highness the Maharaja Sir Jung Bahadur Rana, Prime Minister of Nepal, was the father-in-law of Kr. Ram Dutta Singh, the father of the present Raja.

The estate has its capital at Oel, but the headquarters of the present Raja are at Lakhimpur-Kheri.

Raja Yuveraj Dutta Singh is interested in motoring and tennis which are his chief hobbies. He is a non-official visitor of the District Jail and an Honorary Magistrate.

RAJA KRISHNA CHANDRA MANASINGHA HARICHANDAN MARDARAJ BHRAMARBAR RAY of Parikud, Orissa.

Born : In June 1906.

The Rulers of Parikud claim their descent from the warrior class (Rathors) of Northern India and the first Raja Sudarson Raj had a small kingdom at Jaipur about forty miles to the north-east of Cuttack in Orissa. His son Raja Jaduraj was the real founder of the dynasty who established his kingdom at Bonkado in Banpur, Orissa. In course of time the family removed to Parikud, consisting of a group of Islands and bounded on three sides by the lake Chilka and on one side by the Bay of Bengal. The land area is 67 sq. miles and water area of Chilka Lake is 450 sq. miles.

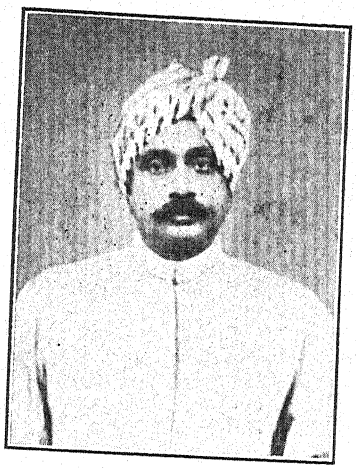
The family obtained the hereditary title of Raja from the British Government in 1872 and as such holds the first position in Bihar and Orissa. The present Raja is the 22nd heir of the family. His grandfather, Raja Gour Chandra Manasingha Harichandan Mardaraj Bhramarbar Ray and great-grandfather Raja Chandra Sekhar Manasingha Harichandan Mardaraj Bhramarbar Ray obtained the titles of Raja Bahadur and C.S.I., respectively, from the British Government for their humanitarian service in helping people at times of famine in 1866 and 1892. The family is well known for its fidelity and loyalty to the British Government.

Educated : At the Rajkumar College, Raipur.

Succession : In August 1930, on the demise of his father Raja Radhamohan Manasingha Harichandan Mardaraj Bhramarbar Ray.

He was made a member of the Advisory Committee of the Bengal Nagpur Railway in June 1933 and the Chairman of the District Board, Puri, in the latter part of 1933. He is also a member of the General Council, Raipur College.

Married : The sister of the Ruling Chief of Athamallik (Orissa) in March 1931.



CAPTAIN RAJAH SRI SRI SRI KRISHNA CHANDRA GAJAPATHI NARAYANA DEO, M.L.C., Rajah of Parlakimedi, Ganjam District, in the Madras Presidency. The Rajah Saheb is the owner of the Parlakimedi Estate with an area of 615 square miles; and of Goudguranti and Boranta villages in Budarasingi Estate and the Malukdar Estate, Anandapuram, in Chicacole and the Delang Estate in Orissa.

Born: 26th April 1892.

Educated: At Rajah's College, Parlakimedi and Newington College, Madras.

The Rajah Saheb was a member of the Royal Commission on Agriculture; a delegate to the First Indian Round Table Conference; an associated member of the Orissa Boundary Committee and was selected in 1933 as a representative of the All-India Landholders' Association to give evidence before the Parliamentary Joint Select Committee in London. He is a member of the Madras Legislative Council and Honourable Advisor and Visitor to the Agricultural College, Coimbatore. He has been taking a prominent part in commercial and industrial advancement and owns a railway line of 57 miles. He maintains a big Rice Mill, a progressive carpentry School, a large Second grade College, a Sanskrit College, two large Girls' Schools for Oriyas and Telegus and an Agricultural Demonstration Farm.

He has to his credit a long list of magnificent public services. He contributed Rs. 1,00,000 to the Research Institute, Coonoor, and Rs. 20,000 for higher studies in Agriculture. During the Great War he subscribed Rs. 3,10,000 towards War Loans and Funds and recruited men both for Combatant and Non-Combatant Forces. He has been holding Honorary Commission in the land forces of R. I. M. since 1918. In recognition of his meritorious services and the interest taken in improving the condition of his Estate and its people he was awarded the title of Rajah (personal) in 1918, Rajah (hereditary) in 1922, made Honorary 2nd-Lieutenant in 1918 and subsequently promoted to the rank of Captain. The Rajah Saheb is keenly interested in big games having bagged many panthers and tigers besides other wild animals and is also a keen Cricketer. He is a member of several important Clubs of this Presidency and of the East Indian Association, London.

AITMAD-UD-DOULA, VIQAR-UL-MULK, NAWAB SIR LIAQAT HYAT KHAN, Kt., O.B.E., K.B., Prime Minister, Patiala, is the eldest surviving son of the late Hon'ble Nawab Mohammad Hyat Khan, C.S.I., of Wah in the Attock District of the Punjab.

He entered the Punjab Government Service in 1909 as a Deputy Superintendent of Police and received unusually early promotion to the Imperial Police where he held several important appointments with conspicuous success. His services were recognized by the grant of the "King's Police Medal" and the titles of "Khan Bahadur" and "O.B.E.," as also a grant of land from Government.

In 1923 his services were lent to His Highness the Maharaja Dhiraj of Patiala as Home Secretary, but His Highness soon raised his status to that of Home Minister placing under his control the administration of some of the most important Departments in the State. In 1928 his meritorious services to the State were recognised by Government by the grant of the high title of "Nawab" which is now a rare distinction.

After seven years' loyal and efficient service to the State His Highness was pleased, as a mark of favour and appreciation, to appoint the Nawab Sahib as his Prime Minister and confer upon him the following honours and rewards :—

(1) Title of Aitmad-ud-doula, Viqar-ul-mulk, "Nawab" and Tazim (Hereditary).
(2) Jagir and Biswedari yielding an annual income of Rs. 51,000 (Hereditary).
(3) Cash reward of Rs. 1,01,000.
(4) First seat in Darbar to the left of the Gaddi (Masnad-i-Shahi), (Hereditary).
(5) Khillat of Rs. 1,700 on all Khillat occasions for him and his heirs.

He represented the State twice at the Round Table Conference and again as a delegate to the Parliamentary Joint Select Committee.

In January, 1933, His Majesty the King-Emperor conferred upon him the honour of "Knighthood."

During the last ten years the Nawab Sahib has introduced many important reforms in the State, and has proved himself to be a very capable and efficient administrator and a statesman of high order. His politeness, impartiality and keen sympathy with the people of the State have made him immensely popular with all classes of His Highness' subjects.

BIRA SRI GAJAPATI GOUDESWAR NABAKOTIKARNATOTKALA BIRADHIBIRABAR BARGESWARADHIRAJ BHUTAVAIRABSADHUSASONOTKIRNA ROUTARAJ ATULABALAPARAKRAM SANMGRAMASAHASRABAHU KSHETRIAKULADHUMAKETU MAHARADHIRAJ SRI SRI SRI RAJA RAMACHANDRA DEB RAJA of Puri (B. & O.) belongs to the famous Ganga Vanshi Rajput; Descendant of King Chodagang Deb who came from Southern India. The present Raja is the direct lineal descendant of the Hindu Kings of Orissa.

Maharaja Dibya Singh Deb, the grandfather of the present Raja, was conferred with the title of Maharaja by the present Government. The Moghul Government conferred on this family the hereditary title of Maharaja.

Many of the Rajas and Ruling Chiefs of Orissa were under the sovereignty of this house until the British conquest and many of the Rajas and Ruling Chiefs still use the title conferred on them by this Raj which was the fountain of honour.

The Raja is the hereditary guardian of the famous Temple of Jagannath at Puri. Electric lighting has been installed in and around the temple for the comfort of the pilgrims visiting the Temple.

Born: 6th November 1898 as 3rd son of Raja Satchidanand Tribhuban Deb, late Chief of Bamra, a native State of Orissa, later got adopted to Puri family. Succeeded his late father Raja Mukund Deb on 14th February 1926.

Married: A Princess of the famous Bhanj family of Mayurbhanj.

Educated: At Bamra State High School and then at Calcutta. He is the 1st educated Raja of Puri gadi.

Heir-Apparent: SRI SRI SRI NILKANTH DEB JENAMONI, born 2nd July 1929. *2nd Prince:* SRI SRI RAJRAJ DEB SANJENAMONI, born 8th May 1933. *Princess:* RAJKUMARI KASTURIKAMODINI DEBI, born 1931.

STAFF.

Dewan: Babu Bipin Behari Gupta. *Asst. Dewan:* Babu Ram Sahay Lall. *Temple Commander:* Babu Jadumoni Das.

Teshildars of different circles: Babus Bainshidhar Bebartapatnaik, Bihari Patnaik, Damodar Das, Birabhadra Mohanti, Mathuranand Mohanti, Brahmanand Mohanti, Atchutanand Misra.

The Calendars.

A full Calendar will be found at the beginning of this book. Below are given details of the other Calendars in use in India.

The *Jewish* Calendar is in accordance with the system arranged A.D. 358. The Calendar dates from the Creation, which is fixed as 3,760 years and 3 months before the beginning of the Christian Era; the year is Luni-solar.

The *Mohammedan*, or era of the Hejira, dates from the day after Mahomet's flight from Mecca, which occurred on the night of July 15, 622 A.D. The months are Lunar.

The *Fasli* year was derived from a combination of the Hejira and Samvat years by the order of Akbar; it is Luni-solar. The *Bengali* year seems also to have been related at one time to the Hejira, but the fact of its being Solar made it lose 11 days each year.

The *Samvat* era dates from 57 B.C., and is Luni-solar. The months are divided into two fortnights—*sudi*, or bright, and *badi*, or dark. Each fortnight contains 15 tithis, which furnish the dates of the civil days given in our calendars.

Incorporated Accountant, Bombay.

nnett, Coleman & Co., Ltd.
MBAY, CALCUTTA & LONDON.

BOMBAY

By SAMUEL T. SHEPPARD.

ACCORDING to the preface, this book is "only a nibble at a few chapters" of the history of the City of Bombay, "made for the benefit of the many people who want to know something about Bombay but who cannot find any book to satisfy their desire."

He deals with the early history of the Island; why it was ceded by the Portuguese and how the East India Company got it; with reclamation from the early British days to modern times (a chapter which contains much from the India Office records that has never been published before); and with defence, industries and trade, the growth of the town, population, religion and learning, and social diversions.

* * *

"Perhaps wisely the volume before us says little or nothing about politics. But it does convey a sense of the tremendous energy and enterprise that has gone to the gradual building up of the life of the great communities of India."—*The Statesman.*

The book contains 24 full page illustrations.

Price Rs. 5, In Full Cloth

Obtainable from:

BENNETT, COLEMAN & Co., Ltd.

BOMBAY, CALCUTTA & LONDON.

Printing

that is well-dressed in appearance influences your business . . . .

Bad Printing is often thrown away unread, as cheapness in price is reflected in inferior workmanship and shoddy appearance. Indifferent Printing CREATES A BAD IMPRESSION in the minds of those who receive it. YOUR BUSINESS NEEDS GOOD PRINTING.

Any expenditure on your part to make it as attractive and persuasive as possible is an *investment*, and the expense involved in its production should be regarded as *essential to the profitable conduct of your business*. The Times of India Press produces printed matter of the highest quality at fair prices.

Ask for our representative to call.
